

# EMPIRE DAY EXERCISES

WEST KENT SCHOOL

Arbor and Empire Day exercises will be held at West Kent School this morning commencing at 10 o'clock sharp. The chair will be occupied by Mr. C. H. B. Longworth, B.Sc., and a suitable program has been prepared. The public are cordially invited to be present.

"O Canada," The School.

Remarks by Chairman, Mr. C. H. B. Longworth, B.Sc.

"I Love to Roam in the Morning"—Senior Girls.

Violin Solo—Miss Jean MacKay.

Exercise "The Choice"—Pupils of Grade 4. Annie Phipps, Betty MacPherson, Dilly Worth, Philip Hardy, Horace Rindras.

"Golden Summers," Junior grades.

Dance "Minuet," Barbara Belcher, Joan MacIntyre.

Reading "Arbor Day," Miss Ruth Sinclair.

Dialogue "Spring," girls of Grade 7. Barbara Belcher, Eleanor Williams, Jean Phipps, Margaret Gallagher, Katherine Paton, Eleanor MacLeod, Ruth MacKenzie, Gerry Hillier.

"Spring Song," the school.

Solo, Katherine McEachern.

Exercise "Tom's Back-Yard," pupils of Grade 2. Dick Dumont, Donald McIntyre, Donnie McDonald, Archie McKinnon, Joan Large, Frances Jenkins, Enid Gill, Carol McDonald, Betty Currie, Aben McLeod, Junior Finlayson.

Duet "Under the Greenwood Tree," Joan Gordon, Patricia Ritchie.

Reading "Empire Day," Josephine Pickard.

"The Spenndrift," Junior Grades.

Exercise "Saluting the Flag," Pupils of Grades 6 and 7. Bill Andrew, Bill Large, Donald Seaman, Jackie Hodgson, Junior Aharan, George Anderson, Robert Clawson, Richard Burgess, Bill Behaut.

"Brave Old Oak," Intermediate and Senior Grades.

God Save the King.

**PRINCE STREET SCHOOL**  
Junior Program, 9:30 a. m.—Arbor Day

Chairman, His Worship Mayor Turner.

Opening chorus, O Canada, Grades 1-2-3.

Chorus, Sleep Baby Sleep, Grade 1.

Recitation, Spring Flowers, Phyllis Coffin.

Nursery Rhymes, Grades 1.

Recitation, The Wind, Donald McLeod.

Chorus, Growing Up, Grades 1 and 2.

Recitation, The Little Brown Bug, Donnie Irving.

Chorus, The Sandymen, Grades 2 and 3.

Dialogue, An Arbor Day Tree, Barbara Pickard, Betty King, Ruby Down.

Chorus, Lines and Squares, Grades 2 and 3.

Sailors' Tap Dance, Beryl McDonald and Verna Vail.

Chorus, May I Go Too? Grades 2 and 3.

The Christening, Jeanie Lother.

Chorus, April, May, Robin Redbreast, Grades 1-2-3.

Violin solo, The Spring Song, Beryl McDonald.

Chorus, It Must Be Spring, Grades 2-3.

Dialogue, Who Likes the Rain, Roger Chandler, Mildred Cudmore, Carmen Smith, Douglas Fierce.

Chorus, Johnny Jumps Up, Grades 3.

Remarks, His Worship Mayor Turner.

God Save the King.

Senior and Intermediate

10:15 a. m.

Opening Chorus, O Canada, School.

Chorus, A May Song, Franklin McInnis.

Dialogue, The Message of the Flowers, pupils of Miss Langill's class.

Two part Chorus, Voices of the Morn, Grades 7 to 10.

Piano and vocal ensemble, Sing Robin Sing, Olive Keopling, Helen Stebbins Aldrich, Douglas Fierce.

Recitation, The Tree, John Sterns.

Chorus, Derry Vale, Grades 4 to 10.

Piano solo, Wonderful Dream, Cynthia Kendall.

Song with instrumental accompaniment, Swiss Moonlight Lullaby, boys Grade 6.

Address, His Worship Mayor Turner.

Chorus, Canada, Grades 4 to 6.

Recitation, British Freedom, Isabel Sinclair.

Chorus, The Minstrel Boy, (Irish Air), Grades 4 to 10.

Chorus, with descant, All Through the Night, Grades 4 to 10.

Reading, Facts about the Empire, Stanley Thompson.

Chorus, The British Grenadiers, Boys Grades 4 to 6.

Chorus, Cradle Song, Girls Grades 5 and 6.

Recitation, Children of the Empire, Beverley Van Idersine.

Chorus, Charlie is My Darling, (Scott), Grades 4, 5, 6.

Chorus, "Drink to Me Only with Thine Eyes," (English) Grades 7 to 10.

Vocal duet, When at Night, Nora Downe, Olive Partridge.

Dialogue, Our Flag, pupils, Grade 6.

Chorus, Jerusalem, Grades 7 to 10.

Presentation of T. O. D. E. prizes.

Chorus, A Shepherd Kept Sheep, Grades 7 to 10.

Chorus, Land of Hope and Glory, Grades 4 to 10.

God Save the King.

get the Canadian Youth Congress at Ottawa, and the Canada's Delegation to the World Youth Congress at Geneva.

Yours faithfully (if in sorrow) (Signed) W. L. MOORE (L. Col. L. MOORE)

The Reverend Frederick George Scott, Archdeacon of Quebec, Quebec, Canada. (Col. Moore is a brother of Mr. A. C. Moore of this city).

## Gift Will Solve

(Continued from Page 1)

customed to. As already stated we believe the public are not sufficiently informed as to the service rendered by the Hospital and that this, to quite an extent, accounts for the very limited support of a great many and the total lack of support from too many others.

First, then, as to what we have done in fifty-three years and what we are doing today. The first patient was admitted to the Hospital on January 15th, 1884, and twenty-two patients were admitted from that time up to May 22nd, 1884, the date of the annual meeting. In 1893 we cared for 107 patients, in 1903 two hundred and forty-three, in 1913 three hundred and twenty-three, in 1923 seven hundred and twelve, in 1933 twelve hundred and fifty-six and last year seventeen hundred and sixteen. Last week we had at one time eighty-three patients which is the record for the fifty-three years.

### Service Greatly Improved

One of the great objects of hospital service is to shorten the period of illness thereby lessening suffering and minimizing expense. In 1885 the average length of time a patient remained in the Hospital was 25.6 days, last year it was only 10-2-3 days. You must surely see what a wonderful tribute this is to the advance in medical and surgical skill and knowledge and to the very great improvement in hospital service and equipment.

Last year we treated 209 fee patients, it cost to the Hospital of \$15,146, figured at our cost per patient day of \$3.05, or even at our ward rate of \$1.50, \$7,449.

The free work is almost equally divided between the City of Charlottetown and Queens and Kings Counties outside of Charlottetown. From the local Government we receive \$3,000 per year and from the City of Charlottetown \$1,500, to pay for hospitalization which costs us \$15,146. In all other parts of Canada, hospitals receive liberal grants from governments, cities and municipalities—in some cases as high as \$300 per patient day but on the average around \$200 per patient day. If we received this average of \$200 per patient day we would, last year, have received in grants \$36,568 instead of \$4,500. Even with these more generous grants we find nearly all hospitals throughout Canada have yearly deficits of varying amounts. Our Hospital, however, has paid its way since 1923 and has never, in its fifty-three years of existence, required treatment to any one seeking admission irrespective of whether they pay or not. The care and treatment and food given to a free patient is exactly the same as to the patient who is paying for a private room. We could fill pages giving you information as to what the Hospital is doing but we believe this is sufficient. If you want to verify it come in and be shown through the Hospital and ask our Superintendent or some of the staff for the information you require.

But what of the immediate future? Surely with this record of fifty-three years you do not want us to stand still, or worse, go back. Improved equipment, a more modern hospital, brings added and greater responsibility, inspires us with greater ambition to extend our field of usefulness in the direction of greater efforts to aid sick and suffering humanity and to save or prolong life. The progress in medical and surgical skill has been very rapid in the last twenty years and hospital equipment has kept the pace. All this costs money but not more than can easily be provided if every solid citizen will first satisfy himself or herself as to the needs of the Hospital and the good work being accomplished and then give to the full extent of their ability without injury to themselves. Perhaps a little more personal sacrifice might be required but that will only do us good.

### Staff Inadequate

On account of the steady increase in the number of patients we must at once increase our number of pupil nurses by at least six and possibly another one or two graduate nurses. Our present staff is not large enough to give as much nursing care as the patients require and we admit to some genuine complaint on this score. But this means more expense. Give us the means and we will see you get the service.

Referring again to the matter of government and city grants. Those of us who know the work the three hospitals are doing, who know what it costs to give service, cannot understand why the Government should give \$18,000 a year to one institution which takes care of about 140 patients dealing with one disease, and only a total grant of \$8,000 to the other three general hospitals which take care of over 4,500 patients yearly and suffering from all kinds of diseases. The general hospital requiring expensive equipment not required in the institution taking care of the 140 patients. We wish to say to the members of the local Government and to the Mayor and City Councilors, "We can no longer take care of your wards, at a cost to us of \$15,146 per year, for a total grant of \$4,500, viz., \$3,000 from the City Government and \$1,500 from the City. We are prepared to do the work for you but you must pay for the service. If you do not wish to increase your grant to an amount in keeping with the cost to us, then we will be forced to do as they do in Fredericton, viz: charge the municipality the cost per patient day and each case must be paid for promptly and no case admitted without an order from the proper authorities guaranteeing payment." It is our wish that this plan may have to be adopted but the Hospital must not be asked to do this work of caring for the wards of the Government and the City without being furnished with the means to do so. We will furnish the accommodation but cannot furnish the means.

### Financial Campaign

To illustrate a little more plainly and pointedly what we mean: We are now making annual collections throughout the City and country and we publish the list of contributors in full. The amount contributed in the last two years has been thankfully received and a very great help to us but we believe these collections could easily be increased three or four hundred per cent if our people were made more hospital conscious.

Subscriptions of \$1.00 and under could just as easily be made \$5.00 or \$10.00 without the subscriber feeling the giving of this extra amount in the slightest degree. On the other hand we know many who, giving us only from 25 to 50 cents, are making a real sacrifice and we have a desire to give more if they could. In addition to larger subscriptions we must also have more interest taken in the affairs of the Hospital by prominent men in each district, men whose opinions carry weight and who realize their duty to do their part in helping this institution. We want several good men in each district who will either make the annual collection themselves or see to it that competent collectors take charge of the work. Remember this is your Hospital, built by you in your wisdom, providing a house of refuge that you, or some of your family, may most urgently need without warning; a house to which you may go to have suffering relieved and every effort made to save your life. And, if it is your very great fortune never to need it for yourself or your family, we are sure the knowledge that it has done these things for others not so fortunate will repay you a hundredfold on your investment.

### Urgent Requirements

Among the urgent needs of the Hospital, that should be filled as soon as funds can be obtained for them, are:

1—A deep therapy X-Ray machine. When the hospital was erected a room was completed to hold such machine but, unhappily, we never had the money to purchase the equipment. We have a very complete X-Ray transformer for radiography and fluoroscopy but it is only fit for superficial therapy, while the need for deep therapy is increasing greatly, and we are yet unable to carry on the treatment of malignant diseases that are inoperable, or that require both X-Ray and operative treatments. We hope that our people will give us the necessary assistance and we shall immediately get the equipment.

2—A Gas Oxygen machine. The instrument we have been using for a number of years has become worn out and needs replacement. We must get this as the very best we can. It is of great importance in the giving of anesthetics and we should not do without it.

3—Our hydrotherapeutic department has never been completed because the rooms were needed for other purposes. However, the rooms will, we hope, be available before long and this important equipment for the treatment of nervous diseases, etc., should be installed as early as possible.

4—A modern suction and etherizing machine, to replace an old worn out one, must be purchased without delay, as it is needed practically daily in the operating room.

Apparatus of the nature above mentioned, you all probably know will wear out and replacements must be made when required. There are several instruments used in the operating room that must also be obtained.

The installation of this equipment will keep us in the front rank of modern hospitals and will mean a very great deal to the people of the whole Province inasmuch as they can get treatment here, without incurring the heavy expense of going to Montreal. To illustrate, one prominent citizen told one of our Trustees a few days ago that if our Hospital had been equipped with deep therapy it would have saved him \$2,000 as he was obliged to go to Montreal remaining there for some time. Approximately \$10,000 is required for the equipment we have specified.

what in excess of that figure. The present very excellent position of your hospital was not just arrived at by chance. It is the result of the hearty cooperation of a generous public with our board of Trustees, very, very largely to the work of our excellent medical staff and the faithfulness, loyalty and ability of the staff of the Hospital. To the Ladies Aid must also go a large share of the credit. Since the organization of the Hospital fifty-three years ago, this organization has looked after the furnishing of the rooms, kitchen, etc., as well as making many special donations of large value from time to time. It is not an exaggeration to say that the very splendid condition of the Hospital is largely due to the well organized efforts of the Ladies Aid. We wish to congratulate Mrs. J. A. Clark as President of the organization for such a long period of successful year's work, and to her election to the office for another year.

During the year the Trustee Board suffered the loss of one of our valuable trustees and workers, Mr. James Paton. Mr. Paton carried to a successful conclusion the work he undertook and his services to the Hospital will be greatly missed. The vacancy on the board caused by Mr. Paton's death has been filled by the appointment of Mr. Geo. W. McLeod.

### Staff Changes

During the year several changes and additions have been made to the Hospital staff. Mrs. Mary C. Pineo, laboratory technician, resigned and Miss Helen Ewing appointed to take her place. Miss Ewing, a well known nursing instructor and Miss Linnis Platts, formerly supervisor, succeeds her. Miss Hattie McLean has been promoted from night supervisor to sub-supervisor. Miss Mildred H. Thompson has been appointed night supervisor. Miss Louise McKenzie resigning as assistant operating room nurse and Miss Besse MacKenzie appointed in her place. H. H. Pierce, M.D., has been appointed to the medical staff. Dr. J. H. MacLeod, M.D., has been appointed to the medical staff. Your Trustees wish to express their very great appreciation of the services rendered the Hospital by Mr. H. J. Gordon who has maintained a continual audit of our books and given our Secretary-Treasurer valuable assistance. The clergy have as usual maintained their regular attendance at the Hospital and their interest is much appreciated both by the patients and the management.

The Welfare Club have increased their activities on behalf of the Hospital and the Trustees are much indebted to them for their assistance.

The following nurses graduated: Bessie Jean McKenzie, Anna Dorothy Nicholson, Anna Kathleen Bennett, Elizabeth Mathew MacDonald.

According to the by-laws the following period of rest, this year, all of whom are eligible for re-election: Mr. Robert L. Cotton, Mr. George W. McLeod, Dr. H. D. Johnson.

### Cundall Home For Nurses

The pages of the history of the Prince Edward Island Hospital have been brightened by many wonderful gifts by public spirited citizens, notably the late F. Ratchford Starr, the late Ralph Brecken and Franklin and Mrs. Boyver. Many others have contributed amounts of \$5,000 and over and some day the complete history of the Hospital should be written up to date and the assistance of these generous and public spirited citizens should be gratefully mentioned in the present Hospital possible. To the Government of Prince Edward Island, which made it possible for us to purchase the present splendid site, the Hospital must always be deeply indebted. And tonight we are happily able to make to you another announcement of the very great importance to the Hospital. Coming as it does, at our time of greatest need, what it offers it may, we think, be classed as one of the greatest, if not the greatest event, in our history. We submit a copy of the resolution passed by the Trustees of the Cundall home which fully explains the situation.

Extract from minutes of meeting of the Trustees of the Cundall Home, held at the Cundall Home, Charlottetown, on Wednesday, the 20th day of May, A. D. 1936:

WHEREAS Henry Jones Cundall, late of Charlottetown, by his last Will and Testament dated the 26th day of October, 1904, devised his residential property, Beaconsfield, and bequeathed and devised various bonds, mortgages and other securities in trust for certain charitable purposes hereinafter mentioned.

AND WHEREAS by Chapter 13 of the Acts of the Province of Prince Edward Island, there was passed an Act entitled "An Act to Incorporate the Cundall Home," by which the Trustees appointed in the said last Will and their successors were created a Corporation, and the said Corporation was empowered to arrange with the Young Women's Christian Association of Charlottetown for the establishment and maintenance in and upon the residential property occupied by the said Henry Jones Cundall at the time of his death of a Refuge and Temporary Home, as nearly in accordance with the directions and trusts of the said Testator's Will as the Corporation might consider feasible and possible.

AND WHEREAS the said arrangements with the Young Women's Christian Association of Charlottetown did not work out satisfactorily but have been abandoned, and for the past few years the said residence known as the Cundall Home has been used as a supervised boarding-house for Prince of Wales College students, and in the summer holiday as a tourists home.

AND WHEREAS the Trustees of the said Corporation are of the opinion that the arrangements in effect with respect to the said

Home are not completely in accord with the directions of the said testator's will, and are desirous of making more suitable arrangements to carry out his wishes.

AND WHEREAS the said Trustees of the Corporation have been approached by the Trustees of the Prince Edward Island Hospital with the request that the said Cundall Home residence be used as a Home for Nurses in training at the said Hospital and that the interest on the Endowment Fund of the said Cundall Home be used in the training and assistance of the said Nurses.

AND WHEREAS the Trustees of the Cundall Home have in mind that the late Henry Jones Cundall, the creator of the Cundall Home Trust, was for many years a member of the Board of the Prince Edward Island Hospital and a strong supporter of such institution and the provisions of his Will creating the Cundall Home Trust, while describing generally the objects for which the Home and the Endowment shall be used include a specific or explanatory clause as follows:

"To provide a home where young women and girls may be supported and trained practically in the several branches of domestic science, including nursing, for such time, either free of charge to them or upon such terms of payment as the Home Trustees may think proper; attendance at lectures and study of suitable works on these subjects to be encouraged."

AND WHEREAS the Trustees of this Corporation have been informed by the Hospital Board that its pupil nurses are trained practically in the various branches of domestic Science and Nursing and regularly attend lectures upon such subjects, but that the Board of Trustees of the Hospital as a result of heavy expenditures necessitated by the erection of the new Hospital are unable to pay any living allowance or allowance for clothing to its pupil nurses as was the custom prior to the erection of the new hospital, and further that there is no adequate accommodation for these pupil nurses who number approximately thirty and who could be accommodated most suitably and satisfactorily in the Cundall Home Residence which is in close proximity to the Hospital buildings proper.

AND WHEREAS the said Trustees of this Corporation upon due consideration and discussion are of the opinion that they would be carrying out the wishes and directions of the testator by making use of the Home Residence for nurses in training and by making use of at least a portion of the Endowment Fund to assist such nurses, but due to the fact that arrangement with the Young Women's Christian Association of Charlottetown authorized by the Statute of 1927 which seemed satisfactory at the time did not prove so over a period of years, the Trustees of this Corporation are of the opinion that the suggested arrangement with the Prince Edward Island Hospital should be effected for a trial period of three years.

THEREFORE IT IS RESOLVED unanimously by this meeting of the Trustees of the Cundall Home Corporation that its Chairman and Secretary be authorized on behalf of the Corporation to enter into an agreement with the Trustees of the Prince Edward Island Hospital whereby this Corporation will permit the said Hospital to have the use of the said Cundall Home Residence and furniture contained therein free of charge as a Home for and for the use of nurses in training for a period of three years from the 1st day of September 1936, and that this Corporation inform the Hospital Board of the terms of the use of a sufficient portion of its Endowment Income for paying insurance premiums, heating and properly maintaining the said Residence during the period of the proposed Agreement, that it will make use of an additional portion of the Annual Income from the said Endowment to provide a small monthly stipend or clothing allowance to each of the said pupil nurses.

AND BE IT FURTHER RESOLVED that the Chairman and Secretary of this Corporation cause to be drafted and presented to the next Session of the legislature of the Province of Prince Edward Island an amendment to the Act of Incorporation of this Corporation confirming the proposed arrangements with the Trustees of the Prince Edward Island Hospital and empowering the said Corporation to make arrangements of such nature in accordance with the provisions of the testator's Will as the Trustees from time to time may deem proper.

To attempt to find words to return thanks and express our appreciation of this magnificent gesture is a difficult task. To our Trustees and to the Trustees of the Cundall Home it must be gratifying to remember that the late Henry Jones Cundall was one of that band of citizens who attended the first meeting held in the Y. M. C. A. in Charlottetown in April, 1883 to consider the establishing of a non-sectarian hospital in Charlottetown for the benefit of the whole Province. He was a member of the first Trustee Board; that he served continuously as a Trustee for thirty-four years and was chairman of the Board for many years; that during his lifetime he was a generous and consistent giver to the Hospital and at his death remembered the Hospital by the splendid bequest of \$3,000. His generous bequest, in this part of the Trustees of the Cundall Home came to us just at the moment when we were preparing to erect a new nurses' home, the doing of which would have cost us from thirty-five to forty thousand dollars. This home for the nurses had to be provided at once as the increased demand for hospital space makes it necessary for us to take over for ward space the rooms in which we have, for three years, been housing our nurses. Further the increased work in the Hospital made it imperative that we should take on quite an additional number of nurses. This action on the part of the Trustees of the Cundall Home

Home are not completely in accord with the directions of the said testator's will, and are desirous of making more suitable arrangements to carry out his wishes.

AND WHEREAS the said Trustees of the Corporation have been approached by the Trustees of the Prince Edward Island Hospital with the request that the said Cundall Home residence be used as a Home for Nurses in training at the said Hospital and that the interest on the Endowment Fund of the said Cundall Home be used in the training and assistance of the said Nurses.

AND WHEREAS the Trustees of the Cundall Home have in mind that the late Henry Jones Cundall, the creator of the Cundall Home Trust, was for many years a member of the Board of the Prince Edward Island Hospital and a strong supporter of such institution and the provisions of his Will creating the Cundall Home Trust, while describing generally the objects for which the Home and the Endowment shall be used include a specific or explanatory clause as follows:

"To provide a home where young women and girls may be supported and trained practically in the several branches of domestic science, including nursing, for such time, either free of charge to them or upon such terms of payment as the Home Trustees may think proper; attendance at lectures and study of suitable works on these subjects to be encouraged."

AND WHEREAS the Trustees of this Corporation have been informed by the Hospital Board that its pupil nurses are trained practically in the various branches of domestic Science and Nursing and regularly attend lectures upon such subjects, but that the Board of Trustees of the Hospital as a result of heavy expenditures necessitated by the erection of the new Hospital are unable to pay any living allowance or allowance for clothing to its pupil nurses as was the custom prior to the erection of the new hospital, and further that there is no adequate accommodation for these pupil nurses who number approximately thirty and who could be accommodated most suitably and satisfactorily in the Cundall Home Residence which is in close proximity to the Hospital buildings proper.

AND WHEREAS the said Trustees of this Corporation upon due consideration and discussion are of the opinion that they would be carrying out the wishes and directions of the testator by making use of the Home Residence for nurses in training and by making use of at least a portion of the Endowment Fund to assist such nurses, but due to the fact that arrangement with the Young Women's Christian Association of Charlottetown authorized by the Statute of 1927 which seemed satisfactory at the time did not prove so over a period of years, the Trustees of this Corporation are of the opinion that the suggested arrangement with the Prince Edward Island Hospital should be effected for a trial period of three years.

THEREFORE IT IS RESOLVED unanimously by this meeting of the Trustees of the Cundall Home Corporation that its Chairman and Secretary be authorized on behalf of the Corporation to enter into an agreement with the Trustees of the Prince Edward Island Hospital whereby this Corporation will permit the said Hospital to have the use of the said Cundall Home Residence and furniture contained therein free of charge as a Home for and for the use of nurses in training for a period of three years from the 1st day of September 1936, and that this Corporation inform the Hospital Board of the terms of the use of a sufficient portion of its Endowment Income for paying insurance premiums, heating and properly maintaining the said Residence during the period of the proposed Agreement, that it will make use of an additional portion of the Annual Income from the said Endowment to provide a small monthly stipend or clothing allowance to each of the said pupil nurses.

AND BE IT FURTHER RESOLVED that the Chairman and Secretary of this Corporation cause to be drafted and presented to the next Session of the legislature of the Province of Prince Edward Island an amendment to the Act of Incorporation of this Corporation confirming the proposed arrangements with the Trustees of the Prince Edward Island Hospital and empowering the said Corporation to make arrangements of such nature in accordance with the provisions of the testator's Will as the Trustees from time to time may deem proper.

To attempt to find words to return thanks and express our appreciation of this magnificent gesture is a difficult task. ### Persons

Mrs. George Douglas and daughter left Saturday last for New Jersey to visit Mrs. Douglas's mother, Mrs. Harry Connolly.

Mr. A. Gordon Narn of Toronto, field supervisor of the Life Underwriters Association of Canada, arrived in Charlottetown last night. He is staying at the Canadian National Hotel.

### Deaths

DAVISON—At Kensington on May 20, 1936, to Mr. and Mrs. Waldon Davison, a son.

ANDERSON—At St. Peter's Lake Friday, May 15, 1936, to Mr. and Mrs. Sidney Anderson, a son.

DEATHS

DOYLE—At Prince County Hospital on Thursday, May 21, 1936, Peter A. Doyle, Norway, Lot 1, aged 67. Funeral Saturday morning from his late residence.

Home are not completely in accord with the directions of the said testator's will, and are desirous of making more suitable arrangements to carry out his wishes.

AND WHEREAS the said Trustees of the Corporation have been approached by the Trustees of the Prince Edward Island Hospital with the request that the said Cundall Home residence be used as a Home for Nurses in training at the said Hospital and that the interest on the Endowment Fund of the said Cundall Home be used in the training and assistance of the said Nurses.

AND WHEREAS the Trustees of the Cundall Home have in mind that the late Henry Jones Cundall, the creator of the Cundall Home Trust, was for many years a member of the Board of the Prince Edward Island Hospital and a strong supporter of such institution and the provisions of his Will creating the Cundall Home Trust, while describing generally the objects for which the Home and the Endowment shall be used include a specific or explanatory clause as follows:

"To provide a home where young women and girls may be supported and trained practically in the several branches of domestic science, including nursing, for such time, either free of charge to them or upon such terms of payment as the Home Trustees may think proper; attendance at lectures and study of suitable works on these subjects to be encouraged."

AND WHEREAS the Trustees of this Corporation have been informed by the Hospital Board that its pupil nurses are trained practically in the various branches of domestic Science and Nursing and regularly attend lectures upon such subjects, but that the Board of Trustees of the Hospital as a result of heavy expenditures necessitated by the erection of the new Hospital are unable to pay any living allowance or allowance for clothing to its pupil nurses as was the custom prior to the erection of the new hospital, and further that there is no adequate accommodation for these pupil nurses who number approximately thirty and who could be accommodated most suitably and satisfactorily in the Cundall Home Residence which is in close proximity to the Hospital buildings proper.

AND WHEREAS the said Trustees of this Corporation upon due consideration and discussion are of the opinion that they would be carrying out the wishes and directions of the testator by making use of the Home Residence for nurses in training and by making use of at least a portion of the Endowment Fund to assist such nurses, but due to the fact that arrangement with the Young Women's Christian Association of Charlottetown authorized by the Statute of 1927 which seemed satisfactory at the time did not prove so over a period of years, the Trustees of this Corporation are of the opinion that the suggested arrangement with the Prince Edward Island Hospital should be effected for a trial period of three years.

THEREFORE IT IS RESOLVED unanimously by this meeting of the Trustees of the Cundall Home Corporation that its Chairman and Secretary be authorized on behalf of the Corporation to enter into an agreement with the Trustees of the Prince Edward Island Hospital whereby this Corporation will permit the said Hospital to have the use of the said Cundall Home Residence and furniture contained therein free of charge as a Home for and for the use of nurses in training for a period of three years from the 1st day of September 193
