TEMPERANCE.—Orient Division, No. 141, will meet this evening at 8 o'clock for general business, also to receive a farewell visit from the Grand Worthy Patriarch who is about to leave the Island. All brethren of the order in good standing are cordially invited to attend.

MEDICAL COUNCIL MEETING.—The members of the Council elected under the new Medical Act by registered M. D.s, entitled to vote are Richard Johnson and James McLeod, Charlottetown; J. Gillis, Summerside; R. McNeill, Stanley; E. B. Muttart, Souris; Peter McLaren, Brudenell; George Carruthers, Alberton. The first Council meeting was held at the office of Dr. Richard Johnson to-day, 11th July. Dr. McLeod was elected President and Dr. Johnson Registrar-Secretary.

ATTEMPTED INCENDIARISM.—A dastardly attempt was last night made to set fire to a small out-building in the rear of the Cameron and Fall Blocks, used by Mr. J. B. Macdonald. The fire however, was fortunately discovered in time and extinguished by the policemen and watchman before any great damage was done. An empty flask that had contained kerosene was found alongside the damaged building. It is a great pity that the fire-bug was not captured.

BIG WIND STORM.—A violent wind storm struck Cleveland, O., on Tuesday evening causing damage estimated at \$200,000. The force of the wind was so great that freight cars were overturned. Three hoisting machines on the iron ore docks were destroyed, entailing a loss of \$90,000. A tubular steel electric light mast 250 feet high was snapped off within 20 feet of the ground. Several houses were badly damaged and a building in course of erection destroyed. Fortunately no persons were injured.

A BUSY PORT.—From figures compiled by the customs department, it is learned that the total number of vessels arriving at Halifax from foreign ports during the year ending June 30th, included 395 British steamers, with tonnage 577,837 tons; 461 British sailing vessels, 69,415 tons; 53 foreign steamers, 59,351 tons, making a total of 1,065 vessels, of 682,498 tons. The coastwise arrivals included 398 steamers, 88,499 tons, and 3,002 sailing vessels, 179,265 tons. During the year 27,050 entries for duty were made at the Halifax customs house, an increase of 559 over the year ending June 30, 1889.

MUSTN'T USE FANS.—Rev. A. L. Reynolds, the pastor of a large and fashionable church at Springfield, O., created consternation among his flock on Sunday last, by suddenly pausing in the midst of an eloquent sermon on "Charity," and declaring that the incessant use of fans in the audience was so annoying to him that he must request that they be stowed away under the seats. The heat was very great, and nearly every person in the church was vigorously fanning the only known means for keeping cool under a long sermon. At the demand of the pastor there was a ripple of astonishment, and then a number of the parishioners, among whom were two deacons, arose and slowly filed out with their families.

"NOT MUCH OF A MAN"—On the day of the Grit Convention the following interesting conversation is said to have taken place between the editor of a leading Oppositist organ and a respected farmer of New London:

Editor—Have you been to the convention? Farmer—No, I have not. Editor—I understand they have nominated a candidate for your district. Farmer—Inde it is who is he? Editor—A James McLean of West River. Do you know him? Farmer—Well, I know a number of McLeans, but not the candidate. Editor—Well, if you don't know him, and I don't know him, he can't be much of a man!
