NASAL BALM
SOOTHING, CLEANSING, HEALING.
Instant Relief, Permanent Cure, Failure Impossible.
Many so-called diseases are simply symptoms of Catarrh, such as headache, losing sense of smell, foul breath, hawking and spitting, general feeling of debility, etc. If you are troubled with any of these or kindred symptoms, you have Catarrh, and should lose no time procuring a bottle of NASAL BALM. Be warned in time, neglected cold in head results in Catarrh, followed by consumption and death. Sold by all druggists, or sent, post paid, on receipt of price (50 cents and $1) by addressing FULFORD & CO. Brockville, Ont.
NEVER FAILS
CURES COLD IN HEAD AND CATARRH

GRATEFUL—COMFORTING
EPPS'S COCOA
BREAKFAST.
"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*
Made simply with boiling water or milk. Sold only in packets, by Grocers, labelled thus:
JAMES EPPS & CO., *Homœopathic Chemists.*
London, England.

Davies' New Drug Store.

WE are now fully opened for business, and invite the public to come and inspect our new Store.

Our stock of Drugs, Chemicals, Patent Medicines, Fancy, Toilet and miscellaneous articles has been doubled, and the public will not find a more complete stock in any Drug Store on the Island.

We are carrying a very choice line of French, English and German Perfumes, also in Fancy Soaps.

We have also added to the attraction of our new Store an elaborate Soda Fountain, the finest ever imported to Charlottetown, where the popular beverages of the season are dispensed. An important point with our beverages is that the Syrups run through the Fountain are made with genuine Fruit Juices, not artificial flavors.

The choicest brands of Havana Cigars in the city. Tobacco, Cigarettes, Pipes, Tobacco Pouches, etc. Give us a call.

Football.

SKETCH OF THE ABEGWEITS—THEIR MATCHES AND THE RESULTS

(Halifax Mercury).

In the autumn of 1884 a number of young men of Charlottetown decided to form a football club. The movers in the matter were George E. and D H. Robinson, K. J. Martin, A. H. McNeill, A. Ernest Ings, W A. Weeks, Jr., D. J. MacDonald, Chas. Kennedy and Æneas Macdonald. These, with a few others, organized the now well-known Abegweit Club, this name being chosen for its meaning. The word is the Micmac name for "island," meaning literally "anchored on the billow," or "asleep on the wave." The officers elected were: W. A. Weeks, Jr., president; Charles A. Kennedy, secretary-treasurer; A. E Ings, captain. The members of the club at once went into active training, but not until the spring of 1886 did they feel justified in playing any matches. On May 24th of that year they crossed to the mainland and played the Pictou team, winning the game splendidly. Score, one try to *nil*.

Being successful in their first venture they were encouraged to further effort, and in the fall of 1886 they again found themselves in Pictou, this time playing three matches, winning one and making draws in their own favor in the other two, becoming practically champions of the tournament then taking place The splendid playing of the Abegweits was referred to in the various papers of the provinces, and they worked hard and willingly all through the series. The return of the team was a happy one. Football began to boom among the youngsters of the island capital, and the vacant lots around the suburbs were turned into football grounds

In the spring of 1887, May 24th again found a game in progress in Pictou. This was Abegweits vs. Pictou, and was won by the Abegweits, one try to nil. Early in the fall of the same year the Dalhousie College team played on the Island, making a draw; no score. For the fourth time the Abegweits went to Pictou, and on the 24th of May, 1888, played with the following result: Abegweits vs. Pictou—Drawn game; score, one try to one try. No matches were played during that fall, but again in the spring a trip was taken to Pictou, with the following glorious result: Abegweits vs. Pictou—won by Abegweits; score, three goals to nil.

By this time the team began to think they must get "more worlds to conquer," and turned towards New Glasgow, and May 24th, 1890, played there as follows: Abegweits vs. New Glasgow—won by Abegweits; 2 goal and 1 try, to one try. Still being unbeaten, they decided to go to Halifax in the autumn and try conclusions with their old foemen, the Wanderers, and the Dalhousians, and to meet the Duke of Wellington regimental team. These latter decided to visit the Island, and a splendidly contested game was the result. November 4th, 1890: Abegweits vs. Duke of Wellington regiment—Drawn game; no score on either side. This game was played vigorously from start to finish. The visiting team, after the contest, said they had never seen such good football since they had left England. The captain of the home team and one of the visiting team were slightly injured during the game, and had to retire.

On the morning of November 5th the team started for Halifax, without their captain (Mr. Ings) and played there with the following result:

November 6th, 1890—Abegweits vs. Wanderers—won by Abegweits one game to nil.

November 7th, 1890—Abegweits vs. Dalhousie College—drawn game; no score.

This game was considered to have been the grandest contest ever witnessed in Halifax. For the first time Abegweit stock was in danger of being lowered, but determined effort and unflinching courage prevented defeat, though they could not cause a victory. For 15 minutes the ball did not move in any direction 15 yards. It was tackle, scrimmage, run, tackle, etc., until time was called, and both sides were ready to stop the game.

This spring New Glasgow visited Charlottetown and played there on May 25th, as follows: Abegweits vs. New Glasgow—won by Abegweits, 1 goal and two tries to

This sketch comprises all the matches played by this club with outside teams. It shows thirteen games played—seven victories and six drawn games; *not a single defeat*. Through the efforts of this Club football is now a firmly established game, and clubs are springing up in different parts of the Island. A junior club in Charlottetown will form new material for the "as yet unconquered Abegweits."

Of the original team of '84, '85 and '86 there are only seven left. The remainder are either retired, or are playing in other places. Gordon and Kennedy are with Dalhousie and the Wanderers; Cameron is with Queen's College (Kingston) team, and so on. Weeks, F. J. Stewart, D. J. McDonald, K. J. Martin, Æneas McDonald, J. H. Shaw and Leigh have given up the game, and Ings will not play this year. Of the club, George Robinson, K. J. Martin, A. H MacNeill and F. J. Stewart have also played for Dalhouse; while Weeks played half back and Johnson quarter back for the McGill College team, and Ings was on the Cheltenham College team in England. The rest were purely local players.

The team for the 1891 season will be Alexander MacDonald, back; George E. Robinson, D. H. Robinson (Capt.), A. Percy MacDonald, half backs; Dr. H. D. Johnson, James Rundle, quarter backs; A. H. McNeill, F. W. L. Moore, J. F. Whear, Hubert Macdonald, E. G. Matheson, John Macdonald, James Johnston, John J. Macdonald, [illegible] Sullivan, forwards; Addison [illegible], N. Rundle, F. Gaudet, substitutes.

No games have yet been arranged for this season. The Abegweits' officers are: President, A. Earnest Ings; Vice-president, Dr. H. D. Johnson Secretary-treasurer, Albert H. MacNeill; 1st Field Captain, D. H. Robinson; 2nd Field Captain, James Sullivan.

News Notes.

Two thousand doctors at the Westminster Aquarium, London, on Monday, witnessed some experiments in hypnotism, and a committee was chosen to arrange for experiments at the hospital, with a view to testing the value of hypnotism as an anæsthetic agent.

There is so much freight offering at St. John and Halifax for the West Indies that an extra steamer will have to be put on to take care of it. Events are working against the Liberal theory that it was a waste of money to encourage a steamship line to the islands. Events work against many Liberal theories.

It came out before the Bale des Chaleurs commission a few days ago, that besides the $5,000 of Armstrong's money Pacaud sent the Count during his French trip, another $5,000 "from another source" was also forwarded by the toll-taker to the same destination. That must have been quite a pleasant party of the Premier's, all things considered, and in every way creditable to a man who at home boasts of owning three mansions all for his own occupation.

There were built during the year 1890 191 sleeping, parlor and dining cars, costing $3,379,603.62 for the Pullman Company, or an average of $16,124 05 per car. Orders have been placed at the Company's works for 51 Pullman cars, the estimated cost being about $16,500 each, or an aggregate of $841,500. The number of cars owned or controlled by the Company is 2,239, of which 1,965 are standard and 274 tourist or second-class cars.

Isaac Terkowsky, a Russian Jewish emigrant, when questioned by the Inspector at the landing bureau in New York as to his financial ability to take care of himself greatly surprised the barge office officials. His general appearance indicated extreme poverty. He stated that he was friendless, and then produced from around his body a belt and took therefom $26,500, $1,500 in cash and the remainder in letters of credit. Terkowsky left for Pennsylvania.

It is announced that Prince Bismarck will lead the opposition in the German Reichstag, which will open its sessions ten days hence. The ex-chancellor is said to have been for some time in correspondence with the chiefs of the anti-government parliamentary factions, and is confident of uniting them in a general coalition against the emperor and his ministers. There will probably be some stirring scenes in the Reichstag before long if the opposition programme is carried out.

The Reichsanzeiger (official) by order of Emperor William comments editorially upon the deplorable immorality prevalent in Berlin. Continuing, the Reichsanzeiger enjoins the local authorities to adopt energetic measures for the suppression of men who live upon the earning of prostitutes. The police, the newspaper adds, must act without scruple in suppressing this infamy. The courts dealing with immorality ought not to be guided by misplaced humanitarian feeling. Rather, when the offence is of an aggravated nature, they should inflict the highest possible penality.

However great the provocation to which Leo XII may consider himself subject, it hardly seems possible that he will cross the Rubicon by removing from Rome. And yet there is little doubt, in face of apparently authentic reports, that he seriously meditates such a step. It would be the greatest sensation of the age, a sensation that would rock the religious world to its foundation, and the effect of which it would be presumptuous to predict.

Canadian butter in Bristol is selling at 102s. to 116s., with a good demand. The United States product is quoted at 98s. to 100s. in the same market. Advices from Liverpool regarding the cheese markets there say Canadians are in demand at 46s. to 49s., with some really perfect lots commanding 50s. The finest United States cheese are quoted at 45s. to 48s. The Canadian dairy products are steadily gaining favor in the British markets, and the English consumer is evidently willing to pay good prices for them.

The fleet of sailing vessels bound from Europe to San Francisco aggregates 417,000 net registered tons. The shipping list understands that the ships engaged in this particular trade are of the largest size, most of them being four masted. It is estimated that 25,000,000 bushels of Pacific coast grain has already been sold upon European account. The heavy shipments from the Atlantic ports of the United States have lessened the demand for California grain, and to some extent weakened freight for these voyages.

"Canadian full cream cheese" is the brand put on the product of the experimental farm dairies which the Government proposes to ship to leading British markets to show the quality of the goods made here. It is also proposed to encourage the use of the brand by factories which receive milk of a prescribed richness, and so further enhance the position Canadian cheese has won in the British markets. The idea, which is one of Commissioner Robertson's, looks like one that should be workable as well as profitable.

Rev. J. G. Brick, the Church of England missionary to the Peace River district, has sent from his home, which is some hundreds of miles north of Edmonton, samples of Ladoga wheat grown by him in that far north land, which yielded thirty-six bushels to the acre, and is pronounced by millers as fine a sample. Governor Schultz has held that the strip along the United States border was only a section of the land available for cultivation in the great Canadian West, and Mr. Brick's success in wheat growing goes to show that he is right. Where wheat grows to maturity man can grow fat.
