Martin Urges China Contact

By DAVE McINTOSH
OTTAWA (CP)—External Affairs Minister Martin Thursday urged more Western contacts with Communist China and suggested that a United Nations peace-keeping operation will be Canada's major military role in the future.

The minister, testifying before the Commons defence committee, said the new Liberal government has not changed Canada's policy of non-recognition of Red China.

"But we should be examining carefully the advantages of the kind of intercourse developed in the last 10 years with other Communist countries," he said.

SPECIFIC WAYS
He mentioned specific cultural exchanges, greater access to each other's territory and diplomatic missions.

"We have to give consideration if we are to avoid, in the means of providing a confrontation with China," the minister said in reply to David G. Hahn (L-Toronto Broadview).

Even if Russia and the West achieve a close relationship and there was still a "great gap" between the two, the West would still be faced with the "seemingly great threat" of a monolithic China.

In his 53-minute prepared speech, Mr. Martin said international peace-keeping machinery and only one to Canada's negotiations with the United States on a nuclear ceiling and a closer relationship.

He declined to be drawn out on the latter subject when questioning him on the subject.

Andrew Brewin (NDP-Toronto Greenwood) and Angus MacLean (PC-Quebec) asked how long Canada's nuclear commitments will extend into the future.

In the agreement, climaxing negotiations almost as long as the atomic age itself, the

Test Ban Treaty Is Signed By British, Yanks, Soviets

MOSCOW — The United States, Britain and the Soviet Union agreed in a treaty initiated Thursday to end nuclear testing in the atmosphere, outer space and under water.

The agreement, which is unprecedented accord as a major breakthrough to world easing cold war tensions.

In the agreement, climaxing negotiations almost as long as the atomic age itself, the

three powers also affirmed their determination to continue striving for a complete ban on nuclear testing and implied they will give no nuclear aid to nations that do not go along.

The big three foreign ministers — America's Dean Rusk, Britain's Earl of Home and Russia's Andrei A. Gromyko — will sign the treaty in Moscow in the "near future," a communiqué said.

Details of the treaty were hammered out by Gromyko, Averell Harriman, U.S. undersecretary of state for political affairs, and British Foreign Secretary Lord Halifax in talks which began here July 15.

SIGN IN THREE WEEKS?
Halifax, talking to reporters at the British Embassy, suggested three weeks from now as a likely date for signing the treaty.

He said it would in fact be signed at a time "most convenient to all . . . not less than three weeks, not more than three."

With notable exceptions, leaders of East and West hailed the Moscow announcement as a step on the road to peace. Home called the agreement "the first of any substance which the West has been able to make with the Russians" since the Austrian Treaty of 1955.

Drury Named New Minister

OTTAWA (CP)—Prime Minister Pearson informed the Commons Thursday that the Department of Industry Act has been proclaimed and that the minister of industry will be sworn in as the new minister of industry.

Mr. Pearson said D. M. Golden, former deputy minister of defence production, will be sworn in with his present cabinet portfolio of defence production.

Mr. Drury will combine his new post with his present cabinet portfolio of defence production.

In making the announcement, Mr. Pearson said responsibility for the defence production ministry, was transferred to the industry department from the defence department, as proposed by the Glasgow royal commission on government organization.

Three other visitors to the island were located some distance along the beach, a distance they were away from the water when they were reported to be 10 to 17 feet of water.

The accident occurred at Stakesley, half way between Red Head at Morell, and St. Peter's, which was learned last night.

Mrs. Wayne is reported to be the former Jean Lillian Clark of Summerside, though that could not be confirmed late last night.

Her husband is the son of Mrs. Milton Wayne, and the late Mr. Wayne, who for several years was the Kings County sheriff. Charles and his wife moved to Toronto some 20 years ago. His mother now resides in western Canada.

Reports last night indicated that Mrs. Wayne along with the three young victims, and her 10-year-old daughter, left St. Peter's, where they were vacationing, with the intention of proceeding to West St. Peter's Lake for a beach outing.

WRONG ROAD
Estimate Mrs. Wayne, apparently her husband's car, driving turned off onto the wrong road and ended up at Red Head beach.

They had apparently decided

Island Men Are Satisfied With ADB Bill Discussion

BY FARMER TISSINGTON
OTTAWA — The two Prince Edward Island representatives at a Federal-Provincial Atlantic meeting here Thursday, expressed satisfaction with the result of the discussions on the Atlantic Development Board bill.

Premier Walter Shaw and Solicitor General J. Watson MacNaught both said that the meeting between the four Atlantic Premiers and five federal cabinet ministers, had been generally good.

"We held a good general discussion on the implementation of some of the proposals that the board has under consideration," Mr. Shaw said in an interview. He declined to comment any further or to say what specific proposals were under consideration.

Mr. MacNaught said the meeting had been productive and had generated good will between the two levels of government.

"Many of the problems and questions the premiers had about the Atlantic Development Board were explained, and I am sure the discussions will have a beneficial effect on the future operation of the board," the Solicitor General said.

The meeting lasted just over an hour and was followed by a reception for the delegates, and a luncheon.

The P.E.I. Premier said he planned to return to the Island about noon on Saturday.

Exorbitant Interest Comment's Declined

OTTAWA — Solicitor General J. Watson MacNaught declined Thursday to comment on revelations made before an Ontario legislature committee that exorbitant rates of interest are being charged on some loans.

He was questioned in the Commons by H.A. Olson, Social Credit MP for Medicine Hat, who asked if Mr. MacNaught would support the proposal of a committee to consider all the bills dealing with interest charges on the Ontario committee that the charged and that the charged banks in Canada were circumventing the statutory limit of 6 per cent interest on loans.

Mr. MacNaught said the resolution to establish the Commons commission on small loans legislation would be brought forward as soon as more pressing business has been disposed of.

Mr. Olson then asked if Mr. MacNaught did not think the Ontario evidence warranted him initiating an investigation to ascertain whether or not the statutory 6 per cent limit on bank loans has been violated.

"I do not think it would be appropriate for a minister of this government to comment on relations, shocking though they may be, made before a committee of another legislative body," the Prime Minister said.

New Type Car Hauls Juices

TORONTO (CP)—Development of a new type of tank car to haul fruit juice and other liquid food products is announced by Procer Ltd., Toronto.

Using the principle of the thermal bottle, the company states, the car will keep its contents near freezing temperatures without refrigeration, and will hold fruit juice within three degrees of 32 degrees Fahrenheit for 10 days in a 100-degree weather.

In a recent static test run in hot weather, 6,500 gallons of orange juice in the car gained less than one degree Fahrenheit.

The juice is carried in a highly polished inner tank of stainless steel insulated from the outer tank by a foaklike pillow of urethane foam.

Wires, Cables Take Big Toll

OTTAWA (CP)—Twenty-three persons were killed and 18 seriously injured in 60 plane crashes involving aircraft hijacking and wire cables in the last 44 years, the Commons has been informed.

The information was contained in a government report sent in reply to questions from Douglas Fisher (NDP—Port Arthur) who asked for a report on crashes since Jan. 1, 1959.

The number of plane crashes was 328 in 1959, 335 in 1960, 339 in 1961, 304 in 1962, and 121 to June 30, 1963.

In the 1959 crashes, 19 planes were or cables, killing six and seriously injuring three. In 1960, 11 with no fatalities and six serious injuries; 18 in 1961 and six fatalities and two serious injuries; six in 1962 with six deaths and seven serious injuries; six in the first half of 1963 with three deaths and two serious injuries.

Cold War Tensions Still But Prospects Improved

OTTAWA (CP)—External Affairs Minister Martin said Thursday that the limited nuclear test ban agreement reached in Moscow doesn't mean an end to cold-war tensions, but changes the prospects for wider agreement.

"I would, however, voice a hope that the agreement will be a step towards a more general agreement," he said.

Mr. Martin said in a statement released to the Commons on Thursday that the limited nuclear test ban agreement reached in Moscow doesn't mean an end to cold-war tensions, but changes the prospects for wider agreement.

"I would, however, voice a hope that the agreement will be a step towards a more general agreement," he said.

Forestry's Aim For C.B. Miners

OTTAWA (CP)—Renewal of a forestry agreement with Nova Scotia providing for employment of Cape Breton Island miners displaced by the closing of coal mines was announced Thursday by Forestry Minister Nicholson.

The federal contribution for the current fiscal year ending next March 31 has been set at \$210,000.

About 75 or more miners are expected to be employed this year under the agreement in forest land improvement projects. The work will be directed by the Nova Scotia department of land and forest services and workers will be hired through the National Employment Service.

"The federal government will pay 80 per cent of the miners' salaries and wages and 50 per cent of all other expenditures up to a total of \$210,000. Remaining costs will be paid by the province."

Canada Will Be Party To Test Ban Agreement

OTTAWA (CP)—Prime Minister Pearson announced in the Commons Thursday that Canada now is ready to become a party to the test-ban agreement concluded in Moscow by Britain and the United States.

He expressed hope that all nations will add their names when the treaty is opened for accession by countries in addition to the original negotiators.

Opposition Leader Diefenbaker joined Mr. Pearson in expressing appreciation and congratulations to the negotiators.

The leaders of the two other opposition parties—T. C. Douglas of the New Democrats and Robert Thompson of the C. Douglas Party—also welcomed the agreement.

All three opposition spokesmen supported the government's decision to become a party to the test-ban agreement.

Mr. Pearson said the treaty

Vice Charges Denied By London Oseogian

LONDON — Dr. Stephen T. Ward told a criminal court jury Thursday all the vice charges against him, reaching into London's high society, are a pack of lies.

The 50-year-old osteopath and artist, while conceding that he is "a thoroughly immoral man," rejected the testimony of Christine Keeler, Mandy Rice-Davies and other girls that they were his bodies in his various adventures, exaggerations and lies.

Ward took the stand in the Old Bailey in his own defence after the prosecution rested in this fourth day of the dramatic trial. He was fighting a five-count indictment alleging he lived off prostitution and procuring, charges that could mean up to 25 years in prison.

In a cultured, baritone voice, the bespectacled osteopath

Visas To U.S. Are Cancelled

NEW YORK (AP)—The United States government has cancelled the U.S. visas of Christine Keeler and Mandy Rice-Davies, two young British prostitutes involved in the vice trial of Dr. Stephen Ward in London.

The immigration and naturalization service here warned shipping companies and airlines not to bring them to the United States.

Miss Keeler's visa was granted July 2, 1962, and after Miss Rice-Davies received hers, Miss Keeler travelled in London with one man with whom she had slept paid the fare for the two girls to visit the United States last summer.

Big Swim Set For Tomorrow

Mayor G. C. Bell of Borden, Ont., and Rev. Arthur Federgast cast admiring glances at the magnificent Northumberland Marathon Swim Club trophy which will be presented to the winner. The trophy itself will remain on display with the hope of inspiring the swimmer to a regular event.
