THE WAR IN ABYSSINIA.

THE FIRST BLOOD.

Two fine young officers of the Bombay army Captain La Touche and Hebbert—of whom those acquainted with them say they were worth the whole batch of captives in Abyssinia—have been killed by Wagheers (December 29) in a jungle fight in Kattywar, on the Todur Hill, a place some fifty miles west from Rajcote. The Wagheers, as may be briefly explained, were a Scythian tribe so named from Wagur in Cutch, from whence at some remote period they crossed over to the Island of Beyt, and afterwards to the mainland of Okhamunder, a barren province forming the extreme north-west portion of the peninsula of Kattywar. Being skilful boatmen and of daring character, many of them became addicted to piracy, though the main body regularly settled at Dewarka and other walled towns in Okhamunder. They also took possession of certain ancient Hindoo shrines at Beyti and Dewarka and levied toll on the pilgrims resorting thither from all parts of Northern and Central India, but mainly from Guzerat. In the early years of this century, our officers, naval as well as military, had frequent skirmishes with them, and not always to our advantage. Finally, our claims upon them having been consolidated into a money demand, which was more or less evaded, it was arranged to make over to the Guicowar the province of Okhamundel, as he much desired to obtain control over the shrines there—he paying us the amount of the tribute demanded by the Wagheers, who, it should be stated, had by that time largely intermarried with the lesser Rejpool chiefs in Okhamundel and Kattywar proper. The Guicower has never been able to control the Wagheers, whom he had sought to dispossess of their landed inheritance, and the British agent in Kattywar, in conjunction with the resident at Baroda, have had to keep up constant efforts to check the excesses of these Wagheers, to whom were joined all the Bahirwuttee (outlaws) of the province, and who by means of threats have constantly obtained help and shelter from the regular chiefs. Fresh excitement was given to this brigandage in 1857, although the chiefs of Kattywar as a whole stood admirably loyal; but in 1860-61, under the governorship of Sir George Clark at Bombay, measures—somewhat similar to those so successful with the Bheels under Outram—were taken to reduce the Wagheers to order, and provide them with other pursuits. Those measures were not energetically carried out after Sir George Clark's departure, and Kattywar has never been free from the unsettlement and outrages of these landless brigands and their more reckless allies. It is against the Guicowar they declare themselves opposed, but recently they gave notice that if their demands were disregarded they would strike villages in districts under our protection. This they have done; and it was in following them up that our troops, together with the militia of the Guicowar and another chief, came in contact with them.

The expedition was directed from Rajkot by Col. W. Anderson, the acting political agent, and was commanded by Major Reynolds, 17th Native Infantry, who himself was badly wounded. Although within small compass—the whole of our force, not exceeding 140 men, accompanied by the Guicowar's levies—the conflict was a very determined one. The Wagheers, the number of whom is not known, on seeing themselves surrounded, evidently resolved to sell their lives dearly; while the attacking party had to charge up a hill, exposed to the deliberate aim of the outlaws, who on this occasion, there is reason to believe, were possessed of arms of more precision than their antiquated matchlocks. It is grievous to see two promising officers cut off in a jungle fight of this kind, but they have proved that there is still courage of the old sort extant. One of them died in avenging a brother officer, and both were interred in the one grave; they each leave a young widow. Three leaders of the band were killed, one being Dewa Manick, the fiercest of all; but the chief leader of this expatriated tribe—Mulloo Manik, the dispossessed chief of Dewara—is still free and doubtless more desperate than ever.—*London Times.*

THE NEW PREMIER.

(From the London Times, Feb. 26.)

* * * The statesman honored by the Queen with the duty of reforming the Ministry has fairly won the high place he occupies. He is the first in power and in ability of the colleagues of Earl Derby, and he has acquired a position in the House of Commons to which no other statesman of the day can pretend. Yet, if Mr. Disraeli be evidently the fitting successor to Earl Derby, it must be remembered also that he has achieved that distinction in spite of every disadvantage of birth, of education and of position, and in spite, above all, of the great and, at one time, apparently unmitigated distrust of the party now accepting him as their leader. The Tory party, the Chancellor of the Exchequer has often declared, is the historic party of England; but of that history he himself cannot claim the inheritance. It has ever accounted itself the party of long descents and ancestral English honors, but Mr. Disraeli has boasted that "literature was his only scutchion," and has described himself as "a gentleman of the press." The records of the early career of the Chancellor of the Exchequer have often been cited as additional evidence of the inconsistency of his opinions with his present position; but the conservatives have never harshly judged the effervescence of youthful independence. Mr. Disraeli's first public acts have more justly inspired distrust among his followers because they indicated an artistic quickness and sensibility especially removed from the conservative type. But the Chancellor of the Exchequer has served the conservative party for more than twenty years. He slowly reconstructed its Parliamentary organization, and has thrice brought it into power. By the public he has been always regarded as the ruling spirit of the Cabinet, and it has been evident to all men that the Reform bill of last session was only carried by his courage, his readiness and his unfailing temper in the House of Commons. The time has arrived for the servant to become the master; nor could Mr. Disraeli have accepted a lower place without a loss of dignity which would have been unworthy of himself and discreditable to his party.

* * * There is much in the circumstances of the present time to favor the stability, at least for a given season, of any Ministry that may be formed. It has not unfrequently happened that the difficulties occasioned by the retirement of some eminent member of a Cabinet have been surmounted; but the government has received such injuries in the effort that it has soon after fallen to pieces. Fortune, however, is kind to Mr. Disraeli. A convened Parliament is sitting, and yet while any House of Commons, elected after this year, would be chosen by new and enlarged constituencies, a general election during the current twelvemonth would be an appeal to the old electors. It may be assumed, therefore, that no general election will be held before next January. The work of the session is not on that account divested of its importance, but it is almost a necessary consequence of the practical obstacles to a general election that the ministry cannot be effectively challenged on questions involving new schemes of action. Apart, however, from these considerations, the House of Commons will weigh with candor the conduct and pretensions of Mr. Disraeli's ministry. Mr Disraeli is known and admired by the House, and members willingly entertain the proposals of one who so manifestly defers to its authority.

EXTRAORDINARY IMPOSTURE EXPLODED!

AN IMPORTANT QUESTION SETTLED!

Innumerable efforts have been made by mathematicians to square the circle. It is now admitted by rational men that no such thing is possible. A question of the same sort, nearly, is often propounded which, for the moment, may puzzle a man of slow wit, but which is eventually seen to be incapable of solution, likewise. It is this! What would be the consequence of an irresistible body coming in contact with an immoveable one? Very little consideration is required to enable one to discern that this is a contradiction in terms. The closest approximation to a categorical answer that we ever heard of has been given by an eminent pathologist, Professor HOLLOWAY, who has proved beyond all question that his extraordinary Pills and Ointment are irresistible in their effects on diseases which, under every other treatment, were absolutely immoveable. This is no empty boast. It is true. We court disproof His medicines, we say, are the greatest remedial agents that scientific genius ever invented "Pshaw," some contemptible professional starveling, or disappointed charlatan, may explain, "what is it all but quackery!" Ignorant, or unthinking people may be found to re-echo the charge. But stop, friends. You do not bear in mind that this very cry of "quack-quack-quackery," which is as frequently raised against the true thing as the false, savors itself of the greatest quackery. Besides, an imposition cannot last for ever. If HOLLOWAY'S Medicines are an imposture they are the most gigantic one that ever darkened civilization. If they are an imposture, they have effected more good to humanity than thousands of ostentatiously benevolent verities. If they are an imposture no other imposture has ever originated like them, for they are the result of the most profound physiological investigation and pathological skill. If they are an impostaure, then it is an imposture which the world has been thankful for. The most eminent medical men of the age have testified to their unparalleled effects as sanative agents. Princes and Potentates have borne voluntary testimony to their virtues. Nobles of nature's making (as well as nobles of man's making) have alike acknowledged in terms of deserved eulogy their extraordinary powers. There is scarcely a newspaper throughout the world, which has not willingly made itself the medium of communicating to the public the astounding cures which these Medicines have effected. In most countries they have attained to a patronage, the extent of which is perhaps without precedent when the comparatively brief period of their introduction is taken into account. Professor HOLLOWAY can produce almost countless numbers of written acknowledgments (from every clime and in every language) of their efficacy, forwarded to him unasked. Where then is the imposture? Let us state a few facts of greater interest.

"It is of paramount importanae to preserve the blood in a healthy condition, because it is the vital fluid that is *the principal of life*, and when it is affected the whole organization is affected likewise. HOLLOWAY'S Pills clear the blood of all impurities, and induce a healthy condition of the body. His Ointment acts in harmony with the Pills, when applied to external sores. Both invariably lead to this result: *Mens sana in corpore sano*. "a sound mind in a sound body.—*Sunday Courier.*

The Quaker Poet hath proclaimed
That all his neighbors round,
Have used *Grace's Salve*, and proved it, too,
The best they ever found.

Three years ago, John Rholing, of Weston, Me., sold a cow to a man living in Kansas, about 140 miles from Weston, whither the cow was taken. A few days since, she surprised Mr. R.'s family by familiarly putting her head into their kitchen door as she was wont to do. The incident shows a remarkable memory for a dumb beast.

Never indulge in the inordinate use of any medicine. It is important to take even a good medicine judiciously, Parsons' Purgative Pills are safe, prompt and reliable, and free from all deleterious substance.

We are ready and willing to warrant Johnson's Anodyne Liniment to be the best article that can be used for coughs, colds, dysentery, diarrhœa cramp and pain in the stomach or bowels. It is equally safe and effective for children or adults.

Holloway's Ointment and Pills.—Rheumatism and Gout.—These purifying and soothing remedies demand the earnest attention of all persons liable to rheumatism, gout, sciatica, or other painful affections of the muscles, nerves, or joints. The Ointment should be applied after the affected parts have been patiently fomented with warm water, when the unguent should be diligently rubbed upon the adjacent skin, unless the friction should cause pain. Holloway's Pills should be simultaneously taken to reduce inflammation and to purify the blood. This treatment abates the violence and lessens the frequency, of gout, rheumatism, and all spasmodic diseases, which spring from hereditary pre-disposition, or from any accidental weakness of constitution. The Ointment checks the local malady, the Pills restore the vital powers.

HUNNEWELL'S

UNIVERSAL COUGH REMEDY

Ten Years have clearly proved that the theory of simplicity, the great element of this spleudid preparation, which allows its use whenever there is tickling or irritation in the Throat, and producing no debility, is the only and true theory by which *Colds, Coughs, Hoarseness, Bronchial Complaints*, and all *Throat Affections*, which, if neglected, end in *Consumption*, can be effectually cured.

☞ *Sore Throat*, the great origin of *Diptheria*, when neglected, is cured by making a *Gargle* with equal parts of water.

☞ *Whooping Cough* is completely relieved of its violence by a constant use of the remedy.

☞ Testimonials of undoubted character can be seen at my office by all.

THE PAIN KILLER ABROAD.

The following correspondence will show something of the estimation in which Perry Davis's Pain Killer is held on the shores of the Mediterranean. It is not surprising that a medicine that receives such testimonials as this from abroad, should find well sustained and increasing appreciation at home.

U. S. CONSULATE, Tunis, Dec. 27, 1865.

To the Proprietors of Davis' Pain Killer, Providence, R. I.

Gentlemen.—The enclosed has just been received from my friend Tulin, late Consul General of Norway and Sweden and of Prussia in this place. No comment is needed. Truly yours,

AMOS PERRY.

GENOA, Dec 16, 1865.

Dear Sir.—Accept thanks for this third supply of Davis' "Pain Killer." This medicine has often relieved me of serious indisposition, and I would not on any account consent to be without it both for myself and my family.

I have recommended it to my late colleagues and friends in Tunis and Genoa, and at my request one of the largest druggists in this city has sent an order to New York to meet the demands in this place. Yours truly, G. A. TULIN.

Ex-Consul General of Sweden, Norway and Prussia in Tunis.

JUDSON'S DEAD SHOT WORM CANDY.

The following is an extract from a letter received by us from Dr. RUSH, OF NEW YORK. It speaks in trumpet tones for this great remedy; read it: "As I before remarked, I have used your Worm Candy in my practice; now I never said a word in favor of a Patent Medicine before, but I think it just to say to you that your Medicine is no humbug. I have tried it and I know it will do all it claims. It must be one of the most successful medicines of the day, for it is one of the most valuable. Those who have children should never be without it.

AN EFFECTUAL WORM MEDICINE

Brown's Vermifuge Comfits,

OR WORM LOZENGES. Much sickness undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "VERMIFUGE COMFITS," although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worms, so hurtful to children.

Children having worms require immediate attention, as neglect of the trouble often causes prolonged sickness.

Symptoms of worms in children are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making BROWN'S "VERMIFUGE COMFITS" is such as to give the best possible effect with safety.

WISTAR'S BALSAM OF WILD CHERRY

THE GREAT REMEDY FOR

CONSUMPTION,

and acknowledged by many prominent physicians to be far the most Reliable Preparation ever introduced for the RELIEF and CURE of all

LUNG COMPLAINTS.

This well known remedy is offered to the public, sanctioned by the experience of over forty years; and when resorted to in season, seldom fails to effect a speedy cure of

Coughs, Colds, Croup, Bronchitis, Influenza, Whooping Cough, Hoarseness, Pains or Soreness in the Chest and Side, Bleeding at the Lungs, Liver Complaint, &c.

The unequalled success that has attended the application of this medicine in all cases of

PULMONARY COMPLAINTS

has induced many physicians of high standing to employ it in their practice, some of whom advise us of the fact over their own signatures. We have space only for the names of a few of these:—

Such testimony

CANNOT BE DISCREDITED.

From the mass of evidence in our possession we select the following:—

From L. J. RACINE, Esq.,

of *La Minerve*, Montreal. "Having experienced the most gratifying results from the use of *Dr. Wistar's Balsam of Wild Cherry*, I am induced to express the great confidence which I have in its efficacy. For nine months I was dreadfully afflicted with a severe and obstinate cough, accompanied with acute pain in the side, which did not leave me, summer or winter. The symptions increased alarmingly, and so reduced was I that I could walk but a few steps without resting to recover from the pain and fatigue which so slight an exertion occasioned. At this juncture I commenced taking the Balsam, from which I found *immediate relief*, and after having used four bottles I was completely restored to health. I have used the Balsam in my family, and administered it to my children, with the happiest results. I am sure that such Canadians as use the Balsam can but speak in its favor. It is a preparation which has only to be tried to be acknowledged as the remedy *par excellence*."

A CURE FOR WHOOPING COUGH.

ST. HYACINTHE, C.E., Aug. 21, 1856.

MESSRS. SETH W. FOWLE & SON.

Gentlemen:—Several months since a little daughter of mine, ten years of age, was taken with *Whooping Cough* in a very aggravated form, and nothing we could do for her seemed in any way to relieve her suffering. We at length decided to try a bottle of *Dr. Wistar's Balsam of Wild Cherry*. In three hours after she had commenced using it, she was greatly relieved, and in less than three days was entirely cured, and is now well. I have since recommended the Balsam to many of my neighbors, who have used it, and in no case have I known it fail of effecting a speedy cure.

You are at liberty to make any use of the above you think proper. If it shall induce anybody to use your Balsam I shall be glad, for I have great confidence in it.

Farmers will find it a saving to them of many dollars by using these Powders. When fattening stock, by mixing a little of these Powders with the food, you will find that they will fatten quicker, and the flesh will be firmer and better in every respect.

The many

DISEASES OF HORSES

can almost all be *prevented* or *cured* by these Powders.

One Powder drives out Worms.
One Powder cures Bots.
One Powder puts a Horse in condition.
One Powder makes a Horse shed his coat.
One Powder gives a soft and glossy appearance to the hair.
One Powder cures the Horn Distemper in Cattle.

CARLTON'S CONDITION POWDERS,

given according to directions, are the best thing in the world to strengthen a horse, and restore him to health and vigor after severe exposure or hard driving.

These Powders cause a healty action of the digestive organs, and purify the blood of animals, thereby equalizing the circulation of the blood and imparting vigor to the whole frame. This soon demonstrates itself by an improvement in the appearance of the coat, for it is a certain fact that no animal can be in perfect health if the coat be rough and unthrifty.

CARLTON'S CONDITION POWDERS

will be found a perfect tonic and restorer after attacks of any acute diseases, such as Influenza, Strangles, Inflammation of the Lungs, Nasal Gleet, etc.

Every one who owns Stock

of any kind should use this Medicine. It is always BENEFICIAL, and is so HARMLESS that it can always be given without fear.

Farmers who are FATTENING their stock should use these CONDITION POWDERS. They will keep all kinds of stock healthy and in good heart, and make them fatten much easier and quicker than they otherwise would. Find the signature of

before the public, are still increasing in popularity, because they continue to make cures

UNPARALLELED

in the history of Medicines, as abundantly appears by the following, among hundreds of similar testimonials, from people of the highest respectability from all parts of the Lower Provinces.

There is no longer any reason why the most hopeless cases in any disease arising from impurities of the blood may not be cured, as well as

is beyond all controversy unsurpassed as a purifyer of the blood and invigorator of the system. This, no man can doubt, who will look over the following

CERTIFICATES:

Cancer of the Womb Cured.

Messrs. Rogers & Co,

GENTS.—I have been cured by your wonderful Medicine of one of the worst of diseases, as follows, viz:

I had been afflicted for several years with an internal Tumor, and four years ago I was taken sick with a fever; the old complaint also revived. I had a Doctor attending me, but continued to get worse, we sent for another Doctor. He pronounced it a hopeless case, and said I could not live long. He said the Tumor was then as large as a pint bowl, and was assuming a cancerous nature. I suffered more than tongue can tell. My friends expected me to die daily. They were called in to see me die, and I was reduced to a mere skeleton. I suffered in this dreadful manner for upwards of two years. At length, as a forlorn hope was induced to try your medicine. The first lot seemed to make me worse, and I became discouraged; but the Rev. A. W. Boss advised me to continue. I did so, and soon began to improve, and I am now well again, and a wonder to myself and neighbors. I feel as one raised from the dead. I am a young woman of 26 years of age. I state these things for the benefit suffering humanity, and I cannot begin to describe the severity of my case—it is wisely known in the County of Yarmouth, Nova Scotia.

Yours, with much gratitude,
LOIS A HATFIELD.

We, the undersigned, friends of Miss Hatfield, have much pleasure in endorsing all she says above and much more might be said of this most extraordinary case.

ULCERATED CANCER CURED!

Who needs better proof than the following voluntary testimony of

MRS. HANNAH BALMAIN, OF WICKHAM, N.B.

Some four years since there came a lump in my breast, and at the time I did not know what it was—but on showing it to three Doctors, they told me it was a "CANCER," and for which the knife would have to be applied; then again, I went to a female doctor, who has been in the habit of curing Cancers by drawing them out, but she informed me that it was deep in the flesh and too long seated, and therefore could not help me. Knowing that something must be done, I concluded to try your medicines, which I saw advertised in the *Visitor*. Accordingly I sent for a can of *Ointment and Powders for making the Syrup*, which I used without the slightest change at the time. I began to think it was a failure, but concluded to give it another trial; consequently I procured another can of Ointment and Powders, and from its use it gathered and broke in two places, and discharged very freely for about six months, after which time it broke again in another place, and one of the old Ulcers healed up, the remaining two still remaining, one of which ran for two and a half years, the other healing up in about two months after it broke, during which time I used your medicine regularly. I may here state, that the last Ulcer healed up about thirteen months ago, since which time I have enjoyed good health. Yes, I may say better health than I have enjoyed for several years.

I remain yours, respectfully,
MRS. HANNAH BALMAIN.

EXTRACT OF A LETTER.

FIVE ISLANDS, Nova Scotia,
October 21st, 1867.

Messrs. Rogers & Co,

GENTS:—My daughter is nicely, and you have done wonders, for I never thought you would make a cure as you have done. Her leg appears to be quite strong, but it needs a little.

Yours, &c.,
EDWARD CORBETT.

The above was a very severe case of Scrofula of four or five years standing, and after having baffled the skill of the best Physicians and almost every other Patent Medicine, and the child appeared to be on the verge of the grave and the parents having lost confidence in everything in the medical line, we undertook the cure for a certain sum, and if we failed we were to get nothing; but we succeeded, as we do in every case of Scrofula we undertake. Nearly the whole of the bone from the knee to the ankle came out in pieces from time to time.

ROGERS & Co.

Mrs. Edwin Starratt, of Port William, Nova Scotia, after having lost the use of her limbs for upwards of three years, has been fully restored to her former health by the use of our medicine. Any one wishing to know the particulars can correspond with Mrs. S. who will give every information.

R. & Co.

Mr. Allen, Editor of the Liverpool *Transcript*, Nova Scotia, has been cured of a very bad Scrofulous sore on his leg, of several years standing, after every other means failed.

R. & Co.

Miss Miles of Milton, Queen's Co., Nova Scotia, was for upwards of three years suffering from a general derangement of the system. Suspension of the menses, bleeding at the lungs, &c., &c., and to all appearance was fast sinking to the grave. Medical skill and every other means proving ineffectual. In a few months our *ALTERATIVE SYRUP* restored her to her usual health.

Persons wishing to know the truth of this case can drop a line to the Rev. JOHN HUGHES, Baptist Minister at the above place. We could easily fill pages of newspapers with the relation of such cases, but we deem the above sufficient for the present.

R. & Co.

It usually takes from six to twelve months to effect a cure in cases of long standing, and will cost from thirty to sixty dollars. The cheapest way for such cases is to order a $20 box at first, which can be had in New Brunswick by ordering from

CHILDREN TEETHING

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of mothers her

Soothing Syrup,

FOR CHILDREN TEETHING

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay **all pain** and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

Relief and Health to your Infants.

We have put up and sold this article for over thirty years, and **can say, in confidence and truth** of it, what we have never been able to say of any other medicine—**never has it failed in a single instance, to effect a cure,** when timely used. Never did we know an instance of dissatisfaction by any one who used it; on the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter **"what we do know,"** after thirty years' experience, **and pledge our reputation for the fulfilment of what we here declare.** In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in **fifteen or twenty minutes** after the syrup is administered.

This valuable preparation is the prescription of one of the most **experienced and skilful nurses** in New England, and has been used with **never-failing success** in

THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC,

and overcomes convulsions, which, if not speedily remedied, end in death. We believe it the **best and surest remedy in the world,** in all cases of **Dysentery and Diarrhœa in Children,** whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints **—do not let your prejudices, nor the prejudices of others,** stand between your suffering child and the relief that will be **sure—yes, absolutely sure**—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the fac simile of **CURTIS & PERKINS,** New York, is on the outside wrapper.

☞ Sold by Druggists throughout the world.

HALL'S VEGETABLE SICILIAN
HAIR RENEWER,

HAS proved itself to be the best preparation ever presented to the public; a fact to which thousands have testified who have been benefited by its use.

A few applications of this Compound will change brush, dry and wiry Hair to a moist and glossy appearance, and make it of

SILKEN TEXTURE.

The Proprietors offer the SICILIAN HAIR RENEWER to the public, entirely confident that by its restorative properties it will bring back the Hair to its

NATURAL COLOR.

It is not a dye, and consequently does not stain the skin or soil the finest fabric. If the Hair is falling off or becoming grey, the use of the RENEWER will surely arrest its decay, no matter from what cause, and will create a new growth, and make it assume in a short time all its former vigor, as it furnishes the nutritive principle by which the Hair is nourished and supported. As a

HAIR DRESSING,

the RENEWER is unequalled by any other Hair preparation in the world, giving it that beautiful texture which is so much admired by all. It does not contain any poisonous drugs. The basis of its remedial properties being a VEGETABLE COMPOUND. It completely eradicates scurf and dandruff, and cures all diseases of the scalp, and by its cooling properties allays the itching and fever of the scalp. It combines not only the best remedial properties for all diseases of the Hair and Scalp, but also is the best dressing for the Hair. This preparation has been sold for the past seven years entirely upon its own merits.

Beware of the numerous imitations, which in appearance only are similar to it, which are forced upon the public upon our reputation. Call for HALL'S VEGETABLE SICILIAN HAIR RENEWER, and take no other, or you will be disappointed.

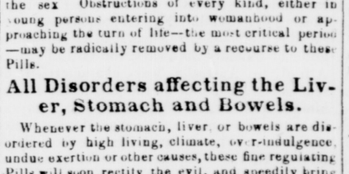
THE ROAD TO HEATH AND LONG LIFE



SECURED BY

HOLLOWAY'S PILLS.

Impurities of the Blood.

In selecting the most appropriate medicine for a particular ailment, there may be some difficulty unless one can be found to purify, regulate, and improve the quality of the blood. These Pills possess and exert these three qualifications in an extraordinary degree. They enable the stomach to digest any ordinary food, increase the secretory powers of the liver, cleanse and purify the blood, expel all morbid matter, and throw into the circulation the purest elements for sustaining and repairing the frame.

Weakness and Debility.

How many persons suffer from debility without knowing the causes why they are feeble! In most cases the stomach is the aggressor. Holloway's Pills have long been famed for regulating a disordered stomach, and restoring its healthy digestive tone; they are, therefore, confidently recommended as a never failing remedy in all cases where the constitution, from any cause, has become impaired or weakened.

Disease of the Head and Heart.

These formidable diseases are, unfortunately, of frequent occurrence; for the most part they creep on gradually, but may be prevented by proper precautions. Holloway's Pills are the surest preservatives against all derangements of the brain, and are the speediest correctors of irregular circulation. If they be taken without delay, when tingling in the limbs, drowsiness, or giddiness comes on, the effect will be marvellous.

Females of all Ages & Classes.

The fame of these Pills is partly based upon the beneficial effects they have up n the constitutions of females. From the domestic servant to the peeress, universal favor is accorded to them for their invigorating and purifying properties, which render them so safe and invaluable in all disorders peculiar to the sex. Obstructions of every kind, either in young persons entering into womanhood or approaching the turn of life—the most critical period—may be radically removed by a rec
