MR. GLADSTONE ON THE WAR.

I, for one, said the right hon. gentleman, exercising my own proper faculties as I best could, have never felt that England had any reason connected with her own civil interests for desiring the disruption of the American Union. I can understand those who say that it is for the general interest of nations that no state should swell to the dimensions of a continent. I can understand those who say—and I confess it to be my own opinion—that it is greatly for the interest of the negro race that they should have to do with their own masters alone, and not—as has hitherto been the case—with their own masters backed by the whole power of the Federal Government of the United States, (Cheers). Because, pray observe, that that has been the state of things that has subsisted heretofore, and to which some, I think mistakenly, in the interest of the negro, have thought it desirable to return. The laws by which the slaves have been governed have been laws made not by the Federal Government, but by the owners of those slaves; but the enforcement of the laws made by the owners of the slaves has not rested in the hands of the owners of the slaves alone. They have had a right—a constitutional right by the Constitution of the United States—to be supported against their own slaves in the execution of the laws that the slave owners have made by the whole power of the American Union. I can, therefore, very well understand the argument of those who think that it is not particularly to be desired in the interest of the negro race, that the American Union should be reconstituted. But I must confess, for reasons that I need not now explain, that I do not think that England has had any interest in the disruption of that Union; my own private opinion is that it was rather the interest of England that the Union should continue. I know that it is not an opinion generally shared; but at any rate, gentlemen, whatever view we may take of that, I think we all feel that the course which her Majesty's Ministers have endeavoured to pursue—namely, that of maintaining a strict neutrality under all circumstances that have heretofore passed, has been a right course, and has been the expression of the general sense of the community. (Cheers). There is, and there can be no doubt that with two parties engaged in strife, it is not at all unlikely that he who observes a strict neutrality will offend both; because, in point of fact, the state of mind in which his conduct is likely to be judged of for the moment by either disputant is not a state of mind in which it is fair that we should expect from them perfectly impartial conclusions. But what we may naturally expect is this, that an honest course of neutrality will be recognised—that course, I mean, which we have pursued up to this day—will be recognised after this unhappy struggle has passed away, and when the circumstances shall be calmly viewed. But I must confess it appears to me that if either party have a right to find fault with us, it is the Confederate rather than the Federal party. (Hear, hear.) I mean this, if we have deviated at all from neutrality, deviation has been against the Confederate rather than the Federal party. The course we have taken has been this:

We have preserved a perfect neutrality, but we have permitted the export of arms and warlike stores—we have permitted it to two parties—to the Confederates, all of whose ports were blockaded by the Northern fleet; and to the Federals, who have had perfect power to import whatever arms and stores they pleased. I think that course has been the right and just course; but I think the very statement of the fact proves that at any rate we have not displayed a bias unfavourable to the claims of the Northern States (Cheers.) But now, gentlemen, I would for a moment make an appeal to you on behalf of the people of the Northern States—I mean as far as regards our appreciation of their position. Greater allowances are to be made for heat and exasperation in the state of public opinion in that country under present circumstances than perhaps could ever fairly be claimed by any other nation. Only consider what their previous history has been. They have never drank the bitter cup of misfortune, disappointment, and mortification.—They have had but to will that a thing should be done, and it was done. Their course has been a course of prosperity and advancement without example and without a single break. Well, gentlemen, it is not in human nature that a people who have been subjected to an experience so flattering, so soothing to human self-love, should at once learn, with a perfectly good grace, to accommodate and submit itself to the necessities of our human condition. (Hear, hear.) It is easy for us to suffer. We have suffered before. We have gone through the very agonies of these dismemberments against which the Northern people of the United States are now struggling. We have gone through it, and now that we have gone through it we know that it was not a bad thing after all. (Hear, hear.) But they have not gone through it before, and all I say is, let us bear with them all we can. Let us keep towards them a kindly temper—let us not allow ourselves to be adversely criticised on that side of the water—let us be very cautious of adverse criticisms upon them from this side of the water. Depend upon it, that course steadily pursued will bring its reward, and it is the course which they have a right upon every ground of good-will, courtesy, and Christian feeling to expect that we should pursue. (Cheers.) Why, gentlemen, they are our kin—they were at any rate, if they are not now, our customers, and we hope they will be our customers again. But they have shown also that, under all circumstances, when their good feeling could have fair play they have warm affections towards England. Never let us forget, whatever momentary irritation may cross the minds of that people — never let us forget the reception of the Prince of Wales. (Cheers.) Let every Englishman engrave upon the tablets of his heart the recollection of that memorable day; and if occasionally he may be tempted to anger at seeing his country misapprehended or even misrepresented, let him calm his tendency to excited sentiment by that recollection. (Cheers.) And, gentlemen, it is the more necessary that we should do this, because I think we are pretty much of one mind as to what is to come. We know quite well that that people—I mean the people of the Northern States—have not yet drank of the cup—they are still endeavouring to hold it far from their lips—they have not yet drank of the cup which, notwithstanding, all the rest of the world sees they must do. (Hear, hear.) We may have our own opinions about slavery—we may be for the South or against the South, but there is no doubt, I think, about this — Jefferson Davis and the other leaders of the South have made an army—they are making, it appears, a navy—and they have made what is more than either, they have made a nation. (Enthusiastic cheering, which was prolonged for some time.) I cannot say that I, for one, have viewed with any regret their failure to establish themselves in Maryland. It appears to me too probable that, if they had been able to establish themselves in Maryland the consequences of their military success in any aggressive movement would have been that a political party favorable to them would have been formed in that State—that they would have contracted actual or virtual engagements with the political party, and that the existence of these engagements hampering them in their negotiations with the Northern States, might have formed a new obstacle to peace. Gentlemen, from the bottom of our hearts we should desire that no new obstacle to peace may be formed. (“ Hear, hear,” and cheers.) We may anticipate with certainty the success of the Southern States, so far as regards their separation from the North. If for my own part cannot but believe that that event is as certain as any event yet future and contingent can be. (Cheers.) But it is from feeling that that great event is likely to arise, and that the North will have to suffer that mortification, that I earnestly hope that England will do nothing to inflict additional shame, sorrow, or pain upon those who have already suffered much, and who will probably have to suffer more. (Cheers.) It may be that a time might arrive when it would be the duty of Europe to offer a word of expostulation, or of friendly aid towards composing the quarrel. If it be even possible that such a time as that may arrive, how important it is that when that word comes it should address itself to minds which are not embittered by the recollection that unkind things have been said and done towards them in Europe, and above all, in England, the country which, however they may find fault with it from time to time, we know holds the highest place in their admiration and respect. (Enthusiastic and prolonged cheers.)

How Horses should be Shod. — A recent issue of the American Stock Journal contains a most valuable article on this subject. Young horses, the writer says, if shod at all before four or five years old, should have their shoes taken off and re-set as often as once in three or four weeks. The hoof should be kept pared at the heel so that the frog may come to the ground. This keeps the frog moist and healthy, and has a tendency to spread the heel and keep the foot in natural shape. The soft and healthy frog acts as a cushion, and saves the feet from damage while the animal travels upon hard roads. It also keeps the foot in a healthy state, and is therefore of great importance to the value of the horse. If the heel is suffered to grow down, the frog becomes dry and bony, and when it comes in contact with a stone or other hard substance, the horse cripples, and subsequently becomes lame. When the hoof grows down long at the heel, it becomes dry and contracted, and the horse stands upon his toes in an unnatural and straining position. The frog, however ragged, should not be touched by the shoer's knife. To avoid raising the heel so that the foot must come to the ground in an unnatural position, the shoe should be of the same thickness at the toe as at the heel.

When the foot is properly pared, the shoe should be made to fit it so perfectly that the outside crust of the hoof will not have to be cut down to fit the shoe. The shoe should not be opened at the heel wider than the hoof, as this has a tendency to crowd in and contract the foot at this point; but if the outside of the shoe is brought in even with the outside of the hoof, it has the opposite effect. The hoof should never be rasped or filed above the clinches, nor the natural enamel which is given to it for some wise purpose disturbed. Fancy shoers—from all of whom good Lord deliver us—are too much in the practice of rasping, filing and sand-preparing the hoof to make it look nice, without ever thinking that they are doing it an injury that is beyond their power to repair.

Dr. La'mert on Self-preservation.

Price, with Engravings and Cases, 25 cents; by post, 30 cents.

SELF-PRESERVATION; a popular Essay on Nervous and Physical Debility, resulting from injurious habits contracted in youth, or excesses in maturity, which, by prematurely exhausting the functions of Manhood, destroy the happiness of Married Life, or prevent the fulfilment of engagements that constitute the most cherished objects of existence.

By Dr. La'Mert, 37 Bedford Square, London, Licentiate of the Royal College of Physicians of Edinburgh;
Member of the Royal College of Surgeons, England, &c.

The above work contains most useful and interesting information on the physiological changes which occur in the Reproductive System during the periods of youth, puberty, and manhood; and on the due attainment of that degree of functional vigour upon which the hopes of posterity depend. It also points out how all the attributes of Manhood can be preserved to an advanced period of life, how they are lost, and how they can be recovered. It is free from the gross exaggerations, alarming descriptions, and dangerous remedies so generally resorted to by persons, who, practising with false medical qualifications, inflict most serious injuries, and render judicious treatment frequently abortive.

The Author is the only legally qualified practitioner whose name stands on the 'Medical Register' (the sole test of medical qualification), who has been exclusively engaged for a series of years in the treatment of the various functional disorders of the nervous and reproductive system, which, owing to the great discoveries of modern science, are rendered subservient to a rational, simple, and easy mode of treatment.

At home for consultation daily from ten till two, and from six till eight, either personally or by letter.—37 Bedford Square, London, England.

Patients residing in the colonies can be successfully treated by correspondence, and remedies can be forwarded in secrecy and safety to any address.

The Ready and Reliable Remedy.

HOLLOWAY'S OINTMENT.

Circular to the Sick.

The first hospital surgeons and medical authors of Europe admit the unparalleled anti-inflammatory and healing properties of this Ointment; governments sanction its use in their naval and military services; and the masses in this country, and throughout the world, repose the utmost confidence in its curative properties. It penetrates the sources of inflammation and corruption which underlie the external evidences of disease, and neutralizes the fiery elements which feed and exasperate the malady.

Rheumatism, Scrofula, Erysipelas.

These are among the most terrible and agonizing diseases, yet in their worst forms, and when seemingly incurable, they invariably disappear under a persevering application of this soothing, healing antidote to pain and inflammation.

King's Evil, Fever Sores, Stiff Joints.

In cases of King's Evil where medicinal waters, lotions, and every recipe of the pharmacopœia have proved useless, the Ointment will accomplish a thorough cure. Fever Sores heal quickly under its influence, and its relaxing effect upon contracted sinews is truly wonderful.

Discharging Ulcers.

A most remarkable and happy change is produced in the appearance of malignant ulcers after a few applications of this Ointment. The surrounding redness vanishes, and granules of healthy flesh begin to take the place of the discharged matter. This process goes on more or less rapidly, until the orifice is filled up with sound material and the ulcer is radically cured.

A Word to Mothers.

The young are the most frequent sufferers from external injuries, and therefore every mother should have this healing preparation constantly at hand. It is an absolute specific for burns, sprains, and bruises, and quickly removes the encrusted sores which sometimes disfigure the heads and faces of children.

Heated Blood, Scorbutic Eruptions.

This Ointment is universally resorted to with the happiest effects by seafarers for easing and curing the skin diseases resulting from the continued use of salted provisions. It is largely and successfully employed by sailors of all nations for curing the scurvy and the annoying eruptions which spring from overheated blood. Its fine cooling properties are invaluable in inflammation, ulcers, or sores, of the legs or feet, and it gives greater ease than any other application to the aches and darting pains, produced by varicose veins or neuralgia, resulting from exposure to cold or wet.

Wounds, Bruises, Burns, and Scalds.

The exrent to which mechanical and manufacturing industry in this country has reached, is greater than in any other, therefore the liability to bodily accident has increased in the same ratio. Accidents are lamentably frequent, and often when seemingly trivial in themselves, are made to end fatally from want of due attention and proper remedies. The most powerful curative ever applied to wounds, bruises, burns, or sores of any sort, is Holloway's Ointment. Every tradesman, in fact, every man to whom an accident may happen — and who is there exempt?—should be provided with it against the physical dangers which, though never foreseen, are of hourly occurrence.

Bad Legs, Piles, and Fistulas.

The cures which this Ointment effects in healing Ulcers of long standing, and which have resisted all other applications, as well as in curing bad legs, Piles and Fistulas, have been so countless and so notorious throughout the world, that any effort to give an adequately detailed statement of their number or character would be vain. It is sufficient to say that the Ointment has never proved ineffacious.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Corns (Soft)	Rheumatism
Bad Breasts	Cancers	Scalds
Burns	Contracted and Stiff Joints	Sore Nipples
Bunions		Sore-throats
Bite of Moschetoes and Sand Flies	Elephantiasis	Skin-diseases
	Fistulas	Scurvy
Coco-bay	Gout	Sore-heads
Chiego-foot	Glandular Swellings	Tumours
Chilblains	Lumbago	Ulcers
Chapped Hands	Piles	Wounds
		Yaws

Sold at the Establishment of Professor Holloway, 244, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s 1½d, 2s 9d, 4s 6d, 11s, 22s, and 33s each Pot.

*** There is a considerable saving by taking the larger sizes.

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR
Scrofula and Scrofulous Diseases.

From Emery Eden, a well-known merchant of Oxford, Maine.

"I have sold large quantities of your Sarsaparilla, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your Sarsaparilla. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your Sarsaparilla. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Dennisville, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your Sarsaparilla, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known Gage, Murray & Co., manufacturers of enamelled papers in Nashua, N. H.

"I had for several years a very troublesome tumor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost every thing a man could or both advice and medicine, but without any relief whatever, until I took your Sarsaparilla. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your Sarsaparilla."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Sawin, Houston St., New York.

"Dr. Ayer. I seldom fail to remove *Eruptions* and *Scrofulous Sores* by the persevering use of your Sarsaparilla, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the Sarsaparilla you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your Sarsaparilla. Took two bottles, and some of your Pills. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your Sarsaparilla in my family, for general *debility*, and for *purifying the blood*, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Tunkhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your Sarsaparilla, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.

From Dr. Hiram Sloat, of St. Louis, Missouri.

"I find your Sarsaparilla a more effectual remedy for the secondary symptoms of *Syphilis* and for syphilitic disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"Dr. Ayer. My dear Sir: I have found your Sarsaparilla an excellent remedy for *Syphilis*, both of the *primary* and *secondary* type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Brunswick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or *mercurial disease*, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of Ayer's Sarsaparilla relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

Leucorrhœa, Whites, Female Weakness,

are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of this Sarsaparilla. Some cases require, however, in aid of the Sarsaparilla, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati.

"I have found your Sarsaparilla an excellent alterative in diseases of females. Many cases of Erysipelas, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your Sarsaparilla."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

when caused by *Scrofula* in the system, are rapidly cured by this Ext. Sarsaparilla.

AYER'S CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

Prepared by J. C. AYER, M. D., & Co., Lowell, Mass., and sold by

W. R. Watson, Wholesale Agent for P. E. Island, and sold by Merchants throughout the Province.

July 21, 1862.

A Humorous young man was driving a horse, which was in the habit of stopping at every house on the road side. Passing a country tavern, where were collected together some dozen countrymen, the beast, as usual, ran opposite the door, and then stopped, in spite of the young man, who applied the whip with all his might to drive the horse on. The men on the porch commenced a hearty laugh, and some inquired if he would sell the horse. "Yes," replied the young man, "but I cannot recommend him, as he once belonged to a butcher, and stops whenever he hears calves bleat." The crowd retired in silence.

Apples are so plenty in Western New York that they can be bought for fifty cents per barrel! Potatoes show no symptoms of disease, and the best ones are sold for a dollar a barrel, including package. One farmer has an orchard of choice grafted fruit, and offered the whole of his crop of apples at twelve and a half cents per bushel, the purchaser to gather the fruit and select only such as he wanted and could sell.

A Model Charge to a Jury. — "If the jury believe, from the evidence, that the plaintiff and the defendant were partners in the grocery, and that the plaintiff bought out the defendant, and gave his note for the interest, and the defendant paid for the note by delivering to the plaintiff a cow, which he warranted not breachy, and the warranted was broken by reason of the breachiness of the cow, and he drove the cow back and tendered her to the defendant, but the defendant refused to receive her, and the plaintiff took her home again, and put a heavy yoke or poke upon her to prevent her from jumping the fence, and by reason of the yoke or poke she died; and if the jury further believe that the defendant's interest in the grocery was worth anything, the plaintiff's note was worthless and the cow good for nothing, either for milk or beef, then the jury must find out for themselves how they will decide the case, for the Court, if she understands herself—and she thinks she do—don't know how such a case should be decided."

Bad Cough, Hacking Dry Cough, Stitching or Wrenching, Pains in the side, Pain around the heart, Shortness of breath, hard breathing, sharp pains when taking a breath, and all other painful symptoms are quickly removed by the Renovating Resolvent.

Its use will speedily deliver the disabled and disease-stricken sufferer from

A LIVING DEATH,

And restore him to his friends in a sound, and healthy condition.

Before presenting this wonderful cleansing remedy to the North American public, Dr. Radway was determined to test its medicinal powers for the cure of the class of diseases for which it is prescribed in the South American Provinces, as it is a fact well known to all physiologists that

SCROFULA, LEPROSY, SYPHILIS,

and its horrible train of concomitants, prevail in the tropical regions of the South, to a much greater and more malignant degree than in the North. In fact there is scarcely a family in any of the South American Provinces that is free from Scrofula, or its kindred diseases. It runs in the blood of all its people, and has become established as a constitutional infirmity, and has baffled the skill of their best physicians. With knowledge of these facts, Dr. Radway was determined to test the accuracy of

RADWAY'S RENOVATING RESOLVENT,

which was prepared expressly to meet the exigencies of the diseases, as developed in the tropics. Large supplies were sent to Brazil, Buenos Ayres, Chili, Peru, Equador, Venezuela, Bolivia, New Grenada, and to several Islands of the Spanish main, and was thoroughly tested by Physicians and the Priesthood, and is now the official remedy used by the Physicians, under the name of "Solutivo Renovador de Radway," (the Spanish for Radway's Renovating Resolvent,) in the treatment of Scrofula, Syphilis, Ulcers, Tumors, Prolapsus Uteri, Elephantiasis, Erysipelas, Saint Anthony's Fire, St. Vitus' Dance, Fever Sores, all diseases of the Skin, humors in the Blood, white swellings, Nodes, Cankers, sores in the mouth, deafness, discharges from the eyes, ears, and nose, glandular swellings, dropsy and constitutional diseases. Such has been the unparalleled success of this remedy in curing these horrible diseases in the tropics, that we do not hesitate to promise all the sufferers with Scrofula and eruptive diseases among our own people, with speedy restoration to sound and permanent health.

It is superior to all known remedies in popular use as a cleansing syrup for

PURIFYING THE BLOOD,

and removing from the skin Pimples, Blotches, Tetter, Rash and other offensive marks, and will in a few days give a pure, clear and roseate hue of health and beauty to the face and nails, and brilliancy to the eyes.

It is a pure and innocent preparation, all-powerful to do good, but never does injury.

IMPORTANT TO PARENTS.

There is no medicine in the known world, or physician, that has ever claimed the skill of eradicating from the system diseases inherited, by transmission, from parent to child. This great power we claim for Radway's Renovating Resolvent; and we religiously declare, that if Radway's Renovating Resolvent is given when the symptoms of any inherited disease are first exhibited, it will eradicate the same from the system. In the early stages of Phthisis or Consumption, Fits, Scrofula, and in cases of sore head, Ulcers, Tumors, Hacking Cough, Bronchitis, the use of Radway's Renovating Resolvent will exterminate the transmitted disease from the system, and make (what the parents neglected) a sound and healthy body.

CHRONIC DISEASE.

Another class of diseases that no other medicines or the most skilful physicians have succeeded in achieving, more than in merely palliating the sufferings of the patient, which Radway's Resolvent will positively eradicate, is that of Chronic Diseases that have infested the system for years, such as Chronic Rheumatism, Gout, Scrofula, Dyspepsia, Syphilis, and diseases induced by the injudicious use of Calomel, Mercury, Quinine; diseases of the Liver, Spleen, Gall, Bladder, Kidneys, Spine, &c., all of which diseases Radway's Renovating Resolvent will eradicate, and secure to the patient a new lease of life.

The price of Radway's Renovating Resolvent is $1.00 per bottle, Dose, a tea-spoon, twice full, half an hour after each meal. Sold by druggists and merchants everywhere.

A SPEEDY PURGATIVE.

DR. RADWAY'S PILLS

Are superior to all purgative or cathartic Pills, powders, mineral and seidlitz waters, in the treatment and cure of:

Costiveness,	Depression of Spirits,
Liver Complaint,	Indigestion,
Biliousness,	Dyspepsia,
Inflammation of the Bowels,	Sick Headache,
Nervousness,	Melancholy.

IN SIX HOURS.

A dose of from six to eight of Radway's Regulating Pills, will, in the most distressing cases of Constipation or Costiveness, Derangement of the Liver, or other glands, secure a healthy evacuation from the bowels. Persons troubled with costiveness, indigestion, liver complaint, dyspepsia, will derive immediate benefit by taking a dose of these pills. After thoroughly cleansing the bowels of its retained humors, by a free purge, two to four per day, for a week or ten days, will restore the liver, bowels, pancreas, kidneys and all other organs of the system, to the healthy performance of their duties.

DR. RADWAY'S PILLS
AS A SCIENTIFIC PURGATIVE.

We have the medicinal properties of the most efficient plants, roots, herbs, gums and balsams in the vegetable kingdom. In each of these little pills lies a mysterious power, for in each pill is combined the elements of health, regeneration, strength and life.

Persons who suffer with dyspepsia, liver complaint, enlargement of the spleen, jaundice, kidney complaints, palpitation of the heart, and the evil effects induced by the excessive use of calomel, mercury, quinine, corosive sublimate, opium, tobacco, local stimulants, and exposure to paint, lead, &c., will find in Radway's Regulating Pills a permanent cure.

RADWAY'S REGULATING PILLS

Are the only vegetable substitute for calomel, mercury, quinine, and their kindred drugs, that have ever been discovered, and the only pills in use that will secure to the patient the beneficial effects in the liver and other glands of the system that physicians hope to obtain from the use of these drugs.

RADWAY'S REGULATING PILLS

Are as pure and innocent as bread, are entirely vegetable, and coated with a medicinal gum—free from taste or smell; occasion no nausea or sickness, nor will they interfere with the usual avocations of the patient.

RADWAY'S PILLS

Not only purify the blood, and extract from it all impurities, but they equalize its circulation. They regulate each and every organ to a healthy and equal action, and correct derangements of the liver, heart, stomach and bowels.

RADWAY'S REGULATING PILLS

Will quickly cure the patient of the following complaints, viz:—

Costiveness, dyspepsia, bilious fever, constipation, measles, jaundice, congestion, melancholy, apoplexy, heart diseases, hysterics, enlargements of the spleen, diseases of the kidney and bladder, amenorrhœa, fainting, congestive fever, diseases of the liver, dizziness, sleeplessness, biliousness, hemicrania, general debility, yellow fever, rush of blood to head, scurvy, typhus fever, dimness of sight, ship fever, obstructions, whooping cough, malignant fever, retention of urine, fits, loss of appetite, dropsy, worms, indigestion, acute erysipelas, lowness of spirits, inflammation, headache, bad dreams, palpitations, bad breath, quinsy, scarlet fever, pleurisy, inflammation of the intestines, and all organic maladies; loss of appetite, loss of memory, and loss of physical strength.

As also all COMPLAINTS OF WOMEN, such as Hysteria, Leucorrhœa or Whites, weakening discharges, chlorosis, irregularities, suppression of the menses, inflammation of the womb or bladder, difficult menstruation, and all other Diseases or Complaints, produced by excessive discharges or suppression of the Menses.

Ladies who desire to avoid the sufferings and inconveniences of these irregularities, or organic derangements, should not omit to regulate their systems by means of one or two of RADWAY'S PILLS once or twice a week, and thus be free from the many and great inconveniences to which ladies are generally subject.

MARRIED LADIES.

Every married lady, when pregnant, should regulate her system with RADWAY'S PILLS. A dose of these Pills, taken once or twice each week, during this period, will cure that distressing malady known as "Ladies' Morning sickness," and will give strength, vigor and purity to the whole system; and in all cases where there is any constitutional debility, these Pills will ensure a strong and vigorous offspring.

BILIOUS COMPLAINTS.

Letter from Dr. Solmon Skinner.

New York, January, 1860.

Dr. Radway & Co.;

I have, during the past four years, used your remedies, and have recommended them to others for Bilious Complaints, indigestion, dyspepsia, &c. I consider the Ready Relief and Regulating Pills unequalled. The Regulating Pills are mild in their operations and thoroughly effective.

The first dose should be large enough to purge—say four or five, and each successive dose be diminished one pill, until reduced to one, and then repeated every day, for a week or ten days. A permanent cure will surely follow.

Yours, &c.
DR. S. SKINNER.

Radway's Regulating Pills are sold for Twenty-five cents per box, (each box contains thirty pills,) by Druggists, Merchants and Storekeepers.
