

Babe Zaharias To Undergo Operation Friday

BEAUMONT, Tex., (CP)—Babe Zaharias will undergo an operation next Friday afternoon in an effort to cure a malady that threatens to halt her athletic career.

Wormwood Scrubs jail entered Mrs. Zaharias expressed confidence she would return to sports. Messages and telephone calls from all over the world poured in to Mrs. Zaharias.

LONDON CP — Prisoners at Wormwood Scrubs jail entered Mrs. Zaharias expressed confidence she would return to sports. Messages and telephone calls from all over the world poured in to Mrs. Zaharias.

Cold Weather Cuts Down Attendance As Baseball Season Gets Underway

By Will Grimsley

NEW YORK, (APP)—A 10th-inning home run by a Milwaukee rookie and a one-hit pitching performance by Bob Lemon of Cleveland Indians provided the highlights Tuesday as the major league baseball season got off to a full-scale start before disappointing crowds.

Cold, raw weather cut attendance in the east and a snowstorm in New England forced postponement of the Boston Red Sox opener with Washington.

The Milwaukee rookie is Bill Bruton, who thrilled a sellout crowd of 34,357 at Milwaukee by hitting a 10th-inning home run to beat St. Louis Cardinals 3-2.

It was the home debut of the transplanted Braves, bringing big league ball to the city for the first time in half a century.

Lemon, ace of the Cleveland staff, pitched his one-hitter as the Indians downed Chicago White Sox 6-0 before the day's largest crowd, 53,698. The only hit off Bob was a single by Minnie Minoso in the first inning. Lemon also hit a home run.

Yanks Off To Poor Start

New York Yankees, bidding for their fifth straight pennant, got off to a wobbly start, as Alex Kellner of Philadelphia A's shut them out 5-0 on five hits. It was the first opening-day defeat for the world champions since 1947.

Only 23,534 turned out to watch the Yankees bow to the Athletics. There were just 12,433 of the Dodger faithful at Ebbets Field where Brooklyn's National League champions opened their campaign with an 8-5 victory over Pittsburgh.

LONDON CP — The animal hospital opened at London airport four months ago by the SPCA has had more than 25,000 "guests," including birds, mice, mink, lizards—and two elephants from India.

Every job needs a pause for Coke

You work better—and have more fun doing it—when you work refreshed. That's why the pause that refreshes with ice-cold Coca-Cola has become such a happy custom around the world.

YOU COULDN'T TELL HIM THE WEATHER AFFECTS...

Soccer Results

LONDON, (Reuters)—Results of soccer games played Tuesday in the United Kingdom: English League Division III Northern Rochdale 1 Halifax 1. Friendly Match Plymouth 2 Third Lanark 2. Scottish League Division B Queen's Park 3 Dunfermline 0.

St. Louis Cardinals Purchase Catcher

ST. LOUIS, (AP)—St. Louis Cardinals have brought catcher Ferrell Anderson, who hit 299 last season with Toronto of the International League, from their Rochester farm club.

St. F. X. Wins Basketball Title

ANTIGONISH, N. S., (CP)—St. Francis Xavier University won their third Dominion Intermediate basketball title in five years Tuesday night, downing Saint John, N. B., Athletics 55-45 to take the best-of-three series in straight games.

Looking far better than when they were trimmed 72-37 Monday night, the Athletics led 34-31 at half-time and trailed by only three points at the end of the third quarter, when the collegians staged a spirited rally.

Travel Bureau Fishing Display

This week the Travel Bureau is featuring a window display of fishing in Prince Edward Island and is sending many of the new special booklets on the subject to sportsmen elsewhere.

The booklet, recently published, is titled "Fishing Facts on Prince Edward Island" and contains a wealth of information, especially for the visitor. In it are all details regarding the time of day to fish and the proper type of lure to use for the various parts of the season.

water fishing can be done any time of the day if the tide is suitable but few fish are taken after sundown. Until June 1 bait is acceptable to the trout but after that date a fly is preferred. Plugs and artificial bugs do not work here as elsewhere because of the natural feed in island streams.

St. Patrick was born in Britain about 389 AD and taken to Ireland about 16 years later.

In 1944 we said:

Think Big

... when you plan for Canada's future

MAKE no little plans when you think of Canada's future. Think of fine, gracious side... think of highways, broad and straight, new ways...

"Make no little plans when you think of Canada's future... For Canada, when this war is ended, will stand on the threshold of a splendid and challenging opportunity. The need will be there, the time will be ripe, for vast, unprecedented development... By planning today, we purchase ready-made markets for tomorrow, markets which will absorb our fullest productive effort and thus create gainful employment for everyone."

—The above is an extract from an advertisement we published during March, 1944, in a wide list of publications.

greater productivity... for increased speed yet greater safety. Let us plan for fuller living, greater opportunity, economic...

IT WAS during the dark days of the last war that we wrote those words. Can anyone looking at Canada today, say that our confidence in the destiny of this country was misplaced?

Canada's Amazing Growth

The expansion in every phase of our national life since that advertisement appeared is a matter of record. The gross national product (the total value of all the goods and services Canada produces in a year) has risen from approximately \$12 billion in 1944 to \$23 billion in 1952 while the annual value of our manufactured goods alone has doubled during the same period.

From 12,000,000 in 1944, our population has increased by over two and a half million—which is like saying that more than three-quarters of the population of Norway, or more than one and a quarter times the population of New Zealand has been added during those years.

Despite the fact that Canada still has approximately only one-half of one percent of the world's population, she ranks third among the trading nations. Of the ten leading trading nations, on a per capita basis, she is first.

It is estimated that by 1960 our population will have reached sixteen and three quarter million and by that year some economists believe the total value of our goods and services will have passed the \$30 billion mark.

Electricity Plays a Vital Part

Since 1940 Canada's output of electric power has more than doubled. This extensive development of our power resources undoubtedly accounts, in part, for this country's rapid expansion. It is significant, for example, that we use about three times as much electric energy as the thirteen countries of South America combined, although we have only about one-eighth of their population.

Working Hand-in-Hand with Industry

We of Canadian General Electric are proud of the part this Company has always played and is still playing in Canada's remarkable development. Our great family of workers has increased from 8,500 in 1944, when the above advertisement appeared, to over 14,000 today. And since that time we have spent some 45 million dollars on new plants, new offices and warehouses—as well as on new equipment and extensions to existing plants.

Because it believes that "the best is yet to be" where Canada is concerned, this Company is even now stepping up the expansion of its manufacturing and distributing facilities to meet the increasing demand for its products resulting from Canada's phenomenal development. And so today, we again say confidently: THINK BIG... when you plan for Canada's future.
