Your Monogram

Engraved

On your Spoons, Forks, and other silver articles, would be nice would not it? A nicely engraved monogram, not only adds beauty to the article but is a means of identifying it should any article get astray or be stolen. Now is a good time to have them engraved. Our Mr. W. T. Wellner is expert in this beautiful art, and he will be pleased to show you samples of his work, and will submit special designs for your approval if you require it.

But a yet stronger proof of England's steadiness of policy in maintaining her naval supremacy lies in the move which she has made to meet the French advance in the construction of submarine torpedo craft.

The British Admiralty has not been asleep. It has known all the time just what progress the Frenchman was making in submarine navigation.

The English naval experts are slow, but exceedingly thorough. They have considered that these submersive boats must come to the surface frequently to enable the navigating officer to see where he is going, and that at best they have a speed of but eight knots an hour and can operate within a very small radius. To cope with these hidden terrors the English are building torpedo boats to go 35 knots, or about forty land miles per hour—as fast as an express train. They are to be well armed and able to play at will with any submarine craft—to destroy it like a terrier would a blind rat.

Two of these fast boats have just been ordered. They are to be built on the wonderful Turbania, the swift-travelling Diamond Jubilee naval review at Spithead. The vessel was not perfect from a naval standpoint, but the inventor, the Hon. Charles A. Parsons, has made such changes and improvements as to satisfy the British Admiralty of the value of the innovation.

The principal embodied in the Turbania has been considerably modified, so as to increase the manoeuvring qualities of the 'destroyers.' Each vessel will have six turbines and four propeller shafts, and steam will be admitted into them. They will exceed in speed anything afloat.

CHURCH SOCIAL.—There was a large gathering of ladies at the social at Mrs. Mellish's last night and a most enjoyable evening was passed.

AT THE CAPES.—Boats crossing both ways to-day. The boats left Cape Tormentine at 7.30, with 40 bags of mail matter. Five bags were left behind.

DEATH'S BIG HARVEST.—During the year 1898, there were 63 men drowned in Gloucester vessels, 34 of whom were provincialists. They leave 19 widows and 35 orphans. There was one Islander—Joseph Mallet, 1st year.

HOCKEY MATCH.—The second C. B. C. team and the second St. Dunstan's played a match game yesterday afternoon. The match was played in St. Dunstan's rink, and resulted in a win for the Saint's the score at the finish standing 9 to 0 in their favor.

THE STANLEY.—The Stanley cannot be seen today from Murray Harbor. From that place we learn by telephone that the straits appear to be fully clear of ice, except near Point Island, on the other side of which the Stanley is expected to be. The Stanley, it will be remembered, left Georgetown for Porton yesterday morning.

THEY HAVE DI-APPEARED.—Peter and John Clements, of Gaytown, were summoned to appear this morning before J. T. Mellish, Esq., J. P., on a charge of beating their stepfather, Louis Cavagah, last Saturday night. The constable reported that he could not find the young men and thought they had cleared out. Cavagah's forehead is badly cut and bruised.

PROF. WATTS has been secured by the Engineers to assist at their entertainment on Thursday evening. This will prove a welcome addition to their already interesting programme. Prof. Watts will render a solo on the clarinet and this should prove a great attraction. The entertainment is to be given for the benefit of the hospital and a crowded house should greet the Engineers. They deserve it.

FUNERAL.—The funeral of the late William Praught took place yesterday morning from his residence, Queen St. to St. Dunstan's Cathedral, where High Mass was sung by Rev. J. McGuigan, thence to Vernon River, R. C. Cemetery where all the last sad rites were performed by Rev. Dr. Doyle. The pall bearers were James O'Brien, James Keenan, Thomas Williams, Simon Higgins, John Harris, and John Hyde.

NOMINATION DAY.—Yesterday was nomination day for the Summerside town council. The following nominations were made:

For Mayor—Ronald Campbell, James A. McNeill and Leonard Morris.

For Councillors—H. Wood, D. M. Waugh, R. E. Sobey, Alexander Allen, P. T. Fanning, James Muttart, John Dickieson, J. Cox, David Kirk, Thomas Hodgson and George Muttart.

POLICE COURT.—This forenoon William Rodd, of North Wiltshire, was arraigned on a charge of stealing a parcel of dry goods and some beef from John McNeill, who lives near Bonshaw. The offence is said to have been committed on the 9th December last. The trial of the case was adjourned until Monday. A lad named John Forrest appeared in answer to a charge of vagrancy, and was sentenced to three months imprisonment with hard labor. The sentence was suspended upon condition that the boy go home and behave better in future.

CONCERT AT PINETTE.—A grand entertainment will take place on Monday, the 13th March next, in the South Pinette School. A splendid programme is being prepared, and Messrs. Charles Campbell and Ernest Vickerson have consented to give an exhibition of sword dancing which will be a pleasing feature. A gala time is in store for all who attend. Coffee served. Admission 15 cents. Proceeds in aid of a new library for the school. William Docherty, President, Finlay McDonald, Secretary.
