

One Hour a Day.

One hour a day conscientiously given to the piano, will keep the beautiful accomplishment which you acquired by so many years of study and devotion. You are a busy matron with something to fill in all the dlying moments, and you are contentedly letting your music go, now that the children are taking lessons. The girls monopolize the piano, and they are learning to play beautifully, and your pride in their progress is very great.

Nevertheless, it is not well that girls should excel their mothers in everything. It is not well that girls should have the drawing-room especially set apart for their evenings and their guests, while mother sits upstairs or in the basement. The mothers of to-day are quite too prone to retire into the shadowy background, leaving the young ladies to queen it in front.

We always like to visit in a house where the mother keeps her true place of general pre-eminence. We think mothers would less frequently slip from this, if they cared a very little more about not becoming rusty. A woman should grow more and more charming as she goes on in life, also fuller of resources, and rather than lose any acquisition once gained, she should add to her stock as she approaches middle age.

One hour a day, dear madam, will enable you to surprise your husband, as he sits beside the table in the evening, with the same sweet old melodies which you played to him in the long ago. One hour a day will so give to fingers and brain the power and the magic of harmony, that you will be able to play merry little polkas and jigs for the children's entertainment, and to criticize, to their delight and profit, the ambitious performances of the older ones.

What else will one hour, set apart to a special use, accomplish? It is quite safe to say that, devoted faithfully to the reading of good literature, it will broaden your outlook upon the world, and add to your interest in society and conversation. It is a pity that really well educated women at home read so few solid books. Want of time is usually pleaded in excuse, whereas it is quite as probably want of inclination or indifference to reading, which is the true reason for the mind's lying fallow. One hour a day, religiously dedicated either to good secular books, or to devotional books, will, in the course of a year, tell upon your mental life in many ways.

One hour a day spent, not over the fascinating embroidery or the engrossing knitting work, or even on the pretty wardrobe of the little ones, but instead spent in entertaining and companionship your half grown boy, will yield a ripe harvest in days to come. It is a shame that so many lads are left to seek associations which do them harm, when they are treading the perilous border-land between childhood and manhood. A boy should never be suffered to grow away from his mother. He should be, as he matures very much in her confidence, and if he is not this, it is too often her fault. Take an hour each day and cultivate your boys. If they are to be pure-minded, gentle and manly, let the refining influence of a happy home be always around them, and let their Christian mother plan for their pleasure.

SOMETHING NEW.—There has always been great difficulty in getting water-proof coats to fit satisfactorily about the neck and shoulders, for stout and round-shouldered men. You can avoid this and have a perfect fit by leaving your measure with us. We have made arrangements with an English firm to have these coats made on our own patterns, so that we are in a position to warrant a good fit. We can show over 100 samples of the goods from which the coats will be made, ranging in price from \$5 to \$24. Every coat warranted to come the same as sample of goods shown. You can have better material and cheaper than buying ready-made goods.—John McLeod & Co., Merchant Tailors. (aug27)

ELECTRIC GLOSS.

FOR cleaning Solid Silver, Nickel, Brass, Copper and Plate Glass. Quick! Sure! Permanent! No dirt, no trouble, no labor! Being entirely free from grit and acids, it cannot injure the most finely polished surface. It is the only preparation ever produced that will polish brass or copper without the use of acid. Nothing approaches it for removing grease and finger marks from Nickel, Copper, Glass, etc.; while for cleaning Brass or Stoves it is especially useful. Retail price, 25 cents per bottle.

MICA WASH.—This wash is the only thing of the kind ever invented. A stove may be as handsome as a jewel and shine like ebony; but smoked mica lights will spoil it all. Day by day mica becomes scarcer and higher in price, and an article that will clean and preserve it is valuable to all concerned. Try this wash once, and you will always use it. Retail price, 25 cents per bottle.

The above household necessities are manufactured by The Electric Gloss Co., Philadelphia, U. S. A., and sold by every respectable Druggist, Store Dealer, Hardware Merchant and General Dealer in Canada. The Canadian trade supplied by

MRS. SOPHIA POTTER'S

Bone Rheumatic Liniment

IT is a fact worth knowing that Mrs. Sophia Potter's Bone Rheumatic Liniment cannot be excelled for removing pain and soreness. It is no worthless trash, as some may suppose, simply because they have been imposed upon by others but is positively the "King of Pain." Sore throat cannot stand before its power.
All we ask is a trial that you may be convinced of the truth of our statement. Our experience is that one bottle tried also sells many more.
See circular for particulars and testimonials, and try a bottle—it will not fail to do all that is promised.
