## POOR IMMIGRANT'S SON CLEANS UP IN BCOM

TIMMINS, Ont. (CP)—Ned Braganzolo is a big man in Timmins these days.

With the major copper-silver discovery here he has parlayed \$7,000 into something approaching \$2,000,000.

And that is not bad for the son of a poor Italian immigrant family.

Ned's father died of silicosis and left the family with a tough row to hoe.

"I came from a poor family," Ned says. "We never starved or anything, but after my dad died we always had to hustle to make ends meet."

Braganzolo, who owns a real estate firm here, started last November to stake 230 claims around the property where Texas Gulf Sulphur Company has hit one of the biggest bonanzas ever.

Asked how much he has made on his ventures, he just smiles and says he is not sure.

The 33-year-old millionaire, a father of three children,

started staking his claims after "seeing a Texas Gulf helicopter zoned by my brass all the time."

His dealing, have netted him not only cash but blocks of stock in mining companies.

He has sold claims to PCE Explorations, Bunker Hill Mining Company, Glenn Uranium, Bruce Prestis Mines and Con-West Exploration.

But the best is yet to come. Mr. Braganzolo said: "I expect to close my biggest deal Monday."

**Worry of FALSE TEETH Slipping or Irritating?**

Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just wear the new, improved, false teeth. This pleasant powder gives a trustworthy sense of added comfort and security by holding plates more firmly in place. No glue, pastes or cement. It's alkaline (non-acid), and safe for any dry count.

The Westerner Motel Curling rink was presented to a rink skipped by Ron Pettit during a closing program held recently at the Alberton Curling rink. From left to right are: Frank Bryan, who made the presentation, Ron Pettit, Ed Turner, Upton Seaman and Ed McCue.

## Mental Health Head Rotary Guest Speaker

"The rehabilitation of crippled children" was the subject of an address by Dr. Malcolm Beck, Director of mental health clinic and head of the Sherwood Hospital for retarded children, at the weekly luncheon meeting of Rotary held at the Charlottetown Hotel yesterday.

"Clinically, the one difference between us and retarded children is that they are not as bright as we are. This is reflected in the way they spend their lives—they walk later, talk later and take ten years to do five years work in school. Some never walk, never talk and are bedridden," the speaker stated, and went on to explain that their realm of ideas was greatly handicapped and life situation was complicated.

The problem facing us in this province when you realize that there are 2000 retarded individuals on the Island of whom 1150 are children under 16 years. Each year 1500 are born here with cable children total 875 and 230 are trainable while 55 are non-trainable," Dr. Beck said.

As far back as 1914 the "School Improvement League" was organized in Charlottetown by an interested group, continued over the years to explore new avenues open to improve the lot of retarded children.

**LEGION INTEREST**  
Inquest was added to the movement devoted to such work in 1956 when the Canadian Legion in Charlottetown adopted as a feature of their community service work a special interest in the children.

The acceptance of request for responsibility increased with public education and the training of local workers on the instruction of six thriving centres of activity. In the work for retarded children at O'Leary, Alberton, Tinian, and Monseville while at Sherwood a Day Training School and day care is featured with success.

The "Flowers of Hope" campaign shortly to be inaugurated by the CSRC experts to deal with so much to do and so much need, the festastically large problem "to be done" the speaker said.

Introduced by chairman Frank MacDonald, the speaker was thanked by co-chairman Dr. E. S. Giddings.

# WELCOME TO CHARLOTTETOWN

Prince Edward Island was discovered in 1536 by the French explorer, Jacques Cartier, who described it as "The fairest land 'tis possible to see".

It's earliest inhabitants, the Mimac Indians, called the island "Abegweit" which meant in their language "the home cradled on the wave". Because of its unexcelled pastoral beauty it has earned the picturesque name, "The Garden of the Gulf"; and due to the richness of its soil, quite often it is called "The Million Acre Farm".

One hundred years of history is being celebrated in Prince Edward Island this year with the Centennial of the first Conference of the Fathers of Confederation.

Although the celebration will be Provincial in scope it will have very definite national overtones. Negotiations which led to the birth of the Canadian nation, uniting all British North American colonies into one vast, Federal entity, were set in motion at the Charlottetown meeting.

We are very proud indeed to welcome you to this Birthplace of Confederation.
