

Odds and Ends.

A subscriber wants to know if men make much money out of journalism. Yes, dear friend, much more out of it than in it.

The editor wrote: 'The showers last week, though copious, were not sufficient to meet the wants of the millmen; and the printer put it 'milkmen.'

The London Standard's correspondent at St. Petersburg says that the Russian Government will take no action with reference to the executions of Ruzhick.

M. de Lesseps, in an interview at Berlin, said that the French nation is distinctly in favor of peace, and that no intelligent Frenchman believes there will be war.

Joseph Carter, of Rocklesstown, N. J., recently butchered thirty remarkably fine hogs. The lightest weighed 595 pounds, the heaviest 875; and the total weight was 21,384 pounds.

Dr. Leeds, of Lincoln, Ill., offered \$5 to the Ladies' Missionary society if twenty or more young ladies would sit together two hours without speaking. Twenty-six won the money, in spite of efforts to make them talk.

A scientific writer tells us how water can be boiled in a sheet of writing paper. We don't doubt it. We have known a man to write a few lines on a sheet of writing paper that kept him in hot water for three years.

'No woman can make a fool of me,' remarked a young man who had signally failed in doing the same for a smart Dupont Circle girl. 'Well, hardly,' she replied, 'seeing that nature has anticipated such action on the part of any of our sex.'

An old bachelor, having fallen in love, behaved in a ridiculous manner, but a lady excused his infatuation by saying: 'It is hard to get them kindled, but when they do take flame they burn prodigiously.'

One of the ablest officers in the Belgian army has published a pamphlet in which he cites numerous reasons, which he holds to be conclusive, to show that France, in the event of another Franco-German war, will invade Germany through Belgian territory.

Allen Hanson, an employe on the Northern & Western Railway, on Saturday, attempted to jump upon an icy flat car which was moving rapidly past Marysville station. He missed his footing and fell beneath the car, which passed over his leg, severing it from his body and cutting it in three pieces. His skull was also crushed in. He died in thirty minutes.

A party of three hunters who were out after deer in Tehama county, Cal., a short time ago, found, while following a trail, that they were in turn followed by a gang of six or seven mountain lions. They quickly beat a retreat, but the lions followed till they had nearly reached home, sometimes coming within a rod or two of the party, but retreating at a shot.

A clerk in Louisville invested \$50 in pork, at a bucket shop, the other day, and succeeded in running it up to \$5,000. Then he determined to make it \$10,000 and quit, and get married. His \$5,000 crept up almost to the desired amount, and then the market took a turn against him, and in a few hours he didn't have even the original \$50. He will not marry this spring.

A citizen of Ionia, Mich., rang the bell at a house when he called, and then stood patiently on the iron doorstep until the slow servant opened the door. Then he turned pale and cried out that he was paralyzed; for when he tried to walk he could not move. He felt better just as soon as he discovered that his wet boots had frozen to the iron doorstep as he was waiting.

Astonishing Success.

It is the duty of every person who has used Boschee's German Syrup to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it. Samples bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all Druggists and Dealers, in the United States and Canada.

A title does not always accompany sound judgment. The Duke of Westminster, who used to be a Liberal, recently sold in a fit of spleen, a valuable historic picture of Mr. Gladstone. Naturally the work of art was readily purchased by an admirer of the British statesman, and now his grace is angry because all the world is laughing at him. Mr. Gladstone turned the tables neatly upon the Duke of Westminster, by discrediting the report that it was done through spleen, and professed to believe that the Duke was a little hard up for money, and thought this portrait was one of the surest of his possessions which would command cash.

SKILLED physicians endorse Adamson's Botanic Balsam as the safest and most effective remedy for coughs and colds ever discovered. Sold by druggists and dealers at 35 and 75 cents. Trial bottles 10 cents. cod w/y
