MARKETS.

OATS.

Quotations of oats in the British market
continue the same as last reported, with
slower sales. In Charlottetown lots have
been sold for shipment at from 41 to 43
cents, while seed oats have been sold as
high as 50 and 60 cents.

POTATOES.

The Boston Produce Market Circulars of
the 21st inst., state that the receipts in that
market continue light, and prices are a
little firmer, but buyers are operating
cautiously, as the market is liable to a sud-
den change. Sales of Canada Rose have
been made there at from 70 to 80 cents,
Jacksons range from 80 to 85 cents, and
Prolics at from 95 cents to \$1, while
Chenango bring 75 cents per bushel.

A New York circular of the 21st says
Eastern Potatoes have been in fine receipt,
chiefly from Prince Edward Island and
Nova Scotia. The demand has run light
and prices generally weak. Choice lots of
these are freely offered at \$2.50 per barrel,
but more slowly. While Prolics and
Jackson's Whites are also in the buyers'
favor.

In Charlottetown the shipment of pota-
toes is closing. Few vessels are taking any
at present. Two lots of six hundred
bushels, we learn, were sold yesterday for
30 cents, and 28 cents is asked on the street.

EGGS.

In Boston on the 21st the supply ran a
little short and prices were firmer. Sales
of choice Eastern were reported at 13½
to 14 cents, and Northern at 13½, and P. E.
Island at 13 cents.

FLOUR.

A Galt, Ont., circular of the 20th inst.,
states that inactivity in the export trade, is
the rule. In the home market, however, a
steady demand is maintained for all grades
of flour. "Offerings are small, partly the
result of holders being unwilling to press
sales, and because some of the large mills
are undergoing repairs and alterations." Spring
Extra is quoted at \$4.90 to \$4.95,
Extra \$4.85 to \$4.90, Superior Extra \$4.95
to \$5.00.

The Montreal Gazette of the 23rd says:
The flour market was quiet but steady with
a slight upward tendency in values. Hold-
ers of Superior advanced their ideas 5c,
and were asking \$5.40. Spring Extra was
scarce and 2½ and 5c. higher. Sales re-
ported on Chicago were light as follows:—
125 bbls Extra Superfine, \$5.20; 125 do
\$5.24; 100 do Medium Bakers' \$5.30 and
250 Ontario Bags, \$2.45. About three-
fourths of the receipts of flour in this city
yesterday were manufactured in the United
States, while most of our large mills are
idle.

PORK.

According to the Cincinnati "Price Cur-
rent," of the 21st inst., the aggregate
movement of hogs at western packing
points has been a little less than during the
preceding week, the total packing indicat-
ing about 120,000 during the past
week, against 175,000 for the cor-
responding time last year, and the
aggregate since March 1st is now
1,000,000 hogs, against 1,610,000 a year
ago, which is a decrease of 580,000 since
March 1st, or 610,000 since Nov. 1st in
number, and taking weight into consid-
eration the decrease is equal to \$25,000 or
more of hogs. Pork in Chicago was 10c
to 17½ higher at \$16.47½ June, \$16.55
July, and lard was 2½c higher at \$10.80
June, \$10.82½ July.

In Montreal the market on the 23rd was
quiet for both pork and lard at former
quotations.

HAY AND STRAW.

A Boston report of the 21st says:—
Strictly choice hay is scarce, and we hear
of some sales at \$23 per ton, but the bulk
of the business continues to rule at \$21 and
\$22. Receipts and demand are about
equal. There are indications of better
prices for both hay and straw.

NOTES.

During April 304 new oil wells were com-
plete in Pennsylvania fields. The average
production per well was 23½ barrels. There
are now 461 wells drilling, and 453 rigs up
and drilling.

According to the latest accounts the win-
ter wheat crop in Missouri is destroyed
again—this time the Hessian fly has the
credit for the disaster.

Crop prospects in California are reported
as very encouraging, and it is confidently
predicted that the wheat yield this year will
equal that of last. That region will also
carry over 500,000 tons of old wheat into
the new harvest year.

The remarkable low prices at which
whiskey has been selling by the small deal-
ers of Montreal and other Canadian cities
some time ago attracted attention to the
fact that a very large quantity of spurious
stuff is made from alcohol and drugs and
sold as whiskey. Then brandy became
wonderfully cheap, and the cheap article
began to appear in the shops under Hen-
nessy's trade mark. The attention of the
agents in Canada, as well as of the whole-
sale trade generally, has been attracted to
this matter, and an earnest effort is making
to unearth the frauds. The number en-
gaged in the manufacture of spurious
liquors is said to be almost incredible.

Some of the guilty parties have been dis-
covered and will be prosecuted by the firms
whose brands have been counterfeited.

A NEW MANCHESTER IN FRANCE.—It is
stated that in case the negotiations with
France regarding the cotton industry take
a hostile turn, certain large capitalists of
Manchester and adjoining towns are deter-
mined to form a company with a view to
establishing a large concern at Rouen.
There appears to be no lack of capital.
Spinning, weaving, dyeing, and printing
machinery will be fitted up on a very large
scale. If Manchester goods are excluded
from France the promoters of the scheme
are determined to establish a small Man-
chester in France.

Address from the Pupils of New Perth School.

To Mr. William A. McDonald, Teacher.

DEAR TEACHER,—It is with deepest feel-
ings of regret that we learn of your intend-
ed departure from amongst us, and we can-
not permit you to depart without conveying
to you some token of our affection and
esteem.

We have therefore chosen to present you
with this short address, and a pocket Bible
as a simple token of the high esteem in
which you are held by us, and as a token
most likely to meet with your approbation.
We sincerely regret that it is not con-
venient for you to remain longer with us,
for during your brief term of office as Prin-
cipal of our school you have, by your kind-
ness and impartiality, completely won our
affection and regard. So highly do we
esteem you—not only as a teacher but also
as a personal friend—that we consider your
departure as an almost irreparable loss. We
are confident that wherever you may go
you will win the friendship (as you have in
this place) of all those who may have the
pleasure of your acquaintance, and that
success will ever brighten your path
through life. With many wishes for your
future welfare. We remain yours truly:—

REPLY.

To the Pupils of New Perth School:

DEAR PUPILS,—I have the greatest plea-
sure in acknowledging the kind and flatter-
ing address with which you have
presented me, and especially the precious
and priceless gift accompanying it. I am
proud indeed to know that my short stay
with you has tended to strengthen the bond
of sympathy between us, and that my de-
parture should be regarded with so much
regret. But though our paths through
life may diverge from each other, and cares
and afflictions may beset us on every hand,
I can never forget the pleasant hours we
have spent together, nor can I ever but
recall your hopeful, smiling faces, and my
happiness will always be increased in pro-
portion to the degree of success by which
your courses in life may be marked.

In conclusion, I will give you a few words
of advice: Let your sin in life be a high
and noble one; then strive with diligence
and perseverance to accomplish it. Let no
difficultly dismay you, no obstacle turn you
aside, and when you have at last reached
the goal of your worthy ambition you will
find all satisfaction in the reflection that
your reward is a well-merited one.

That God may bless and keep you all is
the earnest prayer of your affectionate
friend and well-wisher.

WILLIAM A. McDONALD.
New Perth, May 16, 1881.

The special correspondent of the London
Times thinks that the number of persons
killed by the Sicic earthquake does not
greatly, if at all, exceed 4,000, and that
it is possibly too large. In the southern half
of the Island scarcely a house remains in a
habitable position, so that a population of
nearly 50,000 persons is camping out in the
open air. Throughout the northern por-
tion of the Island the repeated shocks
wrenched houses and frightened the in-
mates without doing them any serious
bodily harm, except in a very few in-
stances.

It is discouraging to learn that of all the
essays submitted to the judges who were
appointed to award the international prize
of 2,000 marks offered by the Empress
Augusta for the best work on diphtheria,
not one contained any new fact with regard
to the origin, nature or treatment of the
disease, and that the prize was, therefore,
not awarded.

THE ITALIAN CRISIS.—A Rome despatch
says the King had a conference with Sig-
nor Coppino, Manocini and Farini regard-
ing the formation of a Cabinet. It is ex-
pected that Signor Manocini, under whom
a coalition Cabinet of the whole Left is
practicable, will be charged with the for-
mation of a Cabinet.

There is every prospect that California
will be a land of plenty this year. The
crops are all in excellent condition and the
supply of fruit bids fair to be enormous.
The grape crop will not be seriously dam-
aged by the phylloxera, though that pest
has threatened to invade the California
vineyards.

Stained glass is being largely used in
New York mansions. The stained glass in
Mr. Cornelius Vanderbilt's house will cost
upwards of \$70,000.
