SEE BEER BROS. bargain corner. THE MARKET.—The only change noted in market prices to-day was in pork, which has dropped to 7 cents per lb. with the supply poor.

CONSERVATIVE ECONOMY.—In the Quebec Legislature, on Wednesday evening, the estimates for the year were brought down. They amount to \$4,941,000, as compared with \$5,337,000 last year.

A FAVORABLE ENTERPRISE.—The Yarmouth electric street railway is a paying enterprise. The dividend for the first eight months was 6 per cent, and for the current year it will likely reach 12 per cent.

FOR BOSTON.—The steamer Carrol sailed for Boston last evening with a cargo which included 200 cases lobsters and about 20,000 bushels potatoes. Her passengers were J. H. McLean, Miss Cummings, Frank Vanbuskirk and P. McNally.

REGULAR.—The ticket office of the Nova Scotia Central Railway at Bridgewater, N. S., was burglarized on Sunday night while the agent was at church, and \$500 stolen. The agent should have remitted the money to headquarters the day previously.

HE LOST AN EYE.—On Thursday last a young son of Hon. T. H. Blair, of Presque Isle, in forcing a carriage into a revolving door, struck it with a stone, causing it to discharge, the shell lodging in the right eye, with the result of a total loss of the eye.—St. John Telegraph.

THE FASTNET.—The steamer Fastnet returned from Summerside this morning at six o'clock, and left for Halifax via intermediate ports at two o'clock this afternoon. She had a full general cargo, including 1,000 boxes of cheese shipped to London by Hudson Bros., of this port.

NEW YORK JUSTICE.—The New York Recorder thinks the scales of justice do not hang evenly when Weeks, the embezzler of one million dollars, goes to Sing Sing for ten years, and James Scanlan, a boy of 15, is sent there for 15 years for robbery to the extent of twenty-five dollars.

A SEVERE WINTER.—A Quebec paper gives the following weather forecast: "The indications are for a severe winter. The squirrels are laying in larger supplies of winter than usual, and the geese have already migrated. The last sign is the most reliable. All the others may fail, but when the annual migration of the geese begins in October, look out for an early and severe winter."

TO SELL THE CITY.—A late despatch from Charleston, W. Va. says: The remarkable spectacle of the sheriff selling nearly the entire city for debt will be presented here to-morrow, when 3,000 lots in Kanawha City will be sold. Kanawha City was founded several years ago to rival Charleston. Several hundred thousand dollars were sunk in it by investors and lots were at a high premium. The boom collapsed and most of the city is now for sale for taxes.

SOME BIG FEES.—The American Lawyer, a legal journal published in New York city, tells of a lawyer of that city, who secured a fee of \$200,000; of another who was paid \$250,000 for his service on a celebrated case; while other fees are mentioned running from \$25,000 to \$100,000, won by lawyers, not by conducting, but by avoiding litigation. It would seem from these statements that more money is made nowadays by lawyers who settle cases out of court than by those who put their clients to the expense of litigation.

BRITISH TRADE WITH CANADA.—According to late advices, exports from Great Britain to Canada in October decreased 234,806, equal to 9.35 per cent. For the ten months there has been an increase in exports of 255,000 or 1.34 per cent, compared with the same period of last year. Imports from Canada in October increased 218,568, or 9.48 per cent, but for the ten months there has been a decrease of 41,297,932, or 13.36 per cent. The Canadian produce trade is generally improving, with the exception of butter, which declined 29,500 in October.

P. E. ISLAND HOSPITAL.—The P. E. Island Hospital has received the following: Collected by Mrs. David Rogers, Summerside—E. Wright, \$1; Capt. W. H. Barnard, \$1; W. A. Brennan, \$1; J. E. Lafargey, \$1; D. Schurman, \$1; John A. Sharp, \$1; E. Wyatt, \$1; G. A. Spink, \$1; P. W. Morrison, \$1; J. W. Schurman, \$1; R. C. McLeod, \$1; T. B. Grady, \$1; A. Friend, \$1; W. McKay, \$1; D. Rogers, \$1; Jas. Read, \$1; total \$15. Mrs. Harry Green a pneumonia jacket.

SOCIAL AND ENTERTAINMENT.—The ladies and friends of the Methodist Church at Souris propose holding a social and entertainment in St. Patrick's Hall, on Tuesday evening next at 8 o'clock. An interesting program of vocal and instrumental music is being prepared and a bean and oyster supper with accompaniments and hot coffee will be served. The Souris Band has been engaged for the occasion. The object is a worthy one, as the funds are to be used to aid in liquidating long standing obligations against the church property. The admission fee has been placed at ten cents for adults and five cents for children. A large attendance is expected.

CITY TAXES.—The list of delinquents in real estate taxes is now ready, and will be published on the 25th inst. Those who have not yet paid up should do so at once and save trouble and expense.

Dr. Chalmers, Veterinary Surgeon, M. R. C. V. S., says: "I used Dr. Manning's German Remedy for neuralgia. I feared me on first application. I have never used anything to equal it. Have made other uses of it and find it excellent."

LETTERS TO THE EDITOR.

WATER MOTORS IN CHARLOTTETOWN. SIR.—Notwithstanding the improvements in steam engines, gas engines and the latest candidate for favor—the electric motor, water power, under favorable circumstances, continues the cheapest motive power. In New Glasgow, in Bridgetown, and in the place called in mainland, the "water motor," a compact little machine, occupying less space than a flour barrel, is coming into general use.

Water motors are compact, efficient, safe and cheap. A child can operate one. Driven by steam, the stone crusher in use in Charlottetown must cost the city a considerable sum. A skilled man to look after the engine, coal and the annual account for repairs, must mean quite a bill to the taxpayers. As a water motor costs less than an engine and boiler, and needs neither fuel nor an attendant, the cost for power to crush stone is reduced to simply the cost of water, which, in the case of this city, would remain practically nothing.

Manufacturers in this city say that the one great obstacle to the use of water motors in Charlottetown is the prohibitory price put on water by the commissionaire. In New Glasgow, water motors are found to be the cheapest motive power. There does not seem any valid reason why it should cost more to operate a water motor in Charlottetown than in New Glasgow.

The corporation of New Glasgow derive quite an income from the sale of water for use in water motors, and the use of motors is increasing. Yours respectfully, H. P. COOMBS.

THE LIQUOR QUESTION—HERE. SIR.—I see by this morning's Guardian that the prohibition meeting last night was a success. I am certainly glad of it—it shows at least a desire on the part of the townspeople to help the noble cause of temperance with a will; but the old hackneyed expressions are still to be found, "not to license an evil," etc.

Under the existing state of affairs, and until the people are educated up to the idea of prohibition, would not better license be better than free rum, or better than the Scott Act? Prohibition cannot be had in a moment; the people are not unanimous about it, either. The Scott Act was one of the biggest fiascos ever imposed upon a community, and no one in his heart knows it any better than the editor of the paper that takes the Scott Act as one of its pet ideas.

When the Scott Act election is forthcoming (which, of course, it must be, if the Guardian wants it), the biggest supporters of the Act will be the liquor sellers, and the paper that toadies to the ideas of a certain few in a community, instead of taking up the temperance question in all its broadness, is certainly not as independent as it professes to be. Its temperance ideas (like its politics) are just broad enough to be on the fence; but a certain few must be considered, and the freedom and liberty of the press is certainly at a discount when a few members of a community are the ones whose opinions are quoted as being the most influential and who, certainly, while being useful people to have among us, are by no means those best suited to dictate to the general public whether it shall have license, Scott Act or Free Rum, and who to obtain their own way are apt to forget that sometimes they may be mistaken, and that often the love to have the mastery gets the better of common sense views, and that the worst way to obtain an object is to force it on any body much less the public at large.

TO-DAY the Protestant Episcopal Church Congress is sitting in New York City. This is the fifteenth annual meeting of the Congress, which opened on Tuesday last. Bishop Potter presides at the sessions, and topics of vital and present interest to this large and influential denomination are being discussed by such leading divines as Bishops Randolph and Jackson, Bishop Lawrence of Massachusetts, and others.

The topic of discussion among the citizens of Charlottetown to-day is: how or by what means the Star Tailor has managed to build up such a magnificent trade? Well, no doubt a wrinkle would be acceptable to some, at least. We are always willing to give a helping hand when such is necessary. Well, whatever you do, do it well, no matter what it costs you. Again, study your customers' interest. If they want the sleeve sewn to the coat tail, give it to them. Cater to their fancy; yes, and give them good goods. Make it nice, fit them perfect, treat them kindly, and sell at rock bottom prices. By such means we are building up a trade second to none in Canada. As in the past, we will continue to lead in everything pertaining to Tailoring.
