## GOLD MINING.

Gold mining in Nova Scotia appears to be one of the most profitable branches of industry in which capital has of late years been invested in any of the Maritime Provinces. The *Novascotian* of the 20th Jan. supplies some information from Heatherington's *Gazette*, from which we learn that there are fifteen gold mines in that Province which are owned by companies, thirteen of which have been actively worked during the past year; while two operations have been temporarily suspended. The following we select as showing what the result has been at two of them:—

"The Ophir mine at Renfrew is a representative institution, both as regards management and success. The value of the gold mined between February 1866, and September 1867, amounted to over one hundred and eighty thousand dollars, and after paying current expenses, and for the erection of a 24 stamp mill, as well as for several additional areas, gave in the above space of time a net profit of one hundred thousand dollars."

"The Palmerston mine at Sherbrook, which is also an American enterprise, is hardly less successful, having made a dividend of 25 per cent. from its first years earnings after having paid all expenses, and purchased a new 10 stamp mill.

The receipts at this last mine from 10th November, 1866, to 28th October, 1867, is set down as $85,515,59; expenses at the mine, $35,166.61; cost of mill, 7,287,50; leaving a profit of 43,061,48.

The *Gazette* adds,—"Such results are almost enough to rouse Nova Scotians from their lethergy, and to invite European recognition and investments." When shall we have the pleasure of chronicling such success from the published returns of the Fishing Companies of this Island? Men who have spent years in the business, and who have invested their all in the enterprise, do not say that such success has attended them; but maintain that there is money in the trade, and scope for extended and profitable operations, and nothing is more common than to read of our "inexhaustible Fisheries." We know that one thousand pounds worth of fish are annually shipped now, where a few years ago there were not one hundred; yet we are not aware that men are making money at the business. We would be glad to see the question discussed through the Press.

## Missionary Meeting.

A MISSIONARY Meeting in connection with the Summerside Presbyterian Congregation, was held in the Church, on Monday evening last. Rev. R. S. Patterson, A.M., delivered an able and interesting discourse on the duty of "Systematic Benificence," taking as his text I Cor., xvi. & ii.—"Upon the first day of the week let every one of you lay by him in store as God hath prospered him." At the close of the discourse Rev. W. R. Frame gave an account of the different schemes of the Presbyterian Church of the Lower Provinces of B. N. A., to which it is the duty and privilege of all the members and adherents of this congregation to contribute. The first in importance of these was the Foreign Mission, which supports several Missionaries in the South Pacific Islands, and also one among the Coolies in the Island of Trinidad; then there was the Home Mission fund, designed to aid weak congregations, and also to foster mission stations; and the Ministerial Education fund, for the support of the theological Seminary, &c.

Having briefly urged the claims of these funds, a collection was taken which amounted to nearly £12.

Before the meeting closed it was agreed that a missionary society be formed in connection with this Church. The following were appointed office bearers for the current year:—

Rev W. R. Frame, President.
C. McLennan, Esq., Vice do.
Mr. T. B. Hall, Secretary.
Mr. Robert Glover Treasurer.

Hon. J. Muirhead, E. L. Lydiard, Esq., and Messrs. David Montgomery, Thomas Brehaut, Thos. Frizzel, Joseph Linkletter and Arthur Milligan, Committee.

☞ WE have received the January number of the *Masonic Monthly*, a very neatly printed Pamphlet published in Boston by Mr T. G. Wadman, at $2.50 per year. It contains some very choice literature, and a large amount of useful and instructive information to the members of the Masonic Fraternity. Mr. Wadman is a native of this Island, and a member of the craft, and we have much pleasure in recommending the *Masonic Monthly* to our brethren. We give on our first page this week a selection from it, which we would recommend to the careful consideration of those who think there is "no good in Masonry."

A BIG PIG.—The *Patriot* says that Conrad Vickerson, Esq., of Vernon River, had a hog in the market for sale, on Tuesday last, that weighed 721 lbs. when killed and dressed. It was sold for 5½d. per lb. It would be hard to beat that. We wonder if the New Dominion could produce such pork.

☞ REMEMBER the Auction Sale at the British & American House, in Summerside, on Tuesday next. Great bargains may be had.

☞ WE hear that a very good horse was sold the other day on the Western Road for 35s. Who would'nt have a horse?

☞ THE Building Committee of the Free (Episcopalian) Church in course of erection on Rochford Square, Charlottetown, announce that a Bazaar will be held early in July next, for the benefit of said church.

☞ THE Supreme Court for King's County will be opened on Tuesday the 25th day of February inst.

☞ THE English Mail was received here on Monday last. In another column will be found the news.

### Prince County Best!!

We are glad to learn that the horse owned by William Tuplin, Esq., of this town, won the race in the trotting match on the ice on Charlottetown harbor, on Saturday last. This horse was raised in Tignish,—a place noted for fast horses—and was recently owned by the Messrs Reids, of Alberton, and sold by them to Mr. Tuplin for the sum of £74. Mr. Tuplin, after the race, sold the horse to D. Mutch, Esq., Rustico, for the handsome sum of £99. It appears we have some "Bonars" amongst us.

☞ IT is reported that the recent meeting of the Summerside Bank is all upset, and that the old Directors will again take their seats for the ensuing year.

☞ FREDERICK PRATT, a native of this Island, died suddenly at Doaktown, Miramichi, a short time since.

☞ His Excellency the Lieutenant Governor in Council has been pleased to appoint the Hon. Alexander Laird, Junior, a Member of the Stock Farm Committee, in the place of the Hon. James H. Peters, resigned.

The *Newfoundlander* says:—

"We are very glad to hear of the progress of outport industry of slate quarrying in Trinity Bay. During the last season Mr Cathrae has made and shipped as many as 245,500 slates to Montreal, Halifax, Boston, P. E. Island, and St. Peters It is further satisfactory to add that in the various markets to which they have been sent, they have given the utmost satisfaction, and the quality has proved to be equal to the finest Welsh slates."

There appears to be a large amount of destitution existing among the people. Business was very dull, and the winter has been severe.

Advices of late date have been received here from officers in command of the British Expedition in Abyssinia. The Queen's Army was in advance to the Interior when despatches left Head Quarters. A force of fifteen hundred men, embracing detachments from each arm of service, marched from the Camp at Senafe for Antalo on the 26th of January.

In obedience to orders from Gen. Napier the native casts from India who had followed the regular army in large and often embarrassing numbers, were being returned to their own country by transports from Annesley Bay, with the exception of just as many as were absolutely required to serve in different positions, for the most part of an inferior character, in Camp or the Commissary department.

The feeling of uneasiness created at the threatening appearance of affairs in northern Turkey has somewhat subsided.

Diplomatic relations existing between Emperor Napoleon and the Pope have suddenly assumed a changed aspect, and recent correspondence between Paris and Rome is regarded as of a far less cordial character.

It is said the cause of this unlooked for change is the fact that Napoleon has become convinced of the existence of Bourbon intrigues against his throne, for the most part hatched in Rome, to the great encouragement of the Legitimist party in France and other countries of Europe.

As a set off to this state of affairs Napoleon has renewed with King Victor Emanuel his friendly tone and assurance towards United Italy, and has just forwarded a special order to his representative, the French Minister in Florence, to that effect, and enjoining him to shape his diplomacy with that object.

The troops raised in Spain for the Pope are to be disbanded at the suggestion of the French Emperor.

The French Government has consented to expel the Hanoverian refugees from the soil of France.

Captain McKay was brought up for examination on Saturday afternoon; he was fully committed for trial.

Several rioters who attempted to rescue McKay from the custody of the police, were also examined and committed.

In the Melee two police officers were shot and dangerously wounded.

Mrs. A. Allen's Worlds Hair Restorer and Zylobalsalum or World's Hair Dressing are unequalled, and so acknowledged by all who use them for restoring invigorating and dressing the hair, rendering it soft, silky and glossy, and disposing it to remain in any desired position; quickly cleansing the scalp, arresting the fall and imparting a healthy and natural color to the hair. They never fail to restore grey hair to its original youthful color. They act directly upon the roots of the hair giving the natural nourishment required. No lady's toilet is complete without the Zylobalsamum or hair dressing. It cleanses the hair and imparts to it a most delightful fragrance, and is suited to both young and old.

The Restorer Reproduces. The Hair Dressing cultivates and beautifies.

Gently it penetrates through every pore.
Relieving sufferers from each *angry sore;*
All *wounds it heals* with certainty and speed;
*Cuts, Burns,* from Inflammation soon are freed:
Eruptions, at its presence disappear;
Skins lose each stain, and the complexion's clear!

All to its wondrous merits testify,
Let those who doubt, a single box but try,—
Verily, then its true deserts 'twould have;
Even unbelievers would laud Grace's Salve!

Honor to Whom Honor is Due.

It has been said by a few unfortunate mortals who have striven in vain to gain position of honor and distinction, that they were not sufficiently appreciated. While such may sometimes be the case, it is generally to be observed that true deserving worth is cordially accepted and honored, whether applied to religion, politics, the arts, or invention. Next to religion, invention or discovery has the highest position, for it wields a mighty influence; through its channels nations have overleaped, as if by magic, the bounds of separation, and united by electric wires, can converse together at momentary will.

Indeed, the diversified efforts of man's genius in these respects are a source of admiration and gratitude to the whole human race. In medicine, science has revealed during the last quarter of a century, many hidden truths, which had before been considered to be impossibilities The malignity of pestilential disease is now in a great measure bereft of its terror, and even the "insatiate archer," consumption, is arrested in his deadly march, and oftentimes overthrown. Undoubtedly the great rallying power in the treatment of this and other pulmonry diseases, is Dr. Wistar's Balsam of Wild Cherry; and the foregoing allusions are applicable to the memory of its illustrious discoverer. The proof of the efficacy of this great remedy is in its undying reputation. It has stood the test of time, and its fame as a curative of Throat and Lung Complaints has extended to all climes.—*Canada Christian Advocate.*
