

THE DAILY EXAMINER.

NOVEMBER 8, 1895.

THE COMPANY HE KEEPS.

It is not always right to judge a man by the company he keeps. If it were, the proprietor of La Patrie evidently thinks that Mr. Laurier is in a bad way...

NOTES AND COMMENTS.

The first load of native Newfoundland coal was brought into St. John's on the 1st inst. The samples were given away to all who applied, and it is said that the users speak highly of the coal, declaring it to be equal to the Cape Breton product.

THE CANADIAN MAGAZINE.

It is exceedingly pleasant to notice how many of our public men are taking an active interest in Canadian literature. The November Canadian Magazine, Hon. Wm. Proulx, Justice, of Toronto, writes of the legend of St. Alban, the only historical saint now possessed by the English Church, and holds that the story has no Canadian origin.

FEVER PREVALENT.

Much sickness and many deaths reported. Important suggestions as to how their ravages may be checked. Fevers are unusually prevalent this fall, a great many cases both of slow and typhoid fever being reported in every locality.

LOOKS BAD FOR CANADIAN CATTLE.

LONDON, Nov. 6.—It is learned that the programme of the British government now being prepared, is to include, but persons entirely excluding all imported live stock, except for slaughter at the British port of entry. This will finally close the market to live Canadian cattle.

THEY QUOTE SCRIPTURE.

It takes a biblical student to follow closely the campaign in New York. Comptroller Fitch pitches into Commissioner Roosevelt and refers him to the 1st Epistle of St. Paul to the Corinthians, 10th chapter, 23rd verse; and Commissioner Roosevelt gets back at Comptroller Fitch by referring him to the 20th chapter of Exodus.

DEATH OF AN ILANDER.

The Advertiser, of Quincy, Mass., gives a long and appreciative notice of the late Hugh McPhail, who dropped dead there on Saturday, the 25th ult. He had just got over an attack of pneumonia and the exertion of separating two dogs who were fighting in front of his house, acting on a weakened heart caused his death.

A SILENT MIRACLE WORKER.

For while you may be thinking of a pleasant beverage merely which it undoubtedly is, Wilson's Invalids Port Wine is making its silent way through your system, and giving new blood. All you drink it with enjoyment for it is a fine rich wine, but it is especially intended for invalids, for it is to them an invaluable help in restoring lost strength, stimulating flagging energies, and making them feel strong and young and hopeful.

"Where a man found his wife."

Read John Newson's ad. in to-day's issue. Big stock of Catholic prayer books opening to day, best assortment and value ever shown here.—Hazard & Moore.

FROM ALL POINTS OF THE COMPASS.

No More Cholera at Hawaii. AUCKLAND, New Zealand, Nov. 6.—According to mail advices received here from Honolulu, cholera has ceased entirely in Hawaii, and the port is clear from infection. Advices received at the same time from Savannah announce all is quiet.

New York, Nov. 6.—The Rev. Dr. Charles H. Parkhurst gave his views of the results of the election today as follows: While deploring the defeat in yesterday's election, I am calm and collected and grateful for the lessons taught us by defeat is distinctly due to three causes. The only one I care to mention today is the intrusion of the excise question.

To Help Along the Spaniards.

New York, Nov. 5.—A local paper says: The Spanish colony of this city has purchased from the estate of Cyrus W. Field, for \$18,000, a large ocean-going tug, which will be turned over to a gentleman and presented to the Spanish Government for the purpose of aiding Spain to guard the Cuban coast against the landing of expeditions of filibusters and to protect Spanish commercial interests.

Many Washouts Reported.

PERRY, O. T., Nov. 6.—Since last night from four to five inches of rain have fallen here and throughout the state. No rain of consequence has fallen here since the middle of July, and water was getting scarce. Passenger trains are detained, and many washouts are reported. It is reported here that the long bridge of the Santa Fe over the South Canadian was wrecked, but this cannot be verified.

German Spies Punished.

PARIS, November 6.—Emile Schwartz, of Alsace, formerly a police commissary, who was, together with his wife, recently arrested here on a charge of espionage, was found guilty and sentenced to five years' imprisonment. Mme. Schwartz was sentenced to three months' imprisonment. Both were deprived of their civil rights and forbidden to again reside in France for a period of ten years.

A Commemoration Devoutly to be Wished.

MEMPHIS, Tenn., Nov. 5.—In an interview James J. Corbett, the champion, said: "I do not believe that there will ever be another finish prize fight in public in the United States. Public sentiment is too strong to be overcome, and the days of the great bare-knuckle prize fights are past, to come no more. There may be sporadic exhibitions and a few flash fights in private, but there will be no championship battles in public. I have fought my last ring battle."

Looks Bad for Canadian Cattle.

LONDON, Nov. 6.—It is learned that the programme of the British government now being prepared, is to include, but persons entirely excluding all imported live stock, except for slaughter at the British port of entry. This will finally close the market to live Canadian cattle.

No Bad News From Newfoundland.

ST. JOHN'S, Nfld., Nov. 6.—The Herald prints a series of letters from correspondents along the south and west coast to the effect that dire distress prevails among the poorer class of people residing there, especially those receiving relief. The recent policy of the government in cutting off half the pauper relief, and the fisheries being poor, leave many hundreds in wretched circumstances. The correspondents predict starvation in numerous instances unless prompt help is supplied by the authorities.

Another Massacre of Christians Reported.

CONSTANTINOPLE, November 6.—Consular reports received in connection with the Darbekir disturbances describe the Kurds as having been commanded by the Sultan to massacre the Christians of the province of Zilan, who was implicated in the massacre of Sassoun. Kurds, under the command of the sheik, it is alleged, entered the town and immediately began an indiscriminate massacre of the Christians. The Catholics, the Armenians and Armenian bishops made a hasty escape.

The Greenway Government's Programme.

WINNIPEG, Man., Nov. 6.—A prominent rural politician gives it as his opinion that the Manitoba legislature will be called in the next month to consider the Greenway government's reply to the last resolution order. Manitoba's answer, therefore, will take the form of a resolution of the legislature, as was the case with the first order. It is expected that the second reply will be to the same effect as the first one, and will formally protest against federal interference. The reply having been sent, it is understood that Greenway will appeal to the electorate for an endorsement of his policy.

The Railway Officials were Dishonest.

THREE RIVERS, Que., Nov. 6.—The hearing of the charges of conspiracy laid by the Canadian Pacific Railway against Conductor B. F. Campbell and ticket clerk and operator Quillette took place yesterday before Magistrate Duffin, of this city. The specific charge was that certain tickets had been sold to passengers on the Grand Piles train by the prisoner Quillette (not stamped), and were collected on the train by the conductor, the prisoner Campbell, and not cancelled by punching, as required by the rules of the company, but returned to Quillette for resale. It was proved conclusively that a private arrangement existed between the conductor and the ticket clerk to divide the proceeds of such tickets resold. Both prisoners pleaded guilty and elected to be dealt with summarily. The maximum penalty for the offence is seven years at hard labor in the provincial penitentiary.

A Decidedly Sensational Story.

WINNIPEG, Nov. 6.—The Manitoba government has sprung a sensation in connection with the separate school controversy. Much has been made by the Catholics since the agitation began of a bill of rights dated 1870, the time of confederation, which declared that the rights of the Catholics then enjoyed were to be preserved. The Protestant contention has been that not until several years later was any such declaration made. However, the document bearing the 1870 date has been in evidence, and appeared genuine, until now when the government discloses the fact that the date on this much discussed document is 1873. By a photographic process it is revealed that the figure three has been altered into a number five, the three being plain in faded ink, while the cipher over it is fresher in black ink. This somewhat startling revelation is made in a pamphlet issued over the signature of Fred. C. Wall, barrister, of Winnipeg.

The Powers Want Order Restored.

LONDON, Nov. 5.—The papers here give prominence to a despatch from Rome giving the contents of a despatch received there from Constantinople. The despatch says that owing to news regarding the con-

stantly recurring disturbance to the detriment of Christians of all nations in various parts of Turkey, the ambassadors of the great powers went separately to the Porte yesterday to urge the immediate adoption of adequate measures to bring about the restoration of order, and declare if such measures are not adopted the powers would decide upon concert upon the steps to be taken. The ambassadors requested Said Pasha, foreign minister, to state what the government intended to do to terminate the state of anarchy at present prevailing. The Post, commenting on the despatch, says the demands made by the ambassadors far exceed what is required by the treaty of Berlin. The results of the reported step cannot fail to be most portentous. It is earnestly to be hoped they will be considered before the powers finally embark upon the policy fore-mentioned. The ambassadors incurred a terrible responsibility. They hinted a threat which means nothing less than the occupation of Turkey. The Daily News says that the beginning of the end. The joint intervention by the powers will signal the treaty of Berlin would be the end of Turkish independence.

LETTER FROM MR. H. J. CUNDALL.

Sir,—A "Tapestry in the City" in a letter consisting mostly of twaddle, recently published in THE EXAMINER, has stated that the Lieut. Governor refused to believe that a strip of shore front of a width exceeding 100 feet, running along the outside of the bank of Government farm, for the purpose of a carriage or roadway, could be construed to mean 100 feet inside the bank. If this be true, it is unfortunate that the Lieut. Governor is obliged to disbelieve the evidence of his own senses. The outside of the existing bank of Government farm is in front of Government House and what remains of the strip of shore front intended for the roadway is stacked off on the up-side of the bank and is not visible from the outside in full view of the front door.

Until the Attorney-General, for reasons best known to himself, started the idea that the "strip of shore front" was on the shore outside the bank no one ever thought of the roadway being placed elsewhere than on the upland lying along the bank. To come to a contrary conclusion than this a forced meaning must be put upon the words "shore front" in the description, and the plan referred to in the statute must be entirely ignored. The plan of itself is quite sufficient for the purposes of the grant and survey, while the description, though precise in some particulars is defective and incomplete in others, and in my opinion was not intended to be anything more than a connecting link between the Act passed by the Legislature and the certified plan in the Registry Office which shows clearly all of the boundaries of the land in question, which the description does not. In this case, the plan and description should not be dissociated, if by any reasonable conclusion they can be reconciled together, but, as I have shown on former occasions, they are in full accordance with each other, and with the intention of the Legislature which granted the land. I, therefore, hold that the strip of shore front for the roadway is on the upland, and not on the shore.

H. J. CUNDALL, Nov. 8th, 1895.
