in debt. Where, then — we again ask — is the money to come from? And at what interest shall we get it? is another very important question. But it is all humbug, and quite characteristic of a man, who, from his boyhood upward, was never known to have any real attachment to truth. He would fain make the world believe that he is exceedingly rich himself, and in alliance with other rich people; but we strongly suspect that his pretensions about a flush of cash can only afford another illustration of the old story of the painted pigeons, which, no doubt, occupies a prominent place in his boyish reminiscences.

LATEST NEWS FROM SEAT OF WAR.

THE Mail of Saturday night brought the following telegraphic news respecting the first great battle fought near Richmond. The Grand Army under General McClellan has been, lately, very unfortunate in its encounters with the Confederate forces:—

By Special Telegraph to the Daily Evening Globe.

NEW YORK, July 3.

The 'Times' has detailed reports of the battle of Thursday, Friday and Saturday, from which it appears that the right wing, of 20,000 men, was attacked on Friday by not less than 50,000 men, and driven across the Chickahominy.

On Saturday night and Sunday our whole left wing, under Gens. Heintzleman, Keyes, and Sumner, fell back along the line of Railroad and Williamsburg Road, and marched to James' River.

The rebels crossed the Chickahominy in great force on Sunday, reaching the Railroad, but made no pursuit, remaining, however, in possession of the ground previously occupied by our troops on both sides of the Chickahominy, including the bridges and earthworks we had erected against their approach.

All our stores, &c., were withdrawn in good order, without much loss.

Of course there was tremendous fighting during these movements, and heavy loss on both sides.

NEWARK, N. J., 3d.

Gen. McClellan established his head quarters on Monday on Malvern hills, one mile back of Turkey Island bend.

At 2 o'clock on Monday evening firing was heard for two hours in the direction of White Oak Swamps.

Gen. Mitchell (in the West) detailed 55 men from different regiments for scout service, but they were all captured and arrived at Atalanta, Ga., where Robert Buffan, formerly of Salem, Mass., but now of Col. Norton's 2nd Ohio Regiment, was hung by the scoundrels. He made a speech, saying that he considered it no ignominy to die for his country even in that manner.

By Special Telegraph to the Daily Evening Globe.

FROM McCLELLAN'S ARMY.

THE BATTLE SUSPENDED!—REBEL ACCOUNTS!

WASHINGTON, July 4.

The Richmond 'Examiner' of July 2, gives the following relating to the battle of Monday. It says that on Sunday morning Gens. Hill and Longstreet, with their divisions, crossed the Chickahominy, and late on Monday afternoon attacked the enemy about 5 miles north east of Darleytown, on the New Market Road. The conflict was terrible, and at 8.30 p.m. the enemy had been driven back a mile and a half.

At half past 9, being heavily reinforced, the enemy made another stand. The loss here on our (rebel) side was terrible, the situation being evidently hopeless against such overwhelming forces. Gen. Hill slowly retreated.

At this moment, seeing their adversary retire, the most vociferous cheers arose along the whole Yankee line. The fight ended there for the night.

The Richmond 'Examiner' says: It thinks the division which went into the fight on Friday 14000 strong, could only number 6000 men for duty on Tuesday, and that the loss of life exceeds that of any battle or series of battles yet fought.

About 8 a.m., of Tuesday, the 'Examiner' says, Jackson's and Huger's divisions attacked McClellan's left flank on the West side of the Chickahominy, 17 miles from Richmond.

Later in the day Magruder fell upon the right flank.

Fighting was going on up to 9 o'clock on Tuesday night. Heavy firing from the gunboats on James River was heard on Tuesday morning.

A number of Federal transports are in the river with reinforcements, supposed from Burnside, but they have not yet landed.

The above extracts are from the Richmond 'Examiner' and relate to Tuesday's battle, in which Gen. McClellan's despatch of yesterday said the enemy were badly beaten.

Advices received at the War Department show that there was no fighting in the Peninsula on Wednesday or Thursday up to 5 p. m.

FROM GEN. POPE'S ARMY—WASHINGTON, 4.—Accounts from Washington state that there is no enemy there, the 200 rebel cavalry seen on Wednesday having disappeared. Some of the women threw dishes and other utensils from the windows at our forces. The soldiers at Manassas and Cattle's Station are celebrating the Independence to-day.

UNITED STATES.

The Federal House of Representatives, on the 17th inst., concurred in the Senates' amendment to the Bill Prohibiting Slavery for ever in all territories of the United States. As now fully passed, the bill reads:

"To the end that Freedom may be and remain forever as the fundamental law of the land in all places whatsoever, so far as it lies within the power or depends upon the action of the Government of the United States to make it so, therefore,

"*Be it enacted, &c.*, That from and after the passage of this act there shall be neither Slavery nor involuntary servitude in any of the territories of the United States now existing, or which may at any time hereafter be formed or acquired by the United States, otherwise than in punishment of crimes whereof the party shall have been duly convicted."

THE NATIONAL TAX.—The New York Herald indulges in the following speculations upon this subject:—

"With the passage of the Tax Bill by the Senate ends every lingering doubt relative to the success of the financial schemes of the Government. The value of its certificates of indebtedness, whether they be treasury notes, stocks or other securities, is now established on a firm and solid basis. As soon as the bill, which is now in the House for concurrence in the Senate amendments, becomes a law, an annual income of over $200,000,000 will be insured, which is sufficient to pay the interest, at the average rate now paid by the Government, on a debt of over $4,000,000,000. Our expenses, however, can in no event ever be such as to increase our debt to this enormous sum. If it reaches the sum of $1,500,000,000, we shall be able to pay the interest thereon with $75,000,000. To this add $100,000,000 for the current expenses of the Government each year, and we have a total of $175,000,000 to be annually paid, leaving $25,000,000, if our income be but $200,000,000 for the yearly contribution to a sinking fund with which to extinguish the debt incurred in the prosecution of the war. But after the present year our income will in all probability amount to a larger sum than that above indicated, inasmuch as the customs receipts will increase as the country is restored to tranquillity and the demand for foreign goods increases, and as the tax receipts will be augmented after the stock of goods already manufactured and untaxed is consumed."

Blondin has a female rival in the West. Mlle. Carolista is performing wonders on the tight rope in Detroit. She walked with ease and rapidity along a rope stretched from the roof of a 5 story building on Dearborn-street to the roof of a four story block opposite, performing on her passage all the feats for which Blondin is famous. It is needless to say that the fair Carolista is clad in male attire.

More than one hundred lives were lost during the recent terrible freshet in Lehigh Valley, Penn.

COLONIAL.

Ensign James M. Howes, of the 2nd Battalion 16th Regiment, was drowned in Halifax harbour on Wednesday evening last, by falling overboard as he was proceeding on board the Pyramus. The sentry jumped in after him, but could not rescue him. Ensign Howes was 20 years of age. He had been in the service about eighteen months.

We learn from the Halifax 'Sun' that on Thursday of last week, the Chebucto Company took out of their claim at Laidlaw's, gold to the value of between one and two thousand dollars.

HOW SOME FOLKS PAY THEIR ELECTION BILLS.—There was an amusing case in the City Court yesterday—nothing less than a suit brought by Mr. McIntosh, Dock street, against the Hon. R. Wilmot for supplies furnished by the former on the order of the latter during the election of the year 1858, to be sent to Foster's Hotel, Quaco. Mr. Wilmot contested the case simply on the ground that these "refreshments" and "provisions" were intended for Messrs. Wilmot, Gray, Simonds and Godard all alike, he having already paid more than his proper share of the bill. It is said that Mr. Wilmot expressed his opinion pretty freely respecting the conduct of the other Tory candidates on that occasion, and stated that he had always to foot up their bills and his own too. He even went so far as to denounce his associates as "mean" individuals; and expressed himself well pleased with having an opportunity of saying so. Mr. W. required no urging to make a full disclosure, but went at it "like a days work." The Court decided that he must pay the whole bill as he had ordered the articles. We have seldom sympathised with Mr. Wilmot of late, but we must say that we think he has been very shabbily treated by his Tory friends in this matter.—*St. John Morning News.*

If Mr. Wilmot had made a general application of the word "mean" to the leaders of the Tory party, we would have fully endorsed it. They are too mean to pay their election bills, too mean to pay the amounts they owe to a few poor printers, and too mean to liquidate the "Empire" debts. For the sake of the profession of which we are a member, we are pleased that the Editor of the Freeman, although in opposition, does not belong to *that* party, and, further, that he was not only not elected by them, but in spite of their public opposition and private machinations. How he must despise them.—*St. John Evening Globe.*

DISTINGUISHED ARRIVAL.—A special train from Shediac, at three o'clock this morning brought down His Excellency George Dundas, Esq., Lieutenant Governor of Prince Edward Island, who is on a visit to the Hon. Arthur Gordon, Lieutenant Governor of this Province. Their Excellencies are stopping at the Waverley. Mrs. Dundas, who had been on a visit to the United States, arrived yesterday afternoon in the American steamer.—*St. John Evening Globe, July 2.*

Among the names of the killed at the late fight near Mechanicsville, we find the name of Lieut. R. Nugent, Co. I., 9th Mass. Regt. This, no doubt, is Mr. Richard Nugent, of Halifax, who was a Lieutenant in a Massachusetts Regiment. He was son of the late Richard Nugent, Esq., Editor of the Halifax Daily Sun.—Lieutenant Nugent was about 25 years of age, and was married.—*Ib.*

SENTENCE COMMUTED.—We are pleased to learn that His Excellency, the Lieutenant Governor, has commuted the sentence of death, passed upon William Mackay for the murder of Fitzgerald, to that of imprisonment in the Provincial Penitentiary for a period of twenty one years. It will be remembered that Mackay was recommended to mercy by the Jury.—*St. John. Globe.*

DREDGING MACHINE.—The Dredging Machine, which for some time was engaged in deepening and improving Crapaud Harbor (and making an excellent job of it) is now in our harbor busily employed in dredging the dock at the lower side of Peake's wharf, so that vessels of larger tonnage may be admitted than those which can now be accommodated.

The Machine attracts much attention while at work. Each dip of "the scoop" brings up a cubic yard and a half of mud which is deposited in scows along side of the Machine; and as the dips are made in about one minute each, the scows are very soon filled, and are then towed away to the ground for discharging, where the bottoms are opened, and the mud drops through.

Mr. Alex. McBean is the owner of the Machine. It was built at Shediac, and the machinery brought from Canada, although we believe it is of American manufacture. The whole, in working order, is said to have cost $6,000. Mr. J. Howard Beatty is Superintendent; Jas. Payne, Engineer, and John Callaghan, Cranesman. Seventeen men are engaged in working the Machine, and consequently it must be an expensive business to carry on.

Among the many shallow harbors of the Strait and Gulf and tortuous channels leading to them, the Dredging Machine of Mr. McBean should have plenty employment. His enterprise will be a benefit to the commerce of those sections where the Machine may be used.—ROSS'S WEEKLY.

WE fully concur in the above commendatory notice; and we beg to suggest that it would be a good thing if the Government would immediately engage with Mr. McBean to dredge out the middle ground of our river, where the Ferry Steamer has frequently got aground while scores of people were on board, anxiously waiting for the tide to rise, so as to get off. This delay has caused very serious inconvenience on Market days, when the boat happened to be crowded with farmers from Lots 48 and 49, and from Belfast and adjacent settlements. We do not suppose that the dredging of this part of the river would cost a great deal; but whatever the sum might be, it could be paid in Warrants; and we are confident the Legislature would cheerfully provide for it next Session. An opportunity like the present may never again offer, and it should not be neglected.

His Excellency the Lieut. Governor left Charlottetown on Tuesday morning last, on a visit to New Brunswick, where he was to meet Mrs. Dundas, on her return from Canada. On His Excellency's landing at Summerside, *en route*, he was received by the Volunteers of Prince County with military honors.

IRISH SOCIETY PIC NIC.—The season for Pic Nics has fully set in, and these amusements promise to be as numerous, and quite as entertaining as in any previous year. Several have taken place, and others are advertised. The only one we have yet attended — and that but for a very short time — was the Benevolent Irish Society's Pic Nic, near Apple Tree Wharf on Monday last. The Steamer Experiment carried nearly all the pleasure goers thence and back—the accommodation was good—the party was large—the day and night were remarkably fine—music was excellent and not scarce — dancing was kept up with great spirit in the Steamer and on the ground; and, in short, the party was pronounced to be a very pleasant one by all who participated in it from the beginning to the close.

☞ The attention of pleasure seekers is directed to the advertisement of the Irish Volunteer Pic Nic, which will take place on Thursday, the 17th inst., at Apple-tree Farm. The day's proceedings will terminate with a Ball at the Armory, which, we understand, is being splendidly fitted up for the occasion. The Committee have made every arrangement to prevent any difficulty in landing or re-embarking the party at Apple-tree Wharf.

ST. PETER'S ROAD TEA.—This Tea in aid of the funds of St. Columba's Kirk, which was purposed to be held on Thursday last, owing to the inclemency of the weather, came off yesterday instead. The place chosen was very suitable, being a beautiful shady grove; and all the arrangements reflected much credit on the Committee of management. Some 500 or 600 were in attendance, a large number of whom came from Charlottetown in the steamer "Experiment," which left Reddin's wharf about 2 o'clock. The Volunteer Band was present, and did much to enliven the occasion. The Choir of St. James' Church, Charlottetown, sung several pieces with good effect. Reverends, Honorables, Esquires, and Volunteers in uniform, met the eye of the spectator in almost every part of the grounds. After the tea drinking and the "consumption of strawberries" took place, short and *serio-humorous* speeches were given by "sundry eloquent clergymen and laymen," viz: Revds. D. Fitzgerald, G. M. Grant, T. Duncan; and Hons. G. Coles, J. Longworth, and T. H. Haviland. The amount realized was the handsome sum of £59 —*Protestant, July 5.*

THE ACADIANS.—We learn that the Emperor Napoleon has, at the solicitation of M. Rameau, presented 1,000f. to the Acadians of Rustico, Prince Edward Island, towards supplying books and maps to a Literary Institute lately founded at Rustico.—*St. John Freeman.*

CHARLOTTETOWN DEBATING CLUB.—On Friday evening last a meeting of the Club was held for the purpose of electing a President. Mr. Murphy having declined to confirm the election then made, a meeting will take place to-morrow (Tuesday), when the election of a President will take place.

The subject announced for discussion on Friday last will also be debated at this meeting.

L. H. DAVIES, Sec'y.

Married,

At Rochford's Hotel, St. Eleanor's, on Tuesday, the 24th June, by Augustus E. C. Holland, Esq., J.P., Mr. Donald McArthur, to Miss Dorothy Murray, both of Lot 11.

Died,

June 5th, at Ipswich, Suffolk, England, greatly respected, and followed to his last resting place by rich and poor, James Coates, aged 72 years, the beloved father of Mrs. Harry Compton, of St. Eleanor's.

On Saturday, July 28th, at the Manse, Belfast, Sarah, the beloved wife of the Rev. Alexander Maclean, and youngest daughter of the late William Mattheson, Esq., of West River, Pictou, N. S.

We perceive by Halifax papers that Mr. Hodgson, of P. E. Island, read an essay, (to which had been awarded the Bishop's prize of £5) at the late celebration at King's College, Windsor, N. S.

GOOD TESTIMONY TO CHARACTER.—There are husbands who can do justice to the qualities of their wives under any circumstances. A Belgian journal furnishes an example. A woman was lately accused of poisoning, and was on the point of being condemned, when she entreated that her husband should be called to speak as to her character. The request was granted, and the husband testified, with superb frankness, that the best proof of the innocence of his wife was his still being alive. "I am persuaded," he said, "that if my wife had the slightest inclination for poisoning, she would have begun with me, for she has detested me most cordially for the last ten years." This evidence threw the jury into a roar of laughter, and produced the acquittal of the woman.

LONGEVITY OF ANIMALS.—According to naturalists, the longevity of animals may be classified as follows:—Rabbits, 6 to 7 years; squirrels, 7 to 8; foxes, 14 to 15; cats, 15 to 16; dogs 16 to 18 (that of Argus, the dog of Ulysses, mentioned in Homer, was 20). bears and wolves, 18 to 20; rhinoceroses, 20 to 22; fowls, 25 to 28; porpoises, 28 to 30; rooks and camels, 100; tortoises, 110; eagles 120; swans, 160; elephants, 400; and whales according to Cuvier, 1,000 years.

NEW ADVERTISEMENTS.

AUCTION SALE!

(*Being an entirely New Improvement.*)

Tempered the same as the Knives, and is attached to the Finger by a Patent Process, thus making an entire New Cutting Face.

THE PRESENT MACHINES ARE built with those IMPORTANT IMPROVEMENTS, which make them more valuable to the farmers of P. E. Island than the gold mines of Australia or Nova Scotia. As 1800 of those wonderful

Labour and Money Saving Machines

have been shipped to Europe this Spring, few have been left for the Provinces to meet the GREAT DEMAND that is now made for them, to cut the most extensive crops we have had on this Island for several years, according to the present favourable prospects.

Those Machines are warranted to cut one acre per hour, at one shilling cost, by having a club of five to each Machine. They have been proved to be the best, safest, most durable, and cheapest article of the kind ever offered to the public, as they save time and labour, to the farmer, by which there is a reduction of at least four weeks labour and cost, over the old method of harvesting by scythe and hook, thus effecting a saving sufficient to pay one-half of the cost of a Machine in a single season. They are especially valuable to shipbuilders, sea captains, mechanics, teachers, widows, and all others who cannot spare much time at field labour, as their other occupations may be more profitable and more pressing to them. A trial will be given of them, and warranted fully perfect, or taken back.

A few of those Machines are now ready for delivery at Georgetown, Charlottetown, Summerside and Orwell, where they will remain until about the 10th of July, after which they will be removed to where they are wanted.

CERTIFICATES:

The following persons have purchased the Mowing and Reaping Machine, and readily certify to the very great advantages they have derived from them.

Mr. Wm. Hyde, a farmer of great experience, residing at the West River, and known to be one of the best dairymen in the Island, which he owes to the proper management of his field labour, states that when he procured one of the Machines last year from Mr. W. W. Irving, after cutting his own and his brother's crops with it, he hired it to some of his neighbours at a moderate rate, and thereby cleared one-half the price of the article. He also states that it afforded him great satisfaction from the efficient manner in which it performed its work, besides the comfort and pleasure he enjoyed from the saving of manual labor, so trying to the constitution.

The following gentlemen purchased the Machines from the subscriber at Orwell, and also testify to their great usefulness in every way:—Mr. Daniel Sinnot, Morell; Alexander Robertson, Esqr., Bonshaw; Mr. James McLean, Orwell; Mr. John McInnis, Gallow's Point; Mr. Roderick Campbell, Point Prim.

The following certificates are also added:

We certify that each of us has purchased one of Manny's Patent Two Horse Mowing and Reaping Machines, the operation of which we are highly pleased with, and it has proved much more satisfactory than we expected, having performed all our work much better, and at less cost than hand labor, and having our hay and grain secured nearly four weeks sooner than our neighbours, with the old fashion scythe and hook.

We consider Manny's Machine the most valuable invention ever discovered, or seen on this Island, for the benefit of the farmers, and strongly advise every one requiring such to secure them in time, if they can arrange in any way to have one in each settlement, when the benefit of it will be found to save money and time—so valuable to farm workers.

WILLIAM ACORN, Miller & Farmer, Lot 49.
ROBERT MUTCH, Farmer & Stock Master, Gallow's Point.

We certify that we had one of Manny's Patent Two Horse Mower and Reaping Machines at work on our farms last season, and found it worked admirably well, and far superior to any of the kind we ever saw in England or this Island; and had we not succeeded in getting the use of it, we should have lost a great quantity of our grain, it having become over ripe, and we could not get men to hire at any wages at the time. We found it to cause much less expense, and the work was better done than by hands. Our opinion is that when these Machines are a little better known, no farmer that wants to save money or time will be without one.

JOHN DOUSE, Port Selkirk,
RICHARD GILL, Newtown.

W. W. Irving, Esq.;

SIR,—Having purchased one of MANNY'S PATENT MOWER AND REAPER from you, we beg to state that we are perfectly satisfied with them in every respect, and believe them to be the best Machine yet introduced for doing the rough and smooth work in a new country. They are simple in construction, strong and not apt to get out of order; and of light draught, and do their work in a first rate style, and we would strongly recommend them to our brother farmers.

The Greatest of all Wonders
FOR 1862.
LYON'S PATENT
STONE AND STUMP
EXTRACTOR.

I have the above Machine, which now ranks among the greatest labor-saving improvements of the age, and meets with the unqualified approbation of all who have seen it in operation. It will take rocks out of the ground, weighing from One Hundred Pounds to Six Tons, without digging; it will work on hill-sides or wet ground, level meadows, or any place where rocks and stumps are required to be pulled. Two men can work it with ease; and any farmer having rocky land can well afford to clear it with this Machine, as it can be done at one quarter the cost of the ordinary way.

The machines are built of good stock, and well constructed, and with proper care are not liable to breakage or injury.

I give below a few of the many certificates which have been freely offered by those who have used them:

For the past few months I have had one of Lyon's Stone and Stump Machines in operation on my farm. I can safely say it has exceeded my most sanguine expectations, never having failed in a single instance of giving entire satisfaction. I have found it as useful in pulling stumps as rocks, and consider it one of the greatest labor-saving machines that a farmer can possess.

HARVEY STONE, New Milford, Ct.
August 27th, 1860.

I have been using one of Lyon's Stone and Stump Extractors, and believe it to be more practicable and useful for the purpose it was designed for, than any other invention of the kind now in use. Myself and a boy ten years old have raised rocks from five to six tons, and that without digging.

TRUMAN GUILD.
Warren, Aug. 20, 1860.

Winsted, Oct. 22, 1860.

Mr. A. G. Beach: Of the Rock Machine we wish to express our entire confidence in its utility and worth, and we unqualifiedly endorse the circular issued by its proprietor, to wit: "this Machine is one of the greatest labor-saving improvements of the age," &c.

H. PERKINS.
Secretary Greenwoods Ag'l Society.

We have used one of Lyon's Stone and Stump Machines this summer, and find it to be all it was recommended. We have lifted a number of rocks with it that are estimated to weigh over ten tons, and any quantity of smaller ones. It is a great saving of labor to lift rock out of the ground that require blasting, as it takes only half the drilling and half the quantity of powder to blast one after it is laid upon the surface of the ground.

We advise every man who owns a rock farm to buy one of Lyon's Rock Lifters, as we can assure them it will prove to be a good investment of capital.
