

Strange But True

By F. H. MacArthur

Steel collars that were enamelled white and became perfectly clean as the brush of a damp cloth were once worn by men and women.

It takes 13 muscles to produce a smile and 50 to make a frown, so why use the frowny when thirteen will keep you looking pleasant?

Military records prove that boys who live in large towns and cities. For example, 100,000 country lads furnished 4,790 more soldiers for military service in World War II than did the same number of youths recruited from the large cities of the British Empire.

The buying power of the dollar keeps going down so rapidly that one is reminded of Ruskin's warning: "Money is not a medium of exchange but is a power over men."

Brionically known as anamitru, this curious plant actually catches and eats fish. It grows in East India rivers and produces seeds that render fish unconscious, so that all the natives have to do in order to get fresh fish is to cast some of these seeds into a pond, lake or stream.

White violets! Yes indeed; they grow in different parts of Canada and the United States, and are known as Canadian white violets.

The National Museum in Washington, D.C., holds the world's biggest watch. This gigantic time-piece measures 9 1/2 inches in diameter and keeps perfect time.

Sub-zero temperatures in Eastern Canada are not what they used to be 75 years ago, when the average temperature for March was tipped nearly four degrees since, the mid-19th century.

Snowfalls are not so heavy either. We now have less than 100 inches each winter as against 130 inches back in the 1880's.

Marium Obaldstoen of Vermilion, Alberta, has been unconscious in hospital since June 1950 when he was injured in a traffic accident.

At the age of 12, John Low amazed the professors of Edeburg University with his knowledge of mathematics.

At 20, this progeny had turned into a notorious gambler; at 26, he was tried and sentenced to be hanged for murder. Two days before the execution was to take place, he escaped from prison and fled to France, where he amassed a fortune as a swindler.

At 39, Low, the bright boy of 12, died in Italy, flat broke.

79 per cent of all deaths in Canada are due to ten diseases, namely: Flu, pneumonia, nephritis, diabetes, hardening of the arteries, cerebral hemorrhage, T. B., diseases of the heart, infant diseases and cancer.

Three per cent of the peoples
