The skull was broken in so that Dr. Sutherland had to remove a piece from the head. The doctor fears there may yet be a piece of steel in the head, and that it may result seriously.—Guardian.

LOST IS THE STORY.—On the evening of the 24th, Mr. Joseph Stragan, who was working at Cape Traverse, hearing that his wife was very sick, started on foot for home, a distance of about six miles. After travelling for some time he lost his way and wandered about for several hours in the blinding storm. He managed to get to the house of Mr. Artamas Howatt in a very exhausted condition. He remained there until the following day, when he was conveyed safely to his home, where he was pleased to find his wife much better than he expected. With the exception of a few frost bites, Mr. Stragan has none the worse for his adventure.—Guardian.

SKIN GRAFTING.—Skin grafting has proved successful in the case of Mrs. A. V. Fitzgerald, Chicago, and she is rapidly recovering from burns feared at one time likely to be fatal. Mrs. Fitzgerald overturned a lamp on Oct. 4 last, and the blazing oil ignited her clothing which burst the neck and breast. About 600 pieces of skin were taken from the body of her husband, who at once offered himself, but he could not furnish enough. Capt. Wells of Company K First Regiment, I. N. G., and his whole command, then offered their services in the following manner: Mr. Fitzgerald, and many hundred pieces of skin so offered were utilized. The men's arms are still liberally speckled, but no ill effects have been noticed.

TRAGEDY IN THE FAMILY.—A recent issue of the Ottawa Free Press says: Yesterday afternoon another scene in the trouble between Mr. E. B. Elly and his daughter, Miss Bessie, was transacted when the seizure was made of a number of articles, which Miss Bessie claims were willed to her by her mother, but which had been retained by her father when she left the house in Hall to take up her residence on the Chelsea Road. The articles foot up in value to \$7,535, among them being 20 gold watches; a diamond cross, worth \$1,200; set of jewelry, valued at \$250; diamond earrings, worth \$500, and many other such valuables. Mr. Elly made no objection to the seizure, the valuables being placed in charge of a guardian until the trial decides who is the legal owner.

THE BASKET SOCIAL in the Lyceum last evening, by St. Joseph's Sodality, was a very successful affair. The programme of the concert included a chorus by the Concert children, a song by Mr. Bell, a violin solo by Miss Macdonald, a piano duet by Misses Sweeney and Curley, and several selections by the League of the Cross Band, which were all rendered in a capable manner. Mr. J. L. Woods, of Montreal, rendered "The Volunteer Organist" in the style, and in response to an encore recited "The Factor on the Floor." Mr. Woods also sang a comic song during the sale of baskets. The accompanists were Miss Lottie Halloran, Miss Condy, Miss Sweeney and Mr. Watson, of Montreal. Mr. Beato was next on the programme, and auctioned off the large number of baskets at a lively rate, realizing good prices. The sale over, the lucky buyers at once began disposing of the contents of the baskets with the fair dealer. The total amount realized was about \$130.

BYTES BY A DUC.—On Saturday last Walter, son of Mr. W. S. Green, of Summerside, had his upper lip badly bitten by a dog belonging to Mr. Wm. Reid. The injured lad was accompanied by his two boys, harrassing the dog to a spot, when the animal made a rush at him, biting him in the lip.—Journal.

THIS CANADA OF OURS.

On the eve of the 25th the people of Windsor assembled in the hall, making an audience of some two hundred attentive listeners who had the pleasure and satisfaction of listening to a very interesting and instructive lecture on "This Canada of Ours," the lecturer being Mr. J. K. McInnis, formerly a native of this Province, at present one of the leading journalists at Regina. We congratulate Mr. McInnis on his success both as a journalist and lecturer. As a lecturer, his ability was amply proven by the eloquent manner in which he addressed the audience, and also by the undivided attention given, only broken at intervals by rounds of applause expressing the deepest respect for the lecturer, whilst he showed up the great resources of British Columbia and the Northwest Territories, the wild scenery of the Rocky Mountains and the wonderful health-restoring powers of the Hot Springs at Banff, with many amusing anecdotes that very forcibly fastened the subjects on the minds of the hearers.

BELLE CREEK NOTES.

In November last the young men of this district organized a debating society. One of the subjects which came up for discussion was which would be the most beneficial to his district, a cheese factory or a starch factory. The former was almost unanimously favored. The result was a meeting in the district and delegates appointed to ascertain the minds of adjoining districts. There will be a general meeting called, to which some of the leading men from other factories will be invited. This district has lately lost one of its fair ladies in the person of Miss Cassie McLaren, whom we all wish well in her western home. Some may ask what is the rumble we hear in the distance? Is it the noise of the iron horse long looked for here? Better late than never! B. D.

CRAPAUD NOTES.

Preparations are in progress here to accommodate officers and delegates to County Lodge, O. A. U. A., which meets here on Tuesday, February 5th, at 11 o'clock, a. m.

Dr. Covery, of Crapaud, will deliver a lecture in Tryon Hall, on Monday evening, the 28th inst., for the benefit of the poor. A P. M. Social will be held immediately after the lecture for the same object.

Mr. Harry Moore, who captured first prize and championship of the Island in the Charlottetown Skating Rink, arrived home this evening and is now receiving the congratulations of his many friends.

Farmers are busily engaged this week hauling the wood. It is estimated that one hundred loads daily pass by the village from Inkerman, a settlement about four miles from Crapaud.

A conversation took place in the Post office here yesterday in which several of our farmers took a prominent part, in reference to so called land times. A gentleman of 75 years was an attentive listener for some time when he remarked "you know nothing about land times. I remember, about 50 years ago, when a goodly number of the people in this neighbourhood could not procure anything to eat. We started for Charlottetown and when we arrived there we could not purchase any flour, but some of the leading men at that time ordered the baker to give us a loaf of bread each. Before leaving for home, we got some flour and made our own bread. People should not complain now" said the old gentleman "you can buy flour for \$3 barrel, tea for 25 cents lb, kerosene oil for 18 cents a gallon, sugar for 31 cents per lb, and everything that is needed at low prices." The conversation ended and all wended their way home feeling that the lecture did them much good and saying to themselves—why complain?

Crapaud Jan, 26th 95.

LITERARY NOTES.

"French fighters in Africa" is the title of a paper by Pauline Bigelow in the February Harper's, in which the secret of France's colonizing power is shown to be her army. French prestige in Algeria is maintained at great expense, and a show is kept up which brings in little return except glory, and is paid for out of the national treasury. A solution of our Indian problem is suggested by Pauline Bigelow in his article on "French Fighters in Africa," in the February Harper's. France uses the Arabs of Northern Africa for governing one another by making some of them French soldiers. The plan works perfectly, and Mr. Bigelow suggests that the Government of the United States apply it to the Sioux and Apaches. Never in the history of the world did Pacific attract so much attention as now, and a new interest is added to the California shore and harbors by the future possibilities of Japan and Hawaii. "The West Coast," in the February Harper's, describes the journey by water from San Francisco to Callao, with frequent stops at Mexican and Central American ports. The text is by Charles F. Lummis, and the illustrations by W. A. Rogers, from Mr. Lummis' own photographs.

LITERARY SOCIETY.—The St. Joseph's Literary Society of Kelly's Cross, Lot 29, was reorganized for this season on Dec. 14th, 1894, when the following officers were elected for the ensuing year:

Spiritual Director—Rev. P. A. McInnis. President—John Smith. Vice—Jas. H. Devereaux. Secretary—Matthias Smith. Librarian and Treasurer—Chas. McKenna. Executive Committee—John Bradley, Julia Kelly, J. H. Monaghan, Thomas Kelly and Thos. Wood.

This Society, which was established four years ago, is contributing much towards the intellectual advancement of the surrounding community, as besides the regular debates there is in connection with it a library of about 100 volumes. The committee have also decided on having a series of lectures during the winter, the first of which was delivered on the 18th inst. by the Rev. Dr. Morrison, rector of St. Dunstan's College.

RYTES BY A DUC.—On Saturday last Walter, son of Mr. W. S. Green, of Summerside, had his upper lip badly bitten by a dog belonging to Mr. Wm. Reid. The injured lad was accompanied by his two boys, harrassing the dog to a spot, when the animal made a rush at him, biting him in the lip.—Journal.

An old Darkey Preacher

Once said in his pulpit: "Brethren, you can't tell how long de suit will wear by de size ob de advertisement ob de maker." But you can tell a good deal about it from the reputation of the maker. Our reputation for good workmanship has been built up by degrees and is sustained by strict adherence to the principle never to allow a misfit to go out of de shop, or permit a patron to go away dissatisfied. When a man wants a suit of clothes he wants it by a certain time and he does not want to have to return it to have it refitted. Our patrons are seldom troubled thus as we do our work right at first.
