

SHIRLEY AND HER MOTHER

### Little St. Hubert Girl Arrives Home For Her Last Christmas

SUMMERSIDE BUREAU OF THE GUARDIAN  
Little Shirley Gallant came home for Christmas—probably the last Christmas she will experience on earth.  
Seventeen-month-old Shirley underwent a brain operation in Halifax recently at the Victoria General Hospital and doctors found she had a malignant tumor which is expected to cause death within the next 12 months.  
The little girl arrived at the Summerside airport last evening

where she was met by her mother Mrs. Leo Gallant of St. Hubert's and members of the St. Hubert's Catholic Women's League who presented her with overalls, underwear, t-shirts, pajamas, socks, sweaters and 4 blankets and Christmas presents. The child is one of nine children. Mr. Gallant is a laborer.  
Maritime Central Airways also presented her with a Christmas present by flying her from Halifax without cost.

**OTHER PRESENTS**  
Today the C.W.L. of St. Hubert's presented little Shirley with a large crib and snow suit as well as donate clothing to the family of Mr. and Mrs. Gallant to help make their Christmas just a little merrier, if such is possible at this time.  
Mrs. G.W. Duquette is convener of the social service work of the St. Hubert's C.W.L. and she along with the other two members of her committee Mrs. G. Kines and Mrs. C. Monty were at the airport to greet Shirley and to assist her mother.  
The child was originally a patient at the Stewart Memorial Hospital in Tyne Valley where her condition was discovered and following this it was decided to have her removed to Halifax for an operation.

**WESTERN GUARDIAN**  
Organizations using this column to promote their meetings, entertainment events, etc., are requested to place these announcements in the name of the sponsoring organization.  
**OPEN THIS EVENING**, Toyland still has many gift ideas for all ages. Kennedy's, Kensington.

**CRAPAUD RINK** Skating every Saturday 8 to 10. School skating every Friday 3 to 5.

### Freeland Man Given Stiff \$200 Fine

SUMMERSIDE — A resident of Freeland convicted on a charge of illegal sale of intoxicating liquor drew a fine of \$200 and costs in Magistrate's Court here Thursday morning.  
Evidence in the case was completed last Thursday when a witness, Walter Smith of Conway, was declared a hostile witness after giving evasive answers to several questions.  
The witness maintained he could not remember what happened the day the sale of the liquor took place and also said he could not remember what he had said in a statement given to police the following day.  
Warned by Magistrate Hinton that he would be charged with contempt if his memory did not improve, Smith admitted the statement was his.  
J. Watson MacNaught was defence counsel. D. O. Stewart, Q.C., was crown prosecutor.  
A 21-year-old man was fined \$25 and costs on a charge of failing to file an income tax return for 1957. He pleaded guilty to the charge.  
An Indian River resident, charged with parking a truck on the crest of a hill where there was not an unobstructed view of the road ahead, pleaded guilty and was fined \$5 and costs.  
A Summerside man, charged with speeding, drew a fine of \$10 and costs.

**PERSONALS**  
Mr. John G. Gallant (Glorice) of Wellington has returned home from the Prince County Hospital where he has spent some time receiving treatment.

### Alberton CGIT Group To Lead Vesper Service

ALBERTON — Alberton C.G.I.T. group will lead the Christmas vesper service in the United Church Sunday evening. The order of service for this year has been prepared by Mrs. W. P. Oliver of Charlottetown and is being used in churches of different denominations all across Canada.  
The Christmas Story will be told in scripture and in carol and there will be a candle-lighting ceremony.  
Leadership is being given by Mrs. Wesley Hardy and Mrs. Elmer McLean, and more than 20 girls will participate in the service.  
Special vocal selections will include a duet by Ada and Faith Williams, a duet by Faye Atkinson and Joyce Barnett and a quartet by four girls from Cascompec, Lorraine Gamble, Dorothy Coughlin, Sylvia and Anna Leard.  
Everyone will be welcome at this service.  
**SOVIET ROAD PLANS**  
LONDON (Reuters) — Russia plans to build 45,000 miles of new roads by 1955, the Soviet news agency Tass reported Wednesday. The longest single road, from Moscow to Stalingrad, will be 625 miles.

## No Classification Change For Summerside Churches

SUMMERSIDE BUREAU OF THE GUARDIAN  
Summerside churches will continue under the present general service classification in the matter of electric light and energy rates as recommended by the recent engineering survey, as the result of a motion passed over the dissent of three town councillors at a special meeting last night.  
Mayor W.A. Currie cast the deciding vote when the six councillors deadlocked the voting at 3-3. Councillor Leo Wood, Robert Dewar and Fred Arsenault voted against the motion while Councillors Elmer Newson, Dr. H.E. Clark and W.E. MacCausland were in favor of keeping the present classification.  
The engineers survey of the Summerside Light department resulted in a new rate schedule effective January 1st that is expected to result in lower costs for most users.  
**ASK CHANGE**  
The resolution resulted from a letter signed by representatives of all Summerside churches requesting reclassification from commercial to domestic rates.  
The motion to let the present rates stand was introduced by Councillor Clark, chairman of the electric light committee.  
In support of his resolution Councillor Clark pointed out that the whole new rate structure was based on the recommendations of the recent electrical engineering survey which included rates for churches as presently classified.  
He said that consumer classifications under the new system were being reduced to about four, from a total of about 25 different previous classifications.  
He said that the new ones were made by experts in the engineering survey field and contained provision of both capital and current production and distribution costs. He cited examples which indicated that, although the demand of churches may be required for less than six hours weekly, the loss of energy in lines and transformers which must be maintained in constant readiness for use by any individual church, could, at least in most cases, actually result in higher electrical

### CNR V.P. Tells How Repair Work Was Done On Carferry

MONCTON — Canadian National Railways shore and marine officers here told Wednesday how the resources of the region were mustered to complete a difficult repair job on the car ferry Abegweit in two days, reducing to this minimum the length of time the ship was off its New Brunswick-Prince Edward Island service.  
Douglas V. Gonder, vice-president and general manager of the CNR's Atlantic region, said final stages of the repair work on a commutator in an armature—intricate wiring and testing—have been conducted since the Abegweit returned to its Cape Tormentine-Borden runs Monday morning. While the vessel was docked at Borden last week, normal service across Northumberland Strait was supplied by the CNR ferry Prince Edward Island.  
**POWER RESTORED**  
Mr. Gonder said power was restored Wednesday morning to the armature in the No. 1 forward starboard propulsion motor, where trouble developed early in October, and ship's officers reported the engine was "running like a watch." In order to avoid inconvenience to the public, particularly to Prince Edward Island, the ferry had been operating regularly on three motors except for two-day periods in mid-November when it was berthed at Borden for removal of the faulty armature. The ferry Prince Edward Island supplied service on that occasion in Charlottetown, the superintendent of the CNR's Island division, George R. Greenough, expressed the company's appreciation to Prince Edward Islanders for their "understanding consideration" during the periods when the Abegweit was docked for removal and replacement of the defective part.  
**OVER WEEK-END**  
The week-end repairs, which started late last Friday night and involved handling more than 34 tons of equipment, were being hailed in both railway and shipping circles as a triumph of speed and efficiency. And it was a CNR effort all the way through as the regional steel erecting gang joined forces with marine service personnel to get the Abegweit back in action by Monday morning.

**Science Now Shrinks Piles Without Pain Or Discomfort**  
Finds Healing Substance That Relieves Pain And Itching As It Shrinks Hemorrhoids  
Toronto, Ont. (Special)—For the first time science has found a new healing substance with the ability to shrink hemorrhoids and to relieve pain and itching. Thousands have been relieved with this inexpensive substance right in the privacy of their own home without any discomfort or inconvenience.  
In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.  
Pain was promptly relieved. And while gently relieving pain, actual reduction or retraction (shrinking) took place.  
And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!  
In fact, results were so thorough

that sufferers were able to make such statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of even 16 to 20 years' standing.  
All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne)—the discovery of a famous scientific institute. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.  
This new healing substance is offered in suppository or ointment form called Preparation H. Ask for individually sealed convenient Preparation H Suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug stores. Satisfaction guaranteed or money refunded.

### Christmas Pageant Presented At Brae United Church Hall

ALBERTON — A three-part Christmas pageant entitled "The First Christmas" was presented in Brae United Church hall under the direction of the teaching staff and their pastor Rev. Heber Kean, recently.  
The story of the Saviour's birth was told in story and song by the narrators, Mrs. Nell MacKay, Miss Audrey MacPhee and a male choir while members of the Sunday school formed the pantomime.  
Miss Faye Milligan was the pageant organist and guitar accompaniment was supplied by Charles Caseley.  
The first part of the pageant depicted a temple scene in the days before the birth of Jesus and dealt briefly with the childhood days of the Virgin Mary.  
The roles in this scene were played by William Wedlock as temple priest; Erma Hardy, temple monitor; Dewar Oulton, John Rogers, Allan Caseley, Cecil Dalton, boy students at the temple; Jean Wallace, Lorna MacKinnon, Angela Rogers, Phyllis Dalton, Marjorie MacKinnon, Beatrice Barbour, girl students at the temple.  
The second part was the Annunciation scene when Mary learned that she was to become the mother of Jesus Christ. The part of the Virgin Mary was taken by Marjorie MacKinnon. Joseph was represented by Olive MacKenzie; the Angel Gabriel, Leila Thomas; the Guardian Angel, Merry Barbour; the angel through, Sylvia Coughlin, Evelyn Gorrill, Elaine Milligan, Beatrice Barbour, Phyllis Dalton, Angela Rogers, Jean Wallace, Lorna MacKinnon.  
The last scene portrayed the Nativity with Ronnie MacPhee, Russell Rogers, Edgar Wedlock

**REGENT**  
WED. - THUR. - FRI.  
"20 Million Miles To Earth"  
"The 27th Day"  
Despite an unusually large amount of ice in Northumberland Strait for this time of year, and the fact the Abegweit was operating on three motors until yesterday, no trouble was experienced and the ship piled back and forth with only slight delays in arrival times at the two terminals.  
**CHRISTMAS TRAIN SERVICE**  
For the convenience of Prince Edward Island shoppers and travellers going home for Christmas, departure of CANADIAN NATIONAL RAILWAYS trains will be adjusted as follows:  
**SOURIS - MONTAGUE - GEORGETOWN**  
Train leaving Charlottetown for Souris, Montague and Georgetown at 2:30 p.m. will be held until 4:00 p.m. Dec. 23rd and 24th.  
**ELMIRA**  
Train leaving Souris for Elmira at 8:45 p.m. will be held until 7:15 p.m. on Dec. 23rd and 24th.  
**SOUTHPORT - MURRAY HARBOR**  
Train leaving Charlottetown at 2:45 p.m. and train leaving Southport for Murray Harbor at 3:00 p.m. will be held until 4:15 p.m. and 4:30 p.m. respectively on Dec. 23rd and 24th.

productions and distribution costs than the revenue return received from the present general service rate which is to be continued to the churches.  
**PRODUCE PROFIT**  
He said the new light rates had been established to produce a return profit of about eight per cent to the electric light department, and to lower rates as suggested would result in any loss of anticipated total revenue having to be made up from extra taxation on personal property.  
Dr. Clark noted that this was the first request that had been made to the council for special rates under the new structure.  
He felt that other institutions such as the hospital and organizations such as youth groups at the Y Centre and the K. of C. Centre, the service clubs, legion and lodges might feel they were also in position to make application for special consideration on electric energy charges.  
He explained that the procedure followed in the matter was in line with that of other similar public utilities.

oscillation in the No. 1 bow motor and it was shut down immediately lest serious damage be caused.  
**KEPT ON**  
At that time the Abegweit and the Prince Edward Island were both on the Northumberland service, maintaining the summer service. Despite the loss of one motor the Abegweit stayed at work, in order to avoid interruptions or delays in the movement of P.E.I.'s important agricultural export traffic and essential inbound supplies.  
Meanwhile, an examination of the motor was made by the ship's engineering staff under the direction of Chief Engineer James Moore of Borden, along with experts from the Canadian General Electric Co., Ltd., rushed to the Island from the CGE plant at Peterborough, Ont. It was discovered it was necessary to renew the commutator in the motor's armature and the possibility arose that the ship might have to do drydocked.  
Removal of the armature meant hoisting out this 20-ton piece of

work, in order to avoid interruptions or delays in the movement of P.E.I.'s important agricultural export traffic and essential inbound supplies.
