Your Memorialists deeply regret that Your Majesty's present Representative has not followed the wise example of Sir Alexander Bannerman; but acting apparently in concert with his advisers, he has permitted the Orange Institution to take deep root in this land; and now, emboldened by the protection which the Government affords, the Orange Society assumes an offensive and menacing attitude towards their unoffending Catholic fellow Colonists, which, if not discouraged by the gracious interposition of Your Majesty, may lead to serious dissensions, and, possibly, to breaches of the peace.

Your Majesty's Memorialists therefore humbly pray that Your Majesty may be graciously pleased to withhold Your Royal assent from the Bill to incorporate the Orange Lodges of this Island; and Your Majesty's Memorialists, as in duty bound, will ever pray.

After reading the Petition, the hon. gentleman moved that it be adopted by the meeting. He supported his motion by an eloquent and effective speech, wherein he rebutted the infamous imputations which have been cast by the Orange faction on the loyalty of Catholics in general, and Irish Catholics in particular, and showed that they who make those base charges are themselves the most disloyal subjects in the Empire. He alluded, in glowing language, to the almost innumerable glorious deeds of valor, and acts of self-sacrifice performed on many a blood-stained battle-field by the Irish and Scotch Catholics, for the glory and prestige of the British Empire, even at a time when they were laboring under the most galling persecutions. He maintained that dying for the honor and glory of our Sovereign and country was a much more practical proof of loyalty than the hypocritical professions of Orangemen, who seemed to glory in offering to the oldest son of our beloved Sovereign the most outrageous insults. He alluded also, in severe terms, to the countenance given to the Orange Institution by Mr. Dundas, who, we believe, so scandalously misrepresents Her Majesty in this Colony. The motion having been seconded by D. McIsaac, Esqr.—

The Hon. George Coles rose, and expressed his constant opposition to Orangeism, which was not only not necessary here, but would also be productive of a great deal of mischief to the community. He alluded to the part taken by himself, in 1852, in the suppression of Orangeism, by Her Majesty's Representative at that time. He spoke also at considerable length of the manner in which Orangemen made it a point to exasperate Catholics, and the Irish in particular, by the most odious and persecuting penal statutes. The hon. gentleman gave the Petition his warmest support.

His Lordship the Bishop of Charlottetown, who favored the meeting with his presence, then rose and expressed his approval of the Petition, and of the manner in which the subject had been taken up by the Institute. He deprecated the unhappy state of affairs which called forth the meeting, and alluded, in feeling terms, to the social harmony and good feeling which existed between Catholics and Protestants before the establishment of Orange Lodges in this community, and deeply regretted that this happy state of Christian friendship had, to a great extent, disappeared within the last few years, in consequence of the misrepresentations and slanders of a few designing individuals, whose object seemed to be to retain a little political power at the expense of those kindly and charitable sentiments, which would be reciprocated by all the individuals of a Christian community. His Lordship proved, in the most satisfactory manner, that the calumnious charge of Catholics seeking for political ascendancy, in this Colony, was not only altogether unfounded, but perfectly absurd, even from the fact that should they be so simple as to attempt any such ascendancy, they would inevitably fail by reason of their being in the minority. He showed also that the lamentable religious excitement now existing in the Colony, could not, in the smallest degree, be attributed to Catholics, who have never done any one act at which their Protestant fellow-colonists could reasonably take the slightest umbrage. His Lordship observed that Catholics, acting according to the teachings of their Holy Religion, entertained charity for all men, even those who differed from them in religion, and he sincerely hoped that, ere long, in consequence of the united efforts which were about to be made by the Roman Catholics, and very many of the most intelligent and respectable Protestant inhabitants of the Island, to defeat the sinister intention of Orangeism, by petitioning our well-beloved Queen to disallow the Orange Bill, those charitable feelings which formerly existed in the community would be firmly resuscitated.

We have neither time nor space to do any thing like justice to his Lordship's admirable speech, nor indeed to any of the able speeches delivered on the occasion, but it will suffice to say that it was characterized by good sense, sound reasoning, moderation and charity, and was rapturously applauded by the audience.

William McGill, Esq., also expressed his opinion on the Orange question, in a neat and appropriate speech, in which he expatiated on the many social and other evils which always flow from the Orange Institution. He showed that its despotic tyranny was not only felt by Catholics but by every Protestant who had independence and spirit enough to raise his voice against the persecuting organization, and he was of opinion that it was a duty incumbent on all Protestant lovers of peace and civil and religious liberty to join with their Catholic fellow citizens in petitioning Her Gracious Majesty to disallow the Orange Bill, to which Mr. Dundas, from weakness or malice, gave his assent.

We understand that many more gentlemen present at the meeting, composed in a great measure of our respectable fellow-citizens, were desirous to express their condemnation of Orangeism; but as the time was considerably past ten o'clock, it was resolved to put the motion to the meeting whether the draft of the Petition, as read, should be approved of. This having been done by the President, the motion was carried without one dissentient voice. Immediately afterwards the following gentlemen were appointed a Central Committee, with power to add to their numbers, to procure signatures to the Petition.

Very Rev. Dr. McDonald,	Hon. Daniel Brenan,
Rev. A. McDonald,	Hon. Edward Whelan,
Hon. P. Walker,	Hon. George Coles,
Hon. F. Kelly,	John Trenaman, Esq.
Dr. McKeon,	Owen Connelly, Esq.
James Reddin, Esq.	S. W. Mitchell, Esq.
Donald McIsaac, Esq.	P. Gaul, Esq.
James McCraith, Esq.	R. Reddin, Esq.
C. Little, Esq.	Mr. J. A. McKenna,
Mr. F. McCarron,	Mr. E. Roche,
Mr. P. Bowers,	Mr. E. Reilly.

The above Committee, at a meeting held yesterday, appointed the Hon. D. Brenan their Chairman, and the Hon. E. Whelan their Secretary. Copies of the Petition with suitable paper for signatures, will be immediately forwarded to the various districts of the Island. We feel confident that the Very Rev. and Rev. Clergymen throughout the country, as well as all the other lovers of civil and religious liberty, will use their best endeavors to obtain as many signatures as possible to the petition. The Orange faction and Mr. Dundas will soon learn that they are not to tyrannize over the people of this colony.

ANOTHER TERRIBLE DISASTER TO THE CANADIAN LINE OF STEAMERS.

LOSS OF THE STEAMER ANGLO-SAXON — FRIGHTFUL LOSS OF LIFE!

The steamship Anglo-Saxon, of the Canadian line, from Liverpool, England, bound to Halifax for orders, was wrecked on Monday noon last, four miles east of Cape Race, during a dense fog. This steamship had three hundred and sixty passengers, and a crew consisting of eighty-four souls. One hundred and eighty-seven of the crew and passengers were saved. The commander of the vessel is supposed to have been drowned. The Purser, and the First and Second Engineers, are among those saved; also one cabin passenger, Lieut. Sampson, of the Royal Artillery. The deck of the vessel broke up about an hour after she struck, and nothing but the mizzen mast was left standing. No assistance could be rendered. The Hon. John Young and family are among those saved.

The following further particulars of the above melancholy event have been received in the papers by this morning's mail:—

A telegram from St. John's, N. F., announces another sad disaster to the Canadian line of steamers. The "Anglo Saxon" left Liverpool on the 16th April, for Quebec, and went ashore at Cape Race on the 27th April in a dense fog. The following is all the information received up to this time:—

St. John's, N. F., April 28.

The Anglo-Saxon sailed from Liverpool on the 16th of April, with 360 passengers, and a crew of 84 persons, making in all 444.

She was wrecked four miles east of Cape Race, at noon, on the 27th inst., in a dense fog: 73 persons escaped from the wreck by ropes and spars, and 24 in two life boats.

Boats Nos. 4 and 6 not arrived—they are supposed to be off the Cape in a dense fog. A raft with seven persons on it is also missing.

There is a heavy sea, and the fog is quite dense.

The Commander is supposed to be among the drowned. The Purser, first and second Engineers are saved, and one cabin passenger, Lieut. Sampson of the Royal Artillery.

Hon. John Young, of Montreal, and family are supposed to be in one of the missing boats.

The deck broke up about one hour after vessel struck.

Nothing but mizzen mast standing. Several persons clung to fore rigging till foremast fell. No assistance could be rendered.

Guns are being fired at the Cape to attract attention of missing boats.

Associated Press crew went immediately to the wreck.

This was the second or third voyage of Captain Burgess as Captain.

The missing boats are said to have been seen in company with a steam tug off Cape Race, and it is thought they are safe, but the thick fog prevailing prevents them reaching land.

THE CIVIL WAR IN THE STATES.

NEWS BY TELEGRAPH.

DEFEAT OF THE CONFEDERATES AND LOSS OF TEN STEAMERS AND TWO GUNBOATS.—SIX FEDERAL TRANSPORTS SUCCEEDED IN RUNNING PAST VICKSBURG BATTERIES.

St. John, N. B. April 27.

Advices from New Orleans report that Gen. Banks' army in the south west is in active operation, having had a hard fight at Vermilion Bayou, driving the Confederates and capturing their works at Bethel Place, and reaching Franklin on the 15th inst. The Confederates destroyed ten steamers and two gunboats, including the Diana, to prevent them from falling into the hands of the Federals. About fifteen hundred Confederates were captured. General Grover also defeated the Confederates at Irish Bend. The Confederate force numbered some ten thousand men.

A despatch from Memphis says that six more transports succeeded in running past the Vicksburg batteries.

Confederate batteries at Warrenton had been silenced.

Four operators are reported as having been arrested at Falmouth, they being engaged in working a submarine telegraph across the Rappahannock River, by which the Confederates have been long receiving communications.

It is reported that there has been a two hours' fight at Cape Girardeau, and that the Confederates were repulsed. No particulars are given.

CHARLESTON TO BE ATTACKED.—REPORTED MOVEMENT OF CONFEDERATES ON WHEELING OR PITTSBURG.

St. John, April (evng.) 28, 1863.

A Washington despatch to the New York Times mentions a rumour of a movement by the Army of the Potomac.

It is reported that news received from the South indicates another attack by the Federal forces on Charleston.

Admiral Farragut believes that the army at Port Hudson has not more than four days provisions.

The blockade of Red River, and movement of General Banks towards the same point, will tend to cut off Confederate supplies from Texas and West Louisiana.

The New York Tribune correspondent at Hilton Head intimates an attack on Charleston at hand with the co-operation of the land forces.

The Confederates are strengthening their land defences on the Islands situate on the South of Charleston. Troops have been sent from Savannah to hold these Islands.

Some guerilias appeared in Western Virginia, near Pennsylvania line, giving rise to rumors of movement against Wheeling or Pittsburg.

St. John, April 29.

Southern despatches contain the following intelligence:—Dodge's Yankee force, one thousand strong, advanced ten miles towards East Tuscumbia, the Confederates fighting and retreating towards their reinforcements.

The schooner Eagle, cotton and tobacco laden, was beached and fired at in Warsaw Sound, to prevent her from falling into the hands of the blockaders.

The Richmond Enquirer of 27th inst., says that the Federals occupied Fanguier county in large force; also that the Yankees were about moving into South Carolina, with supposed intention of making a raid in the vicinity of Coosamatechie, and attempt to destroy the railroad between Charleston and Savannah.

A Richmond despatch of the same date says that news has been received that the Federals were advancing on Jackson, Mississippi, and Meridian railroad.

The French are making but slight progress in Mexico, and reinforcements are constantly arriving at Vera Cruz. The French lost seven hundred men in taking a small fort near Puebla.

☞ Several communications have been received since our last issue, and will receive attention as soon as space will permit.

We have received copies of the Liverpool and London Fire and Life Insurance Company's "Prospectus and Almanac, for 1863," and also the Report of the Director for the previous year, from the Agent of the company for this Island, W. A. Johnstone, Esq. From a perusal of these it appears that this Company is in a highly flourishing condition, and offers many advantages not accorded by similar institutions.—Vis.

Bell's Life informs its readers that the match between Heenan and Tom King, to come off during the autumn of the present year, has been duly decided upon. The stakes will be £1000 a side. The men are this time more equally matched, both being 6 feet 1½ in height, and apparently of equal weight. Of course this pugilistic encounter is exciting intense interest in England. There does not appear to be the slightest difficulty in "putting up" the money, each man having deposited the first instalment of £100 without any delay. The editor of Bell's Life has been named by both men as the referee, and as such his name is inserted in the agreement, although he steadily refuses to act.

P. S.—In order to guard as much as possible against the introduction of Small Pox, it is earnestly requested of all owners and masters of vessels, hailing from this port, that they will be careful not to ship Sailors or Passengers (intending to return to this Island) without assurance of their having been Vaccinated or having had the Small Pox. The many instances in which that fatal disease has been brought to this country, by inattention to this advice, it it hoped will operate as a stimulus to future care. Any Sailor or person about to sail to foreign ports may be Vaccinated at the Dispensary on any day.

UNION BANK OF PRINCE EDWARD ISLAND.

Incorporated by Act of Colonial Legislature.

Capital Thirty Thousand pounds Currency, in 3,000 shares of Ten pounds each, payable by instalments in three years.

PROVISIONAL MANAGING COMMITTE.

C. Palmer, Chairman,	Hon. W. W. Lord, M.L.C.
Hon. G. Beer, M.L.C.	Hon. James Pope, M P. P.
Henry Haszard, Esq.,	Geo. F. C. Lowden, Esq.
Wm. E. Dawson, Esq.	William Heard, Esq.
James D. Mason, Esq.	Thomas Dodd, Esq.
Alfred Phillips, Esq.	Wm. R. Watson, Esq.
J. A. Darcy, Esq.	Owen Connelly, Esq.
George Davies, Esq.	

THIS BANK is formed to supply an addition to the money circulation of this Island, the want of which has for some time been sensibly felt. It is the natural consequence of an increasing population, an expanding Commerce, and of the enlarged production of an industrious and energetic people. Incredible as it may seem, until the year 1855, there never was a Bank established in this Island; in that year, under the pressure of a similar necessity, the Bank of Prince Edward Island was called into existence; and while it has facilitated the trade and commercial business generally, it has largely contributed to the developement of the resources of the Country, and its results are supposed to have been satisfactory to the Shareholders, having for some years past paid them an annual dividend of ten per cent.

The increase in the population since the year 1855, the large addition to our trade and commerce, the increasing Revenue, the breadth of arable land cleared and cultivated, the growing increase of farming stock, the augmented export of grain and agricultural produce of all kinds, have rendered further Banking operations in this Island absolutely necessary.

It appears from the census of 1860, and from other authentic sources, that in the preceding five years the increase in the population of this Island was 9 361 persons; increase of breadth of land under cultivation 45,000 acres; increase in the quantity of roots and cereals exported 842,000 bush. That in the year 1861, the Imports amounted to £314,902, currency; the Exports, including shipping, to £343,421, currency, (showing a balance of trade in favour of the Island.) That in twenty years, from 1839 to 1859, the revenue more than doubled itself, the figures being, in 1839 £17,011; in 1859 £41,000.

Whilst to carry on this additional trade, the public Banking accommodation up to 1855 was nil, and since that time it has never exceeded £52,000 per annum, or about thirteen shillings per head for the population, a sum so small as to be almost incredible; while the Banking accommodation of the neighbouring Province of New Brunswick, it is believed, amounts to thirty shillings per head.

The effect of the large additions above referred to, has been an increasing annual demand for Discount, and for a larger amount of Circulation or Floating Capital; but as the Bank of Prince Edward Island did not provide this, the Public in their necessity were driven to the private discounter for accommodation, at very heavy rates, and it has been estimated that at these rates a sum nearly equal to the Capital of the proposed Bank is annually discounted.

Deeply impressed with the importance of this evil, and feeling that there is in this Island an ample field for the secure and profitable action of a second Bank, the promoters have set on foot the proposed Establishment; and in submitting this prospectus to the Foreign as well as Island Capitalists, as a safe and profitable investment, they beg to refer to the Act of Incorporation of the Union Bank, now before the Legislature, and to those parts of it especially intended for the security of Shareholders and the public generally, namely, Section 18th, whereby Stockholders are declared personally liable for redemption of all Bills issued by the Corporation, and all debts due thereby in proportion to the Stock they respectively hold; but no Stockholder shall be liable for any sum exceeding twice the amount of his Stock, in addition to the Stock held by him.

And also Section 20, wherein it is enacted that the total amount of debts (deposits excepted) which the Bank shall at any time owe, shall not exceed three times the amount of the Capital Stock paid in. The Directors being made liable in their private capacities for any excess.

Subscription lists for Stocktakers (already largely subscribed for) are in the hands of each of the provisional committee.

The Wonder of all Nations!

THE MARCH OF INTELLECT FOR SPRING 1863!!

From the World's Fair.

THE best chance ever offered to the Farmers of P. E. Island, by which Time, Labour and Money are saved, the grand secret to us all, and can now be effected by getting one of those latest wonderfully improved

MANNY'S PATENT Gold & Silver Prized Medal Mowing & Reaping Machines, WITH Steel-lined Guard Finger Plate,

tempered same as the Knives, and is attached to the finger by a NEW PATENT PROCESS, thus making an entire new cutting face, with Horse Yokes and Swingle Trees, not in former machines, makes them now more valuable to farmers than any of the Gold Mines throughout the world, and are now warranted to cut one acre of Hay or Grain each hour, at one shillings cost, by forming a Club of five, which will be a fifth less expense than the old fashioned Scythe cutting, proved so injurious to the constitution and so fatal to many farmers.

With those unsurpassed Machines any quantity of Seed can be sown in Spring at one time, and no fear for hands to cut it, when ripe, need be felt, and the Crops secured a month sooner, and the cost of the Club saved. The expense now reduced to the wages of one man for a month.

In proof of same, Mr. W. Hyde, West River, whose butter and cheese are so highly prized wherever they can be got, certifies he purchased one of those

Wonderful Money and Labour Saving Machines

in 1861; cut all his Hay and Grain, nearly a hundred acres, and cut his brothers' crop also with it, and then hired it out, by which he cleared half the price of the Machine same year, and is now free, and had the crops of both farms cut in addition.

This certificate is more satisfactory on the Island, as it can be relied on, than one hundred names from other places.

The above and the following first-class Farmers and Stock Masters can be referred to, some of whom have Manny's Patent Machines in use for three or four years, and have proved much more durable and beneficial than they ever calculated on, and consider they are the greatest boon that can be conferred on their brother Farmers, Professional men, teachers, sea captains, widows, tradesmen, and all those whose time ought be more valuable than at such unprofitable and severe work as cutting hay and grain for the horses that are at rest, and ought to be at such employment, in place of white men and women toiling themselves to death to keep the horses alive, and at more than four times the cost:

THIS IS NOT KEEPING PACE WITH THE TIMES.

P. Lane, Esq., J. P.	William Clements, Esq.,

R. Mutch, Gallows Point,	G. Harris, Esq.,
J. McInnis, "	Stewart & Owen, Shipbuilders,
R. Ings, China Point,	Hon. D. Beaton,
C. Vickerson, Vernon River,	Theo. DesBrisay, Esq.,

and forty-six others, who got those wonderful Machines that work like telegraph.

The demand is now so great, caused by the vast number of men killed in the war, and the order from Europe for 1800 of those invaluable money and labour saving Machines, with eighty-six more wanted last harvest that could not be finished in time, will now require all parties wanting those Machines to send the order to the Agent, or the Depot at Orwell, with as little delay as possible, to ensure having them in good time for harvest.

No payment will be demanded until the Fall of 1863 and 1864.

Farmers not up to the great benefit of levelling and rolling the land are strongly advised by all Agricultural Societies and chemists to try it, when it will be found to pay well for the little outlay and trouble. To encourage the experiment, two dozen field rollers can be had from the undersigned, if ordered soon, at COST, and 12 months given for payment.
