## Tribute To S.D.U. From Minister Of Education

A glowing tribute to St. Dunstan's University on the occasion of their Centennial Year celebrations was paid in the Legislature yesterday afternoon by Hon. Keir Clark, Minister of Education.

"I wish to offer my sincere best wishes to the Chancellor, the Rector and the Faculty of St. Dunstan's University on this, the one hundredth anniversary of the founding of this seat of higher learning—the only degree granting institution in our Province," he stated.

"It is perhaps a little difficult to realize the very great effort put forth by the Catholic people of this Province, during the past century, in organizing, promoting and developing the Institution which we know today as St. Dunstan's. Their efforts have been amply rewarded. Their graduates and former students are found in all parts of Canada and the United States and they have brought distinction to themselves, their College and their Province."

"Although St. Dunstan's does not form part of our public educational system, nevertheless, cooperation and cordial relations have always existed between it and our Department of Education. We fully realize in our Department, the very great contribution St. Dunstan's is making to the educational progress of our Province."

"All our citizens must have noted with pride that Saint Dunstan's has again won the Maritime Intercollegiate debating championship, having recently defeated all three other contestants—Saint Thomas and Dalhousie. They have won the third Maritime Championship in five years and were successful in the National Championship in 1952. It must be a source of pride too, to note that this year Saint Dunstan's is doing well in the field of intercollegiate sport."

"Saint Dunstan's has a proud record and at this time I extend to the Directing Staff, the Alumni and the student body my congratulations in its past success and wish that it may continue to grow and prosper in the training and development of the young men and women of Prince Edward Island."

## Interesting Address At United Services Officers Club

Members of the United Services Officers Club were privileged to hear Capt. J. E. DeGraff, former Secret Service agent graphically describe his many and varied experiences in an address at the club quarters last evening.

The speaker, who was introduced by Major E. K. Kennedy told of his childhood and youth in Germany where he was born 60 years ago, and his entry into the German merchant navy at the age of 14 years. He was arrested in 1914 in Holland for openly opposing the Kaiser's part in the war and returned to Germany under sentence to "join the navy or die". His part as a mutineer resulted in a second sentence of death but a second mutiny resulted in his release before sentence was passed.

He later took part in the German Civil War and eventually was sent to Russia and enrolled in Soviet schools. Shortly after his arrival there he realized that Communism was based on terror and had nothing in common with freedom and democracy. His fluent use of several languages and knowledge of accepted Communist methods eventually brought promotion to the rank of Major and an assignment on the General Staff equivalent to the British Secret Service.

On his first opportunity outside the Soviet Union he offered his services to the British Secret Service and was accepted as a counter-agent.

For the next 15 years DeGraff played this game as a double agent during which time Russia used him in many difficult positions in various parts of the world. Eventually his dual role was discovered by the Russians and his usefulness as such was ended.

Following Dunkirk DeGraff came to Canada and served as an undercover agent with the RCMP. He played an important part in the capture of the German Lieutenant Verner Yanofsky, who landed on the Gaspé Peninsula in 1943.

Captain DeGraff was sent to Germany after the Normandy invasion and remained there until his retirement in 1946. The Captain, who had addressed service men in Halifax prior to coming here, leaves for Saint John this morning to speak before a similar organization there.

Premier Matheson, who was in attendance extended the thanks of those present for a highly interesting address which was supported by Lieut. Col. Frank Storey.

## PARTNERS AUCTIONED

PORT CREDIT, Ont. (CP)—Pretty girls from Port Credit High School went on the auction block Thursday as part of a fund drive for South Peel Hospital. Today the auctioned girls will treat their buyers to lunch. Bidding was brisk, with many boys going as high as \$2 for a goodlooker.

## JERUSALEM LECTURE

OTTAWA (CP)—John Diefenbaker will lecture to Hebrew University students at Jerusalem next month. The Progressive Conservative foreign affairs spokesman and MP for Prince Albert, Sask., has been invited to deliver a series of lectures on human freedoms and a bill of rights.

## Salary Increases

Continued from page 1

To make teaching more attractive greater recognition must be given to the profession. Teachers should be leaders in the Community and should be given recognition as such," stated the Minister.

After speaking about the proposed legislation to increase the salaries he stated, "It must be noted, however, that the Government of this Province in comparison with the other provinces of Canada has been generous in the amount paid toward teachers' salaries at the Provincial level. The Government of P.E.I. in 1953 paid 62% of the total cost of education while the local districts paid 38%. The percentage figure of our Government contribution is the second highest in Canada."

"I find the percentage of education costs at the Provincial level paid by some of the other Provinces are as follows: Manitoba-25.6%; Saskatchewan-34.6%; Ontario-39.1%."

"Compared with these figures our Provincial contribution of 62% shows that the Government has been generous in the amount of increased effort in the educational field and has been generous in its support. Nevertheless in order to hold the better teachers in the profession I feel that the proposed increase in salary is necessary," he stated.

The Minister continued: "The local districts too have been generous in increasing teachers' supplements but the custom of paying teachers' supplements in the rural areas every half year is not satisfactory to the teachers. I feel that local areas will soon have to come to the point of paying the teachers' supplements on a monthly basis."

"The teachers are perhaps the only employees in the Province who have to wait six months for a substantial part of their salary and I feel that local districts taking the lead in changing this system to a monthly payment basis would attract the better teachers."

"I must also point out that the amount of salary is not the only thing that holds good teachers in the profession. The interest in their work is one factor. Cordial public relations is another. These are matters which must be worked out in every school district in the Province and are fundamental in making a teacher happy and satisfied. A community which realizes its responsibility to its teachers will attract and hold better teachers and its children will receive the dividends."

Speaking about Senior High Schools he stated that in order to make the senior high course effective it was necessary to make adequate provision for the teaching of the courses in both Grades XI and XII to provide for the full carrying out of the policy on Grades XI and XII as follows: "Grade XI as prescribed in the new Course of Studies shall be continued in the schools now recognized by the Department through the payment of the Grade XI salary if they meet the necessary regulations."

"Other districts including those now teaching Grade XI but not receiving full Grade XI grade salary must apply for recognition of financial aid."

"Districts must have an enrollment of at least 15 students for Grade XI status and must maintain a separate classroom for the Grade."

"Teachers must be approved by the Department of Education and must have a minimum education qualification of a degree in the Faculty of Arts or Science from an approved University or must have special training."

"Fees to rate payers of the school districts will not be more than \$10 and not more than \$25.00 to non-residents."

"Legislation will be introduced asking for an increased Government contribution to teachers' salaries in Grades XI and XII in schools which provide accommodation for students from outlying districts and which conform with the regulations concerning fees and other matters," he stated.

This assistance will not be given to new high schools or additional grades unless the school or grade is deemed necessary and approved prior to being established."

"Assistance may be given toward construction of Grade XI and XII classrooms and laboratories and for their equipment where necessary. These grants will be limited

to \$5,000 per classroom and \$3,000 per laboratory and in no case will exceed 60% of the cost," he stated.

Assistance will be given for the purchase of library books for Grades XI and XII. It shall be limited to \$200 per grade and granted only when the district pays a share of the cost equal to the amount granted by the Government.

"All schools accepting assistance and grants must operate as public schools and also accept non-resident students. No Grade XII will be established or approved in any district within 25 miles of a larger Grade XII school unless approved."

"Examinations for both Grades XI and XII shall be set and read by the Atlantic Provinces Examining Board. Students at P.W.C. will not be required to write these exams but shall not be barred from writing if they desire. Should he fail at P.W.C. he will have a chance to brush up on his studies and write the Board exams. If he passes his work will be recognized and he will advance at P.W.C."

"During the present year 616 students are taking advantage of the facilities offered at the Vocational School, stated the Minister. This includes 61 students from Prince of Wales College taking special courses."

His figures for attendance during the past four years showed the number enrolled increased considerably. In 1950-51 the enrollment was 478, the following year 399 and in 1952-53 it was 519.

"The operating costs of the School are shared by the Dominion and Provincial Governments. In addition to the matching grants we annually receive a grant of \$10,000," he stated.

"There is also a second agreement with Ottawa from which we get approximately \$7,000 annually for short courses in agriculture, farm mechanics and home management as well as funds for assistance to university students, known as Student Aid."

In connection with Student Aid he outlined some proposed changes. Under the present set-up the amount of money given to the student is half-loan and half-grant. The Minister proposes to make it all loan and to screen the students so that only the more needy and more deserving receive this aid.

"In this way we hope to get more from Ottawa," he stated. In reply to a question from Mr. K. R. Bell he stated that students had been receiving \$300 assistance until this past year when the amount had to be lowered due to the large number seeking aid. The amount will be restored to \$300 next year.

"The present vocational agreement with Ottawa expires on March 31, 1955," stated the Minister. "The National Advisory Committee on Vocational Training has already submitted their recommendations to the Department of Labor at Ottawa and have asked for increased capital and operating grants."

He stated that the Vocational School services would be expanded if increased grants were received. The School at Charlottetown would be enlarged and training given in other centres of the Province. Summerside High School, which has a vocational school, would be one of the first to receive such consideration, he said.

"In 1943 the total expenditure on education in the Province was \$2,480,000," stated the Minister. "In 1953 the expenditure was \$1,922,187. This is the total expenditure increased over three times in the ten year period. The expenditure by the Government in 1943 was \$407,023 and in 1953 was \$1,234,727."

"The enrollment increased from 17,407 in 1942 to 19,377 in 1953," he continued. "The average attendance increased from 12,759 to 16,192 in the ten year interval and expressed another way the percentage of attendance increased from 73.3 per cent to 83.56 per cent and the number of teachers increased from 663 to 746."

The Minister spoke at some length about the improvements to school buildings and reviewed the situation from 1945 until this year. He noted that 80 per cent of the schools in the Province are equipped with sanitary indoor toilets. "This is one of the greatest improvements in school property ever made" in the Province," he stated.

"Since the introduction of grants towards rural school assistance 96 new buildings have been erected comprising approximately 160 classrooms. The only concern I have about the program of school

## Parents' Day Observed At Local Schools

The awakening interest of parents in what is taking place in the City Schools was evidenced yesterday by the large numbers who took advantage of the invitation to visit the schools as part of the "Education Week" program.

"Parents' Day" at Rochford Square School brought together upwards of two hundred visitors who after a pleasant hour spent in the respective class rooms of particular interest, assembled in the school auditorium where a short programme was presented for their entertainment.

The numbers included instrumental music, physical exercises, choral singing etc., concluding with brief speeches by the senior pupils who are being taught the rudiments of public speaking. The topics touched on were varied to include "Cartoons," "Television," "Leadership" and "What Education Means."

The principal extended a sincere welcome to the visitors and expressed appreciation for the large number in attendance and the deep interest shown in the activities of the school.

"Open House" at Prince Street School all this week has been taken full advantage of by the parents and friends of the scholars there and each day has brought its quota of visitors, eager to be brought up-to-date on school routine as presented there.

At West Keir School a similar influx of visitors throughout the school day yesterday indicates a profound and sincere interest on the part of parents, who were welcomed by the principal and teachers and extended every facility to observe and comment on the routine as practiced in the school. Queen Square School principal and teachers will welcome school parents on Friday to round out the week of visits to the schools, which even now has surpassed in attendance, any previous demonstration of interest in school work as centred around "Education Week."

## FATHER GETS 14 YEARS

S. CATHARINES, Ont. (CP)—William Jacobs, 32-year-old father of six children, was sentenced Friday to 14 years in penitentiary for the killing of Alfred Hindrao, 76. Jacobs was convicted of manslaughter here last week. Hindrao's death occurred last Christmas Eve in his shack. Jacobs, who has been drinking at the time, testified he had no knowledge of the event.

construction is that it is still following the old system of the horse and buggy age.

"It is my opinion that there are too many one-room schools being built. In many cases it would be no more expensive and infinitely better from the educational standpoint to build one school to serve two or three small districts."

The Minister also reviewed the legislation pertaining to education. "The credit for the funding of our modern legislation must be given to my honorable friend, the senior member from Charlottetown, the Prime Minister of Education in this Province, who established the position of Minister of Education and took the portfolio himself," he stated.

## 600 Attend Turkey Supper

Upwards of six hundred persons attended the delightful turkey supper prepared by the Senior Women's Auxiliary of Trinity United Church in the social hall yesterday afternoon. The tea tables were attractively decorated with yellow candles in silver candlesticks and flowers in keeping with the occasion. Ushering were Mrs. Garfield Taylor, president of the Senior Women's Auxiliary, Mrs. Ruby Houle, C.D.A., and Mrs. John Hamby.

A lively interest was taken in the bazaar section which was located in Hartz Hall where while waiting the call to supper, those in attendance visited the booths and made purchases. The different groups represented and given leadership were: "Bamby", Mrs. Arnold Rattenbury, president;

## Death Yesterday Of Margate Resident

—The death occurred at Beach Grove Inn yesterday of Mr. George Woodside, an old and highly respected resident of Margate for many years and of Kensington for the past ten years.

He was a prominent breeder of race horses and a well known figure in the community in which he lived. At the time of his death he was 84 years of age. His wife predeceased him two years ago.

Funeral arrangements were not completed.
