Mr. and Mrs. W.A. O'Brien returned home Sept. 19 from a 2400 mile motor trip that took them to the famous St. Anne shrine at St. Anne De-Beaupre for a two-day stop over and then through Quebec City and through the mountain country for several hundred miles. Crossing into Maine and New Hampshire they went on to Boston, and the Mowhawk Trail with its wonderful sights, on to the big city of New York, coming back to Boston, for a few days with old friends on the way home. The shrine of St. Anne alone was a wonderful sight where on one day 80,000 people were in attendance. There was a pair of crutches left by a man from this vicinity who was said to be cured at the shrine two years ago.

City Men Told They Are Vanguard Of Civilization

(By Bob Joyce) MONTREAL, (CP)—The city man was told Wednesday he is at the head of the column and it is up to him to lead the way. Dr. Cyril James, principal of Montreal's McGill University, told United States and Canadian delegates at the International Municipal Congress that cities are "the vanguard of our civilization," and "if they fail to blaze the trail civilization as we know it will collapse."

In an address to some 800 mayors and delegates from the two countries, Dr. James said "each step forward in the slow progress of mankind has come from some small city."

"It is in these communities where men rub shoulders and share burdens that there is a chance of growth," he said. "I am not suggesting that civilization can't exist without cities," he went on. "It did during the dark ages."

"But it won't be the same. It will be cold and impersonal, and I suspect that it will be a great deal more authoritarian." Early delegates heard Mayor Frank Zeidler of Milwaukee say that if state governments in the United States continued their "ill-conceived hostility," cities would be driven to ask the federal government to protect them from petty tyranny.

Serious Assault

to open the door of their car it was pulled wider and the driver, James, was grabbed by the shoulder and his shirt torn. Mr. Kinch said he had kept his grip on the door handle and managed to pull it shut as he put the car in gear and got away. After driving only a short distance he said he turned the car to try and get the license number of the car of

his assailants. The driver of the other car took after him and tried to block the road. The witness told how he evaded the car and succeeded in reaching Newman's Garage, New Haven, from where it was his intention to telephone the R. C. M. P. He jumped out of his car and was able to get into the garage office and snap the lock on the door.

However, the garage had no telephone and the proprietor offered to take him to a nearby house where the call could be made. He said they started but saw three of the men kicking John Kinch on the ground. The attackers turned their attention to James and the brother was then able to get away accompanied by Mr. Newman. As they went down the road they heard a yell that if they called the police there would be a rifle in the car and he would shoot Kinch if it was the last thing he ever did.

In the meantime witness stated John had tried again to get back to the safety of the garage, but this time did not quite get the door closed in time. The three pushed their way in and proceeded to attack him with their boots.

A feature of this attack was that there were five other men watching the attack and making no effort to aid the victim. Their names were not revealed. Mr. Kinch said he asked them for help but none of them moved.

Drove To Crapaud

Prior to the assault on the Kinch brothers the group last week reportedly drove from Albany to Crapaud Saturday to attend the movies in that village. Dawson was with them on that occasion. After attending the show they went to a restaurant where others were present and a row started. Mr. Bernard, the proprietor, told James Dawson to get out and then came around the corner of the counter and hit him. There was conflicting testimony on this point.

Lloyd Walsh said that after warning Dawson Mr. Bernard went into the kitchen part of the building and returned with a short length of hose. Under the threat of this Dawson backed out the door to the outside where he could be heard cursing and swearing. Mr. Bernard denied

the hose and said just his fist was used. Walsh stated that after driving around for a while he and Johnny MacDonald returned to the restaurant. The store lights were out and they went around to the back and asked for sandwiches. Mr. Bernard inquired of his wife if any were left. The answer was "No" and he then

closed the door. MacDonald started to pound on the door. There were two other fellows in the car with them. The Court adjourned until 9:30 this morning when other charges will be heard and cases tried. In the meantime they were remanded to jail without option of bail, and will appear today for sentencing.
