

NEW HAMPSHIRE SAFETY AUTHORITY TO ADDRESS WILDLIFE CONVENTION

John Dodge, of Concord, New Hampshire, will be the chief speaker at the Maritime Wildlife Convention on Saturday evening, June 26th, when members of the Federation will meet to consider what may be done to reduce the heavy toll of lives and injuries which occur as the result of the many hunting and other accidents caused by the mishandling of firearms.

Prince Edward Island has spared the grim results of shooting people, instead of the intended targets, but New Brunswick and Nova Scotia have had to face very realistic facts. Elimination of such accidents has been one of the main objects of the Federation and the convention is expected to recommend that its member Associations take decisive action to have their respective Governments establish an accidental prevention program.

John Dodge is chief of the Education Division of the New Hampshire Fish and Game Department, where he is known as the Conservative Educator. He has been with this Department for the past ten years and has been intimately associated with the establishment of the National Rifle Association Hunter Safety Plan in his State. Mr. Dodge is an outstanding speaker with great personality. He is a graduate of Yale University and subsequently continued his studies in the Harvard Graduate School.

An ardent fisherman and hunter, Mr. Dodge has made wildlife and mountaineering his avocation and he is a well known authority and writer on such subjects. He is married to a Canadian, a Miss Rose of New Glasgow, N. S. It is through the generosity and co-operation of the State of New Hampshire that he is able to attend the convention and his talk will be illustrated by slides and movies which have been filmed and prepared to show the importance of safety education in handling guns. The meeting which he addresses will be one of the most important ever held in the Maritimes.

While the Federation Convention is intended for members of the three Maritime Fish and Game Association, it is realized that the subjects to be discussed are of

widespread importance. Officers of gun and rifle clubs, Scout Masters, Cadet Instructors, Government Departments concerned, and others interested in youth safety training will be welcomed at the meeting.

Mr. and Mrs. Dodge plan to drive to the convention, leaving home on June 25th. They will be accompanied by Mr. and Mrs. Ralph Carpenter. Mr. Carpenter is Director of the New Hampshire Fish and Game Department.

Porterfield And Burdette Lead In Majors ERA

NEW YORK (AP)—Lew Burdette of Milwaukee and Bob Porterfield of Washington, a couple of righthanders New York Yankees traded in 1951, are making a lot of headway in the major league campaign averages as the 1954 campaign streaks into its third month.

The 27-year-old Burdette, obtained from the Yankees in a transaction which sent Johnny Sain to New York, paces the National League with a 2.25 earned run mark. He has given up 21 earned runs in 84 inning while posting a 6-5 won-lost record.

Porterfield's figures are even more impressive. Although he is runner-up to Detroit's Ned Garver in the American League competition, Porterfield has permitted only 24 earned runs in 105 frames for a 2.06 average. He has won seven and dropped five games.

Garver, in 12 games, has yielded 22 runs in 95 innings, but seven of the runs were unearned. His earned run rate is a sizzling 1.42. Ned has four victories against two setbacks.

BABY-SITTERS IDLE

CALGARY (CP)—The baby-sitting business has run into a depression here. Some baby sitters' bureaux have been disbanded and others have reduced their staffs. "Married couples are staying home more," said one bureau chief.
