

THE DAILY EXAMINER.

JUNE 11, 1884.

The Organ and its Champion.

WITH the Patriot, it is Mr. Davies first and last, and Mr. Davies all the time. One day he is referred to as a person possessed of wonderful diplomatic ability. Then again he is trotted out for his wonderful presence. And again he is lauded to the sky as an advanced political economist of the highest rank. By a timely dash of his, he at once secures the claims of certain fishermen to a share of the refund money, and the appointment of a Commissioner to distribute the cash!

Verily, the Patriot is a wonderful organ, and Mr. Davies is its chief prophet. Reciprocity between Canada and the United States can never be brought about unless through the extraordinary cleverness of Mr. Davies. Did he not submit a resolution in Parliament last session, looking to Reciprocity? He did not, of course, expect it to carry on account of Tory opposition! But then he submitted it all the same. He introduced it just as the House was going into committee of supply, so as to make it serve as a vote of want of confidence in the Government. He professed to be sincere in asking the Ministry to open negotiations with the American Government on the subject, and he knew at the same time that if his resolutions were carried as a "vote of want of confidence," Sir John and his colleagues would be forced to resign, and consequently rendered unable to effect a reciprocity or any other treaty. But then Mr. Davies is such a wonderfully clever statesman, in his organ's estimation, that though he can work against the interests of his opponents and the country, he never goes back on his party—if he knows it.

While the Patriot, in its blind subservency to party, holds up its political guide and deliverer as champion of reciprocity, THE EXAMINER is accused of being opposed to it. We stated the other day that the National Policy had given increased employment to our laboring classes, and a better market for farm produce. Therefore the Patriot infers we are opposed to reciprocity. Now is it not a fact that the National Policy has given increased employment? Is it not also a fact, that although the price of farm produce is low at present, and has been so for some time back, yet it would have been much lower but for the various mining and manufacturing industries brought into existence through the wise policy of the present Dominion Government?

It is scarcely necessary to say that we are in favor of Fair Trade, or Reciprocal Free Trade (or whatever else people please to call it) with the United States. We never had, nor is it likely we shall ever have, unless Mr. Goldwin Smith's ideas should finally prevail—and they are not likely to prevail—Free Trade with the Americans in manufactured articles. But we had Reciprocal Free Trade with them in the products of the farm, mine, forest, etc., and a renewal of that treaty would be welcomed by us, as well as by every one else sincerely interested in the welfare of the Dominion, especially in regard to the Maritime Provinces. We ask our farmers and artisans "to make a note of the fact that the Grit organs, notably the Patriot, are attempting to make the question of Reciprocity a party question, and trying to embarrass and hamper the Government in their negotiations with the United States, vainly imagining that they can thus advance the interests of the 'party.'"

Editorial Notes.

—Here is an item showing how the inhabitants of Fredericton appreciate a system of waterworks. The St. John Telegraph says: "Fredericton's water system is working well and becoming more and more popular with the citizens. The demand for water is so great that the water committee has ordered 7,000 additional feet of service pipe."

—The revenue statement by the Finance Department shows the receipts up to the night of the 31st May to be as follows:— Customs.....\$ 1,735,779 Excise.....458,754 Post Office.....166,804 Public Works, including railways 248,421 Miscellaneous.....316,417 Total.....\$ 2,925,175 Revenue to 30th April.....\$25,602,258 Expenditure for May.....3,093,745 Expenditure to the 30th April.....22,698,593 Deposits for April in Government Savings Banks.....499,262 Withdrawals for April in Gov't Savings Banks.....511,515

—It is pleasing to learn that the farmers of South Wiltshire are to have a meeting on Saturday evening next to discuss the dairy question. This is a very important question. Our butter does not rank as high in the markets abroad as it ought to rank, from the fact that while there are many good butter makers among us, there are also many who either cannot or will not take the trouble to make a good article; and consequently we lose a great deal of money. There are millions in this butter question; and we hope to see a united effort made to so raise the standard of our butter, that it will sell in the markets of the great cities for as many cents a pound as that of Ireland and Denmark.

—The Patriot is nothing, if not good at nice definitions. It glories in its

strength in this respect, and yesterday devoted the better part of a column of its valuable space to a definition of the position of THE EXAMINER with respect to the Presidential election. But with all its art, its definition is altogether wrong. We sympathize with Blaine because he is a journalist—and not a stupid one; but we would rather see the Democratic candidate elected because the election of a Democrat would be better for Canada than the election of a Republican,—not that we love Blaine less; but that we love our country more. We admit that our former statement of the position was, owing to the omission of two or three words, not as clear as it might have been; but the emphatic words "we would like to see the Democratic candidate elected," would convey THE EXAMINER'S meaning to any intelligent reader.

—The basis of agreement for the European Conference upon Egyptian affairs has been arranged by M. Waddington and Earl Granville, and its terms have been imparted to the powers. Following are the leading provisions, as given by the Pall Mall Gazette:—

First—That England shall advance the Khedive £8,000,000, with interest at four per cent., of which £4,500,000 shall be devoted to the payment of the Alexandria indemnity fund; \$2,000,000 shall be used to meet the floating debt; £1,000,000 to pay the expenses of the evacuation of the Sudan, and remaining £500,000 to secure the payment of the Egyptian coupons.

Second—That multiple control shall be established over Egypt. The foundation of this shall be Caisse de La Dette Publique, which shall cease to be a mere bank and shall have new and extended authority.

Third—That all the powers shall be represented in the new control and that the President of the bank still be an Englishman.

Fourth—The British garrison to remain in Egypt at least three and one-half years.

Fifth—The Sultan at England's request is to send 15,000 troops to pacify the rebels in the Sudan and Upper Egypt.

West River.

THE scenery of West River is, perhaps, the most attractive and beautiful of the Island. Those who sail that sparkling and winding stream, which extends west from our picturesque harbor are struck with admiration of the magnificent landscape visible on all sides of their craft. A traveler once informed us that its beauty was surpassed in few parts of the continent, and he seldom saw so many fertile farms and comfortable homesteads as those on the North Bank of the West River. It costs little time and money to make an excursion up this serpentine stream, and those having leisure time could not spend it more enjoyably, than by stepping on board the steamer Southport, on Tuesday and Friday evenings, and making a trip to West River Bridge.

But if West River scenery is beautiful, its wharves are unsightly and dangerous. The first one called at is Rocky Point, where a good dock has been made, but owing to the absence of a substantial platform, and an additional float, as at the Ferry Wharf in this city, it is dangerous to passengers landing from the steamer. The mode of hoisting and lowering the platform is primitive. Something more modern is desirable. Owing to the dilapidated state of McEachern's wharf, the steamer is obliged to land freight and passengers at Farquharson's or McEwen's wharves. She has difficulty in doing this owing to no proper gangways being constructed at the front or side of the wharf. Shaw's wharf is almost falling to pieces, and we are informed, it will cost nearly \$500 to repair it. This being the case, the majority of the inhabitants are of opinion that it would be to their best advantage to have an abutment built at West River Bridge, where the steamer could land her freight and passengers. If this were done it would prove a great convenience to the section, and relieve the government of the maintenance of a wharf which is of little utility. We hope the Government will give this matter attention, and remedy the evils complained of without further delay.

Some of Hymen's Conquests.

AMONG the many who have lately awakened from love's young dream to experience the realities of matrimonial life, are Mr. Wier—an esteemed member of the Fourth Estate—one of the staff of one of our liveliest and best exchanges,—and Miss Fannie Judson Gordon, daughter of the Honorable Daniel Gordon, of Georgetown. We congratulate the young couple, and wish them happiness and prosperity through a long life.

The marriage of one of a leading firm of our merchants and manufacturers, Mr. L. L. Beer, and Miss Rachel Marian Lowden, eldest daughter of the late George Lowden, Esq., is included in the announcement of today. The bride wore a handsome gray embassy velvet travelling suit, and was attended by the Misses Full, Johnson, McMurray and Beer as bridesmaids. The latter wore blue and ecru. After the ceremony, (which was witnessed by a large number of invited guests and citizens) the bridal party drove to the residence of Mrs. Lowden, Dundas Esplanade, and were entertained with a sumptuous breakfast, after which the happy couple left by morning train for an extended bridal tour in the United States and Upper Provinces of the Dominion. The bridal presents were very handsome and numerous. To Mr. and Mrs. Beer we extend our warmest congratulations and best wishes.

Supreme Court—Prince County.

The June term of the Supreme Court, Prince County, met at Summerside yesterday, Chief Justice Palmer presiding. The civil and criminal dockets are light.

The Grand Jury is composed of the following gentlemen:—A. L. Anderson, foreman; Donald McLean, Robert Ellis, J. W. Strong, Gilbert Desroches, Edwin Farrow, John Cairns, Robert T. Holman, Donald Currie, John Gordon, Wm. Hibbert, John McIvor, Hugh A. Ramsay, John Richards, Mr. William Hunt has been appointed Clerk of the Court, pro tempore.

Presbyterian Assembly.

THE DELEGATES TO THE BELFAST COUNCIL—SOME INTERESTING DEBATES.

TORONTO, Ont., June 5.—The General Assembly of the Presbyterian Church of Canada holds its sessions in the St. James Square Presbyterian Church, the Moderator, Rev. Dr. McLaren, presiding. A motion made at the morning sederunt by Hon. Alex. Morris, expressing the interest felt in the union of the Great Methodist Church, was referred to the committee on bills and overtures. Dr. Reid submitted the report of the committee on the Pan-Presbyterian Council. Two out of eight ministers appointed to attend, Drs. McLaren and Reid, had found themselves unable to do so, and Dr. Matthews, of Quebec, and Rev. A. B. McKay, of Montreal, were appointed instead. Of the elders, only Mr. James Croil and Hon. D. Laird were willing to attend, but Mr. T. Kirkland and Dr. W. B. Geikie had expressed a willingness to do so, and two others, Mr. Robert Kilgour and Mr. Wm. Kerr, already there, had agreed to attend. The other vacancies were filled by the appointment of Rev. James Fleck, of Montreal, and Rev. L. J. Gordon, of Halifax. At the evening session the church was filled with commissioners and visitors, a large number of ladies being present. The report of the committee on bills and overtures was received and adopted. Dr. Cochrane presented the report of the home division committee (western division). He referred to the work of the committee in Quebec, which he said, was a most difficult presbytery to work in, surrounded as it was by Roman Catholics, and found cause for congratulating the assembly on work done there. They were more than holding their own, they were advancing. He then referred, at length, to the work in other sections, especially in the Muskoka district. One of their workers, Mr. Thirte, had been carried away by sickness. The people of Edmonston were now able to pay \$700 instead of \$300 as heretofore, towards the stipend of this minister. He hoped that before long they would have a union of all the Presbyterian Churches in British Columbia, and that a presbytery would be formed there. Speaking of the appointment of ministers for the outposts, he thought that there would be little necessity in the near future to send to Scotland for ministers, as they would have enough young men in their colleges here to supply the field. The Home Mission Committee had cause to thank the Presbyterian Church of Ireland for substantial aid to their funds. The amount contributed during the past year for the home mission fund was \$30,993 and for the augmentation fund \$19,976, of which the Montreal Presbytery contributed \$2,748 for home missions and \$4,321 for augmentation, a total of \$7,069. They had now a balance on hand of about \$7,000. The estimates for the coming year showed that they would require \$60,000 for the work, one half for each department. Rev. D. J. McDonnell seconded the report of the committee. He referred more particularly to the augmentation fund, and said the results had more than realized their anticipations. They had been told that it would be impossible to raise the salaries to a permanent standard minimum of \$750, but the amount required to be raised for the purpose was exceeded by the contributions of the Church. He thought the congregations had generally done nobly in connection with the scheme, though some of the stronger congregations should contribute more. The committee, he believed, had made but few mistakes in the distribution of the fund, and he hoped that if any members of the Assembly thought there were any blunders made they would not withhold their support, but point out errors and endeavor to have them made right. If support were now withdrawn the last end would be worse than the first. He hoped the day was not far distant when there would be one scheme for Home Mission purposes, both east and west, and an equal dividend for the ministers from Newfoundland to British Columbia.

Professor Forrest, of Halifax, presented the report of Home Mission Committees eastern section. He said that they sometimes felt down in the Lower Provinces that they were to some extent looked down on by their wealthier brethren in the west. They, however, had difficulties their brethren in the west knew nothing of. The presbytery of St. John, for instance, had some sixty mission stations to look after. They, too, as well as their western brethren had a balance in the farms. One of the most encouraging features was that they had received an augmentation of their membership of about 25 per cent., and their Sabbath School attendance had nearly doubled. He moved the adoption of the report.

Elder J. K. Blair, of Truro, seconded the motion, which was agreed to. A number of recommendations from the Home Mission Committee were passed without discussion till the following came up:—"That the committee be empowered to withhold assistance in cases where mission stations have been erected into pastoral charges or where existing congregations have been divided, if, in the judgment of the committee, such action has been unwise or premature." This gave rise to a long discussion, participated in by Principal McVicar and Rev. Robert Campbell of Montreal and others, and was not concluded when the assembly adjourned. The principal objection being that it interfered with the liberty of the Presbyteries.

The Home Mission Committee's recommendations were proceeded with, and the question of allowing the committee to withhold assistance in certain cases was again taken up and it was eventually agreed to with a proviso that the same be only till next General Assembly, and the last clause was changed to read, "If in their judgment such grant be undesirable." The other recommendations were agreed to, and the Rev. R. H. Warden, of Montreal, was appointed secretary of the Home Mission Committee and the sub-committee on the augmentation scheme, at a salary of \$400. A long discussion arose over a motion to refer back the refusal of the Home Missionary Committee to consider the case of Langside Church, and it was eventually agreed to refer back the report to the next General Assembly. The next business was the question of the division of the Manitoba Presbytery into three, with a Synod, was after a discussion lasting into the afternoon adjourned, agreed to by Rev. Mr. Armstrong, of Ottawa, called attention to the docket of business, referring particu-

larly to the overture respecting party politics from the Presbytery of Montreal and Ottawa. This was placed at the end of the list and he wanted it placed where discussion could take place. The motion was negatived. The report on Sabbath observance was presented by the Rev. W. T. MacMullen, of Woodstock, convener of the Committee. Mr. MacMullen supplemented his report with a short address and was followed by John Charlton, M. P., who referred to the steps that had been taken and ought still to be taken to put an end to Sabbath desecration. The report was received and adopted. Before the close of the session Mr. Cochrane intimated that during his absence in Britain, for which he leaves to-morrow morning, home mission matters would be attended to by Rev. R. H. Warden, of Montreal, the Secretary of the Committee, and Mr. Macdonnell, of Toronto. The evening session was devoted to the work of foreign missions, and was held in Knox Church, where there was a large attendance, including many ladies. Rev. Dr. Wardrop, of Guelph, presented the report of the Western Section of the Foreign Missions Committee in a short speech. The receipts during the year were \$47,968.30; expenditures, \$42,814.73; with balance on hand from last year, \$23,009.22. Among the receipts last year were the legacy of Edward McKay, of Montreal, \$10,000. Dr. McGregor presented the report of the eastern section, which showed a steady expansion, but the expenditures exceeded the receipts by over \$600. The work had mainly been in the island of Trinidad. Very interesting addresses were delivered by returned missionaries, on Rev. H. A. Robertson in the New Hebrides; others from Rev. Kenneth, jr., of Formosa China; Kenneth J. Grant, of Trinidad, and J. Fraser Campbell, of Mhow, India, after which the assembly adjourned.

The Black Diamond Line.

The Black Diamond Line steamer Coban, Capt. Robert Fraser, arrived from Pictou last evening, coal laden, bound for Montreal. She sailed this morning, taking a small freight from this port, and Professor Anderson, Thomas Alley, Esq., and Miss Annie Alley, as passengers. The new steamer Bonavista, Capt. D. Anderson, arrived here this morning on her first trip from Montreal. She had a large freight for this and other ports on her route. The Bonavista presents a magnificent appearance. She is compact in build, well trimmed, and admirably furnished. Her cabin passenger accommodation cannot be surpassed. It is even better than described in the EXAMINER a few days ago. She leaves for St. John's, Nfld., this evening, and will take as freight from here, twenty five head of cattle and two thousand bushels potatoes, shipped by Wheatley & Son. We wish the Bonavista every success.

Our Advertisers.

Chas. Binns advertises the sale of certain valuable properties. J. B. Macdonald's new advertisement will appear to-morrow. Carvell Bros announce rate of freight on potatoes ex. Boston steamers. A McNeill holds a sale of Stock Farm pigs to-morrow at twelve o'clock. F. W. Hales publishes the summer arrangement of the Steam Navigation Co.'s steamers.
