B. C. Supports Agreed Change In Freight Rates

OTTAWA (CP) — British Columbia has urged a royal commission to recommend federal legislation to grant Canadian railways greater freedom to enter into agreed charge contracts with shippers.

Mr. Brazier said B. C. recommends that contracts should be made effective a few days after they are filed providing no objections have been raised by shippers.

British Columbia opposed any curtailment of the railways' power to enter into agreed charge contracts which met the requirements of current legislation.

Let's Talk It Over

We have a confession to make. We realize that it will probably make us an outcast from society. Certainly little boys and girls will turn up their noses as they pass us on the street. The men who make Christmas cards will probably use us for a label or something, and Santa Claus himself may return all our letters. We've taken into consideration all the risks, however, and have decided to make our confession anyway. This is it. We're dreaming of a green Christmas. There, we've said it, and we're glad!

Here are the reasons: We've reached the age now when building snowmen and engaging in snowball fights have lost the old appeal. The only thing we enjoy about shovelling out walks is the blessed intervals when we lean on our shovel and survey the part we have cleaned. We never look at the section still to be shovelled out. That's worse than looking down when you have a strange hold on the top railing of a skyscraper. If we look at the snow ahead, we're likely to drop everything. Anyway, we never heard sleigh bells during a white Christmas. All we hear is the grinding and roaring of cars stuck in the snow at intersections. As often as not it's our own car that's making the discouraging noises.

We'll settle for clean paved streets and highways; and sidewalks where we can walk dry-shod from store to store while doing our last minute Christmas shopping. Then we can come home, put an extra supply of artificial snow on the Christmas tree, listen to "Frosty, The Snowman," on the radio, and sip ice-cold ginger ale in whole or in part. Yes, folks, we're dreaming of a green Christmas. If we didn't think it would start an insurrection, we'd even write a song about it.

John Reid Weds Louise Carr

St. Ann's Church, Hope River, was the scene of an autumn wedding on Nov. 13 at 8 o'clock when Mary Louise Carr became the bride of John Reid, son of Mr. and Mrs. Walter Reid, both of Stanley Bridge.

The Rev. Earl Dalton performed the ceremony and celebrated the Nuptial Mass. Francis Reid, cousin of the groom, served Mass. Rev. Clarence Pitre of Rustico was present in the sanctuary.

Miss Aline Reid, sister of the groom, acted as bridesmaid and was attired in coral lace and net over Nylon and carried a bouquet of Better Time roses. The groom was attended by his cousin, Mr. Joseph Reid. The ushers were James Flemming and George Carr, brother of the bride.

The bride's table was centered with a three-tier wedding cake topped with a miniature bride and groom. Bouquets of fall flowers and white tapers in silver candelabra completed the table arrangements.

For her daughter's wedding Mrs. Carr chose a suit of steel gray with black accessories and wore a corsage of red roses.

The bride and groom left on a honeymoon trip to Halifax and other points in the Maritimes. For travelling the bride wore a suit of dark beige, coral top coat, and black accessories.

On their return they will reside at the new bridge, where the groom is a prosperous farmer.

Japanese Premier Likely To Be Ousted Today On Want of Confidence Motion

TOKYO, (Reuters) — Premier Shigeru Yoshida's Liberal party failed Monday to head off a want-of-confidence motion which probably will lead to Yoshida's ouster after seven uninterrupted years as leader of Japan.

The opposition parties — who, combined, control a majority in the Japanese Diet — have threatened to form a new party, the motion something after an extraordinary, nine-day session of the Diet opens today.

Observers interpreted the failure as just another sign that Yoshida's days as premier are numbered.
