

BACK IN ARENA AFTER CLAWING

KANSAS CITY.—Pat Anthony, who has his animals, including the lioness that clawed him in an earlier performance, through their act in the Kansas City power circus. Anthony was clawed and bitten Friday. Monday he returned to the arena with his left arm bandaged. The second animal from right is the lioness which attacked him. (AP Wirephoto)

Montague 1957 Surplus \$742, Council Is Told

In the financial report made to the Montague Town Council at the regular meeting on Monday night, it was reported that the town finances were in good condition, showing a surplus of \$742.50 on current account for 1957. Mayor Bruce H. Yeo, presiding over the meeting at which Councilors Vanderstine, Hughson, Fraser, Clements and Yeo were present. The question of town policing was left over for further study by the committee. In the correspondence, a letter was read from the Unemployment Insurance Commission which was in a reply to a request by the Council for the establishment of an office in this area. The letter informed the claimants in the area does not warrant a full time office but that arrangements have been made to have an officer from the Charlottetown office visit Montague in the spring and fall and will remain the necessary length of time to insure operation of the Unemployment Insurance Act. Sketches are presently being prepared for a proposed road direction sign at Cherry Valley and an amount of \$300.00 was voted for this purpose should the tourist and industrial promotion commission see fit to proceed with this project. Following is the financial statement presented by the committee chairman Gilbert A. Clements:

Tax Revenue	\$ 8,550.00
Licences	\$ 2,075.00
Others, including grants	\$ 5,222.50
Total	\$15,847.50
Expenditures for general Government	\$ 1,874.57
Streets and sidewalks	\$11,251.96
Dump and sanitation	\$ 244.00
Fire Department	\$ 1,126.52
Police	\$ 607.90
Total	\$15,104.95
Surplus	\$ 742.55
BUILDING ACCOUNT	
Building rental revenue	\$1,440.00
Building Expenses	\$1,605.48
Deficit	\$ 165.48

Stresses Value To Schools Of Athletic Program

A large audience listened with interest as Brig. William Reid, D. S. O., Deputy Minister of Welfare and Labour, spoke on Monday night at the regular meeting of the Montague Home and School Association. Following a brisk business meeting conducted by the president, Mr. Archie Hildey, Brig. Reid was called on to introduce the guest speaker. Brigadier Reid who was accompanied by Mrs. Reid, spoke of how a program of athletics and recreation can help overcome the problem of juvenile delinquency. He also mentioned the value of service clubs and encouraged adults to give of their time and talent to group activities which would make a happier, more progressive type of children for the future. Mr. Edwin MacDonald, Brig. Reid thanked Mr. Reid for his instructive talk. Lunch was served by the committee in charge and a social hour was enjoyed.

Throne Speech

(Continued from page 3) great historical significance. Every effort should be made to preserve this edifice in which the Fathers of Confederation met in 1864 to lay the foundation of our great country. The Government intends to continue this program of adding protection to important public buildings. During the past year my Government authorized two increases in pensions payable to disabled persons and those entitled under the regulations to the Age Assistance. Legislation will be enacted to authorize the increase which should be made retroactive to November 1, 1957.

DRILLING OPERATIONS

In the year just closed much progress has been made in the geological survey of the Province. Imperial Oil Limited conducted a seismicograph survey from May, 1957 to the end of January, 1958. The results of this and former survey work have encouraged this Company

A MEETING of Progressive Conservative Polls for Dundas, will be held at Bridgetown Hall at 8:15 Thursday evening. John A. MacDonald, candidate, will be present.

A MEETING of Georgetown East and West Polls will be held at the Council Chambers Wednesday evening at 8:15. John A. MacDonald, Progressive Conservative candidate, will be present.

Half Ont. Power May Be From Fission In 20 Years

By FORBES RUHE Canadian Press Business Editor TORONTO (CP)—In 20 years as much power will be developed from nuclear fission in Ontario as is produced today by hydro and coal-fired stations, Dr. David A. Keys said Tuesday in an address to the Prospectors and Developers Association. Dr. Keys, scientific adviser to the president, Atomic Energy of Canada Ltd., based his prediction on the fact that demand for electric power is doubling every 10 years and that Ontario will have harnessed its available hydro power by 1962.

"Our demand for uranium at that time—20 years from now—and that of other countries, will probably use all the uranium we can mine," Dr. Keys said. Dr. Keys spoke to a combined audience of the prospectors, the Geological Association of Canada and the Mineralogical Association of Canada, all of whom are meeting simultaneously. Looking ahead to new uses, he said: "The possibility of using central heating plants for supplying large sections of cities, which would eliminate boilers in separate buildings—a system which now is used in some cities—is an application which so far has received little earnest attention. "The use of reactors as a source of process steam in industries, however, is being considered in Finland. "Apart from the design and

construction of nuclear power plants to supply electricity for industrial purposes, their application to the propulsion of ships, trains, and even airplanes, is being investigated. The atomic submarine is already a success. "The Russians have launched their ice-breaker Lenin. British and Americans are designing commercial submarine tankers, cruisers, plane carriers, passenger ships and freighters, and some of these are already under construction. In fact, every maritime country is interested in such nuclear ships.

NUCLEAR TRAINS "Nuclear-powered locomotives have been planned at the University of Utah and by the Russians. The latter country has announced that its atomic locomotive will pull a train from Moscow to Vladivostok on slightly more than one pound of nuclear fuel, compared with the 600 tons of coal. Referring to British and American progress towards the production of power through fusion of hydrogen—through a process involving use of heavy water—Dr. Keys commented: "The final accomplishment of release of energy by some such fusion process will doubtfully be achieved but it will be many years before power is produced in this way. "When it is, however, our energy requirements of the future will be solved, since all water contains a fraction of heavy water.

GEORGETOWN

Mr. Angus MacLean returned home last week after spending the past few months in Toronto, as the guest of his daughter. He also visited his sister in Detroit, Michigan.

Mayor Raymond Solomon and Town Councillors, Nelson W. Hansen and Preston MacDonald were in Charlottetown on Friday where they represented Georgetown as members of a delegation from Charlottetown and seven incorporated towns, who submitted a brief to the Provincial Government, seeking a share of monies recently announced as allocated to the Province following the Federal-Provincial Conference.

Mr. Francis Gardner of Cardigan was a business visitor to Georgetown on Saturday, March 8th.

Mr. Elmer Jeffery was a business visitor to Charlottetown last week.

Mr. and Mrs. Howard Walker and son Andy motored to Georgetown on Sunday, where they were guests of Mr. and Mrs. Chester Walker.

Mr. F.J. DeLory, Miss Sheila DeLory and Mrs. J.W. Lavers, motored to the city on Sunday, where they visited Mrs. F.J. DeLory, who is a patient in the Charlottetown Hospital.

Mr. and Mrs. Harold MacLean of Charlottetown, motored to Georgetown, where they were

venues and expenditures for the current fiscal year as presently estimated will be furnished to the public. Estimates for the fiscal year to commence April 1, 1959, will be presented for your consideration. "To these and all other matters which may come before you I ask your most careful attention, praying that Divine Providence may guide you in all your deliberations and decisions.

Legislation will be introduced to amend the County Court Act, the Division Fence Act, the Jury Act, the Highway Traffic Act, the Interpretation Act, the Mechanics' Lien Act, the Contributory Negligence Act, the Domestic Animals Act, the Judicature Act and the Workmen's Compensation Act. A new Act dealing with game laws will be introduced for your consideration. The Public Accounts for the fiscal year ended March 31, 1957 will be placed before you. An interim statement showing re-

weekend guests of Mr. and Mrs. John P. MacDonald.

Mrs. William Jay and family of Summerside, were recent guests of Mrs. Jay's parents, Mr. and Mrs. Earl Walsh.

Mr. and Mrs. Arnold Cheverie of Charlottetown, motored to Georgetown where they were weekend guests of Mr. and Mrs. Walter Walker.

Mr. and Mrs. Norman Thompson motored to Charlottetown on Friday evening, where they visited Mrs. Thompson's sister, Miss Ivy Stevenson of Fredericton who is a patient in the Prince Edward Island Hospital.

Mr. and Mrs. Hubert Fraser of Charlottetown, were visitors to Georgetown on Sunday, where they were guests of Mr. and Mrs. Lemuel MacCormack.

Mr. Raymond DesRoches of Halifax, N.S., manager of Redmond Exports Ltd., arrived in Georgetown last week on business connected with his firm.

Mr. and Mrs. Albert Lavers of Charlottetown motored to Georgetown on Sunday, where they visited Mrs. Lavers' parents, Mr. and Mrs. John L. MacDonald.

Friends of Miss Joan MacNeill are sorry to hear that she is a patient in the Charlottetown Hospital and all wish her an early return to good health. A.C.

CURLING DRAW

Following is the Curling draw for Montague, today: 7 P. M.

EAST ICE: C. S. Stewart, H. Clair, E. Duvar, R. MacLean, vs. H. L. MacGregor, E. Clay, L. Carpenter, K. Hughes.

WEST ICE: Wm. MacLean, L. Sinclair, C. Johnston, M. Poole, vs. R. R. Beck, D. Nicholson, A. Nelson, H. Coffin, 9 P. M.

EAST ICE: H. Fraser, E. Cudmore, R. Knox, C. Gordon, vs. Dr. MacIntyre, V. MacDonald, R. Machon, Dr. W. MacIntyre.

WEST ICE: I. G. Phillips, A. MacGregor, R. Griffin, Dr. A. E. Ings, vs. D. Wannamaker, M. Sullival, H. Lacey, Foch MacDonald.

Liberal Public Meetings In King's County

The following meetings will be addressed by a number of Liberal speakers and myself. Everybody welcome. The meetings to start at 8:00 p.m.

- Morell—Wednesday, March 12 Morell Hall
- Lorne Valley—Thursday, March 13—Lorne Valley Hall
- Souris—Friday, March 14 Community Centre
- Murray Harbor—Saturday, March 15—Murray Harbor Hall
- St. Teresa—Monday, March 17 St. Teresa's Hall
- Murray River—Tuesday, March 18—Murray River Hall
- St. Peter's—Wednesday, March 19 Legion Hall
- Elmira—Thursday, March 20 Elmira Hall
- Annandale—Friday, March 21 Annandale Hall
- Bridgetown—Monday, March 24 Bridgetown Hall
- St. Charles—Tuesday, March 25 St. Charles Hall
- Cardigan—Wednesday, March 26 Legion Hall
- Montague—Thursday, March 27 Yeo's Theatre
- St. Margaret's—Friday, March 28—St. Margaret's Hall

THOMAS J. KICKHAM, Liberal Candidate, King's County.

Children's Work Board Meets

A meeting of the Children's Work Board of the Maritime Religious Education Council was held in Trinity-St. Stephen United Church, Amherst, N.S. March 5 and 6. The Chairman, Mrs. R.L. W. Gibbons of Halifax, presided, and in the absence of the Secretary, Mrs. Albro Miles of Sydney, acted as Secretary protem. Others present were Mrs. Dora Sabeau and Miss Susan D'Arcy of Saint John, Mrs. Kenneth Parker and Mrs. S.S. Carson of Charlottetown, and Mrs. W.F. Munro and Rev. Elton Davidge of Sackville.

Proposed New Regulations For Small Boats Are Studied

OTTAWA (CP)—Laymen studying a proposed new set of federal regulations to govern small boat operations Tuesday said police would have more power than they need to enforce the regulations.

Manufacturers and users of boats, called here by the transport department to help with the final drafting of Canada's first small vessel regulations, said a clause on enforcement "infringed on the rights of the individual." The regulations will bring together regulations governing small boat operations now contained in various sections of the Canada Shipping Act. Most of them now are in effect under the present act. The discussions are for governmental guidance in putting under one cover for the first time "rules of the road" for small commercial and private craft. Main objection was to the section saying an enforcement officer "may go aboard any vessel, make any examination he deems fit, and may ask any pertinent question of, and demand all reasonable assistance from the owner or master or any person in charge thereof." Delegates argued that this

clause, the 70th in the 81-clause, 24-page regulations, gives police too much power. Delegates, representing provincial governments, boat manufacturers, sportsmen's associations and boating organizations, said provincial police and the RCMP would not likely abuse the power. But most of the enforcement of the regulations would be carried out by less experienced local police.

CONSIDER REWORDING Norman Wilson, director of the transport department's marine services and chairman of the meeting, said the department would reconsider the wording of the clause. The regulations cover every aspect of the operation of commercial or private craft under 15 tons and powered by motors of 10 horsepower or more. They require that all these boats be licensed. There would be no charge for the licence, which is intended mainly as a means of identification. Today they will pass resolutions suggesting changes in the government draft of the regulations, which when passed will become the highway laws of Canada's lakes, rivers and streams.

U.S. Study May Change Policy On Atomic Tests

WASHINGTON (AP)—The Eisenhower administration, it was learned Tuesday, has taken the first steps toward radically revising its policy for suspension of nuclear tests. The objective is to try to get an agreement with Russia on this issue.

President Eisenhower, on the recommendation of State Secretary Dulles, has started studies by leading atomic scientists on whether a suspension can be protected against cheating. If it is decided that a foolproof inspection system is possible, then U.S. policy may be changed—provided certain other conditions are fulfilled.

If the experts decided that no inspection techniques available can prevent cheating, then, officials said, the policy likely will not be revised.

Present U.S. policy insists that suspension of testing be closely linked to a cut-off in manufacture of nuclear weapons. Russia, however, had advocated a test suspension alone as a first step toward disarmament.

The studies which have been started, authorities reported, are being supervised at least in part by Dr. James R. Killian Jr., Eisenhower's science adviser. But they also are being made by the Atomic Energy Commission and involve defence department scientists as well.

Dr. Edward Teller, the physicist often called the father of the hydrogen bomb, said here 10 days ago he thought disarmament is a "lost cause" because the Russians cannot be trusted and to prevent them from cheating.

U.S. Study May Change Policy On Atomic Tests

Opposed to the Teller view are such men as Harrison Brown of the California Institute of Technology and Jay Orear of Columbia University in New York. They argue that any secret tests by the Russians after a ban became effective would be known to international inspection teams. Various groups of scientists have been meeting here off and on for several weeks, officials said Tuesday, to discuss this issue and marshal the scientific evidence.

ARE YOU LUCKY AT NUMBERS?

On Wednesday and Thursday our Cashier will have five Lucky Ticket Numbers. If your ticket has one of these lucky numbers you will receive a FREE DOUBLE PASS to the exciting movie "HOUSE OF NUMBERS". At the Candy Counter our drink cups and popcorn boxes will be numbered. You can be lucky here too...

IF YOUR SOIL COULD TALK IT WOULD SHOUT FOR LIME

Brookville Lime puts new life in tired, worn out soils. It supplies calcium and magnesium, regulates soil acidity, makes the soil and fertilizer phosphorus more effective, permits the growing of good legumes, and by so doing, nitrogen from the air can be fixed to supply protein for animals and nitrogen for future crops. It speeds up the rotting of plant residues, reduces toxic amounts of aluminum and iron. Works day and night, all year round. The most economical and profitable help you can get. The cost is low. The returns—higher yields—better grades—bigger profits. For each dollar spent on lime you get 4 to 6 dollars or more in return.

Order it now, from your agriculture society, buying club, or direct from

Prince Edward Island Dairymen's Association NOTICE OF 59th ANNUAL MEETING

THURSDAY, MARCH 13, 1958

10.30 A.M. and 1.30 P.M.

CANADIAN LEGION HALL

GRAFTON STREET, CHARLOTTETOWN

Producers of Milk and Cream and the Accredited Delegates of all dairy plants are directed to take notice that the following matters will be dealt with

Receiving: Report of the President
Report of the Superintendent
Reports on Herd Improvement and Breeding Programs
Financial Statement

The Election of: Three directors for the Association
Officers for the current year.

The voting of Funds for the Association

Consideration and Recommendations: Policy for the Dairy Industry
Policy on the June set-aside
A retirement plan for Dairy Plant workers

The Association has arranged, for 6:30 p.m. of the same day a banquet in the Charlottetown Hotel for those interested in the dairy industry.

Guest speaker: Mr. Gordon Hawkins, Toronto, Acting Director Canadian Association for Adult Education.

Tickets \$1.50

Following the Banquet a general meeting of the P.E.I. Federation of Agriculture at the Charlottetown Hotel.
