ANIMAL ODDITIES.

A blind bat avoids wires and obstructions as easily as if it could see perfectly.

A French scientist says a caterpillar cannot see more than two-fifths of an inch ahead. The hairs on the body are said to be as much use as its eyes in letting it know what is going around.

Hawks have been seen to follow in the wake of a moving railway train and swoop down on small birds that were suddenly disturbed and frightened by the noise and therefore for the moment were off their guard.

In Fiji there is a curious sea worm which arrives in myriads on the coast on a certain day. The waters are so full of them as to resemble vermicelli soup. After laying their eggs nothing is left of them but empty skins.

An ostrich cannot kick backward. When the time has come for the bird to be despoiled of its feathers, its head is inserted in a bag and the plucker stands behind his victim. A blow from its foot has vigor enough to kill a man.

To show the carelessness of mothers in Great Britain, over 3,000 children are burned to death in the year from their clothing catching fire.

Time For Action.

Freddie (whose pa is a strict disciplinarian)—Ma, can you have a man arrested if you think he's going to kill you?
Ma—Certainly, my son.

Freddie—Then I'm going to git out a warrant for pa.

Ma—You shock me, Freddie. What reason could you possibly have for any such action against your father?

Freddie—Why, I heard him tell the lumberman this morning to bring him a cartload of shingles.—Richmond Dispatch.

Swords will be beaten into plough shares later on; but the armers do not need to wait till the "Peace Conference" is over, before buying their plough shares, as they can do so at once, by calling at the Masonic Temple Store, where the share, or other plough extras can be had for less money, and better than any imported.
