

THE DAILY EXAMINER. MAY 28, 1883.

A Creditable Intention Frustrated.

The proposed vote of \$30,000 to Prince Edward Island, being refund of duties paid by them on fish and fish oils exported to the United States in 1871, was highly creditable to the Government and Parliament of Canada.

In 1873, a joint address of our House of Assembly and Legislative Council was forwarded to the Queen praying that justice may be done to those merchants who suffered loss through no fault of their own.

The matter has stood in that way for nearly ten years, and the sufferers, during that period, have realized, we dare say, some of the pains arising from hope long deferred.

Salary Grabbing.

It is said that a "round robin" has been passing at Ottawa for an increase of the Sessional allowance to members, from \$1,000 to \$1,500 annually.

Close of the Session.

The following is the Speech with which His Excellency the Governor General pro-nounced Parliament:

Hon. Gentlemen of the Senate: Gentlemen of the House of Commons:

I desire to thank you for the diligence and earnestness with which you have performed your duties during the protracted session. The large sums which the buoyant state of the revenue has enabled you to appropriate in aid of the construction of railways, and the great works of internal improvement will be carefully applied, and economically expended, and must contribute in a large measure to the prosperity and progress of the country.

I return you my thanks for the supplies you have granted for the various public services. Honorable Gentlemen of the Senate: Gentlemen of the House of Commons:
