THE COMBINATION INK has been awarded the HIGHEST PREMIUMS overall others in the United States, and pronounced by the most celebrated Chemists the best Ink ever offered to the public. It is used by many of the largest Commercial Houses, Banks, Railroads and other Corporations and gives perfect satisfaction. The Advantages of this over other Inks are:— First—It flows freely from the pen, and does not dry on the nib. Second—It will give a perfect and instantaneous copy. Third—It will not mould. Fourth—Being equally as good for Copying as for Bookkeeping, it entirely does away with the use of two kinds of Ink. Fifth—It is more permanent than common Inks. Sixth—The color, when first written, is a brownish black, but it soon dries to a perfectly black ink, and changes to a brilliant jet black—not a brownish black. Seventh—It is admirably adapted to the most delicate writing, and does not "smear" its mark. The Ink is warranted to flow as freely as any other Writing Ink, and will give a perfect copy on any Copying Ink, and not to mould. Tapink is for Sale at HARVEY'S BOOKSTORE, Oct. 26, 1868.
