

**Why,**  
If you wish your Linen to be White as Snow, Sunlight Soap will do it.

**How**  
Can you test this? If you have never tried it, ask those who use it what they think of it. Then try it for yourself. The result will please you, and your clothes will be washed in the least time, with less labour, greater comfort, and will be whiter than they have ever been before, when soiled with any soap.

Not the best way to do it, but the best way to do it, by enquiring what those who already use it, think of it. You are not committed in any way to use the soap; all we ask is: Don't Delay, try it the next washing day.

**FOURTH OF JULY IN BOOMTOWN.**  
General Bullfrog Belongs on How to Get on in the World.

In Boomtown, last Fourth of July, everybody and every body else was out on the public square to hear the ubiquitous General Bullfrog Belongs. After the burning words of the Declaration of Independence had been read by the best reader among this year's graduates from the Boomtown High School, the General blew off the gas in a masterly manner. Said he:

**GENERAL BULLFROG BELONGS.**  
This is the greatest country that God Almighty ever worked on. Everything is on a gigantic scale. The lakes are large enough to sink all Europe in the land is as broad and as long as any nation could ask for, and the American eagle, that emblem of liberty, waves China and Japan into the circle of civilized intercourse on the west with one wing, while it fans with the other one on the east to cool the British lion. And as to our institutions, why gentlemen and feller citizens, they are perfection itself, the seek-no-further; the end of progress has been reached. Every boy, and soon every girl I hope, can be a general and president. Look at Lincoln—from rail-splitter to president; Grant—from the farm and tan yard to the chief command of the army and the White House; Hayes—from the poultry yard to president; Garfield—from the tow-path on the raging canal to the White House. Every boy and soon every girl, I hope, can attain to equal grandeur and like position, and if they fail to do so it is all owing to their own individual vices, lack of energy and tact, and their mismanagement. And those fellows that find fault with the galloping institutions and the consequent order of things, should, yes, in the language of the immortal poet—

They should get out,  
Or take the Rocky Pinker in bullit.

Yes, gentlemen and feller citizens, it is the easiest thing in the world for all boys, and soon will be for all girls, I hope, to be the generals and presidents. I hold in my hand, red hot from the journey over the wire, telegrams to the citizens of Boomtown, which I shall read with your permission:

NEW YORK HARBOR, ON BOARD MY OWN YACHT, July 4th.

I confirm the noble words of your orator. I started in New York selling mouse-traps; have now a trap of wires and rails that catches the big end of the farmer can raise and the mechanic can make. It is the easiest thing in the world for everyone to rise.

GOULD.

The old man started with a push-cart and a yawl in the transportation business, and we have got on pretty well. Our railroad is in a fair way to the continent. And our lands—well, the public be bonded.

O. K.

READING, Pa., July 4.

I started in a small way by letting servant split kindling wood in back yard. Am now Grand Commander-down of miners and imported contract laborers wages and General Raiser-up of anthracite coal prices. It is an easy job. It's Proxy that does it.

**Epps' Cocoa.**  
BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal ailment by keeping ourselves well fortified by pure blood and a properly nourished frame."—Civil Service Gazette.

**Remarkable Growth.**  
From 10,000 to 1,000,000 in Ten Years.

**Substantial Evidence of Public Appreciation—Rapid Extension of a Business Founded on Merit—When Newspaper Advertising is Valuable.**

The mark of public appreciation which best indicates the meritorious character of an article for public use, is the evidence shown by the necessity of enlargement of business facilities connected with the production of the article. The Kickapoo Indian Medicine Co., located at New Haven, Conn., owing to the manufacturing from the original formulas of the Kickapoo Indians the famous medicines of that celebrated tribe, have found it necessary to make a substantial enlargement of their factory by the purchase of a six story brick building, containing about thirty thousand square feet of floor space for conducting the enormous and still increasing business of supplying their remedies to the public. This growth has all been within the past ten years; and this is the third time the Kickapoo Medicine Co. have outgrown their quarters since the first introduction of the Kickapoo Remedies among the white people. Their business has grown in a ratio of one to a hundred in the last ten years, and they are now actually one hundred times the amount of business they did the first year.

**Merit a Necessary Basis.**  
This success resulted mainly from the intrinsic merit of the Kickapoo Remedies; since their introduction was largely attained with comparatively little or no advertising, and that principally consisting of parties of Indians with their interpreters travelling from town to town erecting their camps and showing the people just what the Kickapoo Remedies were and their use.

It was only within the past two years that the Kickapoo Remedies have been advertised in the newspapers, and then only at first in certain papers. After the sale had been established, so as to keep the merits of the Kickapoo Remedies before the people. This newspaper advertising, however, has been of much benefit to the sale of these famous medicines, and has been largely instrumental in effecting the needs of additional facilities. Many people who were not reached before are now using the Kickapoo Indian Remedies, and some really astonishing cures have been wrought by these simple compounds of roots, barks and herbs.

**When Newspaper Advertising Pays.**  
Healy & Bigelow, the agents for the Kickapoo Indian Medicine Company, appreciate and understand the value of the newspaper advertising for the meritorious article, and say: "We find that newspaper readers are very discriminating, and inclined to be skeptical at first, but after you have established confidence in your goods, and the people find that your statements are reliable, then your business is bound to increase and expand."

The Kickapoo Remedies consist of only five articles, all of which are purely the product of roots, barks, gums, leaves and flowers. They are absolutely free from mineral or other deleterious substances, as attested to after a chemical analysis by R. H. Critchfield, Professor of Physiological Chemistry at Yale College.

Kickapoo Indian Sagwa is a blood, liver and stomach remedy. Kickapoo Indian Oil is a quick cure for all pains, stiffness, soreness, rheumatism, and its like. Kickapoo Indian Cough Cure, as its name implies, is for throat and lung difficulties. Kickapoo Indian Salve is an excellent remedy for cuts, wounds, sores, eczema, etc., and Kickapoo Indian Worm Killer is a harmless and absolutely certain remedy for those troubles so frequently met with among children, viz: Seat, pin and stomach worms. The Sagwa retails for one dollar a bottle; the Cough Cure fifty cents and the other remedies at twenty-five cents a bottle or package.

There is probably not a drug store in the United States to-day where the Kickapoo remedies are not available, and we are pleased to say that Healy & Bigelow have published in this paper, and will continue to do so, some really marvellous cures effected by the Kickapoo Indian Remedies, and the evidence of the absolute vegetable purity of these simple, yet effectual compounds, that, as someone has said, bring "Long Life and Good Health."

**A SPLENDID RECORD.**  
A Provincial Industry Troubles its Business in the Last Three Months.

Some three months ago this journal informed its readers that a new provincial industry, that of the Hawker Medicine Company, of St. John, had completed its first quarter's business, and that its book showed a development of trade and a record of sales that was not only gratifying but really astonishing.

Another three months has now elapsed and the company have balanced their accounts for the six months. The results show that in the last three months they have trebled the business of the first three; they have about doubled their working staff and work has been carried on in the packers room all 11 o'clock every night in order to fill orders promptly. From all parts of New Brunswick, Nova Scotia and P. E. Island, from Newfoundland and parts of the United States, the orders have rolled in. The business is now firmly established. The experimental stage is past. Repeat orders come in constantly, showing that where once the remedies are introduced, they win permanent favors with the people who know as soon as they have given any of them a trial that these standard remedies are all that they are claimed to be. Indeed, this last might readily be assumed without a trial, and judging solely from the character of the gentlemen who form the Hawker Medicine Co., as they are numbered among the leading citizens and most honorable and successful business men of St. John.

The Hawker Medicine Company are now patenting their remedies in Great Britain and will presently extend their operations there, as well as more extensively to the United States. About the middle of this month Thomas Rankine, who so successfully introduced the Hawker remedies in Newfoundland last spring, will start and traverse the western part of Canada, from Montreal to Vancouver in the interests of the company. With such a record as that of their first six months now closed, the Hawker Medicine Co. are evidently destined to achieve a great success. They control standard remedies, which have received the endorsement of leading physicians in Canada and the United States, as well as the fervent praise of sorely afflicted people who have by their means been restored to health.

Their place of business is at 104 Prince William Street, St. John, N. B., where they have the most extensive and elaborately fitted up premises of the kind in the Lower Provinces. William Hawker, the original inventor of the remedies, has been a druggist in St. John for 30 years, and had long proved the value of the different remedies before the present company was organized. It is with pleasure that this journal records the company's wonderful success.

D. Waters, Campbellford, Ont., says that the Peterboro Medicine Co. (limited) are at liberty to use his name in the interest of all who may be suffering as he was before he used Menbray's Kidney and Liver Cure.

**AFTER TWENTY-FIVE YEARS!**  
CLEMENTSPORT, N. S.,  
July 18, 1893.

**THE GRODER DYSPEPSIA CO., LTD.**  
**GENTLEMEN:** This is to certify that I am 60 years of age; that twenty-five years ago I began to suffer from distress in my stomach, which continued to grow worse from year to year, and that for the last five years my suffering has been almost unbearable. During this long period I tried almost every dyspepsia medicine that I could hear of, and employed all the medical practitioners within reach, but without receiving permanent relief.

I suffered from severe constipation accompanied by bloating and belching of wind. Nervousness troubled me very much. Sometimes I would become so sick and weak that I could not attend to my work. Under such conditions I became alarmed and began to lose hope of recovery.

One day I noticed in The Telegraph a testimonial telling what Groder's Syrup had done for other people. This was about one year ago. I bought one bottle and found it so beneficial in its results that I secured more. The remedy gave me great relief. I CAN EAT ANYTHING I WISH NOW. There is no more BLOATING, no more SORENESS OF STOMACH. Nervousness is completely gone; constipation has become a thing of the past in my case. In short, I CONSIDER THAT I AM CURED, and cured by the use of three bottles of GRODER'S BOTANIC DYSPEPSIA SYRUP. I can conscientiously recommend above remedy to all who suffer as I did.

Yours truly,  
(Signed) GEORGE RANDALL.

**NOTE.**—This is to certify that the above testimonial is true in every respect, as I am well acquainted with the above-named gentleman.

Each number of McCLURE'S MAGAZINE contains two illustrated interviews with famous people. Jules Verne, Frances Hodgson Burnett, Tinsandier, the famous French Ballouster, Archdeacon Farrar, Thomas A. Edison, F. Hopkinson Smith, H. H. Boyesen, Alphonse Daudet, Camille Flammarion, Edward Everett Hale, Professor Graham Bell and many others, have furnished material for especially prepared interviews, which will appear fully illustrated in this magazine.

HENRY M. STANLEY will contribute, especially for young readers, a story of AFRICAN ADVENTURE.

NATURAL HISTORY AND ADVENTURE.—There will be several articles written by Raymond Hlatway, who has been called by Mr. W. T. Stead the best interviewer in England, from material furnished him by Carl Hagenbeck, of Hamburg, the great animal importer and trainer. These articles deal with the Capture of Wild Beasts, the Training of Wild Beasts, the Transportation of Wild Beasts, the Adventures and Escapes of Carl Hagenbeck. The series will be illustrated by an English artist of great skill in drawing animals.

JOHN BURRUGHS, C. F. HOLDER, DR. C. C. ABBOTT, and other writers famous for their work in this field, will contribute to the Magazine.

Of interest to both Young and Old will be PROF. R. L. GARNER'S AFRICAN EXPEDITION TO THE GORILLAS. Arrangements have been made, in connection with a leading English review, to publish Professor Garner's letters descriptive of his present expedition to Africa. Professor Garner is noted the world over for the curious and interesting investigations he is making in the speech of monkeys. He sailed for Africa last September for the purpose of further pursuing his studies in the native haunts of the gorilla. The illustrations of these articles will be from photographs taken by Prof. Garner in Africa.

McCLURE'S MAGAZINE also contains most interesting articles under the heads: "The Edge of the Future," "Newest Knowledge," "Knowledge of Immediate Value," "The Present Hour," "Stranger than Fiction," etc.

We are offering this splendid Magazine with THE DAILY EXAMINER for only \$4.00 a year, payable in advance or in monthly instalments of 35c, as desired.

Parties using the telephone would find talking much more satisfactory if they would observe the following rules—  
1st. Speak with the mouth about four inches from the transmitter.  
2nd. Place the telephone so as to cover the ear just as if you would shut out all other sounds. Do not press too hard on the ear.  
It is possible to talk and be heard when standing back two or three feet in the frame of the instrument, but this is not a pleasant mode of conversation, is entirely unnecessary, and is a waste of time and lung, besides being very annoying to all within range of your voice.
