OUR readers should make a note of the following sound advice given by the Halifax Presbyterian Witness: "Beware of the deaf and dumb men who traverse the country asking aid for institutions in Nova Scotia, New Brunswick, or any other place. It is not proper work in which they are engaged. Keep your money till you are sure it will be devoted to a proper object. GEORGE MAY, a miner, while at work at Springhill, N. S., on Saturday afternoon last, in the west slope, received a blow on the back of the head from the effects of which he died on Monday morning. THE Chief of Police has received a circular giving pictures, names and descriptions of four burglars—Pat Haney, Matthew Kennedy, Charles Morgan and Billy Herrington—who are charged with having on the 29th of January last entered the fur store of Benedict & Ruedy, Cleveland, Ohio, and stolen therefrom fifty sealskin coats, valued at \$6,000. On Feb. 1st Kennedy (aged 25), one of the burglars, was arrested at Alleghany City and Capt. Hoen and Detective Mulligan received the prisoner to take him into the city, leaving Alleghany City, Pa., at midnight. At four o'clock a. m., Feb. 4th, when the train was stopping at Ravenna, O., four men boarded the car, assaulted the officers by firing at them, wounding both seriously, and finally rescued the prisoner and fled to parts unknown. The wound Detective Mulligan received resulted in his death on Feb. 8th. The sum of \$16,000 is offered for the arrest and conviction of the accused. The circular can be seen at the police station. DOMINION PARLIAMENT

Opening Ceremonies.

The Governor-General's Speech

OTTAWA, April 14. At three o'clock to-day His Excellency the Governor-General proceeded in state to the Parliament House, and the members of the House of Commons having been summoned to the Senate Chamber His Excellency was pleased to open the first session of the sixth Parliament of the Dominion of Canada with the following speech:— Hon. Gentlemen of the Senate: Gentlemen of the House of Commons: It is my pleasing duty on the opening of a new Parliament to congratulate you on the general prosperity of the country and on the prospect of a coming season of peace and progress. You will, I am sure, gladly join with the rest of the loyal subjects of the Queen in offering Her Majesty your sincere congratulations on having reached the fiftieth anniversary of her accession to the throne, and in giving expression to an earnest hope that she may be long spared to reign over her vast dominions. The prominent position taken by Canada at the Colonial and Indian Exhibition recently held in London had made the Dominion more widely and favorably known than before, and will, I have no doubt, contribute largely to its material progress by calling attention to the advantages offered by our country to the agriculturist and by attracting the capital necessary for the development of its great natural resources. Negotiations between Her Majesty's Government and that of the United States on the fishery question with respect to which my Government has been fully informed and consulted are still in progress, and will, we may be permitted to hope, result in an arrangement honorable and satisfactory to both nations. Meanwhile, the necessary provisions have been made for the protection of our inshore fisheries. The papers on this subject will be laid before you. Your attention will be invited to the expediency of establishing a department of trade and commerce, under the supervision of a responsible minister. You will also be asked to consider the propriety of making such improvement in the organization of the department of Justice, Customs and Inland Revenue as will provide greater facilities for the despatch of the large and increasing volume of business with which these departments are charged. A measure will be submitted to you, giving representation in the Senate to the Northwest territories in addition to that which they now possess in the House of Commons. Other measures will be laid before you, and among them will be found Bills for the amendment of the Acts relating to Government Railways, for providing a better mode of trial of claims against the Crown, for the improvement of the procedure in criminal cases, and for the further amendment of the Chinese Immigration Act. Gentlemen of the House of Commons: You will be asked in order to provide against the possible interruption of the navigation of our great inland waters for an appropriation in aid of the construction of a canal to connect the waters of Lakes Huron and Superior at Sault Ste. Marie. The accounts for the past year will be laid before you, as well as the estimate for the ensuing year. They have been prepared with due regard to economy and the requirements of the public service. Honorable Gentlemen of the Senate: Gentlemen of the House of Commons: I commend these important subjects, and the others which may be laid before you, to your best consideration with full confidence in your earnest desire to promote the development and well being of Canada.

Terrible Death.

HALIFAX, April 13. A young man named McDonald, who had been teaching school near Antigonish, disappeared a couple of weeks ago. Search was made and his body was found on an unfrequented road a few miles from Antigonish. An inquest showed that he drank the contents of a phial of carbolic acid.

Grave Situation in Russia.

New Customs Regulation.

The Department of Customs at Ottawa have provided a new regulation respecting travellers entering Canada by railway or by steamer. Forms are supplied to conductors of trains and masters or pursers on vessels. These passengers will fill up specifying what dutiable articles they have in their luggage and making oath thereto. This will obviate the loose and unpleasant search heretofore in operation, unless the passengers prefer the old plan when of course, his baggage will be searched. The senior member of a family may, if sufficiently acquainted with the contents of the baggage of the whole party, be allowed to include all such baggage in one entry. Goods subject to duty not exceeding \$500 may be passed under the new arrangement. Jewelry that has been worn for at least six months as personal ornaments may be admitted free of duty. Wearing apparel in actual two months' use by the passenger, and not excessive in quantity or inappropriate to the passenger's rank, sex or general financial standing may be admitted free. In the case of travellers arriving in Canada with the intention of passing through or remaining for a limited time the rules are to be interpreted in the most liberal sense. These regulations are rendered necessary because retail dealers complain of goods in excess of requirements, and sometimes sold after arrival, have been admitted free of duty under the old system.

Scare at Ottawa.

Every one is anxiously enquiring why the Governor-General has insisted on having the galleries cleared and closed while he is on the floor of the Senate on the opening of parliament. An official notice has been published in which it is stated that to avoid confusion the galleries of the Senate will be closed while the Governor-General is in the chamber. This step has never been taken before in the history of the Dominion, and the announcement that hundreds who have been looking forward to this great event are to be denied the pleasure, has naturally caused much comment as to the actual reason why the notice was issued. It certainly can bear but one construction and that is that the public have been excluded from the galleries as a precautionary measure, and to prevent any attempt that might be made to do bodily harm to his excellency.

There are 60,000 women farm laborers in Ireland.

Twenty-eight of the 39 counties of Washington Territory have elected women as school superintendents. Since the earthquake in South Carolina there have been large accessions to the various churches there. Among the many jubilee schemes there is a proposal to re-establish a cathedral and chapter in the Isle of Man. Life is a three-act drama—youth, middle age and old age. The spectators "go out" between the second and third acts. A society composed of native ladies of high rank in Tokio, Japan, recently raised \$5,000 for benevolent purposes by a bazaar. Over 100 public school scholars in Bangor are out of school on account of the measles, the disease raging as bad as in the winter term. From the very backward manner in which spring moves forward it might be suspected that it wears tight skirts and a bustle. The Court Journal says that a large chin in a woman is a feature of beauty. Well a large chin is a great deal better than an active one, anyway. A Spanish scholar at Madrid, Senor Carulla, who has been for many years at work on a rhymed version of the holy scriptures, has just completed his task. The entire work, it is said, contains 260,000 verses.
