Lower Montague Notes.

This section of the country, as you know, is a very good agricultural district, where all, or nearly all, the inhabitants are comfortably well-to-do, as can be seen from the well cultivated fields and the number of new buildings erected of late. The farmers of this section have good facilities for shipping produce, having two wharves where large vessels can load.

The school at this place is in a flourishing condition. There are two departments in the building, which is large and well-arranged for school purposes. The building is in a desirable location, being in the centre of the district, with ample playgrounds. Mr. Henry Campbell is principal, with Miss Peters as assistant.

Messrs. W. A. Poole & Co. have a good general store, do a good business and ship largely. Mr. Benjamin Aitken has also a good store and does a fair business. There are two post offices in this settlement, kept by Mrs. S. Johnston and B. Aitken, Esq. Mr. Richard Thornton carries a tri-weekly mail from here to and from Georgetown.

The oat crop in this section was very good considering the poor crops in several other parts of the Island last season. When asked as to what they attributed a good crop in any one locality, some maintained that as far as they could ascertain they thought that, as the grain was sown early, it was beyond the power of the blight.

Hon. James Clow and Leslie Poole, Esq., have returned from Ontario, where they have bought a valuable importation for King's County, which consists of the bay Clydesdale stallion General Burnette, and the English Hackney stallion Gem, a dark bay. These are two beautiful animals, possessing all the good points that any horse can possess, which should commend them to breeders. They also brought cattle, sheep and poultry, and they certainly do credit to the judgment of their purchasers.

The Keefer Lodge, No. 46, of I. O. G. T., has started its meetings in the school-house and is fairly well attended, having a membership of 34. The following are the officers:—

C. T.—John Buchanan.
V. T.—Miss Carrie MacLure.
S. J. T.—Mrs. Henry Campbell.
Secy.—R. H. Campbell.
Fin. Secy.—Montague Annear.
Treas.—Miss Winnie Poole.
Chaplain—Benjamin Aitken.
Marshal—James Stewart.
Guard—Miss Jennina Peters.
Sentinel—A. R. Danzey.
Asst. Secy.—W. E. MacNeil.
Deputy Marshal—J. A. Annear.

The political situation is unchanged here since the last election. What the people want is an honest and economical government, and that they have certainly had for the last eleven years, so much so that it is unparalleled in the history of our Island Government.

Crisp Condensations.

There are supposed to be something like a thousand murderers at large in Great Britain.

A new agricultural machine distributes manure and insecticides and sows grain by means of an air blast.

Charles Vail, an undertaker of Madison, Ind., is proud of the fact that he has buried more than 20,000 people.

The deepest artesian well in Russia opens with a depth of 2,090 feet. The sinking operations took two years.

In Roosfoen, Holland, there is a g'ant rose tree belonging to Mme. Regen, which a few years ago held 6,000 roses at the same time.

The Electrical World states that during the recent crusades in New York city 338 poles and 472,692 feet of wire were removed from the streets.

In New York city, according to a prominent merchant of that place, 7,000 book-keepers are looking for work, which they would gladly do for \$10 a week.

An empty freight car, which was carried off in the Mississippi cyclone of three years ago, has just been found in a swamp ten miles from the spot where it was picked up.

Up to 1884 the English post office has issued 31,302,000,000 postage stamps. That would cover 3,762 square miles, and would reach to the moon and back if placed end to end.

Dr. Pinel, of Paris, has succeeded in hypnotizing several subjects by means of the phonograph. All the commands given through this channel were as readily obeyed as those uttered directly.

The Persian minister at Washington is reported to have said that much as the Shah desires to visit the United States, he cannot do so, as there is nobody in that country "with rank enough to receive his majesty."

Among the curiosities of advertising, is an item going the rounds to the effect that to a recent advertisement, inserted once in an American paper, 15,000 replies were received, and each reply contained two 6-cent stamps.

A great flume has been completed at San Diego, Cal. It extends fifty miles from the western slope of Cuyamaca mountain, where there is a reservoir containing a four years' supply of water at an elevation of 4,500 feet. The cost was \$900,000.

Peter Laing, who is 104 years of age, has just been admitted to church membership in Elgin, Scotland. He admits that he has been a little tardy in joining the church, but now that he has joined he intends to go right in with the other young folks and do his share of active work.

J. T. Fletcher, of Jenkins Bridge, Va., was in his grave, and men were bricking it up, when they heard a groan. They opened the coffin and found Fletcher's heart beating. He was taken home, but died two days afterwards without regaining consciousness.

A countryman went to a store in Morgantown, W. Va., the other day, and purchased a kerosene lamp. "That's the first one of their notions that ever came to my house," he remarked. "Candles was allus good enough for marm and me, but darter's got a bean and thinks we ort to put on a lectle syle."

John Dennett, of Santa Cruz, Cal., recently found a two-headed snake about a foot long. The heads were distinctly separate and both were perfect. The heads were a little over an inch in length. When aroused the snake would throw a forked tongue out of each head simultaneously, as if they were one.

In Philadelphia the average number of persons living on an acre of ground is only 13; the number of dwellings per acre is 2½; and the number of persons per dwelling 6. In New York the number of persons on each acre of space is 52; the number of dwellings per acre 4, and the number of persons per dwelling 18.

A New York society lady is said to have attended a dance there on Tuesday evening, left the next morning to attend two balls on the successive evenings in Boston, and would leave immediately to attend a ball in Philadelphia the next night. Four balls in three cities in the space of four days would seem to be the height of fashionable folly.

A New Jersey bird dog went into a room where a parrot was at liberty, when he stopped and pointed. The bird approached, looked the dog square in the face, and said, "You're a rascal!" The dog was so surprised at hearing a bird speak that he dropped his tail, wheeled, and ran away, and from that day to this he has never been known to point a bird.

A number of business men of Indianapolis, Ind., have organized a company under the title of the National Building Loan and Insurance Co., with a novel scheme of operation. It is proposed to issue policies on the lives of persons who own property upon which there are mortgages, the company contracting to liquidate such debts on the death of the policy-holder.

In a recent case before Magistrate Barry at Montreal, he condemned a man to pay one dollar damages for having called upon a person in a factory for the collection of a debt. The court held that the domicile of the debtor was the proper place to call for the collection of debts, and said it had been held over and over again that asking for money due on the street constituted a constructive assault.

The great Eiffel tower in Paris will be finished by April 1. The tower stands at present 825 feet high and weighs 7,800 tons. Only 800 tons remain to be added.

To approach the summit of the tower there will be three distinct kinds of elevators. Two will go to the first platform, two others to the second and the third platform in a vertical line. The whole trip will take five minutes, and the elevators will be capable of taking up 750 persons an hour.

Mothers who have delicate children can see them daily improve and gain in flesh and strength by giving them that perfect food and medicine, Scott's Emulsion of Cod Liver Oil, with Hypophosphites. Dr. W. A. Hallbert, of Salisbury, Ill., says: "I have used Scott's Emulsion in cases of Scrofula and Debility. Results most gratifying. My little patients take it with pleasure." Sold by all druggists, 50c. and \$1.00.

Lawrence Pump Company's CELEBRATED RUBBER BUCKET CHAIN PUMP.

M. R. ANGUS A. CAMPBELL, General Agent for Prince Edward Island, is now taking orders for said Pumps.
N. H. PHINNEY, Manager for said Company, expects to visit the Island about the 23rd of May with a lot of sample Pumps. Parties wanting first-class Pumps would do well to give them a trial, as they cannot fail to give satisfaction.

TESTIMONIAL.
LAWRENCEVILLE, May 11, 1889.
This is to certify that we have bought ten Rubber Bucket Chain Pumps from the Lawrenceville Pump Company, some of which have been used for about ten years, and are still doing good work. We take great pleasure in recommending them to the public.

THE UNIVERSITY OF MOUNT ALLISON COLLEGE, SACKVILLE, N. B.

James R. Inch, LL.D., President.

THE University of Mount Allison College, with its associate Institutions, the Ladies' College and the Mount Allison Academy, constitutes one of the most extensive, complete and thorough educational establishments in the Dominion of Canada. Students may enter either as regular Matriculants or as Specia who wish to follow chosen lines of study. Women are admitted to College Courses and Degrees on the same conditions as students of the other sex. The domestic and social arrangements are pleasant, and the expenses moderate.

The first term of the Collegiate Year, 1889-90, begins on the 29th of August next, and the 2nd term on the 2nd of January, 1890.

For further particulars address the President for a Calendar.

A RARE CHANCE

TO PROCURE A VERY VALUABLE FARM at North River, Franklin Point, directly opposite, and only a mile and a-half from Charlottetown.

I have decided to sell my Farm of one hundred acres—eighty acres clear and in a very high state of cultivation, balance covered with hard and soft wood. Grand situation for general farming and stock-raising, and commanding a beautiful view of the North River, Harbor's Mouth and the City.

There is a good, comfortable Dwelling House, 36'x8, and Kitchen, 16x20.

Also—Large, convenient and well-built Barn, Granary and other outbuildings, and a never-failing Well of Water.

The House and Barnyard are nicely sheltered. Being near the city, so convenient to shipping and the best of market-mud, it has advantages very seldom attainable.

Apply on the premises to
