

N.Y. Stocks
Have lapse
In climb

NEW YORK (AP)—The stock market advanced to another all-time high last week but not without a brief lapse in its steady climb.

As measured by The Associated Press 60-stock average, this was the fifth consecutive week of advances.

The business background was favorable. President Johnson, speaking of "growing recovery on the U.S. economy, predicted continued gains "as far as the trained eye can see into 1965.

This week The Associated Press 60 - stock average advanced 2.56 to 819.00. The Dow Jones average of 30 industrials gained 6.04 to 867.55 and Standard and Poor's 500 stock index was up 76 to 83.36. All were historic highs.

25,594.71 SHARES TRADED
Volume for the week totalled 25,594,711 shares against 19,383,790 the previous week. When there were only four trading days because of the July holidays.

Monday's trading was featured by a new high of 75 for American Telephone, A.T. & T.'s performance inspired the rest of the market but some good early gains were followed by profit-taking.

Steels led a mid - afternoon rally on Tuesday and continued to be the strongest group on Wednesday, profit taking weakened the market. Friday Steels traded again Thursday to muster a rally but failed and the market took over on Friday and led a strong advance which was abated by profit-taking in late trading.

The magazine adds that all an all-time high of 92% and Chrysler equalled its 1964 high of 52.

Steel Records
Broken In U.S.

CLEVELAND (AP)—Steel consumption is breaking records and output promises to exceed that of record 1953, but competition among producers is sharper than it has been since the 1958 recession. Steel magazine reports.

Steelmakers have cut prices selectively and geographically, but they're holding the price line in general, the metalworking weekly says.

Quality, delivery and service are being stressed by steel producers in fighting for their share of the market.

The magazine adds that steel producers always have "treated their automotive accounts well, but the attention they're giving automakers and most other customers today makes past treatment seem casual.

It says that automobile manufacturers want fast deliveries so that they can keep their raw material supplies at minimum working levels.

PATTERNS SIMILAR
"In non-automotive markets the pattern is much the same," Steel magazine says. "Consumption is low despite relatively high consumption... manufacturer consumed 57 per cent more steel in the first five months of this year than they used in the corresponding period of 1953."

The magazine says that although consumption is trending downward, it will not drop as sharply this summer as it normally does.

Large production this week will be about the same as the estimated output of 2,288,000 tons last week. Steel says. Because business is good, mills are expected to be able to sustain operations fairly close to current levels during July and August, it added.

Doctor Acquired
In Surgical Clamp
Death In Ontario

TORONTO (CP)—Dr. Burns Flew, chief surgeon at Toronto East General Hospital, was accused of falsifying a coroner's report of a woman who died in the hospital after a surgical clamp was left in her abdomen during an operation.

Magistrate James Butler dismissed charges the first of 40 against five doctors and the hospital's administrator - on a technicality. The father of the Crown had failed to prove that the death of Patricia Morgan, 32, was not reported.

John Hoolihan, special Crown counsel, said later Dr. Flew, 57, was charged with falsifying the coroner's report. He said the accused doctor was being tried singly. The chief surgeon's first trial Monday opened the charges.

The cause of Miss Morgan's death last Jan. 4 became public after members of her family threatened to sue the hospital. The matter was settled by a court order.

Following the inquest, six charges under various sections of the coroner's act were lodged against four hospital doctors, hospital administrator Eric Willocks and Dr. Kenneth Brown, the woman's personal physician who headed the operating team on Oct. 17. Dr. Brown also faces four charges of falsifying the death certificate.

DENSE POPULATION
Pengaua outbursts in people in the Falkland Islands in the South Atlantic.

EATON'S TUESDAY'S SPECIALS
