THE LATEST NEWS.

The English Mail, and also American and Colonial Mails, were received at the General Post Office, Charlottetown, on Saturday night last. The news from Europe does not seem to be of a very important character.

The British Parliament re-assembled on the 13th after the Christmas recess.—The Marquis of Clanricarde gave notice of his intention to re-introduce his bill of last Session, on the Land tenure in Ireland.—The Chancellor of the Exchequer announced the Scotch Reform Bill for the 17th, and that the introduction of the Irish Reform Bill would depend on the general progress of business.—Mr. Disraeli moved for leave to bring in a bill to amend the law relating to election petitions, and to provide for the more effectual prevention of corrupt practices at elections. In the debate which followed the scheme did not find much favor with the House. The bill, however, was brought in and read a first time.—In the House of Lords, on the 13th, Mr. Lefevre gave notice that on the following Tuesday he would call attention to the failure of the negotiations with the Government of the United States touching the case of the *Alabama*.

Rumors were current in London that Lord Derby was going to lay aside the cares of office, and that he was to be succeeded in the Premiership by Lord Stanley, who was to be raised to the Peerage. On the subject of Lord Derby's retirement, the *Times* remarks that no party has a right to expect from its leader such devotion as is involved in the continued discharge of the duties of office on the part of that high functionary. The *Globe*, however, gives a contradiction to the report of Lord Derby's retirement.

The arrest of Capt. McKay at Cork, on the 7th, as announced by telegraph, is considered most important. There appears to be no doubt that he is the man who was the prime instigator of the recent outrages, and he is certainly an important Fenian leader. He has been identified as the head of the party who attacked the Martello Tower, near Queenstown, and the police have evidence to show that he was the leader of the intended raid on Macroom Castle, which design was frustrated. The capture of McKay has brought about a state of feeling among the dangerous classes which has led to disastrous results. On the 10th, the city of Cork was in a state of tumult, and the Police were obliged to charge on a mob which hooted and pelted them with missiles of various descriptions. Some of the constabularly were fired at several times while on duty by a number of men who followed them. Two men have been arrested, charged with attempted murder. Other outrages are reported. On the 13th McKay was fully committed for trial, on a charge of high treason.—On the 14th, in the Dublin Commission Court, Patrick Lennon was sentenced to 15 years penal servitude, for treason-felony. The Fenian prisoners charged with being concerned in the Clerkenwell explosion, were brought up before the Bow Street Magistrates, on the 11th, and again remanded till the 18th, the prosecuting counsel stating that he would, by that time, have some important additional evidence to bring forward.

On the 10th, a Town's Meeting was held in Manchester to consider the Irish Church question. The defenders of the establishment, accepting the challenge which they considered had been thrown down by the "advanced" Liberal party, mustered in strong force—taking a prominent and noisy part in the proceedings, and succeeded in defeating the object of the Meeting, which was to obtain a condemnation of the Irish Church Establishment.

The Irish address of Loyalty to the Queen was presented to Mr. Hardy, the Home Secretary, on the 11th. It had obtained 22,603 signatures, and was presented by a deputation of about 50 persons, who were introduced by Mr. Digby Seymour. The address will be laid before Her Majesty.

An addition of some importance has been made to the ironclads of the British Navy. The *Hercules* was floated out of Dock, at Chatham, on the 10th. She will be the most heavily armed ship yet constructed, and is designed to carry 14 guns. Eight 18-ton; two 12-ton; and four 6½-ton guns. The ship is protected by 9-inch plates, and is described as "a smart sea-going frigate, strong as a tower, and fine in her line as a mail-boat, and yet prepared to meet all the winds that blow." Her burthen is 5,226 tons.

FRANCE.

The *Epoque* says a rumor is current that a complete administrative change is about to take place in a Liberal sense.

The expected "difficulty" between France and Prussia relating to the presence on French territory—in the Alsacian villages bordering on the Rhine—of Hanoverian officers and soldiers, is quite obviated.

The *France* says:—"The negotiations of Austria with Rome for the revision of the Concordat encounter serious difficulties. Baron von Beust has demanded the complete abolition of the present Concordat as a preliminary step, but the Pope wishes that it should serve as the basis for the modifications proposed." On the other hand, the *France* adds:—"Prussia is endeavouring to establish more intimate relations with Rome, and we believe that she has taken steps to obtain the establishment of an Apostolic Nuncio at Berlin."

ITALY.

The representatives of the Italian and Swiss Governments have signed the final protocol of the treaty establishing the frontier line between the province of the Valte hine and the Canton Girsons.

A grand review of the Pontifical troops took place at the Villa Borghese, Rome. General Hanzler distrbuted many decorations among the officers and men.

THE EASTERN QUESTION.

VIENNA, THURSDAY.—The *Austrian Correspondence* says:—"Notwithstanding the denials of the *Journal de St. Petersburg*, we have received from an authentic source the assurance that the Prussian Cabinet has not concealed from Servia its disapproval of any sort of incitement or protection being given by that State to revolutionary intrigues against the Porte. Prussia has at the same time declared her conviction that it was the duty of the Servian Government not to oppose the wishes of the European Cabinets in this respect."

THE ABYSSINIAN EXPEDITION.

ADEN, Jan. 20.—Letters have been received from the Magdala captives dated Dec. 16, these having come down very quick. They were all well, but very much disappointed at Menilek, Prince of Shoa, having, after been actually in sight of Magdala, returned to his own country without doing anything towards capturing it. It remains to be seen whether the Wagshum will attack Theodorus or not. By latest dates from Annesley Bay water was still in great demand there; the supply through so many steamers constantly condensing was very much better, although the cost of doing so with coals was considerable. Some 10,000 tons of coal have already been sent there, and much more is on the way. The mortality among the mules continues, while great numbers have strayed away and been lost altogether. They are still arriving from the eastward, and three shiploads from Kurrachee are now in port here *en route*. At the time the last letters left Annesley Bay there were 115 vessels at anchor there, and since then a large number of sailing transports, with commissariat stores of every kind, have passed through this and added to the number. Several steamers have towed sailing transports down to Berbera, on the African coast (due north of this) to load up with camels, the sailing vessels returning to Annesley Bay under sail, while the steamers either took back a deck load of sheep for the expedition, or proceeded to Bombay for further service. Several reconnoissances had taken place from Senafe. The troops were in excellent health and spirits. The American tube wells, it appears, are doing well; they were of no use in the plains, but at Koomayloo they have succeeded admirably, and clear good water has been obtained. The coast is now reported to be regularly lighted up, yet sea dangers in the shape of shoals and "patches" are cropping up continually.

ALEXANDRIA, Sunday.—Advices received here from Annesley Bay to the 29th ult. announce that Sir Robert Napier had arrived at Senafe. The Punjaubees landed yesterday. It was reported that a skirmish had taken place between Abyssinian freebooters and a British reconnoitring party in the direction of Antalo.

For the news from the States we refer our readers to the Telegrams published in another column of this day's issue. The passage of a Bill impeaching the President for certain political offences, seems to be the latest sensational affair. The leading organs in the United States scout the idea of a war with England. The New York *Times* says in that case "*The Southern Confederacy, its dingy garments rolled in blood, would have an awful resurrection.* It would be supported by British gold, and animated with the wildest hatreds and thirst for vengeance. Canada, incensed by Fenian raids, and aided by the British fleets and armies, would give us an ugly fight on our northern border. Our sea coast—Atlantic, Gulf of Mexico, and Pacific—would be menaced by British cruisers, and we would do well if our fleets matched those of England, broadside to broadside, on the high seas. The Mormons and the Indians, from the Blackfeet to the Comanches, would infest the heart of the continent with hostile hordes."

NOVA SCOTIA.

The Legislature, it was expected would adjourn on the 25th inst. The Repeal movement continues to be the subject of greatest interest. The Halifax *Reporter* says the distress among the fishermen of that place has not yet reached its worst. The next two months will be harder than any, and spring will come to these poor men and find them without seed to sow.

One of the most destructive fires that has occurred this year, broke out on the 22nd, in a range of buildings on Agricola street, consisting of three cottages, and a two-storey workshop, and resulted in the entire destruction of the whole range, the inmates losing almost all their furniture and effects. On Sunday evening, the 24th, fire was seen issuing from the tower of the Grafton street Wesleyan Church. Fanned by a high wind, the fire spread rapidly over the building, and it was soon apparent that any attempt to confine its progress short of the destruction of the church was futile; and therefore every effort was directed to prevent the fire from extending to adjoining buildings. The church was entirely consumed.

NEW BRUNSWICK.

The newspaper proprietors of St. John, N. B., at a meeting held a few days ago, reiterated their former objections to newspaper postage, and appointed Messrs. Willis, Livingston and Ellis a committee to give publicity to resolutions passed, and to take such steps as they deemed necessary to give them effect.

It was reported at Fredericton that Mr. Skinner would be appointed Judge of Probates, with a seat in the Legislative Council.

The merchants of St. John are moving in the matter of the tariff. At a recent meeting, it was unanimously resolved to represent to the Privy Council the expediency of making the following alterations in the existing Dominion tariff:—

"That the duties on sugar, yellow, Muscovado and clayed, be one cent. per pound, and 15 per cent. *ad valorem*. The duties on the higher grades of sugar to remain the same as at present.

"That the duty on molasses be reduced to two cents per gallon and ten per cent. *ad valorem*.

"That no duties be imposed on Breadstuffs of any kind.

"That Printing paper and Type be admitted duty free."

NEWFOUNDLAND.

The R. M. Steamer *Merlin* arrived at Halifax on the 23rd, from St. John's. The weather was extremely cold. The thermometer on the 2nd Feb. was down to twenty degrees below zero; and for many days ranged at eight degrees. The Legislature, which is now in Session, has declared in favor of Confederation. At the opening of the Legislature the Governor in his speech spoke favorably of Confederation. When the address was debated, Mr. Glen moved an amendment to the effect that no action be taken in the matter until the dissolution of the present Legislature. The amendment was lost by a vote of 16 to 10. The *Ledger* says: "the defeat of the amendment shows that a majority of the Legislature is in favor of immediate action."

THE Ontario correspondent of the St. Croix *Courier*, in a recent letter to that journal, says:—

"A leaf from P. E. I. History," on the demise of the late Hon. Eward Whelan, of that fine Island, is written with descriptive vivacity. In that leaf, I think I discern the writer, and as he walks 'Mark's Street,' to teach the wayward passions how to move," the remembrance of his former friend's gratulatory on such a masterly effort, may aid in stimulating his pen to other contributions for publicity."

The article referred to, and which we republished some few weeks ago, was written by Mr. Bowers, we believe, formerly a resident of Charlottetown. He enjoyed the confidence of Mr. Whelan, and contributed several articles for the *Examiner*, amongst these were the letters of "Conservative," which were attributed to *some of the ablest men in the Colony*, and which did not a little to infuse a better spirit in our political life. Certain *strange* political upheavings in our community have lately occurred; and the result having, in some instances, been a displacement of worth for the elevation of pretentious effrontry, has tended greatly to disgust some of our respectable politicians, and altogether to indispose them to take part in discussions, even when bearing upon the most important of our public interests—seeing that the discussion of them is too much controlled by parties who in their present sphere of action are certainly out of their proper place. Mr. Bowers is, no doubt, fully aware of this; and we, therefore, much regret to think that the aspect of public affairs amongst us is such as can afford him but few inducements to return to the Island, and resume his place amongst us as one of our most enlightened young men, and enunciate his own liberal and enlightened views in opposition to such lame *logic* and distorted facts as would, under existing circumstances, be opposed to them. We feel certain, however, that wherever Mr. Bowers may become a permanent resident, his splendid talents, joined to his straight-forward, upright, and honorable character, will enable him to *make his mark*, and establish his reputation as a man of worth and genius, and that such may be the case is our most earnest wish.

OUR *FAREWELL* TO THE *CAD* OF THE *PATRIOT*.

A certain reptile there exists
Of questionable race,
Harmless within its miry bed,
But noxious out of place.

For when, from out its native slime,
It crawls into the day,
'Tis sometimes found disgustingly
Obtrusive in your way.

The bloodless thing, even then, excites
No sentiment of wrath;
But yet, perhaps, with ready switch,
You switch it from your path.

Your stroke, perchance, takes such effect,
It cuts the thing in two;
But think not then that it will die,
As larger beast would do.

The parts together quickly crawl,
And reunite again;
Or, where you had but *one* before,
Of reptiles you have *twain*.

Just such a reptile is *the Cad*,
In reproductiveness;
A sort of human zoophyte,
Of endless worthlessness.

Of it we know but 'tis a thing
Which growth in vileness finds;
And which no law of higher life
Or gentle instinct binds.

Crush it you may — resistive power
Its mollusk frame hath none —
But self-renewed, however crushed,
'Twill crawl once more i' th' sun.

Then deathless though the thing may be,
And loathsome to the sight;
Since it can neither shield itself
Nor yield the sport of fight,

'Tis folly to regard its *course*,
Or to molest the thing:
Though oft you crush it, 'twill nor gain,
Nor satisfaction bring.

This reasoning we receive as just;
So now, poor *Cad*, farewell!
No more shall line of ours, of thee
Or thy low malice tell!

☞ WE have received a Communication concerning the "mercenary hierlings" of the *Patriot*. But owing to the amount of mail matter on hand to-day, we are unable to find time to look into it.

PROCEEDINGS OF THE CITY COUNCIL.

JANUARY 29, 1868.—Present—His Worship the Mayor; Councillors Morris, Reddin, Pollard, Laird, Hooper, Yates, Mitchell, Brecken and Butcher.

The minutes of last meeting were read and adopted. His Honor the Recorder laid before the meeting his opinion, in writing, respecting the office of Assayer of Weights and Measures, and stated that he had given the Assayer certain instructions respecting his duties generally.

On motion of Councillor Yates, seconded by Councillor Mitchell, it was ordered that instruction be given to the City Surveyor to make a survey of the City Wharfs, and report on the present condition of the same, accompanied by an estimate of necessary repairs to place the said wharfs in the like condition as when leased to Silas Barnard.

Councillor Morris, from the Committee appointed to examine an account of W. & D. Fraser, for finishing the Market Hall, presented a report of the said Committee, which was read and ordered to be laid on the table, and was to the effect that the said Committee had examined, as far as possible, the accounts in question, and found the sum of £73 13s. 3d was charged for extra work, although a sum not exceeding £20 was all that had been voted by the Board for the extra work to be performed. That the Contractors had performed the work under the direction of the Superintendent of the Market-House Building, Mr. Butcher, and therefore claimed the full amount of their account. That the Committee were of opinion that, had a plan and specification of the whole work been obtained at the outset, from a competent architect, the greater portion, if not the whole, of those additional or extra expenses would have been saved, and the upper hall of the building, particularly, would not present the unsightly appearance it now does

After some discussion on the subject, the Council adjourned until 10 o'clock to-morrow

CITY COUNCIL, 30th Jan'y.—Council met pursuant to adjournment. After the minutes of the previous day were read and approved, the Board resumed the consideration of the report of the Committee on the account of Messrs. Fraser, for completion of Market Hall, when, upon motion of Councillor Laird, it was ordered that the sum of Eighty-nine pounds be granted and paid to Messrs. Fraser in full, for their contract, including extra work, reserving nine pounds of said sum until the painting be finished.

Councillor Laird, Chairman of the Committee, appointed at a former meeting of Council, to report on the necessity of establishing a Poor & Work House in Charlottetown, presented the Report of said Committee, accompanied by a draft Memorial proposed to be laid before the Legislature at the ensuing Session. On motion of Councillor Mitchell, seconded by Councillor Reddin, it was ordered that said Report be received, and that His Worship the Mayor be requested to cause the said memorial to be engrossed and forwarded to the Lieutenant Governor in Council, together with the said Report, that the same may be presented at an early day.

On motion, it was ordered that instruction be given to the City Surveyor to cause the Cellar Hatches in the burnt district, Ward No. 1, of this City, to be securely and permanently filled forthwith.

The Clerk read a communication from Thos. Alley, Esq., Chief Engineer of the Fire Department, relative to the Water Tank at the corner of Kent and Prince Streets; also read an account and an application from P. Gormley, the contractor, for extra work at said tank. On motion of Councillor Laird, seconded by Councillor Pollard, it was ordered that the sum of £31 2s be paid P. Gormley for the balance of the contract for said tank, and that his account for extra charges be laid on the table until the Chief Engineer shall certify that the said tank is made water-tight. An amendment to said resolution was submitted on motion of Councillor Mitchell, seconded by Councillor Hooper, as follows:—That the said contractor be paid the balance of his original contract, when the certificate of the Chief Engineer, to the completion of the work to the satisfaction of that officer, be laid before the Board. The question was then put on the amendment, and carried on a division of five against four.

The Chief Engineer having submitted a further certificate respecting the said water tank, to the effect that the work had been completed to his satisfaction, it was, on motion, ordered that the balance of £31 2s, due on the contract, be paid forthwith.

The Report of the Committee above alluded to is to the effect—

That whereas pauperism and crime are largely on the increase in this City, caused chiefly by the influx of a floating population, such as in every country seek relief. It is consequently necessary that some provision be made for the care and maintenance of the helpless poor—providing suitable employment for those who are able to work, and for the punishment of crime and the reformation of offenders.

"*Resolved*, Therefore, that the Council present a respectful memorial to the Legislature, praying that a suitable building be erected in the vicinity of Charlottetown, at the expense of the Colony."

That the Council are of opinion that the said building should consist of a Poor House, with Hospital attached, the latter for the care of invalid paupers (not afflicted with contagious or infectious diseases,) the former for the reception of paupers unable to work, and also a Work House for the reception of indolent paupers, and juvenile and other offenders, convicted of minor offences, where the former might be made to work for a livelihood, and the latter punished by hard labor for their crimes, instead of being imprisoned in the common Jail, there to associate with old offenders, and to be schooled for the perpetration of greater crimes.

That in the opinion of the Council a large portion of the funds required for the support of such an institution, might be raised from the labor of the inmates themselves, and the remainder from the following sources, viz: 1st, by a small tonnage duty on shipping for the support of the hospital to which disabled seamen might be sent. Secondly, a portion of the sum annually voted by the Legislature for indigent paupers, might be transferred to the institution, with the recipients of such monies. Thirdly, an annual grant from the public chest which could not be reasonably objected to, as the most distant settlements in the Island would have the privilege of sending their poor to the institution; and fourthly, any further sum that would be required might be reasonably expected from the subscriptions of private individuals, charitable societies and collections from the congregations of the different denominations of Christians.

Adjourned. A. McNEILL, Reporter.

QUEEN'S COUNTY REGIMENT VOLUNTEERS.

On Thursday last, the 20th inst., a meeting of the Officers of the Queen's County Regiment Volunteers, was convened by Lieut. Col. T. Heath Haviland, in the Court House in the Colonial Building, Charlottetown, for the purpose of taking into consideration certain questions tending towards the welfare and advancement of the Volunteer Companies of the County, and the expediency of forming a County Rifle Association.

The following Officers of the Regiment were present:—

Lieut. Col.—T. Heath Haviland.

Majors.—Henry Beer and Ralph Mabon.

Captains.—Thomas Morris, James Wyatt, J. W. Holman, Neil McEachern, Neil Currie, James Woods, Samuel McRae, Edward Stewart, George Wright, Henry McIntyre, Edwin Locke, Martin McDougall, Albert Hensley, Peter Wilson, Angus Darrach, Elijah Purdie, and F. S. Longworth.

Lieutenants.—George Stanley, G. P. Tanton, Malcolm McLeod, Angus McPhail, Allan MacDonald, J. P. Wood, Lauchlan McMillan, William A. Leard, Chas Kelly, Donald McQuarrie, Kenneth McInnis, Gilbert Bell, H. A. Holl, William Full, Henry McGregor, John Newson and Artemas Lord.

Ensigns.—John Campbell, J. C. Hooper, Charles Quirk, Donald McKay, Donald MacDougall, Albert Morrow, James Kennedy, William Bryenton, Thomas Lourie, William Sobey, John Campbell, Hector McLean, Lemuel Poole, Alexander Miller, David Harper, and John Moore.

On motion of Major Beer, Lieut. Col. Haviland took the chair, and F. S. Longworth, by request, acted as Secretary.

The first question brought before the meeting was that regarding the ammunition issued gratis by the Government for the use of the Volunteers. It was urged by influential members of the Regt. that to enable our Volunteers to compete successfully with those of our sister Provinces as much ammunition as possible should be placed at the disposal of all the Companies, free of charge.

After considerable discussion, the following Resolution, moved by Lieut. Full of the "Prince Edward Company," and seconded by Capt. McIntyre, of the "Irish Volunteers," was put to the meeting, and carried unanimously:—

"This Meeting believe that the present amount of ammunition is not sufficient for the purposes of Rifle practice, and request the Colonel of the Regiment to confer with the Commander-in-Chief for the purpose of obtaining an annual allowance of 50 rounds of ammunition per man, believing that that amount at least was required for effective practice."

The next topic considered was the advisability and necessity of procuring an efficient Band for the use of the Volunteer Force, and the following Resolution, on motion of Capt. A. Hensley, of the "Prince Edward Company," seconded by Capt Thomas Morris, "Charlottetown Artillery," was unanimously adopted:—

"That in the opinion of this meeting it is absolutely necessary for the success of the Volunteer movement, that a sum sufficient, out of the annual military grant, be appropriated to obtain the services of a Regimental Band."

After the above two important matters to the Volunteer interest were disposed of, it was moved by Major Henry Beer, and seconded by Lieut. Artemas Lord of the "2d City Artillery," and—

"*Resolved*, As the opinion of this meeting that a County Rifle Association be formed."

This Resolution being unanimously agreed to, Major Beer, Captains Morris, McIntyre, McRae, Longworth; Lieuts. Full and Lord were appointed a Committee to draw up a code of bye-laws, rules and regulations for the future Government of the Association.

On motion, that the proceedings be published in the papers of the County, the meeting was adjourned till Wednesday the 4th day of March next at 11 o'clock, when the code of Bye-Laws will be submitted to the members for their approval. All Officers of the Regiment are requested to be present then in uniform. A full attendance is expected.

F. S. LONGWORTH, Sec'y.

Charlottetown, Feb. 21, 1868.

ONE or two articles intended for this day's issue, also several advertisements, are crowded out for want of space.

IRELAND.—Mr. Garvie writes from London to the Halifax *Chronicle* as follows:—

"In the midst of the Irish difficulty it is somewhat consoling to be told that Ireland is steadily improving socially and commercially. Though less land in the aggregate has been under tillage, the total value of the crops raised in 1866 was £28,000,000, three millions more than the value five years before. Railway traffic and exports of linen increase, we are told, and the wages of the peasantry are between fifty and eighty per cent higher than at the time of the great famine. The per centage of crime has decreased remarkably, so has that of pauperism and even of emigration."

RIFLE COMPETITION.—The members of the "Dundas Rifle Corps" mustered at Southport, on Wednesday, the 12th inst, for their annual Competition for Prizes. The day being very cold, the average was not as high as in all probability it would have been had the weather been warmer, but, cold as it was, the Shooting on the whole was very fair. There were 5 rounds fired at 200 yards, and 5 at 400 yards, making an average of over 23 points per man. There were 39 bull's eyes, 74 centres, and 73 outers made. The following is a list of the successful competitors:—

	200 yds.	400 yds.	Total.	Prize.
Donald McLeod,	19	13	— 32	£1 10 0
Alex. McLellan,	19	13	— 32	1 0 0
Matthew Jardine,	18	13	— 31	0 15 0
Archd Stewart,	16	12	— 28	0 10 0
Alexander Jones,	13	14	— 27	0 7 0
Robert Smallwood,	16	10	— 26	0 5 0

Southport, Feb. 21, 1868.

SMALL POX IN TORONTO.—The *Telegraph* says that this dreadful disease is committing fearful ravages in some quarters of the city of Toronto, though very few people are aware of the fact, and that the scourge is of the most violent form, and has spread to an extent never before experienced in Toronto. Hardly a day passes without one or more deaths occurring. The disease is confined almost entirely to the poorer classes, persons who would and should be in an hospital, were there such an institution open in the city. Through visiting each other's houses the disease has spread rapidly, and there is every danger of its assuming even a more dreadful form and committing more fearful ravages, unless something be done for the sufferers. The same paper adds, as an instance of the manner in which it spreads, that a girl employed in a large tailoring establishment was a short time ago attacked by the disease, and, of course, compelled to leave work. Before she was thoroughly recovered she returned to the shop, and the dreadful result was that several of her companions caught the disease from her, and are now prostrated with it. Work has almost ceased in the establishment, and the dreadful story having leaked out, the proprietor of the establishment finds it almost impossible to sell his clothes, his former customers fearing that they might catch the infection therefrom.

The Amherst *Gazette* reports a sad accident which occurred at River Philip a few days ago. A man named McCoy left his house and went into the woods to work. As he did not return home at the time he was expected, his little boy went into the woods to look for him, where he found the unfortunate man lying upon his face with a tree across him, two limbs of which had pierced his back. He had remained in that position for four hours, suffering the greatest agony. He was removed to his home, and at last accounts he was still living.

A severe famine prevails in Tangier and Tetuan. Mail details regarding the extent of the suffering have been received at the State Department in Washington, from the United States Consul at Tunis.

The death is just announced of the Rev. Mr. McMahon, a Kildare priest, who attained the extraordinary age of 107 years.

The condition of Garibaldi is more serious than was supposed. The physicians have declared that the air of the Island of Caprera is injurious to his health.

There is an odd notion that an alliance has taken place between Austria and Prussia. Austria is surely a little more noble than to kiss the chastising hand so soon—a little too wise to play the lamb to the wolf.

In the city of London there are 30,000 Jews, of whom 2000 are Christians. In the city of Berlin, Prussia, there are 18,000, of whom 4000 are Christians. In all Europe there are reckoned to be 3.431 700, of whom 20,000 have been converted to Christianity.

MELANCHOLY OCCURRENCE AT SEA.—On the 8th of January last, at 9.30, p. m. while Mr. Neil Dugald Campbell, son of Mr. John Campbell, Mason, of Little Sands, P. E. Island—being an able seaman on board the brigantine "Express," Capt. Young—on a voyage from Swansea to Cuba, West Indies, and when along with two of the seamen, engaged in furling the fore-top-gallant-sail, the ship gave a heavy roll, carried away the foremast with three men, two of whom were rescued; but, sad to relate, Mr. Campbell slipped his hold and was lost. The deceased was 22 years and 5 months of age. Being a sober and industrious young man, he was much esteemed and respected by all who had the pleasure of his acquaintance. By this accident, his parents have been deprived of that endearment and comfort which his untimely death has occasioned; but they mourn not as those without hope. Mr. Campbell left this Island last fall, on a voyage to Bristol, England.

People—especially those in the country—often want to know the best and cheapest place to purchase their Dry Goods. To all such we would say, give ROBERT YOUNG a trial, confident that those who favor him with their patronage will not be disapointed. He is now offering the balance of his stock of Winter Goods at cost price, and White Cottons and Hoop Skirts at prices that requires to be seen to be believed.

NEW NAME FOR A SETTLEMENT.—On Friday evening, the 14th inst, a public meeting of the inhabitants of Sconser and County Line, M. H. Road, was held in the Schoolhouse, for the purpose of giving one new name to the two places.

After the meeting was organized, the following resolution was passed:—

Moved by Mr. Norman Stewart, seconded by Mr Thomas Mabon, and

RESOLVED, That the settlement extending from the Rona Bridge to the County Line on Wood Islands and Montague Road, and from Mr. Edwin Roberts' to the southern boundary of Lot 58, on M. H. Road, be hereafter called "Caledonia"

NORMAN STEWART, Sec'y.

Caledonia, Feb. 17, 1868.

Married,

By Mr. J. J. Rice, B. C. M, on the 14th inst, Mr. Charles Murray, to Mary Ann, third daughter of Mr. John Frost, all of Lot 7.

On the 11th inst, by Mr. J. J. Rice, B. C. M, at the family residence of the bride, Mr. Donald McKay, of New London, to Lydia, youngest daughter of Mr. Wm. Rix, of Little Miminigash.

By the Rev. Dr. Knox, on the 20th inst, Richard Smith, Esqr, of Pownal, to Cassie, the younger daughter of Deacon John McGregor, Lot 48.

Died,

At Eldon, Belfast, at the residence of his son, on the 25th inst, after a severe illness of nearly two months, James Moore, Esqr, aged 74 years. Deceased was a native of London, England, and emigrated to this Island about forty-eight years ago. He was a man of earnest Christian piety, seemed to live near his Saviour, and death has only removed him from the sorrows and pains of earth to a brighter world. He saw many changes in his adopted country, and has left a numerous family of children and grand-children, and many well-tried friends, to mourn his departure.

At Charlottetown, on Monday, the 24th February, after a short illness of four days, Mr. James McKenna, aged 57 years. The deceased was a native of County Monaghan, Ireland, and emigrated to Prince Edward Island about thirty years ago.

On Tuesday, the 26th inst, much regretted, Ellen, eldest daughter of the late Charles Stewart, Esqr, Attorney General of this Island.

Of small pox, at Chicago, Ill., on Feb. 2nd, 1868, James McDonald, a native of this Island, in the 26th year of his age.

At Pleasant Valley, Malpeque Road, Lot 67, on the 25th January, after a painful illness, borne with patient resignation to the Divine will, Mr. John Murray, aged 82, a native of King's County, Ireland. He emigrated to this Island in 1818, and leaves a large circle of relatives and friends to mourn his loss.

At Launching Place, Lot 55, on the 14th inst, after a short illness, Theresa, daughter of Mr. Donald Walker, in the 24th year of her age.

In New York, on the 12th inst, in the 26th year of his age, Mr. William Galloway, a native of Charlottetown, leaving a wife and two children to mourn the loss of a kind father and an affectionate husband.

Legislative Library,

FEBRUARY 25, 1868.

ORDERED, by the Committee, that all Books issued previously to the 14th of the present month be returned before the opening of the Parliamentary Session on the 4th of MARCH next.

NEW ADVERTISEMENTS.

IMPORTANT
Positive & Unreserved Sale!
AT AUCTION.

By order of the Executors of the Estate of the late George Poole, Esquire, Merchant.

THE Subscriber, being instructed by the Executors, will sell by Public Auction, commencing on the 18th day of MARCH next, at 11 o'clock, a. m., at the Store and Warehouse of the late Mr. POOLE, Main Street, Georgetown, the

Whole of the Extensive and well-assorted Stock of Goods now on hand,

comprising a varied and General Stock of Dry Goods, Groceries, Hardware, Round and Flat Iron, all sizes, and Earthenware, German, Blister and Cast Steel, Boots and Shoes, Cotton Warps, in all Colors, Grey and White Cottons, and Fancy Prints, Dress Goods in variety, Striped and Fancy Shirts, White and Fancy Flannels, Osnaburgs, Bags and Bagging, Canvas and Wadding, Blankets and Blanketing, Bed-ticks, Silk and Cotton Handkerchiefs, with Dress Trimmings, Ribbons, Threads, Shawls and Scarfs, in variety, and almost every thing contained in a first-rate Stock of Merchandize; Ready-made Clothing and Oil Suits, Hats, Caps and Bonnets, in best styles, with a well selected stock of Hardware, Groceries, containing Tea, Molasses, Soap, Starch, Cavendish and Twist Tobacco, Dye-woods, Whiteing, and every thing required. Spices of all sorts, Shoe Threads, Wrapping Papers, Cutlery, in knives of all sorts, Scissors, Shears, &c.; Salt in bulk and in bags, Beef in puncheons and barrels, Pork, Fish, Flour and Cornmeal, Paints and Oils, including Sweet Oil, Wraught and Cut Nails, Spikes and Cordage, a lot of Grindstones, 150 new Pork Barrels, Platform and other Scales and Weights, and complete Shop fittings; Boards, Plank and Shingles, 1 superior Milch Cow and one handsome young Horse; also, 1 set of Ships' Moulds, with almost everything required to make a complete Establishment. The Sale will continue from day to day till all be closed off, and as this sale is to be WITHOUT ANY RESERVE, and the Stock of such extended variety, it offers an opportunity not of frequent occurrence to Country Merchants and Traders, to fill any deficiencies their Stocks may exhibit, nearly at their own prices.

TERMS—CASH.

F. P. NORTON, Auctioneer.

Georgetown, 28th Feb'y, 1868.

BELL'S
TAILORING ESTABLISHMENT.
NOTICE!

THE UNDERSIGNED takes this opportunity of returning thanks to the large number of his customers who have so promptly complied with his terms and paid for their work on delivery. There are, however, a considerable number who have not paid thus promptly; and he respectfully requests all such to call and pay their respective accounts without delay. He would further remind them that their respective amounts, although a trifle to each, would in the aggregate materially assist in making up some of the deficit which their indebtedness has occasioned.
