

THE DAILY EXAMINER.

JANUARY 31, 1894.

CIVIC MATTERS.

The prospects for a meeting this evening are now bright. We hope that not only the corporation, but also the public...

Then there is the matter of street improvement. All men must, we think, endorse the policy of constructing year by year...

In this connection, the propriety of taking steps towards the construction of a road to Victoria Park, by way of the shore on Government farm, ought to be discussed...

Another point which might well be considered by the meeting is that of the abolition of the ward system and the election of each of the councillors by the electors of the whole city...

CUSTOMS RETURNS, CHARLOTTETOWN.

Table with columns: Quarter, Imports, Exports, Total. Data for 1893 and 1894.

The large and increasing quantities of goods brought here duty paid from Montreal, St. John, Halifax, and other towns...

Produced from the laxative and nutritious juice of California figs, combined with the medicinal virtues of plants known to be most beneficial to the human system...

RECIPROCITY AND FARM PRODUCE.

The figures which we gave last week, showing the price of farm produce in the United States, seem not to please the editor of the Patriot...

The products of an average farm on P. E. Island to-day are worth considerably more here than they would be worth in the local markets of the United States...

It may seem strange to the editor of the Patriot, accustomed to cast such appreciative glances at the dashing beauty to the south of us...

It is the prairie States, that crowd like marmots along the rich alluvial valley of the Mississippi, which raise this overwhelming flood of cheap produce...

The Patriot supposes we would have a market for oats. Our price is 32 cents, the States' price 28.5 cents. Some years ago we could have sold oats there...

As to wool, the States market is now held up by a duty of 10 cents per pound. The moment this is off the price will fall to the general level of the world's market...

Putatoes will be in much the same position when the 25 cent duty is removed. Canada grows 60,000,000 bushels. Germany, with a smaller population than the United States, grows 977,500,000 bushels...

Under reciprocity we might send some eggs, potatoes, sheep-skins, and a few select horses to the States. But if we did, it would be at the sacrifice of things so vastly greater in importance...

IT'S VERA WEE.

It's vera weel, throughout the day, When ta'en up wi' work or play, To think a man can live alway Wi'oot a wify.

CITIZENS' MEETING.

CHARLOTTETOWN, JAN. 26th, 1894. To the Hon. T. H. Haviland, Mayor of Charlottetown. We the subscribers, desire you to call a public meeting of the citizens of Charlottetown, to be held in the Market Hall on Wednesday evening next, the 31st inst., at the hour of eight o'clock p. m., to discuss civic politics and matters relating to the coming civic election.

A TWELVE-MILE GUN.

In a paper read before the Western Society of Engineers, Captain W. H. Jacques said: "The wire-wrapped type had the honor of firing the 'Jubilee Rounds' in the Queen's Jubilee year and gave wonderful results. On April 16, 1888, was fired a Shoburyness first of a series of rounds intended to investigate the conditions attending firing at very long ranges. The gun selected under the direction of General Maitland in the Royal Gun Factories. The weight of the gun was 22 tons, and of the projectile 380 pounds, which fired with a muzzle velocity of 2730 feet per second. The elevation of the first round was 40 degrees. The projectile fell at a range of about 21,000 yards, or nearly 12 miles. On July 12, at 45 degrees elevation, a range of 21,500 yards was attained, and on July 26, with 45 degrees elevation, the range was 21,600 yards or about 12 1/2 miles. The projectile remained in the air about 69.6 seconds, and its trajectory reached a height of 17,000 feet, or about 2,000 feet higher than the summit of Mont Blanc."

A COUNTRYMAN'S CLOSE CALL.

On Saturday evening, about 5 o'clock on McDonald, of Dundas left the city by horse and sleigh in a very intoxicated condition. He crossed the lot to Southport and took the Southport road, but instead of following it he turned to the right, drove his horse down on Acorn's Mill Pond and was soon in the water, having driven into an opening which had been made by persons cutting ice. Fortunately Mr. Burke, market gardener was near enough at the time to hear the man's cries and after securing a rope, he with a neighbor, Mr. Kelly, hastened to the scene. The horse was rescued just in time. He was so numb as to be unable to catch hold of the rope with his teeth and was thus dragged out of the water. It took several minutes to bring him round and he was unable to return home till next day. The horse was dragged out of the water with great difficulty also—Guardian.

Tenders for Provincial Debentures.

Tenders will be received at the Provincial Treasury up to noon of the 14th DAY OF FEBRUARY, 1894, for the purchase of the whole or any part of the \$26,500 P. E. Island Debentures, being balance of the \$185,000 authorized by Provincial Statute of 1891 (55 Vic., Cap. 1). These Debentures, which are issued in denominations of \$1,000, \$500 and \$100, bear 4 per cent. interest, payable half yearly from 1st December, 1893, and are redeemable in the year 1916.

ANGUS McILLAN, Provincial Treasurer.

MURDERED FOR HIS MONEY.

St. John's, Nfld., Jan. 31. Wm. McCarthy, aged nearly 80, a miserly and disreputable resident of this city, was brutally murdered sometime yesterday evening. It was rumored that he always kept large sums of money in his house. Yesterday afternoon the place was observed to be closed. This not being unusual, caused no comment. About ten p. m., a man was observed to leave the place and run away rapidly. The neighbors entered and found McCarthy dead on the floor, his skull being crushed by a piece of gas pipe, the place ransacked and the money and valuables gone. No arrest has yet been made.

THE STORM AND ITS RAVAGES.

A LARGE SCHOONER IN DISTRESS.

Boston, Jan. 31. The storm has been very severe and widespread. ASBURY PARK, N. J., Jan. 31. Yesterday a large three-masted schooner was discovered by the crew of a life-saving station at Deal Cove flying signals of distress. She was heavily laden and was about two miles off shore. The surf ran so high that it was considered unsafe to launch the life-boat. The vessel's name could not be made out owing to the fog. When last seen by the life-savers the waves were dashing over the schooner from stem to stern, and she was lying very low in the water.

FOR SALE.
