

Home for a Hot Dinner

TOM JACKSON used to complain about losing his "pep" about the middle of the afternoon. The cold noon-lunch in his tin can didn't stand by him through the long afternoon. And he certainly got good and sick of carrying his cold lunch with him every day. His wife also got tired of putting up lunches.

Tom Feels Fine Now

He bought a C. C. M. bicycle and goes home for a hot dinner.

He says there's nothing like a noon spin to freshen one up, and nothing like a good hot dinner to stand by you through the afternoon's work.

Tom says if he were an Efficiency Expert he'd order bicycles and hot dinners at home for all the "lunch-pail sufferers" in the place.

He would go even further than that. He would have them get bikes with the

C.C.M. Triplex Hanger

Tom is a "Triplex" booster.

He says, "It's the hanger that gives the most speed—and pep—and power." Every bit of weight you put on the pedals counts for speed. And there are none of those mean "tight and loose" spots often developed by other crank hangers.

Tom also admires the accuracy of the C. C. M. workmanship. Being a master mechanic himself, he can appreciate the value of a bicycle many of the parts of which are made to even closer limits

than were the time fuses on shells. He also knows that the sparkling C. C. M. nickelling will keep bright and not rust, because it is done over copper. And he says he never saw smoother, niftier, or tougher enamelling than that on his new C. C. M. bicycle.

Hercules Coasts Farther

The other day when he was riding with a friend, Tom found he could coast farther with his Hercules Brake — "the Little Fellow with the Giant Grip" — than his friend could with another make. That tickled Tom, but didn't please the other fellow, who now wishes he'd chosen a C. C. M.

Fewer Repairs Lasts Years Longer

C. C. M. Bicycles have many features that make them worth more than ordinary bicycles. The extra satisfaction you get more than pays the difference in price between a cheap bike and a C. C. M. And there are always fewer repairs required on a good bicycle, so it mentions the extra years of service it gives. Many C. C. M. Bicycles are giving good service after ten to fifteen years' riding over all kinds of roads.

A C. C. M. may be had to-day for fewer days' wages than before the war.

Tom says his C. C. M. isn't costing him a cent. He will soon have it paid for with the money he's saved on car fare and shoe leather.

And he never felt so well in years.

THERE are over 1,000 C. C. M. Service Stations in Canada carrying genuine C. C. M. parts and giving C. C. M. service. Look for the above sign.

—BOARD OF TRADE— The regular meeting of the Board of Trade for the month of May was held in the Town Building on Thursday night with a representative attendance. D. R. Allan, president occupied the chair and matters mainly of a routine nature were discussed.

—DEPARTURE REGRETTED— The news that Mr. H. D. Dobie had disposed of his property and was leaving the island came as a distinct shock to his many friends in Grand River. Mr. Dobie and family have taken such an active part in every movement which was for the good of the community that their loss will be keenly felt. As president of the Grand River Dairy Co., and the Grand River Egg Circle, Mr. Dobie has discharged his duties capably and with satisfaction to all. As tangible evidence that their good work has been appreciated Mr. and Mrs. Dobie were waited upon Wednesday evening and the former presented with a solid leather travel bag, the latter a beautiful gold brooch set with pearls and emeralds. Mr. Dobie has purchased a fruit farm in the vicinity of Fredrickton, N. B., and there he and his sons will engage extensively in fruit raising. That happiness and prosperity may accompany them is the sincere wish of their hosts in Grand River.

—CONCERT ENJOYED— Standing room was at a premium in the Summerside Presbyterian Church on Thursday night when under the direction of Frederick Kerr, organist of that church assisted by W. E. Fletcher, L. R. C. M. of Charlottetown, the Maude cantata "Penitence, Pardon and Peace" was sung by the Summerside choir, with Mrs. Fletcher and Mr. B. Acorn of Charlottetown as soloists. Following the cantata there was a concert which included the following numbers: Male Quartette "Child Come Home" by Messrs. Ritchie, Hutcheson, Gorbell and McKee; solo "The Lord is My Light" by Mrs. Fletcher; organ solo "Meditation" by Prof. Fletcher; solo, "Consider the Lilies" by Mrs. L. B. Hunt; solo by Mrs. Hubert Phillips; solo "The Swallows" by Miss Dorothy Wyatt; organ solo "The Soldiers' Chorus" by Prof. Fletcher; tenor solo "Lead me your aid" by Elmer Ritchie; solo by Harry Gorbell; duet "Love Divine" by Mrs. Fletcher and Mr. Ritchie, quartette "Just outside the Door" by the Harmony Male Quartette.

—WEDDING BELLS— A very quiet but pretty wedding and one of more than ordinary interest took place at the Presbyterian Manse Lot 14, on Wednesday evening, May 3rd, 1922 when Miss Annie Ramsay daughter of the late Mr. D. C. Ramsay, Port Hill became the wife of Mr. Joseph Veal of Port Hill, formerly of England, G. B. The bride and groom were unattended and given in marriage by her uncle Mr. J. K. Ramsay, and the solemn ceremony performed by the pastor of the bride, Rev. Ronald Davidson. Miss Ramsay is one of Port Hill's most popular young ladies, well known as a willing active worker in all church work, very winsome and kindly in disposition which makes her a general favorite in the social life of the place, and Mr. Veal, a worthy young man of excellent reputation being in the employ of Senator Yeo for a number of years and has been most fortunate in winning one of Port Hill's most charming young ladies, and the community with all their numerous friends are glad to know that they are not removing from the place but going to reside with the bride's mother, Mrs. D. C. Ramsay on the old homestead at Port Hill and the hosts of friends all join in wishing the happy young couple a long and happy wedded life.

comment. It is assumed that their Griffiths' president of the Lord Birkenhead spoke with deliberate knowledge of the intentions of Michael Collins, head of the strong enough to take vigorous provisional government and action in the near future.

Notes By The Way

(Continued From Page 4.)

The men we have referred to have had the spending hundreds of thousands of dollars of the people's money during the past year, and they have, without asking leave from the electors entered upon a huge scheme of road-building, for which they have mortgaged the public revenues for a generation to come. This load they have laid upon the people in addition to the load of doubled taxes they had imposed, to leave as a legacy to their successors in office. This audacity is the crowning effort of the cupid-ity which calls for more money to spend in their dying hours as a government.

The scheme takes the form of a lobster whose claws extend east, west, north and south in the hope to catch votes by bribing the people with their own money in fat road jobs to the needy ones and the grasping ones. But the plot will fail. The traps are set, only to open in the sight of the intended victims. And there is a

Corns?

—just say **Blue-jay** to your druggist **Stops Pain Instantly**

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in two forms—a colorless, clear liquid (one drop does it!) and in extra thin plasters. Use whichever form you prefer, plasters or the liquid—the action is the same. Safe, gentle. Made in a world-famed laboratory. Sold by all druggists.

TORONTO Then known as York 1803

Before Simcoe Moved the Capital to York in 1794

the task of home making began in Upper Canada. Grudgingly the mighty forests began to yield to tiny clearings that have become Ontario's broad fertile agricultural lands. In those days nature's abundant gift of trees was considered a handicap and a hindrance to the pioneers.

In less than 128 years this bequest was riotously spent. To-day the situation is reversed. Conservation of our forests has become the watchword of both governments and citizens.

We must conserve this national resource and the property drawn from it. One of the best means is by "saving the surface" with adequate protection of paint and varnish. It is a national as well as a private economy to do so. Every surface, indoors or out, should be saved by sufficient and frequent coats of paint or varnish.

"Save the surface and you save all" - Paint & Varnish

TO-DAY it costs less to paint than it did. The cost of materials has led in the downward economic trend of manufactured products. But no matter what it costs, the fact remains that it always costs more not to paint than to paint. Rust and rot go on till you check them. The logical time to paint and varnish is NOW.
