

New Security Radio Tower

The new security radio tower was put in place today at the Utility building. With this new tower, Security personnel will be in a much better position to battle the endless crime that abounds on our UPEI campus. "We will be able to battle crime on a much higher scale" said Officer Bob in an interview earlier today.

Student Swallowed By Massive Mud Puddle

UPEI student Mac Starzan was suffocated by a massive pond which head of maintenance described as "coming out of nowhere".

This strange phenomenon has now occurred for the third time in two weeks. President Eliot stated that an immediate investigation will be forthcoming. Maintenance believes that there is the possibility of foul play.

The other students who were swallowed were identified as Clio, and Byron Kiddlemeir, aged 27 and 22, respectively.

Dean Macmillan was desperately trying to avoid any comment, when he and another student were walking near the sight.

Maintenance says
"It Came from Nowhere!"

UPEI Accepts "Mature" Students

Details on Page 101

A major development at UPEI occurred when the new C-5 grenade launcher arrived. President Eliot announced that this will be used to ensure that the Holland College debating team will never defeat us again in a debate.

SU President, Dean MacMillan, exclaimed that there was one large reason for having the grenade launcher on campus. "to combat the growing threat of the campus becoming contaminated with PCBs. When asked what the hell PCBs had to do with it, MacMillan replied that the government will listen to us if we had a grenade launcher.
