Seventeen thousand Jews have been ren-
dered homeless in Southern Russia.

mortalis and another of primroses, to be
placed on Earl Beaconsfield's grave on the

Commander Cheyne has had an interview
with Sir John Macdonald and other Minis-
ters on the proposed exploration of the
Hudson Bay route. Should the expedition
be started it is more than probable it will
be under the direction of Commander
Cheyne.

The wedded life of Longfellow and Fanny
Appleton was beautiful as an idyl but it
had an end. Her clothes caught fire one
day and she was burned to death. In try-
ing to save her life the poet barely got off
with his own life. She was the mother of
three lovely girls.

A London despatch says:—Mr. Dorris the
late Assistant Secretary of the Land League,
has been released from Dundalk jail. The
"Observer" says it has reason to believe
that all American suspects imprisoned in
Ireland will have left the country. The
"Telegraph" has reason to believe that no
decision has been arrived at in regard to American
Suspects.

The King of Ashantee is again on the war
path. A despatch from Cape Coast Castle,
under date of April 2, says: Commissioner
Lonsdale has been entrusted with the task
of settling the dispute between the Ashantees
and Gamanas, and will start for Coomassie
on the 3rd inst., with an escort of 45 huzzars.
He will thence proceed to the chief town of
the Gamanas. Meantime the King of Ashantee
has sent several thousand troops to attack the
Gamanas. All the roads to the interior are
blocked.

A special cable to the Toronto Mail says:
Hanlan and Trickett are continuing hard
practice for the race on May 1st. Hanlan
scales 152 pounds, and Trickett about 173.
The latter will run seven pounds lighter.
Trickett's party are confident, and they say
their man did a grand trial on Wednesday.
Hanlan is rowing as well as ever. He has
accomplished some wonderful mile trial spins.
Trickett's money is found by Mr. Westworth,
son of the Australian millionaire. It is be-
lieved that Laycock, who has just arrived
from Australia, brought funds to back Trickett.
Hanlan returns home four days after the race.
He says that he will retire after he has rowed
Ross.

It is more than probable that the next
annual meeting of the British Association for
the Advancement of Science will be held in
the Dominion of Canada. This is one of the
leading scientific bodies of the world, and has
included in its membership many of the fore-
most minds of the Mother Country. The in-
vestigations, enquiries, and subjects brought
up for discussion are widespread and most
important in their character. At the last
annual meeting of the association in the city
of York, England, papers were read on mathe-
matical and physical science, on chemical
science, geology, zoology, botany, anatomy,
physiology, anthropology, geography, econ-
omic sciences and statistics, mechanical
science, and other subjects. It is probable
that the Association will meet at Ottawa in 1883.

The *Illustrated London News* has the
following:—*Good Words*, which is never
wanting in special attractions over and
above the general merits of its literature
and art, contains in the number for April
six engravings of pictures illustrating Que-
bec and its neighbourhood, from the
portfolio of Princess Louise, accompanied by
an ode addressed to the City by the Marquis
of Lorne. Her Royal Highness, a member
of the Royal Water Colour Society of Eng-
land, has, since her residence in Quebec,
honored the exhibitions in Pall Mall with
drawings made from various spots in
Canada, and the interest raised by these
views, faithful in representation and deli-
cate in manipulative skill, is further
gratified by the publication of the present
series.

The amount and sources of the British
revenue will be found in the following
table:—

	Year ended March 31, 1882	March 31, 1881
Customs	£19,277,000	£19,154,000
Excise	27,240,000	25,300,000
Stamps	12,260,000	11,940,000
Land tax and house dues	1,735,000	2,740,000
Property and income tax	9,945,000	10,650,000
Post office	7,000,000	6,700,000
Telegraph service	1,630,000	1,600,000
Crown Lands	350,000	390,000
Interest on advances	1,219,262	1,247,712
Miscellaneous	4,136,020	4,289,576
Totals	£85,822,282	£94,041,268

It will be observed that the proportion
of direct taxation is very considerable.

A mighty hard-working set of men are
Uncle Sam's letter-carriers who are liable
to contract rheumatism because of the con-
stant exposure to which they are sub-
jected. Calling at the Post Office the re-
porter had a pleasant conversation with Mr.
J. H. Mattern, one of most popular and
clever letter-carriers in Indianapolis. Mr.
Mattern said that, while in the army dur-
ing the civil war, he sprained one of his
ankles, which was always worse in the
spring during the period of the rapid
changes in the weather. He did not find
much relief from the several remedies he
applied. But two years ago he hit upon
St. Jacobs Oil, and experienced wonderful
relief from its use. Several applications of
the Great German Remedy relieved him
entirely. The reporter talked with others
among the letter-carriers and found that
the Great German Remedy was popular in
the post office. They use it for sore feet,
rheumatism, etc., and praise it highly.—

NEWS NOTES.

De Lesseps, at a banquet at Marseilles,
intimated that the Panama Canal would be
opened in 1888.

Archibald Forbes, the "king of war cor-
respondents," left San Francisco for Aus-
tralia on the 8th inst.

Parnell has notified the Governor of Kil-
mainham jail that family affairs necessitate
the extension of his parole for a week.

It is said that Tom Nast is about to re-
tire from business with the Harpers, having
made enough money to support himself in
comfort.

Five hundred French-Canadians from the
New England States passed through St.
John's, Que., on the 19th, en route for the
North-West.

Two of the three men on trial at Quebec
for the murder of Genest, at St. Sauveur,
have been found guilty and sentenced to
twenty years' imprisonment in the peniten-
tiary. The third was acquitted.

The indications in the present condition
of the labour troubles in Toronto are that a
satisfactory settlement all round is not far
off. That a compromise between the em-
ployers and the show-makers and carpenters
will be speedily made seems tolerably
certain.

Luminous: First Swell—"I never did
like 'May'; not nearly so pretty as 'Mary';
wonder they don't change the name of the
month to 'Mary.'" Second Swell—

good to June, you know?"—*N. Y. Evening
Post.*

During the year 1881 there were 1,342
cases of small-pox reported to the New York
Board of Health, of which 404 cases proved
fatal. Of the 1,342 persons stricken down,
439 had never been vaccinated; of those
who had been vaccinated 122 died, while
there were 267 deaths from unvaccinated
patients. During the same period
nearly 62,000 persons were vaccinated in
the city.

John Kelley has been read out of the
regular Democratic party, but still retains
his hold on Tammany Hall. He was re-
cently re-elected chief of his party by an
almost unanimous vote. Mr. Tilden and his
supporters cordially hate John Kelley and
his followers; but the Democrats cannot
carry New York without John's assistance,
which compels Tilden to pull in the same
traces with him.

The result of the great national steeple-
chase at Liverpool, which was won by Lord
Manners, riding himself his own horse, has
created a stir in aristocratic London. The
steeple chase was over a course of four and
a half miles, and Lord Manners, after a
severe competition brought his horse, Sea-
man, in first by a short head, winning an
amount equal to a whole year's income of
the Archbishop of Canterbury. The enor-
mous odds of £75,000 to £2,500 had been
taken.

It is said that when J. Wilkes Booth was
shot by Boston Corbett there was found on
him a picture of Miss Hale, of New Hamp-
shire, a daughter of the then Senator John
P. Hale of New Hampshire, afterwards
Minister to Spain. Miss Hale is now the
wife of Hon. William Chandler, the new
Secretary of the Navy. As is known,
Robert Lincoln, son of the martyred Presi-
dent is Secretary of War; official etiquette
prescribes that Secretary Lincoln shall at
state dinners lead in the wife of the Secre-
tary of the Navy, and thus will be seen the
rather singular sight of the son escorting
the former sweetheart of his father's as-
sassin.—*Washington Cor. Traveller.*

The rush for Manitoba and the Canadian
North-West seems to be more eager than
ever. Excursion trains with settlers and
their effects started from three cities of
Ontario. That from Ottawa we are told,
the eighth of a series. One from Toronto
took two hundred excursionists and six
freight cars of agricultural implements and
live stock, their destination being
Qu'Appelle. The third was from Hamilton
from which many such excursionists have
already gone forth. Manitoba and the
North-West is gaining the best settlers that
ever went into a new country, but Ontario
is losing what Manitoba is gaining. Canada
loses none, however, and if her children
gain by the removal, as they are certain to
do, why, it is in a sense her gain too.—
Montreal Witness.

A Hong Kong despatch states that
rumors are current in the foreign settle-
ments of China of trouble between Spain
and Great Britain on account of large oc-
cupations made to the North Borneo Com-
pany by the British Government. The
captain of the Spanish vessel Leo XII., en
route from Barcelona to Manila, was ar-
rested by British authorities in Singapore
and sent to prison for six months for con-
tempt of court. While in the Red Sea he
had put in iron three English Engineers
of his vessel and treated them with great
hardness. At Singapore he was arrested
under an injunction to obey a writ of
habeas corpus to produce the prisoners.
Under the advice of his counsel, he claimed
an adjournment of the case. Meanwhile
the ship steamed away with the English-
man in dispute confined on board, and the
Spanish captain himself a prisoner ashore.
The matter has been submitted to the
Spanish and English Governments. It is
not likely that those difficulties will
amount to much, seeing that Spain is just
now cultivating closer commercial relations
with England.
