NO LONGER A GAME OF CHANCE

The fishing industry of the present day is a highly scientific business as can be seen by the attractive and informative window display at Eaton's this week. In "the river" at the right of the window are seen the various kinds of fish that are caught

in Island coastal waters and a net across the river indicates how the fish are caught. In the centre foreground is a fathometer which registers the depth of water under the ship at all times. A moving graph registers the depth which may be kept as a record thus enabling the fisherman to return to a productive area with a reasonable degree of certainty. The long rod to the right of the fathometer is a deep sea thermometer. This instrument is very valuable to fishermen who know that cer-

tain water temperatures are more conducive to fish concentration than others. Other interesting material in the window display sponsored by the Prince Edward Island Department of Fisheries are a ship-to-shore telephone, boat blueprints, fishery charts, boat accessories and numerous other aids to fishing. Citizens would find it well worth their while to inspect this display and acquaint themselves better with the Islands second most important industry. (Photo By Meyer's Studio)

Preliminary Hearing In Riverside Hospital Case

Two witnesses for the Crown appeared at County Court yesterday in a preliminary hearing against Frank Louis O'Brien, charged with the theft of three 50 lbs. cases of butter from Riverside Hospital.

Appearing were Mrs. Edna MacLean, second cook in the Infirmary, and Mrs. Lavinia Green, matron of the Infirmary. Mrs. MacLean told the court that all the ordering of merchandise for the Infirmary kitchen

was done by O'Brien, who was the chief cook. It was her duty to mark down just the articles that were delivered. However, she at no time checked the deliveries with the accompanying invoice that was issued from the storehouse at the hospital.

There was a standing order for two 50-lb. cases of butter per week. Mrs. MacLean said that she noted on several occasions, the order did not come through.

It was one of these times that O'Brien, who was going away for the week, had asked her to be on the lookout for a case of butter due in the following Tuesday in the delivery.

However, the butter was not delivered at the time and the driver of the truck, Vincent Victor Peters, who has since been convicted and charged of a similar offence, had gone to the freezer and on checking the butter told her that there was enough butter on supply.

Mrs. MacLean said that on one occasion when the case did not arrive, O'Brien had said "That's three cases they owe us."

She also noted that the infirmary was never short of butter. Mrs. MacLean aided investigating R. C. M. P. officers when the investigations began.

The evidence for the Crown is based on 15 separate infirmary slips checked out, the incoming goods checked out. Although they are standing dates on which butter should be received there is no mention of butter arriving at the Infirmary.

CROSS-EXAMINED

Cross-examined by defence counsel R. R. Bell, Q. C., showed that the incoming goods were not checked off with the invoice issued along with the goods at the hospital storehouse. It was also noted that the key to the butter stores was left on a nail in an adjoining room with a pan hanging over it, making the stores accessible to any of the kitchen help.

On taking the stand, Mrs. Green

was done by O'Brien, who was the chief cook. It was her duty to mark down just the articles that were delivered. However, she at no time checked the deliveries with the accompanying invoice that was issued from the storehouse at the hospital.

Funeral Held Of James Atkins

The funeral of James P. Atkins was held yesterday morning from his late residence, 229 King St., to St. Dunstan's Basilica where Requiem High Mass was celebrated by Rev. Preston Hamill, who also conducted the service at the grave.

The management and staff of the Guardian-Patriot attended in a body.

The pall bearers were: Malcolm Nicholson, Harry Morgan, John Dillon, Gavin Duffy, Joseph Egan, and Louis McCoubrey.

Interment was in the Catholic Cemetery and the funeral was very largely attended.

Theft, Mischief Cases Heard

Two men were remanded for preliminary hearings when they appeared before Magistrate Gilbert E. Gaudet in County Court on Friday.

An Alberton man has been told Crown Prosecutor J. P. Nicholson that although she was matron of the infirmary, all the kitchen needs such as perishable goods were ordered by O'Brien.

It was also noted that the accused had at no time mentioned any missing cases of butter and (Continued on page 5)

Steal Truck To Transport Stolen Goods

Raiders broke into Keith MacKinnon's Longworth Avenue warehouse Wednesday night and removed a quantity of merchandise awaiting trans-shipment. To add insult to injury they made their escape in one of the transfer company's vehicles, a three and one-half ton Fargo. Entrance was effected by breaking an 8x10 window in a door located on the east side of the building, and the thieves apparently were undisturbed as they loaded the Fargo with a miscellaneous cargo, mostly groceries.

The RCMP discovered the abandoned vehicle next day in the Albany district.

City Police said yesterday that warrants had been issued for the arrest of two residents of the Charlottetown district in connection with this break. However, police believe that the suspects had escaped to the mainland.

THOUGHTS FOR OUR TIME

BY HIS EMINENCE CARDINAL McGUIGAN

SO GREAT A MARK OF LOVE While the stores are giving us many reminders of the approach of Easter, it might be well for us to remember that before Our Saviour rose, He died and was buried; and to reflect a little on the meaning of the Passion for ourselves.

One thing we ought to settle is the answer to the question: "Who was responsible for the Passion?" There have been men in the past, and there may be some now, who have used even the Passion itself as an instrument of hatred by saying that the Jews crucified Our Lord, as if that honorable race should be marked forever by the part they played on that occasion.

We ought to remember that the Jews were present at the Passion not only among the judges but also in the accused. The guilt of individuals is not for us to decide; and if we want to evaluate the race as a whole, we ought to start with the fact that when God became man by assuming a human nature, He chose to be a Jew.

Even the matter of guilt ought to have been settled once and for all by the Victim Himself when He said on the cross: "Father, forgive them, for they know not what they do."

DIED FOR US

The fact is that all the sufferings of Our Lord were endured because of His Love for us and a measure of the offense on our part for which He, the innocent one, was making atonement. For

now that he's farming the CAT* Tool Bar Way!

CLEAR LAND... You'll be amazed at how a Cat D2 Tractor with Cat Tool Bar Dozer can clear 2' to 4' young growth... or dig up and push the big ones. Fill in gullies, dig stock ponds. Have better pasture... bigger profits!

RENOVATE PASTURES... Here's one cultivator that takes the slant-bang of working in rock, roots, sod. Just what you need for pasture improvement! Yours at a substantial savings; we save you the cost of duplicating frames, controls, wheels.

INCREASE MOISTURE PENETRATION... Trap rainwater in your sidehills... subsiding with the Cat Tool Bar can actually double the amount of water that soaks into your side hills. This means big yields to you!

Bossy's right. Cat Tool Bar Farming gives you all the equipment you need for pasture improvement... at a fraction of the usual cost.

We have the NEW

New Idea Spreader

Biggest ground-driven spreader anywhere

Many new features give this spreader the ruggedness to stand up under today's rough-tough, slam-bang mechanical loading.

- LOOK AT THESE BIG NEW BLUE RIBBON FEATURES:
- Slanted arch—out of way loader bucket or barn cleaner.
 - Steel flares run full length of bed. Steel front endgate.
 - Bigger upper cylinder further increases shredding efficiency.
 - Penta-treated, water-repellent wood sides and bottom insure even longer rot-free life.
 - Higher heavier shielding cuts down spillage, protects working parts.
 - Stronger distributor shaft. Any paddle can be removed separately.
