Crawford-MacKenzie Wedding

Gordon Chapel, Old South Church, Boston, Mass., was the scene of a happy event on Sunday, October 26, when Miss Shirley Alice MacKenzie of Cambridge, exchanged marriage vows with Mr. David Livingstone Crawford of Jackson Heights, New York. Dr. Roland C. Ewing officiated at the three-thirty double ring ceremony. Mrs. James Dummett, sang sweetly "Because," "I Love You Truly" and "The Day of Golden Promise". She was accompanied by Dr. MacKintley, church organist, who played several selections before the ceremony. The chapel chancel was attractively decorated with baskets of white gladioli and chrysanthemums flanked by tall white tapers in brass candelabra. Given in marriage by her father, Mr. George D. MacKenzie of Mount Stewart, P. E. Island, the bride chose a gown of white chintilly lace over satin. Her finger tip veil fell from a coronet of matching lace. She carried a cascade bouquet of white orchids and stephanotis.

Personals

Mrs. C. B. Green, Montague, is spending a few days in Summerside, guest of her brother, Mr. Ernest Parkman.

Her many young friends will regret to learn that Miss Eileen Anneer, Lower Montague, is a patient in the King's County Hospital, where she underwent an operation.

*Mr. and Mrs. Harold Carver and son Ludlow, of Hazelbrook, were visitors to Alliston on Sunday, guests of Mr. and Mrs. Blair McSwain.

The many friends of Mr. and Mrs. Gerard Sharkey, Cardigan, are sorry to hear their baby daughter, Geraldine, is a patient in the King's County Hospital.

Mr. and Mrs. Philip McGee of Gaspereaux, accompanied by their son-in-law and daughter, Mr. and Mrs. James Murphy, were recent visitors to Summerside, guests of Mr. Wilfred Boyle and family.

ASHBOURNE, England (CP) — The walls of the Queen Elizabeth grammar school in this Derbyshire town are to be repaired. In the last four centuries they have undergone constant carving of initials by students.

DARMSTADT, Germany, (AP) — Princess Irene of Prussia, 87, sister of Ernst Ludwig, last grand duke of Hesse, died at Hemmelmark near Kiel Wednesday. Her husband, Prince Albert Wilhelm Henry, who died in 1945, was a brother of Kaiser Wilhelm II.

Building And Bridge Projects Make Progress

Considerable progress has been made in the construction of the new bridge at Montague during the past few weeks. All cement piles have now been placed in position, 10 at each of the centre pillars and 7 at each end of the bridge. Rock fill and concrete abutments have almost completed the preliminary work at the ends while in the centre the concrete has been poured for one full pier, and in the course of a few days the other will also be completed.

At present the crew is engaged in removing the top deck of the old bridge to make way for the new construction.

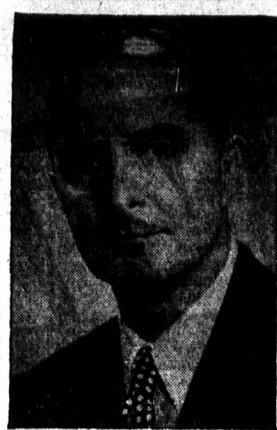

At the new Federal building the excavation of the cellar is finished, and the work of constructing the foundation is underway. Already the cement footings have been completed, and at present the forms are being constructed to run the cement foundation wall.

Following considerable negotiations, the building site was placed back another 13 feet to make an excellent frontage facing the Main Street, and at the same time more land was purchased to the rear to provide a rear entrance and parking place.

Miss Isabella Morrison of Boston, was in charge of the guest book.

For travelling the bride wore a suit of brown English tweed with turquoise accessories. On return from their wedding trip through Vermont, New York State and Ottawa, Mr. and Mrs. Crawford will reside at 22-23 93rd Street, Jackson Heights, N.Y.

The out of town guests included Mr. and Mrs. George D. MacKenzie of Mount Stewart who celebrated their 31st wedding anniversary on that day; Mrs. William Crawford and Mr. William A. Crawford of Mount Stewart; Mr. Douglas Coffin of Summerside; Miss Ann Rogers and Mr. Douglas MacKenzie of Toronto; Mr. Henry Clay Niles and Henry Clay Niles, 3rd, of Fulton, Missouri; Mrs. Frank Hayes and Pamela Druhavs of Ardmore, Pa; Mr. and Mrs. Paul Morey of New London, New Hampshire.

Mayor Addresses St. David's M. A.

The monthly supper meeting of St. David's Men's Association took place on November 2 in the Church hall.

After partaking of an appetizing supper served by the ladies of the W. A., the meeting was called to order by the president, Mr. H. Yonson.

The men of Georgetown were happy to welcome the guest speaker, Mayor J. D. Stewart of Charlottetown as one of themselves, as he was born in Georgetown, and spent part of his childhood there. Mayor Stewart spoke on the various aspects of municipal government, giving the group an insight into the obligations and finances of the City of Charlottetown, its system of taxation, public services, and so on. He made special mention of the fact that in the year 1953, Charlottetown is looking forward to celebrating its 100th birthday, and hopes to welcome a record number of visitors to the festivities.

It was decided that for the next meeting a National Film Board program would be arranged; also a panel discussion will be held. The subject of the discussion is to be the value of the Church, to the community, to the individual, and in politics.

It was also arranged, with the consent of the ladies, that the Men's Association should have a booth at the forthcoming bazaar, at which donated articles shall be re-sold. A committee of canvassers have been elected to call upon the men of the congregation for these donations.

The business being concluded, Mr. Seymour Knight rose to make a vote of thanks to Mayor Stewart for his interesting address. Captain Larsen thanked the ladies for their excellent supper, and the meeting was brought to a close with the singing of hymns and the benediction pronounced by Rev. W. Paterson.

market for Alberta gas in that province.

Since Consumers Gas is a provincially incorporated concern, under the new legislation it would have to come to Parliament for permission to build its proposed line. Also, any trans-border operation it might undertake would be placed specifically under control of the Transport Board.

Trans-border pipelines operating before Oct. 1953, would not be affected by the legislation.

Growing Importance

Prime Minister St. Laurent said the northern development measure forecast unofficially last week, would lay heavier emphasis on the North in recognition of its growing importance.

It mentions specifically that the resources minister is responsible for Eskimo affairs—a responsibility previously his but not included in the legislation. It also specifies he is in charge of water resources.

It gives him jurisdiction over historic sites and monuments, while dropping housing, the National Film Board and the trans-Canada highway, transferred to other departments.

The Resources Minister is Jean Lesage, Commons member for Montmagny - l'Islet and newest member of the cabinet.

Three bills were introduced Monday by private members.

Stanley Knowles (CCF-Winnipeg North Centre) brought in his perennial measure to have the voluntary revocable checkoff of union dues made mandatory on employers in industries under federal jurisdiction.

Mrs. Ellen Fairclough (PC - Hamilton West) re-introduced a bill that would make it an unfair practice not to give equal pay to women doing the same work as

mandate: 1. No turning over of Trieste to Italy and no Italian occupation unless approved by the proposed international conference.

2. Autonomy for the port city itself, under Italian sovereignty.

3. Annexation by Yugoslavia of the rest of the British-American occupation zone A of Trieste free territory. Yugoslavia itself occupies zone B.

4. Protection of minority groups.

5. A subdivision of the city itself to provide that predominantly Slav suburbs of Trieste be part of Yugoslavia.

Authoritative Italian sources here said this program would never be acceptable to Italy except for certain points such as the protection of minorities, which both sides want.

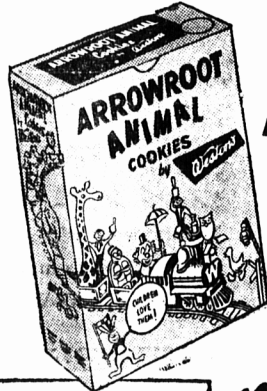

Hazen Argue (CCF-Assiniboia) sponsored legislation to change the method of allocating box cars to elevator companies for transporting grain. It would enable producers to determine the distribution of box cars at marketing points on the basis of their seeded acreage.

able. Parents must give written consent.

Tested On 700 The trials will cost the foundation \$7,500,000.

O'Connor said the foundation undoubtedly will have enough vaccine for 700,000 children, and thinks there may be enough for 1,000,000.

Dr. Salk's vaccine uses polio virus grown in test tubes on monkey kidney tissue. The virus then is carefully killed by a chemical, formalin. All three types of virus which cause human polio are incorporated in the vaccine.

While most of the virus will be grown by the Connaught Laboratories, several U.S. pharmaceutical houses will help prepare the actual vaccine, using Dr. Salk's formula.

Dr. Salk so far has tested his vaccine on 700 humans. He finds it creates protective antibodies virus. This protection has endured against all three types of polio for a year in some children inoculated a year ago.

Dr. Falk expected to have vaccinated another 5,000 to 10,000 children in Allegheny county, Pennsylvania, before the mass shots begin, the foundation said.

THERE IS A McCULLOCH POWER CHAIN SAW FOR YOUR NEED...

Here, in the 1953 McCulloch Models, 33, 47 and 4-30, is a complete line of one-man Power Saws, designed to increase production and reduce labour in all woodcutting activities. Each model is the result of

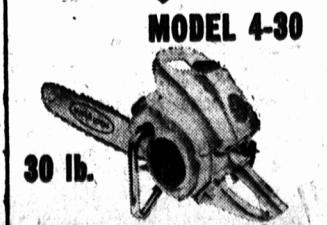

in-the-field research together with the most advanced chain saw engineering and manufacturing facilities in the world. Choose the McCulloch model for your needs.

MODEL 33 20 lb. This is the world's lightest power chain saw. Rugged and powerful, the Model 33 cuts through trees 18 inches in diameter in less than one minute. Available \$265 with 12" or 16" blade.

MODEL 47 30 lb. A chain saw of extra-production performance—yet sold at a surprisingly low price. Weighs only 30 pounds, and incorporates the heavy-duty features that make it stand up under the toughest work. Six models available—14" to 36" blade and 15" bow saw. \$311

MODEL 4-30 30 lb. The fastest cutting one man chain saw ever developed. Light weight, with maximum power delivered to the chain makes the 4-30 a real production tool in timber up to 5 feet. Six models available—14" to 36" blade and 15" bow saw. \$369
