NEW LONDON PRESBYTERIAN CHURCHES - Services, Sunday, June 7th. Geddie Memorial 11:00 A.M. Lund River 2:30 P.M. Sunday School 2:00 P.M. Clifton 12:30 P.M. Sunday School at 6:30 P.M. Rev. D. A. Campbell, Minister.

KENSINGTON - MALPEQUE AND FREETOWN Presbyterian Churches, Services Sunday, June 7th. Will be as follows: - Kensington 11 A.M. Freetown at 9 P.M. Malpeque at 7:30 P.M. The Rev. E. C. Evans will conduct the services. The Rev. D. A. Campbell, Interim Moderator.

MACKEREL CATCH - The first mackerel of the season were landed at the Alberton wharf on Wednesday by Hubert and Upton Fisher. Fifty-four fish were netted and were quickly bought up by residents of the area. Several other boats put out their mackerel nets following Wednesday's catch, but only about 30 per cent were brought in yesterday. Last year the first appearance of mackerel was June 6.

PERSONALS
Mr. and Mrs. Luther O. Agnew, Saranac Lake, N. Y., motored to the Province and are visiting at the home of Mr. Agnew's brother, Herbert and Mrs. Agnew, Central Street - S.

Friends will be sorry to learn that Mr. Wayne Harrington, because of the misfortune to break a bone in his ankle, while about the yard at his home at Spring Valley on Saturday, May 30th. Bur.

Mrs. Emma Palmer of Portland, Maine, arrived on Saturday, May 30, to visit friends and relatives in this province and is the guest of Mr. and Mrs. Walter Cole, French River. Bur.

Rev. R. W. B. Coupland returned to Kensington on Friday, May 29, after spending several days in the Lunenburg district, where he served a number of years in the Anglican Church ministry previous to coming to this province. Bur.

Howard E. Waite Jr. of Summerside, P. E. I., was one of the students who successfully passed the second year of the diploma course in pharmacy at the Maritime College of Pharmacy in Halifax, N. S.

"MY FRIEND FLICKA" OPENS TODAY AT CAPITOL, SUMMERSIDE
Roddy McDowall, Preston Foster, Rita Johnson, and a horse named "Flicka" head the cast of "My Friend Flicka", a Twentieth Century-Fox encore triumph film in Technicolor scheduled to open today at the Capitol Theatre, Summerside.

Based on Mary O'Hara's best-seller of the same name, which had the signal honor of being reproduced in four of the nation's top-circulated magazines, Reader's Digest, Story Magazine, Red Book, and Scholastic Magazine, the tender story which tells of a boy's love and devotion to his horse, captures the spirit of the west and its down-to-earth people.

Roddy McDowall, as the introspective youth whose indomitable courage brings him the respect and understanding of his parents, received the highly coveted acting assignment for his performance in the previous Twentieth Century-Fox hit "How Green Was My Valley". Preston Foster plays the boy's rancher-father, while Rita Johnson is the devoted wife and mother.

New C. N. R. Crossing Signal At New Annan

Something unique in the way of crossing protection is now in operation at Moase's crossing, New Annan.

It is what is known as a "two flashing light signal and bell," and consists of an eight-unit light system. Four lights face it in either direction of the road, away from the track.

When a train is about 2,600 feet away from the crossing, a bell begins to ring, and two lights on either side begin flashing a bright red, and are alternated by the other two sets, so that forty-five flashes occur each minute.

The system, which is the only one in the Province, operates from the power line. In the event of failure from this source, two storage batteries which are kept charged by a rectifier automatically take over, and can maintain service for a period of 96 hours.

The installation of these lights should prove to be a contributing factor in the reduction of accidents at this crossing which heretofore has been the scene of several serious mishaps.

Major Wedge said it should be encouraging to taxpayers to know that there will be no increase in taxes.

He suggested that the council should resume the system of getting monthly reports from the various departments so the council could tell where each committee stood in regard to the expenditures and revenue. Although the rate remains unchanged, it remains necessary for the council to pass laws imposing poll tax, assessments on real estate and personal property and fixing the annual license fee to be paid by incorporated companies. These are as follows:

Poll tax, male residents, 21 years and over, \$5.75 for civic purposes, and 25 cents for water and sewerage purposes. Assessment on real estate and personal property per \$1,000 valuation, \$13.50 for civic purposes, \$6.50 for school purposes, and \$2.00 for water and sewerage purposes.

License fees payable by incorporated companies doing business in the town-banking companies \$200, life insurance companies \$35, accident, fire, plate glass, and marine insurance companies, \$25.

All other incorporated companies, associations, and co-partnerships whose principal office and organization is not within this province, but doing business in Summerside, \$50.

Resolutions were also passed confirming the salaries to be paid to town employees.

A resolution was passed granting a building permit to Amalgamated Dairies Ltd. to erect a one-story building on Norman Street, 100 x 80 feet, on the condition that specifications and construction be such as not to cause any annoyance to residents.

The resolution stated that if, after erection of the building, it is found that odors or smoke stacks are such as to cause annoyance then such improvements will have to be made to eradicate annoyances, fumes or smoke.

These conditions were added to the resolution as the result of a letter received from the Community Planning Association which make such recommendations in regard to the construction of this dairy.

Before the meeting adjourned Councillor Clark inquired regarding extensions of rural electric lines.

Mayor Wedge, in reply, said that a survey of all routes in question had been made, and he expected

S'ide Budgets For \$4,277 Surplus For Current Year

In presenting the estimates at a special meeting of the Summerside Town Council last evening, Mayor Wedge, chairman of the finance committee announced that there will be no increase in the Summerside tax rate this year and said that there would also be no change made in the poll tax and licenses.

In submitting detailed estimates of the expenditures and revenue for the year 1953, the surplus of \$4,277.78.

In presenting the budget Councillor Jenkins urged the council to conduct their different departments "diligently and conscientiously" and satisfy yourselves that time, money and material are not being wasted.

He said, "I do not feel it is necessary to go into detail with comparison of figures in the past. We know that costs of public services are mounting steadily and what these services cost in the past is of little assistance to us today. These are indeed tedious and trying times for governing bodies to provide municipal services to citizens without working too much hardships on these citizens by increased costs to them."

Major Wedge said it should be encouraging to taxpayers to know that there will be no increase in taxes.

He suggested that the council should resume the system of getting monthly reports from the various departments so the council could tell where each committee stood in regard to the expenditures and revenue. Although the rate remains unchanged, it remains necessary for the council to pass laws imposing poll tax, assessments on real estate and personal property and fixing the annual license fee to be paid by incorporated companies. Farewell Sermon At Burlington

"Trinity bids us raise our whole lives to the level of the church in Heaven, by the sacrifice of our souls and bodies, which is the only thing asked of us by our Lord," was the theme of a message left with the congregation of St. Stephen's Anglican Church, Burlington, by the rector, Reverend R. W. B. Coupland, B.A., in his farewell sermon, preached on Trinity Sunday, May 31.

Taking for his text the words, "A Door was opened in Heaven," the speaker developed his theme from the thought of all things new in the season of Trinity, to the great new power within given by the Holy Ghost. Pleading for more young men to offer themselves for work as missionaries and ministers, he reminded his hearers that Jesus asks only one thing - "If one member of a family offers himself, thousands may hear the gospel preached."

In preference to the coronation of the new Queen, he said all parts of the ceremony are old, but the power within it never grows old, because of the spirit of sacrifice in the Holy Communion which is the centre of the whole ceremony. The life of the Queen is a striking example of self sacrifice. Special prayers were said for the Queen.

Mr. Coupland, who has been rector of New London Parish for the past two years, had accepted a call to a parish in Ontario. -Bur.

Large Funeral For Loman Adams

There passed away at 14,520 Corn St. in St. Eleanor's on May 28, Loman Adams, after a lengthy illness.

The deceased was born at Grand River, Ont. on June 1, 1875, the youngest son of Mr. and Mrs. John Adams. At an early age he worked at the Grand River cheese factory. After completing courses in butter and cheese-making in Charlottetown and Sussex, N.B., he took over the operating of Central Lot 16 cheese factory until 1913, when he purchased a farm property in St. Eleanor's, where he has since resided.

He leaves to mourn his wife (nee Margaret Forbes of Tyne Valley), and daughter Belle; also two sisters, Mrs. Laura Yeo of Summerside, and Mrs. Arthur MacLean of Lot 14. Two brothers, Thomas and John, predeceased him.

The funeral which was largely attended by neighbors and friends was held at his home on Saturday afternoon, May 30th, conducted by the pastor, Rev. C. D. Matheson of Trinity United Church. Hymns sung were "When Lord Is My Shepherd" and "The Day of Toil is Over."

pall bearers were Harry Cannon, Edwin Bernard, Harry Jones, Roy Tarrant, Edgar Creswell and Arthur Jones. The remains were laid to rest in the People's Cemetery, Summerside. -S.

Edward VIII, who was never crowned before his abdication, reigned for 325 days in 1936.

Under normal diving conditions a diver seldom works at a greater depth than 300 feet.

Assets Store. Mr. D. O. Stewart, crown prosecutor, during cross examination of the witness was told by the accused that he had met Peters on the night of December 22nd on Water Street. The witness said, "I walked up and down the street for two or three hours and talked, mostly about the weather. Witness said they were drinking rubbing alcohol, both on the street, and in the witness' home."

Said he was drunk the next day too, and had been drinking on the night he was picked up wearing the vest. He had found the eggs which were with him when arrested, in an alleyway and started home with his share of eggs about 15 minutes later without making any inquiry about the eggs.

Witness admitted he was drinking when arrested in court on Wednesday afternoon of this week. Questioned about being hospitalized after a car accident about 1:30-2:00 a.m. last Tuesday morning, he said he had left the hospital through a window dressed only in pyjamas and socks. Had been in a hospital bed on about 15 minutes. He had gone home when he left hospital, and had gone to visit at another house about 6:00 a.m.

Chahill gave his age as 28 years. A police record produced in court indicated that he has been before the court on 28 various charges.

Members of the petty jury are: Frank W. Townsend, Sherbrooke, (foreman); James Rooney, Alberton; Kenneth Mills, Summerside, R.R.; Emily Linkletter, Summerside, R.R.; William Stavert, Kensington, R.R.; George F. Henderson, Bedeque; William C. Nesbitt, Summerside; Howard O'Halloran, Elmsdale, R.R.; John Peter DesRoche, Miscouche; Omar Bernard, Tignish; Samuel Waugh, Wilmot Valley.

Chief of Police Peter White identified various search warrants that had been issued to search the home of the accused.

Mr. Lowell Allen, counsel for the defense, before calling the accused to the stand, said he intended to make a motion to have Fred Peters' evidence, as taken at the preliminary inquiry, received as evidence. After legal argument on this subject, the objection of Mr. Stewart to this intention was sustained by Mr. Justice Tweedy.

Alfred Cahill, the accused, testified in his own defence. He told of meeting Peters the night after the break. Both had been drinking. They went to Peters' house where he brought out a sheep-skin vest and gave it to Cahill to put on. They intended to sell it. In company with Peters, they had discovered four or five dozen eggs in an alleyway on North Market Street. They decided to sell them to get more liquor. They later divided the eggs and started for home with them. On the way home he was arrested and said he didn't know where the vest had come from until he heard Constable Champion say it had been stolen from the War

Coronation Day Observed In West Prince

Huge crowds thronged into Alberton, O'Leary and Tignish on Tuesday for the Coronation Day ceremonies planned by these centres.

The impressive celebrations at Tignish commenced at 9:00 a.m. with High Mass conducted at the Church of St. Simon and St. Jude by Rev. J. A. MacDonald, P.P.

The parade then formed up at the church and proceeded to the Tignish Legion Community Centre, led by two cavalymen, and followed by servicemen, a beautiful float with eleven girls, one representing Canada and ten to represent the provinces of Canada. Boy Scouts and Cubs, Girl Guides, members of the C.W.L., citizens and automobiles.

The opening remarks in the Community Centre were made by the master of ceremonies, Mr. Hector Buote, followed by the flag salute, "O Canada" sung by school children. Guest speakers were Rev. J. A. MacDonald, Emmanuel Richard, Denis Gallant, Rev. C. Staples, Messrs. J. B. Myrick Jr., and C. F. Morrissey.

Vocal selections by the Children of Mary and the Girls' Choir and musical selections by the Tignish Orchestra were then heard.

In the afternoon sporting events were participated in by the school children of the surrounding districts but the ball game between the Tignish Aces and Miminegash Royals was cancelled after one inning on account of rain. The evening program including the Scout beacon fire and display of fireworks was postponed until Friday evening. A very successful dance was held in the Community Centre to bring the day's celebrations to a close.

At O'Leary

At O'Leary ten schools from the surrounding districts participated in the parade at 2:30 p.m., forming up at the athletic field and marching to the Verdun Theater where the following program was carried out: National Anthem, sung in French by the Duvar school children; a recitation saluting the Union Jack, by Sandra Bethan Era; a speech, "The Elizabethan Era" by Norman Kennedy; Empire flag drill by O'Leary school children; a song by Sandra McIsaac; a recitation, "The Queen God Bless Her" by Diane Wedge; an address by Audrey Dumville; chorus "The Maple Leaf Forever" by the audience; flag drill by the Brae school children; and concluding by Grant Noonan, a recitation with a song "Fair Canada" by Fortunate children.

His excited appearances at the palace windows - most of them apparently without the sanction of his nurse - were as much a part of the great pre-coronation show as the activities of his mother and father.

People who saw him in Westminster Abbey during the Coronation generally agreed that he behaved very well, all things considered.

His mother there is talked that his mother should immediately invest him with the title, Prince of Wales, for which he is eligible. There has been no news since 1936 when the present Duke of Windsor relinquished the title.

The Queen, however, has many other things demanding her immediate attention.

She received some of her official Coronation guests Thursday. The giant Queen of Salote - she is six-feet-three - drew cheers when she placed a wreath on the white marble memorial to British dead of two world wars. She was with the white-bearded Sultan of Zanzibar and six Malayan sultans at the Queen's reception.

In the second tour, Elizabeth and the Duke of Edinburgh robed in an open car more than two hours through northwest London. Hundreds of thousands of people lined the route, as they did Wednesday for her first drive. The weather was warm and sunny.

Meanwhile, work began on the removal of some of the grandstands lining the route of the Tuesday procession. Some will be left, however, along with London's decorations, for several weeks.

The forest products industry worth \$150,000,000 is the largest single employer of labor in New Brunswick.

Evidence Heard In Stolen Goods Case In S'ide Court

A 12-man petit jury was selected and the taking of evidence was completed yesterday in Supreme Court at Summerside during the trial of Alfred Cahill of Summerside, charged with having possession of stolen goods. Court was adjourned until 10:30 this morning for the crown and Mr. Lowell Allen, counsel for the accused will summarize the evidence.

Mr. Justice George J. Tweedy, the presiding judge, will address the jury before they retire to the jury room to decide on the verdict.

During yesterday's trial, five witnesses were called by the crown, while one - the accused - was called by the defence.

The first witness, Mr. Norman Prichard, owner and operator of the War Surplus Store on Water Street, told of being called by Constable Keith Champion to investigate a broken window at his store. He described articles that were missing, and identified a sheepskin vest that the accused had been wearing when arrested the next night. Mr. Prichard also identified other articles stolen the same night and recovered by police at the home of Fred Peters, a friend of the accused. Peters is one of the three prisoners still missing after this week's break from the Prince County Jail.

Reaffirmation of the oath of allegiance to the new Queen was taken by the Cubs under direction of Cub leader Helen Hardy and by the Scouts under direction of Scoutmaster Herbert Leavitt. A torch was applied to the Scout beacon fire by troop leader Eugene Callaghan. Flags were presented to all school children and refreshments were available at the canteen.

A hearty sing-song was led by Rev. J. E. McMahon and the celebration was brought to a close with a thrilling display of fireworks.

Scientists Report

Continued from page 1

livers after the oil has been removed may prove more valuable than the cod liver oil itself.

Dr. P. L. Hoogland and Beryl Truscott, both of Halifax, say they recently discovered the residue, previously believed almost worthless, increased the growth of chickens.

The paper said they have not yet been able to discover what quality in the residue produced the boost in growth.

Part of the animal protein factor of the cod livers, they said, is identical with the anti-pernicious anemia vitamin B12. The remaining factor is a mystery.

Dr. Hoogland and his colleagues who work at the Atlantic Fisheries Experimental Station, said they intend to continue investigation of this non-B12 factor because it may be the reason for increased growth of chicks fed diets containing cod liver residue.

Work on the unknown factor indicated it contained several compounds needed for growth of very small living things. It has not been discovered if these compounds are also growth factors for the higher animals. However, they have found the compounds have an important role in cell metabolism.

The two said the cod liver industry today needs an outlet for the residue because the value of cod liver oil has dropped to almost the production costs.

To Continue Investigation

Dr. Hoogland and his colleagues who work at the Atlantic Fisheries Experimental Station, said they intend to continue investigation of this non-B12 factor because it may be the reason for increased growth of chicks fed diets containing cod liver residue.

Work on the unknown factor indicated it contained several compounds needed for growth of very small living things. It has not been discovered if these compounds are also growth factors for the higher animals. However, they have found the compounds have an important role in cell metabolism.

The two said the cod liver industry today needs an outlet for the residue because the value of cod liver oil has dropped to almost the production costs.

Huge Increase

Continued from page 1

holds out the promise of making a civilian atomic power industry even more feasible and attractive in the long range than it heretofore appeared to be."

But Dean cautioned that "we must take care to see that this encouraging development is kept in its proper perspective."

"This news does not mean that economic power from atomic fuel overnight we have," suddenly obtained all the fissionable material we want or need. It does not mean that uranium can now be regarded as a virtually costless fuel."

"The real significance of breeding is that it is now possible for mankind ultimately to utilize all of the uranium that can be extracted from the earth's surface for atomic fuel, whether it is fissionable or not in its natural state."

Another Possibility

Dean also held out hope for a further development in the "breeding" line.

This concerns the possible use of the element thorium to produce atomic material. Thorium, like uranium-238, is not fissionable in itself, but, theoretically at least, it can be converted to a form of uranium called U-233, which is fissionable.

If thorium could be used as an atomic fuel producer, it would greatly increase the stores of atomic fuel, because thorium is more plentiful in nature than U-238.

Royal Couple Are Seen In State Coach on Way to Westminster.

Tignish Dramatic Society Honored At Banquet

On Wednesday evening, June 3rd, a banquet under the auspices of the Catholic Women's League, was held in honour of the Tignish Dramatic Society at the Canadian Legion Community Centre. In attendance were members of the cast and their partners, who by their skillful talent and fine performance were given as second best at the Provincial Drama Festival in Charlottetown. The tables were artistically decorated with cut flowers, and admiring the runner-up trophy which was donated by the Provincial Women's Institute and won by the Tignish group for their splendid performance of their 3-act play, "The Green Hills of France." Following a sumptuous three-course dinner, members of the cast and guests in turn delivered appropriate remarks as each was called upon by the president of the Dramatic Club, Mr. Arthur Arsenault. A vote of thanks was tendered to the president of the Catholic Women's League, Mrs. C. F. Morrissey and other members of the league for the lovely dinner they served. The remainder of the evening was spent in dancing to the music of the Tignish Orchestra.

Charge Ice Cream Sold To Children

VANCOUVER, (CP) - Ice cream flavored with alcohol is being sold to English children, the triennial conference of the Women's Christian Temperance Union was told Wednesday.

"This is the way they get a taste for liquor," said Mrs. H. Cecil Heath in her corresponding secretary's report.

The Scottish world president of the WCTU, Mrs. John Forrester-Paton, said the organization has spread to 68 countries.

Mrs. Elizabeth A. Smart, publisher of the Washington County Post in Cambridge, N.Y., said her newspaper refuses to carry liquor advertisements.

"And you'd be surprised at the number of radicals and newspapers in the U.S. that follow suit," she said. "So those people their principles are more important than the loss of revenue."

The first town charter was granted to Swansea in South Wales in the 12th century.

If thorium could be used as an atomic fuel producer, it would greatly increase the stores of atomic fuel, because thorium is more plentiful in nature than U-238.
