SINCLAIR.
IV. Peter, of New London, County of Queen's, Yeoman.

On the voter entering the polling place the presiding officer asks him his name, ocupation, residence, etc., and his answers are entered by the clerk. If no objection be offered, the voter is given a ballot of which the above is a fac-simile, except that the cross will not be on it. The presiding officer has previously initialed the ballot and numbered the counterfoil attached, the voter is then directed to enter a compartment provided, where he will find a pencil. If he desires to vote for the Liberal-Conservative candidates he will make a cross X to the right of the name as we have marked above. After marking it he will fold it up and return it to the presiding officer, who will look at the counterfoil to identify the ballot by it. After tearing off the counterfoil and destroying it, the presiding officer puts the ballot paper in the box. Should the voter be unable to read, he must take an oath to that effect. Then he will be accompanied by the presiding officer to the compartment, and in the presence of the candidates' representatives (who are sworn to secrecy) the officer makes the cross alongside the names of the candidates for whom the elector desires to vote.

Ch'town, May 8, 1878.

The Greatest Medical Discovery since the Creation of Man, or since the Commencement of the Christian Era.

There never has been a time when the healing of so many different diseases has been caused by outward application as the present. It is an undisputed fact that over half of the entire population of the globe resort to the use of ordinary plasters.

DR. MELVIN'S CAPSICUM POROUS PLASTERS are acknowledged by all who have used them, to act quicker than any other plaster they ever before tried, and that one of these plasters will do more real service than a hundred of the ordinary kind. All other plasters are slow of action, and require to be worn continually to effect a cure; but with these it is entirely different: the instant one is applied the patient will feel its effect.

Physicians in all ages have thoroughly tested and well know the effect of Capsicum; and it has always been more or less used as a medical agent for an outward application; but it is only of very recent date that its advantages in a porous plaster have been discovered. Being, however, convinced of the wonderful cures effected by DR. MELVIN'S CAPSICUM POROUS PLASTERS, and their superiority over all other plasters, they now actually prescribe them, in their practice, for such diseases as rheumatism, pain in the side and back, and all such cases as have required the use of plasters or liniment. After you have tried other plasters and liniments, and they have failed, and you want a certain cure, ask your druggist for DR. MELVIN'S CAPSICUM POROUS PLASTER. You can hardly believe your own convictions of its wonderful effects. Although powerful and quick in its action, you can rely on its safety for the most delicate person to wear, as it is free from lead and other poisonous material commonly used in the manufacture of ordinary plasters. One trial is a sufficient guarantee of its merits, and one plaster will sell hundreds to your friends.

Ask your druggist for DR. MELVIN'S CAPSICUM POROUS PLASTER, and take no other; or, on receipt of 25 cents for one, $1 for five, or $2 for a dozen, they will be mailed, post paid, to any address in the United States or Canadas.
