Special Telegrams

TO THE

Charlottetown Associated Press.

SACKVILLE, Feb. 21, 1871.

The condition of Paris is improving.—Rothschild goes to London to convey the thanks of Paris for the contributions of food.—High hopes are entertained that Favre's visit to Versailles will result in securing peace.—Prussia firmly refuses to listen to advice or entreaty from Granville concerning peace.—The appointment of Theirs, as chief of executive, is well received in Paris.—The steamer Tennessee with San Domingo Commissioners is reported to have arrived safely.—The Princess Louise is to be married on the 21st of March.—In French National Assembly Theirs made a speech in which he dwelt on the distress and suffering caused by the war, and urged the necessity of peace. Nevertheless, he said, terms of peace would be discussed courageously, and only accepted if consistent with the honor of France.—It is decided that the Emperor William will march his victorious legions through Paris.

SACKVILLE, Feb. 21, 1871, p. m.

News from Sackville to-day says steamer "Zoe," loaded with provisions for France from Boston, struck on Bell Rock, off Chebucto Bay, last night. Total wreck.

Fredericton, Feb. 21, 1871.

The Government of New Brunswick tendered their resignations to-day. His Honor the Lieut. Governor sent for Geo. L. Hatheway to form a new Government. It is considered probable that the Government will be re-constructed, Hon. Mr. King retaining the Attorney Generalship, and Hon. Mr. Kelly the post of Commissioner of Board of Works. Mr. Beckwith will probably be elevated to the Legislative Council, and take a seat in the Government. Mr. Hatheway will probably be Provincial Secretary.

Sackville, Feb. 22, 1871.

Probable armistice will be extended till March 1st. Health of Emperor of Germany causes grave anticipations. John Bright commencing Will probably resume his seat in Parliament.

Latest cable telegrams confirm the belief that French Assembly will name a triumvirate, including an admiral and a general, to arrange terms of peace. Will then pass electoral law and dissolve, thus shifting responsibility of reorganizing France on other shoulders.

Germans certainly enter Paris on the 24th ult., and take possession.

Commission regarding purchase and annexation St. Domingo had arrived and commenced investigation. Inhabitants appear generally in favor of annexation.

Canadian press severely criticise Howard's resolution in United States Congress, providing for cession of British North America.

Toronto *Leader* says, "We can assure our American neighbors if they desire closer relationship with Dominion than at present existing, they are taking the very best means in their power of preventing its accomplishment; because an insolvent proposition of this kind will only provoke a bitter spirit of hostility in this country to United States." Gold 111¼.

Sackville, Feb. 23rd, 1871.

London, 21st.—House Lords to-night sitting occupied with ecclesiastical titles bill.

Earl Granville defended withdrawal of British Legation from Paris.

In House Commons, Mr. Gladstone objected to producing instructions given Anglo-American Commission. Believed that improvement of Maritime International law would certainly be one of the topics deliberated upon. Opinion grows in Germany that terms will be accepted without modification. Bismarck is pressing Thiers very hard to conclude peace, employing threatening language.

London, 22d.—Letter from Gen. Trochu condemns proposed entry of Germans into Paris

New Queen of Spain dangerously ill, and has asked to receive last sacrament. Her case considered hopeless.

Sackville, Feb. 24, 1871.

The Navy estimates to be presented to the House of Commons will show an increase of £38 600 as compared with 1870. It is feared that Trochu's letter will cause difficulty. 3,000 bonds was seized by police yesterday.

Brussels, 22nd.—It is denied that negotiations are on foot for transferring the Holy See to Belgium. The German army will enter Paris quietly without any triumphal ceremony, and will not remain long in the city. The armistice is prolonged to Sunday midnight. Peace considered concluded though not yet signed, but nothing definitely is known of the terms.

New York, 23rd.—The English members of the High Commission who arrived yesterday by the steamer *Cuba* proceeded to Washington to-day. Sir A T Galt's motion pending in the Dominion Parliament asserts the free unrestricted use of the Fisheries and Inland navigation by the United States upon receiving as an equivalent a complete modification of the United States Commercial system, directed to insure a free, liberal interchange of the products of labor in the two countries.

DISAFFECTION IN IRELAND.

SACKVILLE, Feb. 25, 1871.—German army will quietly enter Paris.—Terms have not been made public; nor have guarantees been arranged.—Bismarck has communicated conditions peace cabinet Vienna, London, St. Petersburg.—Gen Trochu retires into private life—request of Thiers.—The disturbance at Nice have been suppressed.—House Commons passed University tests and Ecclesiastical titles bills.—House Lords passed bill granting a dowry princess Louise.—Lord Carnarvon announced measures for national defence—argued necessity early preparation in view of astounding rapidly Prussian campagne in France.—Lord Northbrook defended administration of war office; and Duke Cambridge also made speech in defence of the war office—and approved of large increase in artillery and cavalry arms of the service.

London 24th.—Treaty of peace was signed at Versailles to-day by Thiers and Bismarck. France pays Germans three hundred and twenty millions thalers Alsace and Lorraine including cities of Metz and Nancy are ceded to Germans

Germans will not enter Paris. Emperor William leaves Monday for Berlin. Telegraphic order from Versailles directs immediate liberation of all French hostages.

New York, 24.—Cable telegrams states Parliament was startled last night by declaration of Lord Harlington that disaffection in Ireland existed to such an extent that it would be necessary to appoint a secret Committee to ascertain the causes

DEXTER'S WONDERFUL TROT.

Mr Bonner drove to a road-wagon with himself, weighing 319 pounds. With this load and four wheels behind him Dexter trotted the first quarter in 34s.; and the next was trotted in 34½ making the half-mile in 1 m 8½s. He now had a dead muzzler from a strong wind straight in the teeth, and the third quarter was 37s. The

ast quarter was trotted in 36½, making the whole time 2 m 21½s., which was truly a marvellous thing to a road wagon and the weight. As he neared the score Mr. Bonner called upon Dexter with a shout and a stroke of the whip, whereupon he made a dart of electric speed and finished in a 2 m. gait. The timers of this ex-

traordinary trial were Mr. W. M. Parks, Mr. Geo. C. Hall, and Mr. James B. Bach. Mr Parks made the time 2 m 21¾s.; Mr. Hall's watch said 2 m. 21½s., and Mr. Bach's, 2 m 21 4-5s. In this prodigious performance Dexter wore no boots, stockings, nor bandages, and never touched a hair. It is now believed that

probably the next best horse to Dexter in the United States is a five-year-old colt, which Mr. Bonner has in the hands of a trainer in the country, and which is developing the most extraordinary speed. Sold by all dealers.

We understand that the Whooping-cough is quite prevalent in the towns around us; but that no cases have proved fatal. Some families use nothing but "Johnson's Anodyne Liniment" Our Doctor, however, says a little ipicac, to produce vomiting, would be an advantage.

There are more than one thousand different kinds of Pills in the United States. Some of them are worthless and injurious, others are good and beneficial. Old Dr. Parsons invented the best anti-bilious pill we ever saw or heard of. They are now sold under the name of "Parsons' Purgative Pills."

HOW TRUE AND HOW STRANGE that people should seek relief in the hieroglifics of a doctor's prescription when they can buy as good, and nine times out of ten a better, remedy than most doctors give, for the insignificant sum of 25 cents. We refer to "Morse's Indian Root Pills," these pills cure Headache, Liver Complaint, Indigestion, Female Irregularities, and all Bilious disorders, they are prepared from a formula pronounced by the most learned Physicians of our country to be the best and most universal of family medicines. Give them a fair trial and you will never be without them 'Morse's Indian Root Pills." Sold by all dealers

IN NUMBERS there is safety, it was upon this principle that the formula of Judson's Mountain Herb Pills was prepared. It was not the result of one man's knowledge. Dr. Judson, intending to spend a fortune in advertising Pills, consulted the most intelligent and learned physicians of the age, and the result was the production of a simple but efficacious medicine the Judson's Mountain Herb Pills. These Pills cure Biliousness, Dyspepsia, Liver Complaint, Indigestion, Female Irregularities, &c. They have now been used many years by the Public, and thousands of testimonials bear witness to their virtues. As a family medicine they are unrivalled. Give the Mountain Herb Pills a trial. Sold by all dealers.

JOHN P. MOTT'S CHOCOLATE, BROMA AND OTHER COCOA PREPARATIONS. APPROVED OF AND RECOMMENDED FOR MORE THAN A QUARTER OF A CENTURY BY THE MOST EMINENT PHYSICIANS OF BRITISH NORTH AMERICA.—To those who desire the best productions of Cocoa, free from deleterious substances, unsurpassed in quality, and more nutritious than Tea or Coffee, the undersigned offers the above articles manufactured by himself. His Broma, owing to the peculiar process of manufacture, by which the oil of the nut is completely neutralized, while all its virtues are retained, affords, as well to the robust as to invalids, and those whose digestion is impaired, a delicate and salutary beverage. That its value as an easily digested and highly nutritious article of diet is recognized by the highest medical practitioners in the Dominion, the following testimonials amply demonstrate.

JOHN P. MOTT.

Having tried the Broma made by Mr John P. Mott, of Halifax, N. S., and having been made acquainted with its several ingredients, we are of opinion that it is a combination at once innocent and highly nutritious, not only to persons in health, but also to the weak and debilitated; and that, from the facility with which it may be prepared, and the salutary properties of its ingredients, it is a valuable compound, and we cheerfully recommend it to convalescents and all who require a mild and strengthening food.

"Unquestionably the best sustained work of the kind in the world."

Harper's Magazine.

Notices of the Press.

No more delightful travels are printed in the English language than appear perpetually in Harper's Magazine. They are read with equal interest and satisfaction by boys of every grade from eighteen to eighty. Its scientific papers, while sufficiently profound to demand the attention of the learned, are yet admirably adapted to the popular understanding, and designed as much to diffuse correct information concerning current scientific discovery as it could be if it was the organ of the "Society for the Diffusion of Useful Knowledge." The great design of Harper's is to give correct information and rational amusement to the great masses of the people. There are few intelligent American families in which Harper's Magazine would not be an appreciated and highly-welcome guest. There is no monthly Magazine an intelligent reading family can less afford to be without. Many Magazines are accumulated. Harper's is edited. There is not a Magazine that is printed which shows more intelligent pains expended on its articles and mechanical execution. There is not a cheaper Magazine published. There is not confessedly, a more popular Magazine in the world.—New England Homestead.

It is one of the wonders of journalism—the editorial management of Harper's.—The Nation, N. Y.

Harper's Bazar.

A supplement containing numerous full-sized patterns of useful articles accompanies the paper every fortnight.

Harper's Bazar contains 16 folio pages of the sizes of Harper's Weekly, printed on superfine calendered paper, and is published weekly.

Notices of the Press.

Harper's Bazar contains, besides pictures, patterns, etc., a variety of matter of especial use and interest to the family; articles on health, dress, and housekeeping in all its branches; its editorial matter is specially adapted to the circle it is intended to interest and instruct; and it has besides, good stories and literary matter of merit. It is not surprising that the journal, with such features, has achieved in a short time an immense success; for something of its kind was desired by thousands of families, and its publishers have filled the demand. The young lady who buys a single number of Harper's Bazar is made a subscriber for life.—New York Evening Post.

The Bazar is excellent. Like all the periodicals which the Harpers publish, it is almost ideally well edited, and the class of readers for whom it is intended—the mothers and daughters in average families—can not but profit by its good sense and good taste, which we have no doubt, are to-day making very many homes happier than they may have been before the women began taking lessons in personal and household and social management from this good natured mentor.—The Nation, N. Y.

Its columns contain the finest collections of reading-matter that are printed. Its illustrations are numerous and beautiful, being furnished by the chief artists of the country.—Boston Traveller.

Harper's Weekly is the best and most interesting illustrated newspaper. Nor does its value depend on its illustrations alone. Its reading matter is of a high order of literary merit—varied, instructive, entertaining, and unexceptional.—N. Y. Sun.

Grand Diet of Worms

DISSOLVED BY

WATSON'S SCHOLEDION.

WHICH is offered to the public as a perfectly safe, pleasant and efficacious EXPELLER OF WORMS from the human System. As this preparation contains no mineral ingredient, the administration of it to young children is not followed by the dangerous, and in many cases, fatal consequences resulting from the use of many of the Vermifuges at present before the public.

A compliance with the directions accompanying it will prove it deserve the characters claimed for it above, while the promptness and painless character of its action render it the cheapest and safest remedy for worms hitherto discovered
