

Carrier Magnificent Sails From Port Said For Home

By JACK BRAYLEY
Canadian Press Staff Writer

PORT SAID, Egypt (CP)—The Canadian aircraft carrier Magnificent left here for home Sunday after a record six-day discharge of vehicles, planes, supplies and administrative troops for the United Nations police force in the Middle East.

The Maggie, which sailed at noon local time (5 a.m. EST), and hurried back to Halifax for the ferry job to the Middle East. WIN CAMEL SADDLE

The Port Said departure was marked by a presentation by Col. Mike Dare, officer commanding UNEF base units, to the Maggie wardrobe of a camel saddle.

That was in appreciation of a successful combined supply operation.

Canada's army contribution to the UN peace force, meanwhile is scheduled to begin one of its biggest jobs today. The force will provide most of the transport for

an Egyptian-Israeli prisoner exchange.

Eight Jewish prisoners will be moved to El 'Arish in exchange for 5,000 Egyptians captured in the Israeli invasion. The Canadians, with the help of Yugoslavs, are to move Egyptians to their home area in 25 lorries, mostly under the command of Maj. Donald Nicholson, Cornwall, Ont.

The last of the Maggie's cargo to go ashore included four RCAF single-engine fighters and this was the nearest trick of the unloading operation.

CAUGHT BY WIND

Aircraft were assembled on the flight deck, and supplies and vehicles and supplies had been unloaded. Flying officers Lash Leroux of Ottawa and George Foster, Vancouver, and Squadron Leader Dusty Miller, Toronto, flew them off to Port Said airport.

The Maggie's helicopter shuttled pilots back to the carrier.

Just as the second plane was about to go into the air a sudden sharp crosswind tilted a wing, swerving the plane toward the Maggie's starboard bow.

But Foster coolly pulled the reliable little plane out of trouble and took it to a safe landing without damage.

Meanwhile, Miller and Leroux claimed the distinction for the air force if being the last pilots to fly off Maggie decks. The ship is destined for decommissioning after the current trip.

The exchange of more than 5,000 Egyptian prisoners of war in return for a few Israeli prisoners will take place halfway between Rafa and El 'Arish in northern Sinai.

20-DAY PROJECT

Repatriation of the Egyptians is to be carried out at the rate of 500 every 48 hours, said Luis A. Galland, Swiss representative of the international Red Cross committee.

He estimated the operation would take more than 20 days to complete. The few Israeli prisoners were to be released to Israel after the first batch of Egyptians was returned.

Most of the prisoners have been in captivity since the first days of November. Nearly half of them were captured in the Gaza Strip, where an Egyptian division surrendered to Israel.

They include two major generals, a number of colonels and several hundred officers.

More than 80, however, were captured in military operations in the Negev 14 months ago.

Of the Israeli prisoners held by Egypt, only one was captured in the October-November campaign—a pilot whose aircraft was shot down.

CANADA'S NEW AIRCRAFT CARRIER
Canada's new aircraft carrier, HMCS Bonaventure, officially joined the Navy last week in a ceremony at Belfast. The 19,000-ton, 700-foot long carrier cost \$25,000,000.

WILLIAM HUTT plays Hamlet in the Canadian Players production of the Shakespearean classic at the Queen Charlotte High School Saturday, Feb. 2nd, 8 p.m. Sponsored by the Kinsmen Club of Charlottetown.

FARM OR FOREST—Mr. W.R. Sellar leaves today for Sackville, N.B. where he will take part in the panel discussion being held at Mount Allison University. The subject of the discussion will be "Forest or farm land use in the Maritimes."

STOLEN TRUCK LOCATED—A large dump truck, owned by the County Construction Ltd. of Charlottetown was located by the City Police late yesterday evening after it had been reported stolen. The truck had been left in the parking lot at Allison MacLeod's for weekend parking and was taken sometime yesterday afternoon. The City Police located the vehicle, apparently undamaged on the Brighton Point Road.

HIGH HONOR—"Abegweit Ovation", a junior yearling heifer owned by Mr. B.B. Jones, Burnaby has been awarded honorable mention in the All Canadian selection of the Holstein-Friesian Association of Canada. She was the only Holstein from the Maritime Provinces to be mentioned in the All Canadian Award competition. This young animal was the junior champion and reserve grand champion at the Charlottetown Exhibition. She came first in her class at Amherst and third in a class of 43 at the Royal Winter Fair.

Seven Accidents Reported In City

Slippy streets, narrow cuttings and deep cut tracks were some of the factors contributing to a total of seven accidents reported in the city over the weekend, only one of which occurred yesterday. Early yesterday morning two cars collided at the junction of Weymouth and Euston Streets. Slight damage resulted to both vehicles and the driver of one was arrested for drunkenness.

On Saturday slight damage was sustained by vehicles which were involved in separate accidents on Euston Street, Rochford Street and Elm Avenue. Damage to the extent of \$300 to each vehicle was sustained in a collision at the junction of Brighton and North River Roads.

Top Ranking Ayrshires

Raeburn Trinkel, an Ayrshire cow owned by Earle McRae, New Wiltshire, won two Production shields as she produced a double record and was the leader in both the 305 and 365 day divisions of the junior year old class. This is only possible when the cow produces a normal calf within 425 days of when she started her previous lactation. In the 305 day division she produced 15,250 pounds of milk, 631 pounds of fat, which is the second highest all time milk record and third highest all time fat record for this division. Her average B.C.A. score was 190. In the 365 day division Trinkel produced 16,638 pounds of milk, 694 pounds of fat for a B.C.A. average of 190.5. This high producing young cow is sired by Charlottetown Sir Roderick 7th and is type classified "Very Good".

A. MacRae and Son, Charlottetown won a production shield with their senior four-year-old, Fairvue Melody. She produced 13,268 pounds of milk, 589 pounds of fat, 4.44 per cent in 305 days for a B.C.A. average of 162. She is type classified "Excellent" and is sired by Kendall Bright Boy. This good young cow in the dam of Fairvue Coronet, third prize senior bull calf at the 1956 Royal Winter fair and fourth highest selling animal in the Sale of Stars.

Missionary Ordained Sunday At Central Christian Church

The evening service in Central Christian Church last night became the center of a formal ordination service for Miss Vida Stewart, R.N., B. Th., missionary-elect to India. The service was in charge of the Minister and Elders and a capacity audience filled the church building and into the annex.

The Elders taking part were: Preston Beck, Donald Stewart, Floyd MacKinnon and Edward Sellick. The choir presented appropriate music under the direction of Mrs. Allison MacRae, organist and choir leader.

The Minister M.D. Dunbar addressed the candidate, asking her to meet the obligations and responsibilities required as a minister and missionary. Under the theme: "A Burning and a Shining Light", the Minister pointed out the personal preparation necessary in a healthy body, mind and heart; an altar as a pulpit; a message of the Christ; the world as her parish; and the power of God through prayer and personal example.

Mr. Edward Sellick presented Miss Stewart with the Certificate of ordination and pronounced the benediction, following the laying on of the Elders hands and prayer.

Over three hundred people offered congratulations and felicitations to the candidate following the evening service.

Miss Stewart received her nurse's training at the Prince Edward Island Hospital and later her theological work at the Alberta Bible College. She is a member of this local congregation and the first conversion during Mr. Dunbar's ministry twelve years ago.

MISS STEWART

Blair House Is Uncle Sam's Pleasant Official Guest Room

By GEORGE KITCHEN
Canadian Press Staff Writer

WASHINGTON (CP)—A plain white stucco residence that sits drowsily in the shadow of giant elm trees on Washington's busy Pennsylvania Avenue serves as the home of foreign monarchs and chiefs of state when they visit this white capital.

The stately 133-year-old home, known as Blair House, has housed a steady stream of the world's great and near-great in its spacious, antique-filled rooms since it was purchased in 1942 by the United States government as an official guest house.

The list of those who have stayed there in recent years reads like an international who's who—Queen Elizabeth (the princess) and the Duke of Edinburgh, the King and Queen of Greece, presidents Auriol of France, Aleman of Mexico, Bayar of Turkey, Syngman Rhee of Korea, Sukarno of Indonesia and Maglone of Haiti and prime ministers Eden of Britain, Nehru of India, U Nu of Burma and Pibulsonggram of Thailand.

TRUMAN HOME

Located kitty-corner across from the White House, Blair House twice has been the home of a president—first when Harry S. Truman stayed there briefly in 1945 until Mrs. Franklin Roosevelt left the White House following the death

Ban Prize Winning Book

DETROIT (CP)—A censorship fight appeared to be building up Friday following Detroit police action against a book by novelist John O'Hara.

Police Commissioner Edward S. Piggins Thursday banned the novel Ten North Frederick from Detroit book shelves "in any form." Inspector Melville E. Bulach, head of the 11-man police censor bureau, last week ordered the paperback edition of the novel withdrawn from sale on Detroit newsstands on the ground it contains many "obscene passages."

The commissioner said he is for freedom of press and speech unless abuse endangered public morals. Ten North Frederick, he said, is not a book he would want his two young sons to read. He took action under Michigan state law.

SHOULD HAVE RIGHT

The book was published by Random House in the hardback edition and by Bantam Books Inc. in the pocket size.

In Williamsburg, Va., where he and his wife had stopped on a motor trip, O'Hara said he did not care what Piggins' sons read "if they do."

"But I think," he said, "the sons should have the right to choose what they want to read and not the father, assuming the sons are literate people."

O'Hara noted that Ten North Frederick had been published originally in November, 1955. Since then, he said, "the book was available at the bookstands and department stores in Detroit."

"Living link" support for Miss Stewart during her stay in India.

Law Being Reviewed

In New York City, Bennett Cerf, president of Random House, said: "This kind of censorship is disgraceful. Here's a book that won the National Book Award. It's been on sale for a whole year. Now some police chief goes on a bender and declares it is obscene."

"I'd like to know by what authority this police chief has the right to decide what Detroiters can and cannot read. I don't believe he was appointed for that."

Michigan's censorship law already is before the U.S. Supreme Court for a decision on its validity. Arguments were heard Oct. 16 and a decision could come anytime.

The 119-year-old law makes it a crime to sell, offer, or possess for sale a book containing "obscene, immoral or lascivious language" or "description tending to incite minor to violent or depraved or immoral acts."

Europe's Oil Line

LONDON (AP)—Plans for a network of pipelines to criss-cross France, Germany and the Benelux countries were reported Saturday in a survey of Western Europe's oil situation compiled by The Financial Times. Initial cost is estimated at \$100,000,000 and the line would carry more than 30,000,000 tons of crude oil a year to the main refining areas.

PERSONALS

Friends of Mrs. Clarence Frizel regret to learn that she has entered the P.E.I. Hospital. All hope for her a speedy recovery.

BIRTHS

BENTLEY—To Mr. and Mrs. William E. Bentley (nee Phyllis McLeod) in Kingston, Ontario, January 14th, a daughter, 9 1/2 lbs.

WOOD—At the Charlottetown Hospital, January 19th, to Mr. and Mrs. Edna Wood, city, a daughter, Janet Elizabeth. 7 lbs. 6 ozs.

ORFORD—At the Prince Edward Island Hospital on Wed., January 18th, 1957, to Mr. and Mrs. C.A. Orford a son (Douglas James) weight 6 lbs, 15 oz.

DEATHS

CLARK—At the P.E.I. Hospital on Sunday, January 20, 1957, Dr. Zella M. Clark, in her 83rd year. Resting at the MacLean Funeral Home. Funeral from the Charlottetown Baptist Church tomorrow Tuesday. Service commencing at 2 o'clock. Interment in Cavendish Cemetery.

BIGGAR—At the P.E.I. Hospital on Saturday, January 19, 1957, George Biggar of Elliott's in his 69th year. His remains will rest at the Cutcliffe Funeral Home till noon Monday, then to Summerfield United Church for funeral service at 2.30. Interment in the church cemetery. Please omit flowers.

BALLEM—At Birch Hill Jan. 19, 1957, Mary E. Ballem in her 90th year. The remains are resting at the Cutcliffe Funeral Home where funeral service will be held today (Monday). Service starting at 2 o'clock. Interment Birch Hill Cemetery.

Rail Shipments During December

Imports and exports via the CNR car ferry during the month of December 1956 were down somewhat in comparison with the same month in 1955 according to information released recently by the office of the Superintendent of the Island Division, George R. Greenough.

In December 1955, 1,085 carloads of goods were imported to this Province over the CNR ferry service, while only 942 carloads were imported during December 1956. Exported via this route in 1955 amounted to 1,399 carloads. During December 1956, the ferry transported only 1,286 carloads from the Province.

Gas and Oil showed the most significant decrease in goods imported—107 cars in 1956 in comparison with 260 cars imported in December 1955. Other classes of imports for December 1956: 1955 were coal, down by 43 cars; and brick and cement, down by 22 cars. The same number of cars—117—of flour and feed were imported each period.

As would be expected, potatoes took first place in the number of cars exported; 900 cars in 1955, 851 in 1956—a decline of 39 cars for December 1956.

Other classes of goods exported via the CNR during this period with the 1955 figure shown in brackets, included: livestock, 60 (68); meats, 20 (29); turnips, 58 (169); roughwood, 52 (16); lumber, 3 (10); scrap iron, 18 (6); Christmas trees, (12).

Duncan Sandys To Visit The U.S.

LONDON (AP)—Duncan Sandys Britain's new minister of defence, is going to Washington Jan. 29-29 for informal talks with United States military leaders on "all aspects of the military situation." He will later go to Ottawa for talks with Canadian officials.

Sandys, son-in-law of Sir Winston Churchill, will be the first ranking member of the new government of Prime Minister Harold Macmillan to visit North America.

A defence ministry statement Saturday said the 48-year-old minister would go into "the important aspect of co-operation between the United States and ourselves."

"The question of NATO defence generally will come within the scope of the talks, for any defence cuts planned by the British government would naturally affect our position in NATO," the ministry added.

Heavy cuts in Britain's program for military reservists already have been made since Macmillan appointed Sandys to the defence ministry. Sandys took office last Monday.

Potato House Near Grand Falls Burns

GRAND FALLS (CP)—A potato house belonging to Canada Packers Ltd. and located at New Denwick Station, 10 miles southeast of Grand Falls, together with about 1,200 barrels of potatoes stored in it and about \$5,000 worth of potato-handling equipment, were destroyed by flames Saturday afternoon. Only the shell of the building was left standing. Cause of the fire was unknown.

The Grand Falls and St. Leonard Fire Departments, saved adjacent buildings. Only source of water was a C.N.R. locomotive, rushed from nearby Bluebell Station.

Blood Pressure Is Understood

VANCOUVER (CP)—A University of British Columbia research doctor, who has been working for 14 years on relief of hypertension, or high blood pressure, says "important answers" will be forthcoming in the reasonable future.

Dr. Sidney M. Friedman, head of the anatomy department at UBC, has been working on the problem in conjunction with his wife, Constance.

Dr. Friedman concludes the key may lie in controlling the salt and water balance in the human body. He says elimination of salt from the diet has proved effective in lowering blood pressure.

"High blood pressure is rare in people with low salt intake, for example in China and India, although other factors may also be involved. I think we must look for development of drugs which will govern salt metabolism (the extent to which the body absorbs and utilizes the salt it takes in)," he said.

Drugs already are in use which lower blood pressure and are "fairly satisfactory" in preventing a rise in pressure.

"A staggering figure" suffer from hypertension in Canada, he said, and one-fifth of all deaths in the United States can be attributed to high blood pressure.

Turkish Cypriots Touch Off Huge Fires In Nicosia

NICOSIA, Cyprus (AP)—Raging fires set by gangs of vengeful Turkish Cypriot youths Sunday night threatened whole blocks of buildings in the heart of Nicosia.

Huge blazes were out of control. All the island's available firefighting apparatus, both civilian and military, was called to the city.

The young Turkish Cypriots struck to avenge the death Saturday of a Turkish auxiliary policeman. He was killed in a bomb attack attributed to Greek Cypriot rebels against British rule.

Earlier in the day the youthful gangs set fire to 11 shops, garages and warehouses owned by Greek Cypriots. After darkness fell, they struck again in a score of places.

Church bells rang to summon

Will Report On Mar. Winter Fair

AMHERST, N.S.—Annual meeting of the Maritime Stock Breeders' Association, which operates the Maritime Winter Fair, has been announced for Tuesday, February 26th.

Highlight of the meeting will undoubtedly be the report by secretary-manager Alex Thomson covering the 1956 Maritime Winter Fair operation. The Fair last year suffered under some unusual conditions over which the management had no control. The Nova Scotia Provincial election was held on the Tuesday of Fair Week, which resulted in a considerable drop in attendance.

On Thursday of that week, the tragic Springhill disaster occurred, which again must have had some effect on attendance at the Maritime Winter Fair.

At the annual meeting of the M.S.B.A. a year ago, the directors happily advised the meeting that the former deficit had been completely wiped out, as a result of drastic cutting down measures. In spite of the unusual conditions which bedevilled the event at least it is hoped that the event at least broke even. However this will be known when the report is delivered at the meeting called for February 26.

HALIFAX (CP)—The weather office says occasional light rain is forecast for the mainland of Nova Scotia today with snow changing to rain in Cape Breton. The snow is also forecast to change to rain in Prince Edward Island and southern New Brunswick, and to become mixed with rain in northern New Brunswick and eastern Quebec.

Colder air will push southward across northern New Brunswick this afternoon, but is not expected to reach the southern regions. Two to four inches of snow is forecast for northern New Brunswick and eastern Quebec, with smaller amounts farther south.

Forecasts: Prince Edward Island, eastern N.B. counties, lower St. John River Valley: Snow changing to occasional rain during morning; much milder; southwest winds 25. Low-high at Charlottetown 17 and 35, Moncton 27 and 35, Fredericton 30 and 35, Saint John 32 and 40.

High tide today at Charlottetown at 2:13 a.m. and 2:43 p.m. Summer tide eighteen minutes later than Charlottetown. Sun rises today at 7:44 a.m. and sets at 5:05 p.m.
