A SCARCITY OF WATER.—The sugar refinery at Moncton has closed down temporarily on account of the scarcity of water. The recent rains have only served to increase the supply very slightly, and the refinery requires about 400,000 gallons daily for condensing and other purposes, the drain is a very serious one.

MISS BEN OLIEL AT CORNWALL.—Quite a large audience assembled at Cornwall Methodist Church on Thursday evening to hear Miss Florence Ben Oliel on mission work among the Jews in Palestine. For upwards of one hour the audience listened with the closest attention and interest. At the close a very hearty vote of thanks was conveyed to Miss Ben Oliel.

THE MINES IN DANGER.—We learn that proceedings are pending before the Courts in Colorado to cancel certain grants of mining property now held by John F. Campion, late of Souris. One of the grounds alleged by the United States Government is that Campion is not an American citizen, and therefore not competent to hold the mines. There is a considerable amount involved in the suit, and we understand it will be heard in November.

CHARLOTTETOWN BUSINESS COLLEGE.—Prof. D. J. McLeod addressed a large class of the Charlottetown Business College this forenoon. Rev. Doctor Morrison occupied the chair. The Professor's lecture, which lasted about an hour, was very instructive and much appreciated by the students. Hon. Donald Farquharson gave the class some practical advice, and Rev. Doctor Morrison addressed the students for a short time, and said that as he was soon to appear before them again his remarks would be brief on this occasion. He congratulated the students on their deportment, and said that without order there could be no real progress. He was pleased to note the splendid order maintained in this class, and in this connection congratulated Principal Miller.

THE ARTILLERY INSPECTION.

Results of the Inspection by Lieut.-Colonel Montizambert.

FROM ALL POINTS OF THE COMPASS.

The King to Come in Out of the Wet.

LONDON, Oct. 17.—Great Britain has sent an ultimatum to the King of Ashantee, who is accused of violating his treaty obligations, demanding that he place Ashantee under British protection with a resident commissioner. The ultimatum expires October 31st.

Spanish Troops Fire on the Insurgents.

HAVANA, Oct. 17.—A column of troops commanded by Col. Seamora has held a fight with a band of insurgents led by Romen at Costa Blanca. The insurgents retreated leaving five killed and twelve wounded; among the wounded being Chief Currearus. A detachment of troops left to-day in the direction of Canasi, where it is said a band of insurgents numbering 50 has been raised. Cavalry is now being despatched in pursuit.

More About the Newfoundland Smugglers.

ST. JOHN'S, Nfld., Oct. 17.—The revelations regarding smuggling show that vast stocks of wine, spirits, tobacco, cigars, tea, sugar, etc., were brought from St. Pierre without the payment of duty. The revenue board is appalled at the extent of the revelations, and it is believed would willingly abandon the prosecution now, owing to the class of persons involved. Government politicians are badly frightened by the threats of the accused who threaten to divulge damaging party secrets.

A Fake Papal Letter.

WASHINGTON, Oct. 17.—Mgr. Satolli and the officials of the papal delegation here were astonished to see to-day in the Washington Times the alleged text of a letter from Pope Leo felicitating the American church and commending the success of Mgr. Satolli's mission. Dr. Rooker, secretary of the ablegate, authorizes the statement that the alleged letter is a "fake." No such letter has been recieved. The published statement that the letter was "transmitted from the papal delegation here on Tuesday," is specifically denied.

Rulings in the Matter of the French Treaty

OTTAWA, Oct. 17.—Several questions of interpretation have arisen in connection with the French treaty, and it is expected that in a day or two a batch of rulings will be given. Possibly the most important of these so far rendered has reference to goods of French origin. For instance, the point has been submitted whether or not the products of France, if imported say from the United States, are admissible under the treaty tariff at the rates therein contained. The decision is that they will be so admissible at the reduced duty, but the importer must produce conclusive proof as to the French origin of the imports.

Dangers of Excessive Bicycle Riding.

MCKEESPORT, Pa., Oct. 17.—Dr. A. L. Black, a well-known physician of this city, dropped dead last evening immediately after dismounting from his bicycle. Advices from Toledo state that W. A. Baker, a young man employed as a stenographer by the Paragon Refining Company, who formerly lived at Clyde, rode there on his wheel on Sunday morning, a distance of forty-five miles. He left Toledo apparently in perfect health, and, as he was an enthusiastic wheelman, the trip was not one that he considered excessive. He was stricken with paralysis soon after dismounting. He is also delirious, and the doctors have little hope of his recovery.

The Venezuelan Question Again.

LONDON, Oct. 17.—In an interview with Mr. Bayard, American ambassador, he denied the story that United States had sent an ultimatum to Great Britain in regard to the latter arbitrating her difficulty with Venezuela. He explained that since the rupture between Great Britain and Venezuela there had been anxiety in the United States to procure a friendly settlement of the dispute, and to this end the United States had offered her good offices to Great Britain and had repeatedly tried to devise some means to arrange the trouble. This, he added, was the present position. The longer the question was allowed to drift the more anxious the United States became to see it fully settled.

An Invitation For the Bisley Team

OTTAWA, Oct. 17.—Col. Bacon, secretary of the Dominion Rifle Association, has received a letter from Captain Oldershaw, secretary of the Federal Rifle Association of Australasia, inviting the Dominion Association to send their Bisley team to England next year by way of the Antipodes, so that the team could take part in the different colonial rifle meetings and arrive in England in June. It is hardly likely the invitation will be accepted, as the trip would consume too much time and involve too great an expense. The men would have to leave Vancouver in January and the cost would be quite $15,000 to send a team round the world. Col. Bacon will submit the offer to the council of the D. R. A., but a negative answer is almost certain.

The Farmers' Interests Affected

OTTAWA, Oct. 17.—It is learned from the Department of Agriculture that information has been received that the pressure of the importation of cheese in England is beginning to touch very closely the farming interests. The agricultural papers are full of the discussion, and the North British Agriculturist, in its edition of the 2nd inst., quoting from the Chester Chronicle, contains a report of sales of Cheshire cheese at the monthly cheese fair at Whitchurch. The quantity disposed of at that fair was 100 tons, being an increase of 30 tons compared with the same fair last year. The month before the highest quotable price was 47s. 6d, a hitherto unprecedented quotation, but at the September fair the highest figure reached was 47s., and that for one lot only. Other lots of the finest Cheshire made were sold from 43s. to 45s., the bulk of the sales ranging between 31s. and 41s. "It is believed," says the Chester Chronicle, "that such a state of things could not exist much longer, and that certain financial ruin stares many in the face unless there is an improvement in the trade."

Discontent Among the Mohammedans.

LONDON, Oct. 17.—The Times publishes a Constantinople despatch dated Oct. 15, stating it is believed the decline in prices on the bourse and the general depression is due to the spreading conviction that Mohammedan discontent will shortly reveal itself in an action which will be the opening of a long and dramatic chapter. The Mohammedans declare that a storm is brewing which will sweep away the whole dynasty and release Islam from the thraldom which cramps its energies and paralyzes all its force. The fact is, the imperial system of discontent once sounded will be echoed in every household. The despatch adds that a number of Mohammedans were arrested yesterday for using seditious language. There is much activity in the forts on the Hellespont and much excitement in the town. The garrison has been increased by three thousand men and ten thousand more have been ordered to join. New batteries are being raised in Dardanos and Nedjadieh. They will be armed with heavy guns. All the flannel in the city has been bought for making cartridges. All the white smiths are busy making lanterns and canteens.

MARRIED IN VANCOUVER.—This morning at the residence of Mrs. McNeill, Mount Pleasant, Edgar C. Donald of Alameda, Cal., was married to Miss Maggie Montgomery, who recently arrived from Alberton, P. E. I. The ceremony was performed by Rev. E. D. McLaren. Mr. and Mrs. Donald left by the Charmer this afternoon for their home in Alameda. Mrs. Donald comes of a missionary family. She has two aunts in Persia and two others are the widows of the Garden brothers, who were murdered in Aramango.—Vancouver, B. C., World, Oct. 9th.

Thoughts for Thoughtful People!

How Would the Following Ad. Sound to Reasonable People?

50 tons of hay worth $18, our price $14.

900 bushels potatoes, usually sold from 25 to 30 cents, our price 16 cents.

200 pounds butter, all cream, extra good quality, only 14½c, better grade 16c, sold by other farmers for 18 and 20 cts.

135 bushels carrots, usually sold at 40c, our price only 25.

A few ends of farms, worth $135, our price $62.

23 good milk cows, sold at $45, our price $30.

60 sheep, good quality, $5.25 to $6.25, our one low price $3.25 and $4.25.

Oats! Oats!—Fine goods, all oats, 28c a bushel, worth anywhere 35c, some say 40c our price only 28c—no better goods offered anywhere.

Direct from the Farm:—250 bushels turnips, fully 4 pecks to the bushel, worth 20c, our one low price 14c.

Believing the one price has the confidence of the people, we don't put 35c per cent on and take 25 per cent off Strictly one low cash price on our farm. We are not working this farm for ourselves, but simply for the people who buy the stuff we have to sell.

If a farmer came to us talking in that style, we would immediately suspect that his hay was MUSTY, his oats SANDY, and his potatoes had the DRY ROT, and we think the people now know that kind of bunkum is ROT of the worst kind.

We ask the people to trade with the boys who sell goods for what they are worth, and don't keep them until they are worthless, and then state what they were worth ONCE in the DARK AGES.
