New York: Market higher, trading heavy.

NEW YORK

NEW YORK (AP)—Strength in aerospace issues featured an advancing market Thursday. Trading was heavy.

Volume was 8,870,000 shares compared with 8,540,000 Wednesday. It was another abbreviated session due to the New York transit strike which ended Thursday.

Optimism was enhanced by President Johnson's State-of-the-Union speech which contained no particular jolts for the financial community.

The Dow Jones average and Standard and Poor's index advanced but remained below the peaks they made Tuesday.

The Associated Press average made another high as it rose 1.1 to 36.5. Dow Jones rose 1.73 to 95.69. Standard and Poor's advanced 1.7 to 93.36.

Solid gains in the aerospace section derived not only from Johnson's continued determination to stand his ground in Viet Nam but also from a published report to the effect that in several months commercial aviation may purchase a fleet of gigantic jet planes able to carry more than 400 passengers.

The airlines, it was reported, are expected to choose between Boeing's proposed 747 and the proposed DC-10 designed by Douglas Aircraft. Wall Street sources hinted that the Boeing plane had the edge over the Douglas plane in airline buying intentions.

Both stocks were strong, Boeing advancing 8 1/2 to 147 1/2, and Douglas rising 3 1/2 to 80 following Wednesday.
