

THE DAILY EXAMINER.

APRIL 18, 1892.

Honorable Alexander Mackenzie.

PHYSICALLY the Honorable Mr. Mackenzie has been a wreck ever since he was deprived of the leadership of his party.

The honorable gentleman was born in the parish of Logierait, Perthshire, Scotland, on the 28th of January, 1822, so that he had not much more than completed the allotted span of three score years and ten.

His schooldays were comprised in about five years. But he was ever a learner. He learned the trade of a stone mason, and by the continued use of good books laid the solid foundation upon which he was enabled, in the course of years, to rise to the high position of Premier of Canada.

His memory was extraordinary and his wit dry and sharp. He was very effective in debate. No one ever questioned his personal integrity. But he was not able to control the more unscrupulous spirits of his party.

The Medical Bill.

As engrossed and made ready to be submitted to the Legislative Council, this bill provides a medical society, with a medical council and registrar; it prohibits anyone from practicing medicine and surgery whose name is not on the register, though anyone can give medical aid in urgent cases, but not for payment, and women may practice midwifery; it enacts that persons entitled to registration, on payment of the fee, must hold diplomas from the medical universities and colleges of Great Britain and Ireland or from the principal medical colleges in the United States and Canada.

The Stock Farm.

We understand that the Stock Farm Commissioners have sent an agent to attend the sale of highly-bred Ayrshire cattle on the farm belonging to the estate of the late Thomas Brown, at Petite Côte, near Montreal, with a view to making some purchases for the farm.

The Boston Steamers.

A company has been formed in Boston under the name of the "North Atlantic Steamship Co." to run steamers between Boston and Charlottetown, taking the good will of the Carroll and State of Indians. The company will begin business as soon as arrangements for carrying on work have been completed.

Canadian Agriculture.

The report of the Minister of Agriculture for 1891 shows that there were 3,597 horses brought into the Dominion, 3,473 cattle, 44,067 sheep, of which 33,197 came in at Victoria, B. C., 331 swine, and 76 mules. There were exported 11,808 horses, worth \$1,572,564; 117,765 cattle, worth \$8,774,769; and 299,587 sheep, worth \$1,150,865.

Notes and Comments.

The gerrymander of King's County is the sensation of the day. Refer to a map and note the crooked, disjointed line of the proposed gerrymander.

Personal.

The University of Edinburgh has conferred the degree of LL. D. on Sir Charles Tupper, High Commissioner for Canada in London.

Buy children's clothing at Prowse Bros. They keep the best assortment and sell the cheapest.

Provincial Legislature.

House of Assembly.

APRIL 16.

A bill to allow Louisa Hokirk and others to transfer lands in Prince County, and a bill to incorporate the Malpeque Public Hall Company, were read a third time and passed.

The bill to enable the Government to purchase certain lands in Prince County was read a second time, committed, and reported agreed to without amendment.

Hon. Mr. Peters submitted a bill to provide for the study, in the public schools, of the effects of alcoholic drinks and narcotics upon the human system. The bill was read a first time.

Easter Services.

The services at St. Peter's Church yesterday were particularly bright. A large congregation was present at the choral celebration of the Holy Communion at 11 o'clock. The singing was very good and the service most impressive.

Communication With the Mainland.

SIR.—As a traveller that has to go to Prince Edward Island very often, I would like to ask the Steam, Navigation Co., through your valuable paper, if there could not be some change in the present arrangement of running their steamers this coming summer between Summerside and Pt. DuChene.

The Medical Act.

SIR.—Dr. Jenkins' letter supports my argument fully. In the first case cited—common law would have reached the case better, and would have been public, whereas by the "Star Chamber" judgment, nothing more was done.

Dismissal of I. C. R. Men.

Already about 180 notices to Inter-colonial Railway employees of termination of services have been issued, and the remaining number of about 260 will follow in due course.

Shaming Insanity.

The Medical Board appointed by the Government say that Deeming is shaming insanity.

Weather Bulletin.

Toronto, April 18.—10 a. m. Moderate winds, fair, not much change in temperature.

Echoes from the West.

SIR.—The grand musicals held last week in the commodious house of one of our prominent leaders of society in Lot 11, was in every way a grand success.

Personal.

Professor Saunders said, a few days ago, that four hundred bushels of two-rowed barley sent over from Canada to England to be tested as to its fitness for brewing purposes was highly approved on its own merits.

Notes and Comments.

The statistics of the export of butter and cheese show a total of 3,768,101 pounds of butter and 106,202,140 pounds of cheese, worth \$602,175 and \$9,508,800 respectively.

Notes and Comments.

The University of Edinburgh has conferred the degree of LL. D. on Sir Charles Tupper, High Commissioner for Canada in London.

Notes and Comments.

TELEGRAPHIC NEWS.

SPECIAL DESPATCHES TO THE EXAMINER.

NEWFOUNDLAND.

Revival of the Modus Vivendi

The Government have not yet lost all hope of reaching an amicable settlement with Newfoundland. The offer of modus vivendi made through Lord Knutsford having been pigeon-holed by the officials of the Colonial Office, the Dominion Government made a direct offer by cable to Newfoundland for an amicable arrangement on the lines of that suggested to Lord Knutsford, both countries to revert to statu quo of 1869 pending a conference between representatives of the two Governments.

Dismissal of I. C. R. Men.

Already about 180 notices to Inter-colonial Railway employees of termination of services have been issued, and the remaining number of about 260 will follow in due course.
