"Ready Mix" Plant Starts Operation

With the opening of Schurman's "Ready Mix" Concrete Plant in Charlottetown it is now possible to buy Concrete already mixed and ready to pour into forms. Ready Mix Plants are operating in most of the principal cities in Canada and the U. S. A. with the Charlottetown the fifth to start in the Maritimes. Other Maritime cities with Ready Mixed Concrete Plants are Halifax, St. John, Fredericton and Moncton. At the Charlottetown Ready Mix Concrete Plant clean, hard gravel and sand and fresh cement is accurately weighed into transit mixer trucks. The transit mixers thoroughly agitate the dry aggregate and then add in the necessary amount of water. This operation is so timed that when the mixer arrives at the job it is prepared to unload Ready Mix Concrete batched and mixed to the customers specifications. Mixes are recommended, and samples of the finished concrete tested regularly by a nationally known firm of Consulting Engineers and Inspectors. The Plant will deliver any quantity from 1-2 cubic yard up and if advantage is taken of the 5 per cent cash discount the price runs from \$18.05 a yard for lots of 25 yards or less to \$15.49 a yard for orders of 100 cubic yards or more. Ready Mix Concrete Plants owe their popularity to the simple fact that they consistently turn out better concrete, faster, cleaner and cheaper than other methods of manufacture.

They Are Jolly Good Fellows! After bouncing the bride and groom, a delicious lunch was served and the remainder of the evening was spent in dancing. The music was furnished by Webster's orchestra and Miss Rebecca MacAusland and Mr. Lloyd MacDonaid.

NEWARK, N. J., June 21-(AP)—A fog-bound C-46 cargo plane rode a radio beam almost into the transmitter building at Newark Airport today and crash-landed in an adjacent street. No one was injured.
