

Drunkness and Crime.

A CANADIAN JAILER GIVES HIS THIRTY YEARS' EXPERIENCE.

Mr. A. Lang, jailer of the Barrie jail, writes to the Globe as follows:—

Drunkness is the sin of our world. Thirty years ago on the first day of last December I took possession of this jail. My experience is that eighteen-twentieths of our jail population during that period found their way here through using the poison vendible by what is now mis-called Licensed Victuallers Association. To talk about building houses for the drunkards' widows and orphan children sounds like an empty echo, while the licensees men to make the poison, licensees men to sell the poison, licensees men and women to drink that poison till they become insane and commit crime, and then licensees judges and magistrates to send them to prisons or the gallows. Yes, first make men drunkards and ruin them, and then tax the country to build houses for the widows and orphans all manufactured by law, and finish up by employing keepers to oversee them.

I remember a very solemn case which occurred here about nine years ago. A man in our country was hanged for killing his wife. On the evening prior to his execution, he asked the privilege of addressing all his fellow prisoners, and fellow drunkards as well. This he did by calling each one by name, and as an earnest dying man he urged them never again to touch the accursed cup which had been his ruin, and had brought them to prison. He went on: "To-morrow I must die in the fulness of good health, and had it not been for whiskey I would never have been inside this jail a prisoner." And on that very same evening the hangman asked me to let him out so that he could procure a bottleful of the licensed victuallers cordial to help him through that terrible ordeal. For degraded and brutalized as that hangman was, the forty dollar fee was insufficient to make him kill his fellow-man, but a good draught of the victuallers' punch once down, he could kill his fellow-creature, bound and helpless on his knees before him. Yes, with a strong hand and a steady nerve, like a beast of prey, he could finish his terrible job. If our good men who can write so sympathetically for the poor, lost drunkard's starving child will only set themselves to work till the next general election, and then work on with an unconquerable will to place honest, sober, and sterling men at the head of the polls, instead of the drunken sots who are willing for the sake of holding office to open wide the flood-gates of drunkness and ruin to our beloved country!

Why, sir if it was possible next week to sweep off from the face of our continent the whole of those streams of liquid death and moral destruction, I would guarantee that in twelve months the Toronto jail would hold every prisoner in Ontario, thus doing away with 38 jails and 8 lockups, with a saving to the country of over one hundred and fifty thousand dollars a year in cash. Then add to that the amount of prisoners' time saved,—it would rise to ten times that amount in our own Province. And in three years more there would not be a pauper child in our country. Every man and woman would be clothed and in their right mind, and their children would grow up to fill respectable positions, instead of finding their way into jails, reformatories, penitentiaries. Then we would have peace within our borders and prosperity within our walls. We go on the principle of our strict teetotalism in our jail, and I try to treat my prisoners as if they were human beings, the workmanship of God's hand, and the objects of God's love.

The Herald's Berlin despatch says: "Bismarck has carried his budget in the face of violent opposition on the part of national Liberals, who see in his scheme to obtain an independent revenue for the empire by buying up railroads, creating a tobacco monopoly and inauguration of a protectionist policy, the death blow to all hopes of representative government in the fatherland. Bismarck's victory, together with his suddenly throwing over Progressists and siding with Ultramontanists with the view of establishing *modus vivendi* with the Vatican has completely cut the ground from under the feet of his adversaries. It is reported that five officers of the Russian staff have received tempting offers to enter the Chinese service."

The Great French Remedy, Dr. LeDuc's Periodical Pills. For the cure of Leucorrhoea or White's Excessive or Painful Menstruation, Green Sickness, Falling of the Womb, Catarrh of the Uterus or Vagina, Hysteria, pain in the Back, or Piles, or for the purpose of invigorating and giving tone to the Generative Organs, two pills should be taken twice daily, or in very enfeebled conditions, one pill three times a day. To effect cures in chronic cases it will be necessary to continue the use of the remedy for some months. A reasonable trial will create sufficient confidence in the remedy to insure its being taken until a permanent cure is effected.

Dr. Bennet, Halifax. DEAR DOCTOR.—Just a few lines as promised by me. I am more than pleased with the "Liver Pad" I got from you when in Charlottetown, and can conscientiously say that it is the best thing I ever saw or heard of. It has done for me what all kinds of medicine and different physicians could not do for me—i. e., removed a very nasty body eruption, which had given me a great deal of annoyance for more than two years; and, more than that, I have not been troubled with a single headache since I have used it. Before wearing the Pad I was troubled with severe headaches continually; and that very objectionable feeling of sluggishness and dullness has entirely left me—in fact I am a new man, to what I was before wearing it. I am truly thankful to you for what you have done for me, and I hope that you may be long spared to the benefit of the people. Believe me, Yours sincerely, FRANK ELLIOTT.
