

THE DAILY EXAMINER.

JULY 25, 1887.

A Contrast.

The following extract from an exchange describes the difference between the Liberal Conservative party and the Grit or Radical party about as accurately as it could be done, although it was intended, when written, to apply to a country thousands of miles away.

The one is constantly striving after the appearance of improvement, the other insists upon the reality. The one is ready to legislate in any direction so that it be a change, and has a promise or appearance of advance. The other never legislates until he has well considered the effects of his legislation.

Editorial Notes.

Prominent United States politicians are of the opinion that President Cleveland will be re-nominated and re-elected.

The wheat area of India in 1886 was 25,350,000 acres. The average yield of wheat in India is about ten bushels per acre.

The crop reports from New Brunswick are very encouraging. The yield will be above the average and farmers generally are well pleased with the situation.

The Department of Agriculture continues to receive favorable reports of the state of the crops throughout the Northwest.

The St. Paul Pioneer Press states that the United States man-of-war Iroquois has become so rotten that her captain is afraid to fire a salute for fear of knocking her to smithereens.

An extra of the Canada Gazette contains the bank statement for June. Taken altogether, the statement shows a state of finances throughout Canada which is highly gratifying and reassuring.

A despatch from St. Lawrence hall, Canada, Quebec, of the 21st says: Fanny Kellogg and Bernhard Listemann with their company gave a concert at St. Lawrence hall, to-night.

The Boston Herald speaks thus of Miss Fanny Kellogg in the Creation: Miss Kellogg achieved a positive triumph, and fully merited all the generous plaudits which rewarded her efforts.

REGATTA SHIRTS at less than first cost at D. A. Bruce's.

Sad Drowning Accident.

A correspondent at Murray Harbor writes: "While Geo. Clow aged 23, and his younger brother Daniel, aged about 13, were engaged this morning lifting traps, their boat being too heavily loaded for the strong wind blowing, sank beneath them, and they were both drowned.

Cricket.

On Saturday, July 9th, a cricket match was played between Football players and All-comers, which resulted in a victory for the footballers by 27 runs—the score standing 75 to 48.

FOOTBALL PLAYERS.

Table listing football players and their scores, including F W L Moore, C Leigh, Jr., D H Robinson, etc.

ALL-COMERS.

Table listing all-comers and their scores, including L H Davies, R V Longworth, T A LePage, etc.

Don't Forget It.

The readers of THE EXAMINER, from the advertisement in another column, will get a great treat in the Market Hall to-morrow night, and as fine a miscellaneous programme as has ever been presented here.

The Entertainment at the Lyceum To-night

This evening we are to hear the Dramatic Reciter, Mrs. T. Charles Watson, and Charlottetown is on the tip-toe of expectation. It will probably be one of the most fashionable gatherings of the year, for Mrs. Watson has been socially introduced to our elite, and a most refined audience will greet her on her first appearance.

DISCOUNT or no discount. Clearance or no Clearance. Thanks to the people, I still have my share, because I act fair with every man, woman and child.

MRS. SHEPHERD will be glad to meet Christians and others in the Athenaeum Hall, Prince Street, on Monday evening, the 25th, at 8 o'clock, to speak to them on a matter of importance, connected with herself.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural quiet sleep by relieving the child from pain; and the little cherub awakes as "bright as a button."

LETTERS TO THE EDITOR.

The Gothenburg System.

SIR,—In view of the near approach of a Scott Act election for the city, and the foregoing conclusion, almost unanimously held, that the Act is doomed, the question is forced upon our consideration, what system of controlling the sale of spirituous liquor should be adopted?

I have taken some pains to learn the details of the "Gothenburg System," which may not be uninteresting to your readers.

The system began in Gothenburg but is now in use throughout the whole of Sweden; and though to the outside world known as the "Gothenburg System," the name is practically unknown in the country itself.

A certain number of shareholders form a joint stock company and subscribe the requisite capital. At present in Gothenburg, the rate of interest is fixed at 6 per cent., and is paid annually on these shares, and can neither be increased nor lessened (so long as the funds permit).

The manager is paid a certain fixed sum and makes not one cent by his sales. Out of his allowance he has to pay for all assistance he may need, for all loss by leakage or evaporation, and so on.

2. Dram shops. (Here the spirit may be consumed on the premises. As before, no one is interested in the sale of the liquor. With each glass is served a small tray with a few pieces of broken "hard bread," to be eaten with the spirit.

3. Restaurants. With almost, indeed, I think all the last, is associated a restaurant. The manager receives the whole of the profits of the establishment are directed to this side of the account.

4. Extra licenses. The company has power to sell spirits, consequently wine merchants, hotels, gardens, restaurants, &c., are all under their direct supervision, and any misconduct risks the withdrawal of the license.

It is to be noticed in all this that all powers of the company are confined strictly to spirits, and do not, in the least degree, reach wine, beer, &c., which are sold as household commodities very freely and in every sort of unsuitable place, and that their efforts are all directed toward lessening their sale.

1. District. The Gothenburg Company hold control of a very large district of country, and, within its limits, no spirits at all can be procured for a distance of something like fifteen or twenty miles from Gothenburg, while in the other direction a fisherman might sail for twenty miles before he could find a dram shop among the islands.

2. Results. The company has with its profits conferred an immense boon upon the population. Originally they voted sums of money out of its profits for such purposes as they saw fit, but now their profits are thus regulated: (a.) 6 per cent to the shareholders; (b.) a certain percentage to the revenue of the country; (c.) the balance to aid the town rates and the country district rates in certain proportions; so that, by this method, the drink consumers pay directly for the police, the asylums, poorhouses and prisons, which they to a large extent furnish the inmates for.

Moral results. Proceeding on the sound basis of a gradual reform they have but these results to show. However, even in the last ten or twelve years, a reduction of about fifty per cent in the consumption per head of the population has been realized, I believe.

Further, I may say that the company supports many free reading rooms, where papers and magazines are supplied, and where tea, coffee and light refreshments can be had at a small charge; and it still aims, when popular opinion is riper, to gain control of the wine and beer selling trade also.

Yours truly, ANGLICANUS. July 23, 1887.

Sabbath Day Observance. SIR,—I would like to ask, through the columns of your journal, whose duty it is to see that the laws against trading on the Sabbath day are enforced.

ALL persons having claims against Capt. Michael O'Connell, late of Charlottetown, are requested to forward the particulars and amount of same within ten days from date, to JOHN O'CONNELL, Montague Cross, Lot 57.

Provincial Rifle Association. THE Annual Prize Meeting of this Association will be held on Kensington Range, Charlottetown, on MONDAY, 15th August and following days.
